RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterick* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, August 13, 1870.

Stock Exchange and Money Market.

Money has been offered quite freely since our last and rates have favored borrowers, most of the week, having been quoted at 3@5, generally at 3@4 per cent. on call, and 6½@8 per cent. per annum, in the discount form. The demand for aid has been less active, both for speculative and for mercantile purposes. There has been some further outflow of currency to the west but not of sufficient magnitude to seriously affect the ability of the city banks to meet the wants of their local customers. In their last weekly exhibit the city banks showed a reduction of about three-fourths of a million in their loan and discount averages, which are now about 281⅛ millions, as against a little over 286 millions on the 23d of July. A further loss of nearly 6¾ millions of deposits, and over 3¾ millions of specie was also reported, with a falling off of over 2½ millions in the line of their reserve of legal tender notes. Their legal tender average is now about 52¼ millions, as against 61⅝ millions on the 28th of May (the highest average of the current year, thus far). Their deposits are now under 221 millions, as against nearly 234½ millions on the 16th of July. Their specie average is down to about 26½ millions, against 41⅛ millions four weeks since. The U. S. Sub Treasury added nearly two millions to its currency reserve, and lost about ⅞ths of a million of specie, during the past week. The reports of the Money markets of London and Frankfort are quite favorable to renewed activity in speculative operations, and serve to explain the increased buoyancy in financial values at those points. At the Bank Clearing House here, the daily exchanges fell to 61½ millions on Tuesday of the current week, as against a daily average of near 127 millions two weeks previously.

The specie reserve of the city banks according to the latest return is $26,472,592, against $26,003,925 same time last year. The city bank deposits are now $220,819,300, against $200,220,008 week ending Aug. 7, 1869. The legal tender reserve amounts to $52,287,188, against $56,056,834 same time last year. The circulation now stands at $32,943,144, against $33,947,985 same time last year. The loans are now $281,182,144, against $264,879,357 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $74,343,237 a day, against a daily average of $83,451,624 the preceding week. The current weeks' exchanges average about 67½ millions a day. The city banks, last week, reported a loss of $3,791,298 of specie, and $6,736,401 of deposits, and $2,550,763 of legal tender notes. They reduced their loans $757,699; and their circulation, $62,389.

The city bank exchanges on Wednesday were about 69 millions.

The coin reserves of the Treasury Department on Monday were 105 millions, including $38,249,000 on deposit on private account; currency balances, $39,103,662.

National Bank notes to the amount of $238,235 were issued last week by the Treasury Department, making the total issue to 1,692 banks thus far, amount to $327,144,719, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $27,707,670 leaving, with the existing 1,612 banks, (having an aggregate capital of $427,285,701,) an actual circulation at this date, of $299,437,049. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $342,017,550; and for the public deposits, $16,366,500—making a total of $358,384,050. The Treasury Department last week redeemed and destroyed $753,500 of worn and mutilated fractional currency, and issued $513,114 of new.

The U. S. Sub-Treasury receipts, week ending with Aug. 6, were $3,573,980 in coin, (including $3,026,000 from customs duties,) and $5,632,982 in currency; payments, $4,432,614 in coin, (including $832,406 of coin interest,) and $3,698,181 in currency; balance at the close of the week, included $68,486,234, of coin, against $69,344,867 the preceding Saturday, and $14,381,116 of currency, against $12,446,314 at the close of the preceding week. The business of the Office on the first two days of the current week, was as follows;

On Monday, receipts, $299,700 in coin, (including $270,409 from customs,) and $892,009 in currency; payment $130,998 of coin (including $120,266 of coin interest), and $384,363 of currency. On Tuesday, receipts, $640,317 in coin (including $587,000 from customs), and $3,229,765 in currency; payments, $57,300 in coin (including $40,765 of coin interest) and $3,303,735 of currency. The balance at the close of business on Tuesday included $15,084,792 of currency, and $69,237,952 of coin, against a balance a week previous of $14,095,512 currency, and $70,018,513 coin.

The U. S. Sub-Treasurer issued in July $9,522,000 of coin certificates.

The U. S. Sub-Treasurer retired, last week, $2,738,317 of coin certificates, received for customs.

Government revenues have been yielding quite liberally since our last. The excises, during the week yielded about 5¾ millions; customs at the port of New York, $2,905,318, and at the outports about $975,000 (in coin) more, making the grand total income for the week equal to about $10,430,000 in currency. The income of the Government, from excises, since July 1, 1870, has been $27,605,623.

Gold has been offered quite freely since our last, and has fallen off materially in price under the reports of the Prussian successes on the frontiers of France, which have induced extensive sales, largely on speculative account. The range of the price, during the week, has been from 216¼@122; and the closing quotation on Wednesday was 116¼. The investment demand has been fairly active. The customs call has been up to a full average. The export drain has fallen off to about 3⅞ millions, against nearly 7 millions the preceding week. On Wednesday Government marketed a million of Gold at from 117 06 to 117 30. The aggregate of the bids was $2,415,000. The shipments thus far this year have been about 38¾ millions, against 22 millions same time in 1869; 60 millions same time in 1868; 37½ millions same time in 1867; 51⅞ millions same time in 1866; and 18⅝ millions same time in 1865. On Wednesday of the current week, the specie exports amounted to $1,023,000. The exchanges at the Gold Exchange Bank, which were only 34½ millions on Thursday of last week, reached nearly 108 millions on Tuesday of this week, and were 80½ millions on Wednesday.

The coin balance of the U. S. Sub-Treasury on Thursday morning was $69,777,181.

The customs demand for Gold last week, averaged $504,334 a day; thus far, this week, it has averaged $428,704 a day, or equal to a weekly aggregate of $2,572,224. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $30,471; and since Jan. 1, 1870, $7,360,688, against $9,784,778 same time in 1869. The total customs revenue of the Government, in coin, at this port, since Jan. 1, has been $80,080,028 against $78,711,632, same time in 1869.

The customs revenue of the port on Wednesday was $661,000; and the coin interest disbursements were $119,053.

The customs revenue at the port of San Francisco, from Jan. 1 to July 22d, was $4,446,746, against $4,302,163 same time last year.

The exports of specie, from this port, last week, were $3,834,871 against $1,510,343 same week last year; and since Jan. 1870, $37,797,903, against $23,447,697 same time in 1869. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $832,406; and since Jan. 1, 1870, $61,369,193 against $63,739,476 same time in 1869.

The specie exports by steamer and railway from San Francisco, from Jan. 1 to July 22d, were $20,943,979, against $22,811,940 same time last year.

Foreign Exchange has been depressed and lower since our last, under freer offerings of prime bills, and a moderate call for them. Bankers' sixty day bills on London closed on Wednesday at 109⅜@109⅝; sight bills on London 110½@110¾. The offerings of produce bills have been fair. The week's exports of domestic produce have been to the currency value of $3,758,742; and since January 1, 1870, $110,747,571 against $112,617,987 same time in 1869.

Government securities have been less freely offered and have been in more confident demand at improved prices. The purchases have been largely on foreign account, chiefly German. The home investment inquiry, outside of local speculative operations, has been quite moderate. On Thursday, Government bought in two millions of Five Twenties at about the average of the open market prices.

Under its official programme for August, Government will make the following sales of Gold and purchases of bonds, during the remaining weeks of the month. It will sell Gold on Wednesday, August 17, to the amount of $1,000,000; Wednesday, August 24, $1,000,000; Wednesday, August 31, $1,000,000. And will buy Five-Twenties, as follows: Thursday, August 18, $1,000,000; Thursday, August 25, $2,000,000.

U. S. sixes of 1881 closed here at 113½@113¾; U. S. Five-twenties of 1862, 111⅞@112; U. S. Five-twenties of 1864 at 111⅛@111¼; U. S. Five-twenties of 1865 at 111⅛@111¼; U.S. Five-twenties of 1865 consolidated, 109⅞@110; U. S. Five-twenties of 1867, 110@110⅛; U. S. Five-twenties of 1868, 110@110¼; U. S. Ten-forties at 107¾@107⅞; U. S. Six per cent. currency bonds, 111½@111¾.

State bonds have been rather more active and stronger in price.

Railway bonds continue in moderate demand including Central Pacific Sixes, which closed on Wednesday at 85¾@86¼; and Union Pacific Sixes at 82½@82¾.

Railway and miscellaneous share property has been more freely dealt in, and quoted generally buoyant in price, closing strong in most instances.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	July 27.	August 3.	Aug. 10.
Consols	89⅝	88⅞	90¾
U.S. 5-20's of 1862	82	82½	86¼
U. S. 5-20s, 1865	82	82	85
" 1867	81½	81½	84
" 10-40s	80	80	81½
Erie	14¼	15	16½
Ill. Central	102	103	106
At. and Gt. West	21	20	20

General business has shown less animation especially in the lines of Breadstuffs, which have declined in price, and of Provisions which have been unsettled, Petroleum has been quoted higher, but closed weak. Middling upland cotton closed at 19½ cts. per lb. The stock of cotton now here is given at about 26,000 bales. The receipts at the port this week, have averaged about 1,270 bales a day. The receipts at all the ports, thus far in the year commencing with Sept. 1, 1869, have been 2,831,670 bales, against 2,039,320 bales in 1868–'9; exports, same time 2,180,650 bales, against 1,429,500 bales same time in 1868–'9; stock on hand at latest dates, 106,475 bales, against 33,600 bales same date 1869. The exports of domestic cotton goods from this port, since Jan. 1, 1870, have been 9,240 pkgs., against 15,744 pkgs., same time in 1869. From Boston, 4,561 pkgs. in 1870, against 5,977 pkgs. same time in 1869.

Foreign goods have been in less demand but generally steady in price. The dry goods entries at this port, last week, were $2,241,196, making with the general merchandise imports, a total of $5,126,495.

At the Live Stock markets, this week, Beeves have been in less demand at from 8@16½c. per lb.; week's receipts, 6,730. Milch cows continue very quiet at $40@$100 each, receipts, 80. Veal calves have been in fair request and firmer at from 7@11½c. per lb.; receipts, 2,430. Sheep have been in less request at from 3@6½c.; lambs at 7@10½c. per lb.; receipts, 25,872. Swine rule dull at 9¼@9⅜c. per lb., all live weight; receipts, 17,057.

Ocean freights have been less active, and generally lower. For Liverpool we quote flour at 2s. 6d. by sail, and 3s. by steamer per bbl.; grain at 8d.@8½d. by sail, and 8½d. by steamer per bushel; cotton at $\frac{3}{16}$d. by sail and ¼d. by steamer per lb.; and heavy goods 20s.@45s. by sail, and 30s.@55s. by steamer, per ton. Total number of vessels in port on Wednesday, 478.

The following will show the exports (exclusive of specie) from New York to foreign ports for the week ending August 9th, and since the beginning of the year:

	1869.	1870.
For the week	$3,727,514	$3,758,742
Previously reported	108,890,473	106,988,829
Since Jan. 1	$112,617,987	$110,747,571

The imports for the week ending Aug. 6, and since the beginning of the year, have been as follows:

	1869.	1870.
Dry goods	$2,615,928	$2,241,196
Gen. merchandise	2,592,313	2,885,299
Total for the week	$5,208,241	$5,126,495
Previously reported	184,399,151	174,285,309
Since January 1	$189,607,392	$179,411,804

The following quotations of sales of Railway and other securities are n addition to those given elsewhere in our columns:—

New York.—North Carolina 6s, special tax, 24¼; do., Fund Act, 1866, 36⅝; South Carolina 6s, 82; do., new, Jan. and July, 71½; do., April and Oct., 70; N. Y. Safety, Economy and Satisfaction.

The present season is proving rather a trying one to Fire Insurance, as the conflagration carnival has been raging rampant throughout the whole country. Such times remind us that the selection of substantial institutions to place our trusts in—those managed by prudent as well as experienced officers—is a matter of grave importance. After arriving at this stand-point one must pay a fairly rated premium, have the risk carefully specified, and then there is a certainty in regard to remuneration for loss by fire. Beware of the fallacy of *cheap insurance*. All business transactions, to be successful, must be self-sustaining. This latter fact was never more perceptibly exemplified than in this very subject of fire insurance, when, some few years since, the low priced system came near swamping many good companies, while several of the weaker ones were forced into liquidation.

Experience has demonstrated, beyond question or doubt, that the safest, most economical, as well as most satisfactory system of insurance is that known as the *participation system*, by which the net profits are returned to the policy holders. The leading incorporation conducted on this plan is that favorite, substantial and skilfully managed organization, The Washington Insurance Company, whose offices have long been a landmark at No. 172 Broadway, corner of Maiden Lane. This company has a cash capital of $400,000, and its total cash assets are about double that sum. Seventy-five per cent. of its net profits are divided among the policy holders; these dividends having annually averaged fifty per cent. for eight years past. Not the least of the causes of the great success of the Washington is the experienced and energetic manner in which its affairs are conducted. Its officers include some of our best known and reliable citizens, who have no superiors in their chosen calling. They adjust all losses liberally and promptly, and all their business is transacted in a manner which meets the approval of all interested, assured as well as assurers. The Washington issues fire, marine, and inland navigation policies.

Longwood Valley R. R.

At a meeting of the directors of this company held at Dover, N. J., on the 2d inst., the following officers were elected: President, Charles McFarlan, Dover; Treasurer, John D. Champlin, Jr., New York; Secretary and Attorney, J. H. Neighbour, Dover; Executive Committee, Charles McFarlan, J. D. Champlin, M. G. Moies. The survey will begin next week, under direction of Edward Canfield, Chief Engineer. The line runs from a point on the New York State line near Stirling, to a point on the Morris and Essex Railroad, a short distance west of Dover.

Virginia Valley R. R.

Intelligence has been received from Staunton announcing the defeat of the proposed subscription of $300,000 by the county of Augusta to the stock of the Virginia Valley Railroad Company. All of the other valley counties interested having voted their respective quotas, and the town of Staunton itself $100,000, this was the last county subscription necessary to complete the total of $1,200,000 required in order to make effective the Baltimore subscription of $1,000,000. It is stated that the proposition received a popular majority of only about two hundred and fifty. A majority of three fifths of the entire vote cast was necessary to carry the proposition.—*Balt. Sun.*

Car Plushes.

The attention of Railroad Companies and Car Builders is called to the advertisement of Messrs. Lunt, DeFord & Lee, who are importers of all kinds of Railroad Car and Carriage Linings, Plushes, Moquettes, Cloths, Satins, Curtain Silks, Cotelines, Seat and Car Duck, and all description of Upholstery for Sleeping and Passenger Cars.

☞ At a meeting of the stockholders of the Sioux City and Pacific Railroad Company held at Cedar Rapids on the 4th inst., the following gentlemen were elected directors: J. I. Blair and D. C. Blair, of New Jersey; W. T. Glidden, Oakes Ames, and F. Nickerson, of Boston; W. W. Walker, Chas. E. Walker and Geo. Douglass, of Cedar Rapids; and H. S. Crempton, of Pennsylvania. The reported earnings of the road for the year ending June 30 are $3,342,108.

☞ The contract for the construction of a bridge over Newton Creek, between Camden and Gloucester, N. J., has been let. The bridge is to be of iron, 140 feet in length and 19 feet wide. The two abutments, with pier in the centre of the creek, are to be built by Messrs. Richmond & Brothers for $7614; the bridge itself by the American Iron Bridge Co., of Chester, for $4250, making a total cost of $11,864.

☞ The directors of the Framingham and Lowell Railroad have organized by the choice of the following officers: President, E. P. Carpenter; Vice President, H. A. Blood, Treasurer, George E. Towne; Solicitor, George A. Torrey; Clerk, Hosea Hyde.

☞ The officers of the Ashtabula, Youngstown and Pittsburg Railroad Company, recently elected, are as follows: Wm. McCreery, of Pittsburg, President of the Lawrence Railroad Company, President; F. Lilliman, of Ashtabula, Secretary; J. L. Bissell, of Pittsburg Treasurer.

New Internal Revenue and Tariff Act.

AN ACT to reduce internal taxes, and for other purposes.

(*Continued from Page 877.*)

SEC. 29. And be it further enacted, That whenever any merchandise, except wine, distilled spirits, and perishable or explosive articles, or articles in bulk, imported at the ports of New York, in the State of New York; Philadelphia, in the State of Pennsylvania; Boston, in the State of Massachusetts; Baltimore, in the State of Maryland; Portland, in the State of Maine; Port Huron, in the State of Michigan; New Orleans, in the State of Louisiana, and San Francisco, in the State of California, shall appear by the invoice or bill of lading, and by the manifest to be consigned to and destined for either of the ports specified in section 35 of this act, the collector at the port of arrival shall permit the owner, agent or consignee to make entry thereof for warehouse or immediate transportation, in triplicate, setting forth the particulars in such entry and the route by which such goods are to be forwarded, whether by land or water. The entry having been compared with the invoice and duly sworn to, and such an examination of the goods and merchandise having been made as will satisfy the customs officers that the same corresponds with the manifest and invoice, and the duties estimated on the value and quantity of the invoice, and on the execution of a bond as hereinafter provided, the collector shall deliver the same to be immediately transported to such port of destination, at the sole cost and risk of such owner, agent or consignee. And goods and merchandise imported to any of the aforesaid ports of entry, and designed for any port designated by the thirty-fifth section of this act, the collector of said port shall give priority in time to the examination of said goods and merchandise, for the purpose of forwarding the same to their port of destination, and said examination shall not necessitate the transportation of said goods and merchandise to the warehouse or appraiser's office; such merchandise so entered for immediate transportation shall not be subject to appraisement and liquidation of duties at the port of first arrival aforesaid, but shall undergo such examination as the Secretary of the Treasury shall deem necessary to verify the invoice and entry, and the same examination and appraisement thereof shall be required and had at the said port of destination as would have been required at the port of original importation if such merchandise had been entered for consumption or warehouse at such port.

SEC. 30. And be it further enacted, That the bond required by the foregoing section shall be in a penal sum of at least double the invoice value of the merchandise, with the duties added, and in such form and with such number of sureties (not less than two) as shall be prescribed by the Secretary of the Treasury; and the said sureties shall justify, by affidavit taken before the collector of customs and attached to the said bond, in an amount at least double the penalty of the bond, and the said collector shall certify to their sufficiency; and the said bond may be executed at the port of final destination and transmitted to the collector at the port of first arrival, as provided by the act of March two, eighteen hundred and thirty-one.

SEC. 31. And be it further enacted, That merchandise so entered for transportation shall be delivered to and transported by common carriers, to be designated for this purpose by the Secretary of the Treasury, and to or by none others; and such carriers shall be responsible to the United States as common carriers for the safe delivery of such merchandise to the collector at the port of its destination; and before any such carriers shall be permitted to receive and transport any such merchandise, they shall become bound to the United States in bonds of such form and amount, and with such conditions (not inconsistent with law) and such security as the Secretary of the Treasury shall require.

SEC. 32. And be it further enacted, That merchandise transported under the provisions of this act shall be conveyed in cars, vessels or vehicles securely fastened with locks or seals, under the exclusive control of the officers of customs; and inspectors shall be stationed at proper points along the designated routes, or upon any car, vessel, vehicle or train, at the discretion of the said Secretary, and at the expense of the said companies respectively. And such merchandise shall not be unladen or transhipped between the ports of first arrival and final destination.

SEC. 33. And be it further enacted, That merchandise so destined for immediate transportation as aforesaid, except the packages designated for examination, shall be transferred under proper supervision, directly from the importing vessel to the cars, vessel, or vehicles, in which the same is to be transported to its final destination; and if transferred from the importing vessel to any bonded or other warehouse, or to any other place than such car, vessel, or vehicle, it shall be taken possession of by the collector as unclaimed, and deposited in public store, and shall not be removed from such store without entry and appraisement as in ordinary cases. But the Secretary of the Treasury may, in his discretion, and with such precaution as he shall deem proper, authorise the establishment of bonded warehouses especially and exclusively appropriated to the reception of such merchandise in cases where its immediate transfer to the transporting car, vessel, or vehicle shall be impracticable. But merchandise remaining in such warehouse more than ten days shall be deprived of the privilages conferred by this act, and shall be taken possession of by the collector as unclaimed, and held until regularly entered and appraised.

SEC. 34. And be it further enacted, That the Secretary of the Treasury shall prescribe forms of entries, oaths, bonds, and other papers to be required, and all needful rules and regulations, not inconsistent with law, to be observed in the execution of this act, which shall have the force and effect of law.

SEC. 35. And be it further enacted, That the privileges of this act shall extend to the ports of New York, in the State of New York; Boston, in the State of Massachusetts; Providence, in the State of Rhode Island; Philadelphia, in the State of Pennsylvania; Baltimore, in the State of Maryland; Norfolk, in the State of Virginia; Charleston, in the State of South Carolina; Savannah, in the State of Georgia; New Orleans, in the State of Louisiana; Portland, in the State of Maine; Buffalo, in the State of New York; Chicago, in the State of Illinois; Cincinnati, in the State of Ohio; St. Louis, in the State of Missouri; Evansville, in the State of Indiana; Milwaukee, in the State of Wisconsin; Louisville, in the State of Kentucky; Cleveland, in the State of Ohio; San Francisco, in the State of California; Portland, in the State of Oregon; Memphis, in the State of Tennessee; and Mobile, in the State of Alabama: and to importations from or to Europe, and from or to Asia, or the islands adjacent thereto, via the United States.

SEC. 36. And be it further enacted, That at each of said ports, for which an appraiser of imported merchandise is not now provided for by law, there shall be appointed an appraiser of imported merchandise, at a salary of three thousand dollars per annum, and also such number of weighers, gaugers, measurers and inspectors as may be necessary to execute the provisions of this act, who shall receive the ordinary legal compensation of such officers.

SEC. 37. And be it further enacted, That any person maliciously opening, breaking or entering by any means whatever, any car, vehicle, warehouse or package containing any such merchandise delivered for transportation as aforesaid, removing, injuring, breaking or defacing any lock or seal placed upon such car, vessel, vehicle, warehouse or package, or aiding, abetting or encouraging any other person or persons so to remove, break, injure or deface such locks or seals, or to open, break or enter such car, vessel or vehicle, with intent to remove or cause to be removed unlawfully any merchandise therein, or in any manner to injure or defraud the United States; and any person receiving any merchandise unlawfully removed from any such car, vessel or vehicle, knowing it to have been so unlawfully removed, shall be guilty of felony, and, in addition to any penalties heretofore prescribed, shall, on conviction, be imprisoned not less than six months nor more than two years; and any person swearing willfully false in any oath prescribed in this act, or by the Secretary of the Treasury in pursuance of authority to make all needful regulations conferred upon him by this act, shall be guilty of willful and corrupt perjury.

SEC. 38. And be it further enacted, That sections twenty-nine, thirty, thirty-one, thirty-two, thirty-three, thirty-four, thirty-five, thirty-six, thirty-seven of this act shall take effect on the 1st day of October, 1870.

Approved July 14, 1870.

Journal of Railroad Law.

RAILROAD COMPANIES—INJURY CAUSING DEATH OF CHILD—EXCESSIVE DAMAGES.

The facts of the recent case of Potter *vs.* The Chicago and Northwestern Railroad Company (22 Wis., 615,) are fully and clearly stated in the following opinion by

PAINE, J.—The last decision of this Court in this case, on a former appeal, established two propositions. First, that the jury were not limited, in estimating the pecuniary loss of the parents, to the value of the services of the child during her minority, but might give damages based upon a reasonable expectation of the parents of pecuniary benefit from the continuation of the child's life after she should become of age. Second, that such reasonable expectation could not be taken for granted, or "guessed at," by the jury, but must be shown to have been warranted by the evidence. And the judgment was reversed because there was no evidence showing the condition and circumstances of the parents, so as to raise reasonable presumption that they might need and receive aid from their daughter after her minority. The only additional evidence offered at the last trial, upon this point, was the general statement that the "circumstances" and "health" of the parents were "poor." No particulars were given, nor were the ages of the parents shown. And the counsel for the appellant urges that there is no more proof of a reasonable expectation of pecuniary benefit to the parents after the child should attain her majority, than there was before, and that it would not only be necessary to show that the parents might need such aid, but also that the child, if she had lived, would then have the disposition and ability to furnish it. But it is obvious, that in respect to the last point, all the proof was given that the nature of the case admits of. The character and disposition of the child while living were shown, and this was all that could be done. And the rule being established, that such reasonable expectation of aid from a child after its minority may be made the basis of damages, it would follow as a matter of course that after all the proof was offered that, from the nature of the case, it was possible to offer, the question would have to be left to the judgment of the jury.

But the fact that the question is to such an extent removed from the realms of certainty, by its very nature, would seem to furnish a good reason why there should be some strictness in requiring

such facts as are capable of proof, tending to throw light upon the matter, to be shown. And it would have been much more satisfactory, if, instead of the general statement that the circumstances and health of the parents were "poor" some details had been given as to the degree of their poverty, and whether their poor health was of a transient character, or whether they were both afflicted with chronic diseases, and also as to their ages. But as the counsel for the defendant did not see fit to avail himself of his privilege of cross examination to call for these details, this Court would probably not be authorized to reverse the judgment upon the same ground that it did before, inasmuch as there was testimony, though of a general and not very satisfactory character, to supply the defect then indicated.

But I think the Court below erred in not granting a new trial for excessive damages, and that the judgment must be reversed for that reason. The verdict was for $3,775 00, and it seems impossible to sustain it except upon the theory that the statute under which this action is brought, intended to give the jury an uncontrollable discretion to find, in all cases, such damages as they might think proper, not exceeding five thousand dollars. That such was its design has not been decided in any case that I am aware of. It is true, that in some cases quite general language has been used, to the effect that in this class of actions the damages depended very greatly on the judgment and discretion of the jury. But this language has been used, not with reference to the power or duty of the Court to set aside their verdict for excessive damages, but with reference to the uncertainties growing out of the very nature of the subject. Such was the case in Railroad Company *vs.* Barron, 5 Wall, 90. Yet the Court in that case say expressly, as in fact has been uniformly decided, that the statute restricts the damages, not only as to the amount, but as to "the principles which are to govern the jury." This is based upon the provision limiting them to the "pecuniary loss" of the persons for whose benefit the action is brought. This pecuniary loss the jury is to estimate from the facts proved. Such is the language of the Court in Chicago *vs.* Major, 18 Ill., 360. And this Court has decided in this case, as already shown, that the verdict of the jury must be based upon the evidence. Not that the evidence must create a certainty beyond what is possible in the nature of things, but that in so far as the estimate relates to the future, it should show a reasonable probability that the pecuniary loss would be equal to the amount found by the verdict. I infer, therefore, that there is nothing in this statute that removes these verdicts from the supervisory control of the Courts, to be exercised according to the established principles applicable to that subject. Perhaps the true rule to apply to such cases would be that applicable in actions for personal injuries where vindictive damages are not allowed. In such cases, Courts will not set aside the verdict for excessive damages, unless they are so excessive as to be evidence of prejudice, partiality or corruption in the jury. That rule was adopted in an action of this character, in Oldfield *vs.* Railway Co., 8 E. D. Smith, 110.

Applying that rule to this case, I think this verdict is excessive to that extent. Not that it indicates corruption, but prejudice or partiality in the jury, and that they, through a somewhat natural indignation at the company for its carelessness in causing the death of the child, really gave vindictive damages, losing sight of the question to which they ought to have confined themselves. For how, upon the evidence, can it be said that it is reasonably probable that these parents have sustained pecuniary loss to the extent of $3,775 00 by the death of their child? Counsel did not suggest any theory tending to support such a conclusion, and I think none can be suggested. It is contrary to the almost universal experience of mankind. Perhaps a comparison of this verdict with others in this class of actions, will serve better to illustrate its excessive character, than any other mode. In the case of Oldfield *vs.* R. R. Co., last cited, the action was brought for the negligent killing of a little girl, six years and ten months old. There was evidence that she was "a remarkable proficient in music," which rendered it much more probable that she would acquire wealth, than that an ordinary girl, not having that accomplishment, would do so. The verdict was for $1,800, for the benefit of the mother, who was the next in kin. A motion was made to set it aside as excessive. The Court admitted that it was excessive—that it was a large verdict—but thought it was not so excessive as to evince prejudice, partiality or corruption in the jury, and, therefore, overruled the motion. The case went to the Court of Appeals, and is reported in 14 N. Y., 310. It was there quite distinctly intimated that the damages were excessive, though it was beyond the power of that Court to correct it. Yet here a little girl was killed, and there is no proof that she possessed any unusual talent or accomplishment whatever: yet the verdict is almost three times as much as it was in that case.

In the case of Barron, before cited, the person killed was a man in the prime and vigor of life, who had been Judge of Cook County, Illinois, and was engaged in the practice of the law, in which his income, prior to going upon the bench, had been $3,000 per annum. Yet the verdict in that case was less than it is in this.

In the City of Chicago *vs.* Major, before cited, the action was for the death of a boy four years old, and the verdict was $800.

I have found no case where a verdict approaching the proportions of this, has been rendered on similar facts.

It was suggested by the counsel for the plaintiff, that if we should deem the damages excessive, we might indicate the amount of excess, and allow it to be remitted, and then affirm the judgment. There are some cases where that practice has been adopted on motion for a new trial. This Court has adopted it on appeal or writs of error, where there was a portion of the judgment illegal, but which, however, was readily severable from the rest and clearly ascertained by the record. But it has decided that where such was not the case, it would not substitute its judgment for that of the jury, and allow the party to remit accordingly, and then affirm the judgment. Nudd *vs.* Wells, 11 Wis., 415.

I deem it proper, however, in reversing the judgment upon this ground, for the Court to indicate the amount beyond which it thinks a verdict ought not to be upheld. Otherwise it might require a great number of trials in order to get at the exact views of the Court upon that point.

In the case of McIntyre *vs.* The N. Y. Central Railroad Co., 47 Barb., 515, a woman forty-eight years old having been killed, and it being found that she was an intelligent, industrious woman, strong and healthy, and could readily earn a dollar per day besides her board, the jury found a verdict of $3,500. The Court, on a motion for a new trial, required the plaintiff to remit $2,000, so as to reduce the verdict to $1,500, and then overruled the motion.

In this case I shall not attempt to indicate what the verdict should be upon the evidence. But I will say that I think a verdict exceeding $2,000 ought to be set aside by the Court, upon the rule hereinbefore adopted.

The judgment is reversed, with costs, and the case remanded for a new trial.

Illinois Central Railroad.

The statement of this Company for the month of July, 1870, is as follows:

LAND DEPARTMENT.

Acres Construction Lands Sold	4,833.28	for	$49,441 80
Acres Int. Fund Lands sold	80	for	752 40
Acres Free Lands sold	360	for	7,826 00
Total sales during month of July, 1870	5,273.18	for	$58,020 20
To which add Town Lot Sales			605 25
Total of all	5,273.28	for	$58,625 45
Cash collected in July, 1870			$137,284 04

ESTIMATED EARNINGS—TRAFFIC DEPARTMENT.

	In Illinois 707 Miles.	In Iowa 267 Miles.	Total. 974 Miles.
Freight	$334,238 00	$81,958 00	$416,191 00
Passengers	121,140 74	35,061 45	156,202 19
Mails	6,375 00	1,029 08	7,404 08
Other sources	64,000 00	1,970 92	65,970 92
Tot'l July, '70	$525,748 74	$120,019 45	$645,768 19
Total actual earn'gs, Jul. 1869	$569,455 58	$126,772 70	$696,228 28

Wicomico and Pocomoke Railroad.

The fourth annual report of the president and directors of this railroad company has been laid on our table. The road has been working under adverse conditions, in consequence of the repeated failure of crops, yet its report is by no means unfavorable. On the contrary, it demonstrates the feasibility of the running branch railroads here to profit. The total gross earning for the last year foot up $24,715 18; expenses, $17,241-46; net earnings, $7,474 71. The treasurer's report is also at hand, showing a balance due Wicomico and Pocomoke Railroad Company $2,656 98. The floating unfunded debt of the company, created principally by the purchase of the locomotive, has been reduced during the year from $16,-668 to $6,300.—*Snow Hill* (*Md.*) *Shield.*

Chesapeake and Ohio Canal.

The business of this corporation, says the Frederick *Examiner*, will be the smallest this year that has been in the last ten. The wharves at Cumberland and Georgetown are overloaded, and the demand for coal has in a measure ceased. Shippers are looking to the European war to create a demand, in starting up furnaces and iron mills now out of blast. But this cannot occur the present season, and consequently the canal is not a success this summer.

☞ The following gentlemen have been elected directors of the Duxbury and Cohasset railroad company: Onslow Stearns of Concord, N. H., Uriel Crocker of Boston, Jacob H. Loud of Plymouth, Royal W. Turner of Randolph, S. N. Gifford of Duxbury, Nathaniel C. Whiting of Marshfield, Joseph O. Cole of Scituate.

☞ Mr. H. Thielson, lately Chief Engineer of the Burlington and Missouri River Railroad Company, has been appointed General Superintendent of the California and Oregon Railroad.

To Railroad Companies.

AN ACTIVE, ENERGETIC BUSINESS MAN, with thirty years experience, and a good knowledge of General Merchandise—*who has made the art of* BUYING *an especial study*—and who thoroughly understands the markets of New York City and New England—and is well acquainted in our Western Cities—desires a position as "Buyer of Supplies," for a Railroad or large Manufacturing Establishment. Abundant reference of the most unexceptionable character, as to qualifications, ability, integrity, &c., will be furnished.

Address, P. O. BOX, 480,
6t33 Wilmington, Del.

ST. JOSEPH AND DENVER CITY Railroad Company.

PRESIDENT'S OFFICE.
ST. JOSEPH AND DENVER CITY R. R. Co.
ST. JOSEPH, MO., August 1st, 1870.

THE INTEREST AND COUPONS on the FIRST MORTGAGE EIGHT PER CENT. GOLD BONDS, of the *St. Joseph and Denver City Railroad Company*, DUE AUGUST 15TH, 1870, will be PAID IN GOLD at the Farmers' Loan and Trust Company of the City of New York, on and after that date, free of tax.

GEORGE H. HALL, President.

THE UPRIGHT PATENT TRUNK

Does not have to be removed from the wall to open it. Instead of trays to lift out, it is arranged with drawers made very light and strong. It is much stronger as only a small portion opens, whereas in the old style the whole top comes off. The same room in the bottom of the trunk for dresses and heavy clothing as in the old style.

THE UPRIGHT PATENT TRUNK CO.,

No. 6 Barclay Street,

next door to the Astor House.

Notice to Contractors.

PROPOSALS will be received at the office of the European and North American Railway Company, Bangor, Maine, until noon of the eighteenth day of August, 1870, for constructing, per mile, thirty-five miles of the railroad of said company, commencing at the northeasterly end of the bridge over the Mettawamkeag River, in the town of Mettawamkeag, and extending to the Calais and Houlton road. The contractors are to find all the materials and do all the work required for a first-class railroad, except the iron, rails, spikes, plates or splices, and bolts, and the superstructure of the bridges over the Moluncus, Mattawamkeag and Baskahegan rivers. Plans and specifications can be seen at the office of the company in Bangor.

NOAH WOODS,
BENJ. E. SMITH,
WM. G. CASE, } Trustees.

Bangor, Aug. 1, 1870.

KEUFFEL & ESSER,

Importers and Dealers of Drawing Materials,

REMOVED TO
116 FULTON STREET.
New York.

CANADA AIR-LINE RAILWAY COMPANY.

The Directors of the Canada Air-Line Railway invite tenders for the construction of their Line. Plans and specifications for the section from Glencoe to Aylmer will be on exhibition at the office of the Chief Engineer, G. L. REID, Esq., Hamilton, from the 22d August next.

All offers must be in the hands of the undersigned before the second day of September next, marked "Tenders for Construction of Canada Air-Line Railway."

JOSEPH PRICE, Secretary,
HAMILTON, Ontario, 25th July, 1870.

$47,000 REWARD.

PROCLAMATION.

THE MURDER OF MR. BENJAMIN NATHAN.

The widow having determined to increase the rewards heretofore offered by me (in my Proclamation of July 29th), and no result having yet been obtained, and suggestions having been made that the rewards were not sufficiently distributive or specific, the offers in the previous proclamation are hereby superseded by the following:

A REWARD of $30,000 will be paid for the arrest and conviction of the murderer of BENJAMIN NATHAN, who was killed in his house, No. 12 West Twenty-third street, New York, on the morning of Friday, July 29th.

A REWARD of $1,000 will be paid for the identification and recovery of each and every one of *Three Diamond Shirt Studs* which were taken from the clothing of the deceased on the night of the murder. Two of the diamonds weighed, together, 1, 1-2, 1-8, and 1-16 carats, and the other a flat stone, showing nearly a surface of one carat, weighed 3-4 and 1-32. All three were mounted in skeleton settings, with spiral screws, but the color of the gold setting of the flat diamond was not so dark as the other two.

A REWARD of $1,500 will be paid for the identification and recovery of one of the watches, being the Gold Anchor Hunting-case Stem-winding *Watch*, No. 5657, 19 lines, or about two inches in diameter, made by Ed. Perregaux; or for the Chain and Seals thereto attached. The Chain is very massive, with square links, and carries a Pendent Chain with two seals, one of them having the monogram, "B. N.," cut thereon.

A REWARD of $300 will be given for information leading to the identification and recovery of an old-fashioned open-faced Gold Watch with gold dial, showing rays diverging from the centre, and with raised figures; believed to have been made by Tobias, and which was taken at the same time as the above articles.

A REWARD of $300 will be given for the recovery of a Gold Medal of about the size of a silver dollar, and which bears an inscription of presentation not precisely known, but believed to be either "To Sampson Simpson, President of the Jews Hospital," or "To Benjamin Nathan, President of the Jews' Hospital."

A REWARD of $100 will be given for full and complete detailed information descriptive of this Medal, which may be useful in securing its recovery.

A REWARD of $1,000, will be given for information leading to the identification of the instrument used in committing the murder, which is known as a "dog" or clamp, and is a piece of wrought iron about sixteen inches long, turned up for about an inch at each end, and sharp; such as is used by ship-carpenters, or post-trimmers, ladder-makers, pump-makers, sawyers, or by iron-moulders to clamp their flasks.

A REWARD of $300 will be given to the man who, on the morning of the murder, was seen to ascend the steps and pick up a piece of paper lying there, and then walk away with it, if he will come forward and produce it.

Any information bearing upon the case may be sent to the Mayor, John Jourdan, Superintendent of Police City of New York; or to James J. Kelso, Chief Detective Officer.

The foregoing rewards are offered by the request of, and are guaranteed by me,

Signed, EMILY G. NATHAN,
Widow of B. NATHAN.

The following reward has also been offered by the New York Stock Exchange:

$10,000.—The New York Stock Exchange offers a reward of Ten Thousand Dollars for the arrest and conviction of the murderer or murderers of Benjamin Nathan, late a member of said Exchange, who was killed on the night of July 28, 1870, at his house in Twenty-third street, New York City.

J. L. BROWNELL, Vice-Chairman Gov. Com.
D. C. HAYS, Treasurer.
B. O. WHITE, Secretary.

MAYOR'S OFFICE, New York, August 5th, 1870.
A. OAKEY HALL, Mayor.

TO CONTRACTORS.

THE AMERICAN AND MEXICAN RAILROAD AND TELEGRAPH COMPANY, at No. 71 Broadway, Room 31, New York, having secured the approval of the Government of Mexico of their surveyed routes from Guaymas to Hermosilla and through the States of Sonora and Chihuahua to the Rio Grande, are prepared to receive proposals for grading the road, furnishing and laying cross ties from Guaymas to Hermosilla, a distance of 80½ miles.

The proposals must be handed in on or before the first day of November next, and be made *for sections* and include excavations of rock and earth, and bridging, and be so made as to enable the Company to ascertain the cost per section as laid down on the Company's map and profile, which are now in their office for inspection. The Company reserves the right to reject any bids which in their judgment they deem advisable.

Per order of the Board of Directors.
Office hours 10 A. M. to 3 P. M.

JOSEPH BRITTON.
WM. H. DEGROOT,
WM. B. MAXSON,
Executive Committee.

NEW YORK AUGUST 1ST 1870.—The Firm of SMITH, GOULD, MARTIN & CO. is this day dissolved by mutual consent. Either party will sign in liquidation.

DEPARTMENT OF DOCKS, 346 AND 348 BROADWAY, NEW YORK, July 16, 1870.

THE COMMISSIONERS OF THE DEPARTMENT OF DOCKS, having received, in accordance with the provisions of Sec. 33, of Chap. 383, laws of 1870, in public meetings, various plans for the establishment of permanent wharf accommodations for the commerce of New York, they now, in accordance with the further provision of said section, advertise for plans for the best method of improving the water front and harbor of the city of New York, by a new system of wharves, piers, docks, basins, and slips, which shall accommodate the present commerce of the city and harbor, and shall provide for the future expansion thereof, and for the facilitation of the transportation of freight along the water-front, so as to render the whole water-front of the city available to the commerce of the port.

Said plans will be received until September 15, 1870.

Plans are solicited that shall contain provision for the special accommodation of steamers and vessels engaged in foreign trade, in domestic trade, in the coal trade, in the trade in lumber and building material, in the hay and grain trade, in furnishing market supplies; also, for the accommodation of steamboats plying to places on the Hudson River and Long Island Sound, for the canal boats arriving in this city, and for the railroads and other commercial interests.

Plans should be accompanied by all necessary documents, estimates, and particulars.

PRATT'S
PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

Railroads of Arkansas.

The Railroads of this State are progressing actively, and the demand for labor of all kinds is bringing in an immense immigration. The two most prominent projects are the Little Rock and Fort Smith Railroad and the Cairo and Fulton Railroad.

Both these lines are being constructed under charge of A. P. ROBINSON, Chief Engineer.

The distance from Little Rock to Fort Smith by River is 266 miles, by the route of the Railway 160. Ouer one-half the Road is graded, bridged and provided with Ties, and about 26 miles of track laid. The track is progressing at the rate of 1 mile per day, and it is intended to run regular trains from Little Rock to Lewisburg (50 miles,) by the 1st October, and the vicinity of Spadra, (about 100 miles,) by the first day January. Work was commenced on this road the 1st September last, and the very rapid progress thus far made renders it certain that the whole Road will be completed to Fort Smith early in the Fall of 1871. This Road will open one of the finest cotton regions of the South, heretofore dependent entirely upon the uncertain navigation of the Arkansas.

Since the recent legislation of Congress extending the Grant to the Cairo and Fulton Road, the work of grading has been commenced, and 20 miles are nearly ready for the Rails from Little Rock Northward. This division is to be completed and in operation on the 1st day of December.

Surveys have been completed to the Missouri line, and are now being made from Little Rock South.

It is intended to commence the work on this portion immediately.

This Road, when completed with its extension across Texas and its connections Northward to St. Louis and Chicago, will form one of the most important Trunk lines in the country.

Western Maryland Railroad.

A circular has recently been issued by the President and Directors of the Western Maryland Railroad Company to its bondholders, asking their indulgence in the postponement of the payment of its coupons now matured, or which shall mature up to January first, 1873. In the meantime a proposition is made to give each bondholder a certificate agreeing to pay eight per cent. interest on the coupon, or interest of the bond in which the coupons shall be identified, and placed by holders thereof with the Citizens' National Bank, together with a copy of his or their certificates as the evidence of terms on which the deposit is made.

The object of the company in making this proposition is to gain time so that they can apply the entire appropriation recently made by Baltimore, of $1,400,000, to the immediate completion of the road from Baltimore to Williamsport, and its thorough equipment, enabling it the sooner to earn means whereby to meet all its obligations.

The actual effect of this arrangement is a proposition from the company to the bondholders, whereby they may fund the matured coupons and those which will mature up to January 1st, 1873, inclusive, in a certificate, bearing interest at eight per cent. per annum, payable semi-annually. It seems to us such a certificate must, undoubtedly, be good security, especially when the fourteen hundred thousand dollars shall have been expended in the meantime upon the road, adding so much more to its substantial value.

We are gratified to learn that bondholders are generally assenting to the arrangement above noticed, and that the company are anxious it should be entirely effected by the 20th instant, so that contractors may commence work at that time. If there should be any inclined to pursue a different course, an overwhelming majority, as we learn, agreeing thereto, their efforts can only eventuate disadvantageously to themselves. We feel confident it would prove beneficial to the road and all interested to promptly acquiesce in this proposition.—*Balt. Am.*

List of U. S. Patents

Issued for improvements relating to Railway construction, rolling stock, &c., for the week ending Aug. 16, 1870, and each bearing that date.

Re issue No. 4,102—Chills for Casting Car Wheels, William Wilmington, Toledo, Ohio. Patent No. 85,046,—dated December 15, 1868.

Exports of Rails and Pig Iron from Great Britain.

We have received from Messrs. S. W. HOPKINS & Co., of London and New York, a circular giving a comparative statement of the shipments of iron rails and pig iron from Great Britain for the first six months of the years 1870, 1869 and 1868. From this we learn that the exports of iron rails from Great Britain for the six months ending June 30th, 1870, amounted to 562,709 tons against 415,784 during the corresponding period in 1869, and 296,542 tons in 1868. Of the 562,709 tons exported in 1870, there were 197,045 tons sent to the United States against 168,348 tons during the corresponding period in 1869, and 148,544 durin

1868. Russia took 114,454 tons during the first six months of 1870 against 86,786 in 1869, and 20,214 in 1868. The British East Indies took 102,564 tons in 1870 against 37,199 in 1869, and 49,494 in 1868. During the first six months of 1870 there was exported 54,104 tons of pig iron from Great Britain to the United States against 65,012 in 1869, and 31,339 in 1868.

Baltimore and Potomac Railroad.

It is satisfactory to note from time to time the progress of the work on the Baltimore and Potomac Railroad, showing that Gov. Bowie and the managers of the road mean to carry out their promise that the iron horse shall be running over it by the first of April next.

The grading has now been finished on the main line of the road from the Patapsco to below Marlboro', with the exception of one section, which will be completed next week. Ties are being delivered along the line, and it is probable that a considerable portion of the rail will be laid this fall, and if the work within this District and Baltimore county is pushed with the same activity, there is no good reason why the cars should not be running even earlier than April.

This road will strike the Patapsco about seven miles below Elkridge Landing, and take nearly a straight course to the Little Patuxent, at about the mouth of Rogue Harbor Branch, crossing the Annapolis and Elkridge Railroad near Watt's. The crossing of the Big Patuxent will be made about a quarter of a mile below Lemon's Bridge, from whence the track will take almost a straight line to Huntingdon, the point of junction with the Washington Branch. The main line thence follows down Collington Branch, crossing the West Branch of the Patuxent near its mouth, and so on to the Marlboro' Depot, on the lands of Clement Hill.

About seven miles below Marlboro' the road strikes the table land, over which there is comparatively little work to be done, the natural grade being very nearly the grade of the road. The road thence passes about midway between Brandywine and T. B., and enters Charles county. In this county two routes have been surveyed, one having its terminus opposite Aquia Creek, and the other about the mouth of Pope's Creek. One of these routes will be settled upon next week, as the contractors, who have finished their work above, are desirous of putting in for this job.

The grading upon the Baltimore and Potomac road is not heavy, but a considerable number of culverts will be required, and several bridges, the most important of which will be those over the Great and Little Patuxent, 200 feet and 150 in length.—*Washington Star.*

Central Railroad of New Jersey.

The Directors of the Central Railroad Company of New Jersey present to the stockholders the following report, for the year ending December 31st, 1869. For convenience of comparison, many of the statements are made to cover the year 1868 as well as the past year.

SERVICE OF THE ROAD AND FERRY.

The service of the road has been as follows:

	1869.	1868.
Miles run by passenger trains	827,582	697,693
" " merchandise "	586,858	548,925
" " coal trains	702,592	685,984
Total by transptat'n trains	2,117,032	1,932,602
Miles run by wood, gravel and construction trains	98,066	78,356
Total miles run by trains	2,215,098	2,010,958

During the year the ferry boats have made 36,069 trips between New York and Jersey City, against 28,678 trips last year. The ferry is now run by the Central, Communipaw, Elizabeth and Plainfield. The ferry to Elizabeth has also been regularly kept up.

PASSENGERS, FREIGHT AND COAL.

A comparison of the passenger business of the year 1869 with the year 1868 gives the following results:

	1869.	1868.
Number of passengers	2,296,864	1,441,992½
Miles traveled by pass	32,177,945	30,475,705
Equal to through pass	429,039	406,347

A comparison of the merchandise business of the two years, gives the following results:

	1869.	1868.
Number of tons carried	705,611	659,171
Tons carried one mile	43,257,860	39,412,970
Equal to through tonnage	577,239	525,800

A comparison of the coal business of the two years gives the following results, the through tonnage being calculated from Easton to Port Johnston:

	1869.	1868.
Number of tons carried	1,506,052	1,618,845
Tons carried one mile	86,509,284	90,327,012
Equal to through tonnage	1,272,195	1,328,338

There was an decrease in Lehigh coal of 32,172 tons and in Lackawana coal of 30,621 tons.

EQUIPMENT.

The Company now own 117 locomotives, of which 12 burn wood or soft coal, and 105 anthracite coal. The condition of engines is reported as follows: 66 in first-class condition, 15 in good running order, 10 require general repairs, and 4 require slight repairs. 20 are now in the shops under repairs, and 2 are condemned as unfit for service. 8 new passenger, 20 new freight and 3 new shifting engines have been added to the equpment during the year. 1 old engine has been condemned and cut up, and 1 light small engine sold. Of the above 117 engines, 4 passenger engines were transferred to the Newark and New York Railroad.

The car equipment is reported as follows: 82 first-class and 18 second-class passenger, 10 first-class combination smoking cars, 13 baggage and mail, 3 express, 125 eight-wheel and 32 four-wheel box freight, 20 eight-wheel stock, 153 eight-wheel platform, 149 six-wheel iron or lime, 19 eight wheel gondola, 669 eight-wheel and 903 four-wheel coal, 122 four-wheel gravel, 2 eight-wheel and 37 four-wheel caboose, and 5 eight-wheel derrick and tool cars.

Twenty new first class passenger cars were purchased during the year, 2 new first class combination smoking and baggage cars were built in the company's shops, and 2 second class passenger cars converted to combination cars. 408 new four wheel coal cars were purchased and 12 four-wheel coal cars have been built at the company's shops and placed on the road during the year. 187 eight-wheel coal, 7 four-wheel box freight cars, and 1 baggage car were condemned and broken up within the year. Of the above first class passenger cars, 16 were transferred to Newark and N. Y. R. R., also the two new first class combination cars built in the company's shops and the 2 second class passenger cars converted to combination cars.

The coal tonnage over the road since the transportation of coal was commenced, has been as follows:

	Lackawanna. Tons.	Lehigh. Tons.	Total. Tons
1856	98,670	33,325	131,995
1857	209,950	84,841	294,791
1858	417,726	122,923	540,649
1859	455,681	183,277	638,958
1860	590,863	263,906	854,769
1861	568,869	254,346	823,214
1862	502,375	314,195	816,570
1863	613,954	435,927	1,049,881
1864	675,743	474,221	1,149,964
1865	494,687	509,819	1,004,506
1866	778,173	511,076	1,289,249
1867	855,620	513,425	1,369,045
1868	853,188	765,657	1,618,845
1869	822,567	733,485	1,556,052
Total	7,938,066	5,200,422	13,138,488

TRANSPORTATION ACCOUNT.

The following is a statement of the ordinary receipts and expenses for the year 1869 compared with 1868.

Receipts:	1869.	1868.
Passengers	$957,757 91	$869,313 39
Merchandise	1,180,598 73	1,115,799 64
Coal	1,737,991 66	1,598,025 19
Mail	15,772 40	15,772 40
Express	50,279 60	50,432 31
Rents	41,377 91	49,617 37
Miscellaneous	26,343 52	30,552 26
Total receipts	$4,010,121 73	$3,729,412 56
Expenses:		
Running expenses	$742,458 61	$598,261 66
Wood consumed	75,848 64	97,268 58
Coal consumed	289,240 79	234,619 65
Repairs of road	453 900 45	422,455 27
Repairs of engines	260,706 21	281,846 74
Repairs passenger cars	68,452 53	58,092 36
Repairs freight cars	40,692 01	42,599 35
Repairs of coal cars	76,191 05	70,442 49
Repairs docks, Elizabethport	22,046 11	11,108 38
Repairs b'ld'gs, bridges, etc	146,693 58	86,548 67
Repairs, tools and machinery	22,028 73	25,408 23
Expense account	99,430 88	115,558 46
Miscellaneous expenses	70,382 95	80,324 77
Ferry running exp	115,905 47	107,448 12
Ferry boat repairs	82,207 11	53,942 15
Ferry miscel. expenses	483 00	3,131 23
Car service	130,500 25	90,136 59
Total expenses	$2,642,163 37	$2,379,192 70
Balance net earnings	$1,367,958 36	$1,350,219 86

The following table shows the receipts, expenses and net earnings, from the beginning of the annual reports to the Legislature, to the present time:

	Receipts.	Expenses.	Net Earnings.
1853.	$349,018	$197,629	$151,389 or 43 p.c.
1854.	378,145	197,349	180,796 or 48 "
1855.	393,729	208,856	184,873 or 47 "
1856.	553,479	258,308	295,171 or 53 "
1857.	682,314	340,502	341,812 or 51 "
1858.	836,934	345,614	491,320 or 58 "
1859.	971,702	385,716	585,986 or 61 "
1860.	1,185,848	475,457	710,391 or 60 "
1861.	1,201,895	522,452	679,443 or 57 "
1862.	1,397,686	623,245	774,341 or 56 "
1863.	1,941,976	814,732	1,127,244 or 58 "
1864.	2,537,185	1,231,554	1,305,631 or 51 "
1865.	3,036,390	1,748,434	1,287,956 or 43 "
1866.	3,581,244	1,963,976	1,617,268 or 45 "
1867.	3,350,398	1,878,022	1,472,376 or 44 "
1868.	2,729,412	2,379,192	1,350,220 or 86 "
1869.	4,010,121	2,642,163	1,367,958 or 34 "
Tot	$30,137,876	$16,213,201	$14,924,175 or 46 p.c.

An increase in receipts is here shown of $280,709 17, or 7½ per cent. The increase in passenger receipts was $88,444 52, or 10 per cent.; in merchandise receipts, $64,799 09, or 6 per cent.; in coal receipts, $139,966 47, or 8 per cent.

The expenses show an increase of $262,970 67, or 11¼ per cent. There has been an increase in running expenses of $144,196 95; in repairs of road of $31,445 18; in other repairs of $67,698 14; in fuel consumed of $33,201 20; and in car service of $40,363 66. There has been a decrease in repairs of equipment of $11,939 14; in ferry expenses of $15,925 92; and in general expenses of $26,069 40.

The gross receipts per mile run have been as follows: From passenger trains, $1 16 against $1 25 in 1868; from merchandise trains, $1 90 against $2 03; from coal trains, $2 27 against $2 33. The average receipts per mile run from all trains have been $1 81 against $1 85 the previous year.

The gross expenses per mile run have been $1 19 against $1 18 the previous year.

FINANCIAL CONDITION.

The following is a statement of the financial operations during the year:

Credits—	
Balance cash Dec. 31, 1868	$372,037 47
Gross earnings, as per statement	4,010,121 73
Mortgage bonds of 1890	960,000 00
Land, materials, etc., decrease	126,606 09
Total	$5,411,765 29
Debits—	
Ordinary expenses, as per statement	$2,642,163 37
Grading	52,087 52
Masonry	11,096 74
Railway superstructure	184,079 33
Bridge superstructure	9,903 22
Land damage	30,039 73
Ferry boats	32,007 90
Station-houses	73,880 77
Port Johnston coal wharves	99,076 27
Engines	372,061 23
Passenger cars	20,712 18
Coal cars	120,810 75
Newark and New York R. R. Co.	915,205 48
Interest account for year, balance	508,481 74
State taxes for year	43,551 28
United States taxes	23,954 03
Accounts payable, decrease	227,080 69
Balance cash, Dec. 31, 1869	47,773 19
Total	$5,411,765 29

The profit and loss account has been credited.

Gross earnings	$4,010,121 73
Workshop earnings	66,559 22
	$4,076,680 95

It has been debited as follows:

Ordinary expenses	$2,642,163 37	
Interest account	508,481 74	
Taxes to State	43,551 20	
United States taxes	23,954 03	
		3,218,150 34
Balance		$858,530 61

which has been appropriated to the reduction of the equipment accounts.

The cost of the railroad, double tracked, with its coal wharves, station houses, shops, and other appendages, stands at $10,487,709 66, and that of the equipment at $2,175,000 00.

CONSTRUCTION.

Extract from Report of Chief Engineer.

"The following named works and buildings were completed during the present year:

"The new engine house, freight house and telegraph office at Phillipsburg station; a telegraph office at the Junction shops; passenger houses at Bloomsbury station and Glen Gardner; extension of the engine house at Somerville; passenger house at Westfield; the water tanks and tank-houses at Cranford; freight house at Roselle; addition to the engine house at Elizabeth and a temporary passenger house at Spring street; passenger house at Centreville station; engine house, turn-table and carpenter shop in Jersey City station, and the car shed for the accommodation of the Newark and New York Railroad passengers at the same place; 9 hand-car houses and 17 flagmen or switchmen's houses; street bridge under the railroad at Westfield; 3,000 feet of additional sidings at Phillipsburg; graduation and masonry for, and laying 2,700 feet of side track at the Junction; laying 2,700 feet of third track for the accommodation of Scranton coal trains between Spruce Run and Glen Gardner; 500 feet of side track at Banghart's wood yard, east of Glen Gardner; laying 4,100 feet of fourth track between Clinton and High Bridge; graduation and masonry for the third and fourth tracks, and laying 5,400 feet of fourth track between North Branch and White House; graduation for the third and fourth tracks, and laying 5,600 feet of third track between Dunellen and Green Brook water stations; completion of the new line, 8,300 feet in length, through Plainfield; graduation and masonry for the third and fourth tracks, 6,000 feet in length, between Cranford and Westfield; laying 9,000 feet of third track between Bay Bridge and Spring Street, in Elizabeth; a new coal wharf at Port Johnston, including the canals, tracks, etc.; curbing and laying side-walks at Phillipsburg and the passenger houses at Neshanic and Three Bridges on the South Branch Railroad.

"92,000 cross-ties were used in repairs and 37,000 in construction of track; 3,447.66 tons of iron rails were used in repairs and 1,112.84 tons in construction of track during the year.

"Twenty-one miles of additional track were laid during the year, 12.30 miles of which were laid with new rails, and 8.70 miles with old ones.

"About 92 miles of single track are now laid with the 'Fish Joint.' The south, or heavy track, is very nearly all laid with it. These joints are giving very general satisfaction. There can be no further doubt of the economy of using them.

"The aggregate number of miles of single track now laid upon the whole road (estimating one mile of three rail track as one and a half miles), including sidings, shop tracks, cross-over tracks, etc., is 279.175 of which 49.162 miles are laid on the extension between the east end of Bay Bridge and Jersey City terminus."

BALANCE SHEET, JANUARY 1, 1870.

Railroad		$7,659,576 09
Jersey City station		960,000 00
Port Johnston coal station		694,076 01

President.—JOHN TAYLOR JOHNSTON.

Vice President.—SIDNEY DILLON.

Board of Directors.—John Taylor Johnston, John C. Green, Moses Taylor, Adam Norrie, Sidney Dillon, New York; Benjamin Williamson, Elizabeth; F. T. Frelinghuysen, Newark; Henry D. Maxwell, Easton, Pa.; Asa Packer, Manch Chunk, Pa.

Secretary and Treasurer.—SAMUEL KNOX.

Engineer.—JAMES MOORE.

Superintendent.—R. E. RICKER.

☞ Articles of association of the Rhinebeck and Connecticut Railroad Company have been filed in the office of the Secretary of State. The length of the proposed railroad is to be about thirty miles, and to be constructed from the Hudson River at or near Rhinecliff, in the town of Rhinebeck, through Dutchess county, to the line between the States of New York and Connecticut. Capital stock, $1,000,000.

Debt of Pennsylvania.

The report of the Commissioners of the State Sinking Fund, as published, shows a reduction of the State debt since November 30, 1869, to the 1st inst. of one million four hundred and twelve thousand, six hundred and ten dollars. The debt now stands as follows:

Debt Bearing Coin Interest:	
4½ per cent. bonds	$112,000
5 per cent. bonds	4,857,035
6 per cent. bonds	3,171,250
Total	$8,140,285
Debt Bearing Interest in Lawful Money:	
5 per cent. bonds	$910,200
6 per cent. bonds	22,089,803
Total	$23,000,000
Debt on which Interest has Ceased:	
5 per cent. bonds	$151,606
6 per cent. bonds	9,148
Total	$160,754
Debt Bearing no Interest:	
Loan relief act of May 4, 1841	$96,397
Interest certificates unclaimed	4,449
Domestic creditors	45
Total	$100,891
Recapitulation:	
Debt bearing coin interest	$8,140,285
Debt bearing interest in currency	23,000,000
Debt on which interest has ceased	160,754
Debt bearing no interest	100,891
Total debt July 31, 1870	$31,401,930

Athol and Enfield Railroad.

At a meeting of the stockholders of this company recently held at North Dana, Mass., the following gentlemen were elected directors for the ensuing year: Willis Phelps of Springfield, Edward Smith, R. D. Woods and W. B. Kimball of Enfield, R. H. Allen of Prescott, S. P. Bailey of Greenwich, C. Southworth of Hardwick, J. W. Goodman of North Dana, Samuel Adams of New Salem, J. C. Hill and T. H. Goodspeed of Athol. At a subsequent meeting of the directors, the following officers were chosen: President, Willis Phelps; Vice President, R. D. Woods; Clerk, T. H. Goodspeed; Treasurer, A. Harding of Athol. The first installment of 10 per cent. of all subscriptions has been paid in. Eight contractors are at work upon as many sections along the line of the road, and commendable progress is being made.

☞ The Legislature of Texas has granted the right of way through land owned by the State, for a railroad from Fulton to El Paso, to General Fremont and his associates, who asked it in the name of the Transcontinental Railroad Company. This does not, however, interfere with the construction of the Southern Pacific Railroad, now being built from Shreveport, Louisiana, to El Paso, Texas, via Marshall, a distance of about eight hundred miles. The company have built their road and got it in operation from Shreveport to Hallville, Texas, 56 miles, and are building westward as rapidly as circumstances will permit.

☞ Where interest and coupons fall due at any time during the five months ending 31st December, 1870, no tax whatever is to be withheld therefrom, but the persons receiving such payments must return the same as part of their come.

[Railroads of the State of New York.

A tabular statement of their Stocks, Bonds and Debts, Cost, Earnings, Dividends, &c., for the year ending September 30, 1869.

Compiled from the Annual Reports of Companies to the State Engineer and Surveyor.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterisk* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterisk* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, August 20, 1870.

Stock Exchange and Money Market.

Money has been rather less freely offered and has shown more activity on the basis of 4@6, generally 4@5 per cent. on call, and 6½@8½ per cent. per annum in the discount form. The speculative inquiry has been fairly active, and there has been a livelier mercantile demand noted, in preparation for the Fall season. The city banks have been less liberal of aid. They cut down their loan and discount averages, last week, over 2½ millions and slightly reduced their circulation. Their specie balance fell off 2⅜ millions, and in their legal tender reserve there was a decrease of $310,926. Their deposits were reduced nearly 5¾ millions. Their legal tender average is now under 52 millions, as against 61⅝ millions on the 28th of May (the highest average of the current year, thus far). Their deposits are now about 215 millions, as against nearly 234½ millions on the 16th of July. Their specie average is down to about 24⅛ millions, against 41⅛ millions four weeks since. The U. S. Sub Treasury lost nearly two millions of its currency reserve, and over half a million of specie, during the past week.

The specie reserve of the city banks according to the latest return is $24,104,302, against $24,154,499 same time last year. The city bank deposits are now $215,074,491, against $198,952,711 week ending Aug. 13. 1869. The legal tender reserve amounts to $51,976,262, against $54,730,089 same time last year. The circulation now stands at $32,909,166, against $33,992,257 same time last year. The loans are now $278,647,619, against $266,505,365 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $73,682,274 a day, against a daily average of $74,343,237 the preceding week. The current weeks' exchanges average about 63¾ millions a day. The city banks, last week, reported a loss of $2,368,290 of specie, and $5,744,806 of deposits, and $310,926 of legal tender notes. They reduced their loans, $2,534,525; and their circulation, $33,978.

The city bank exchanges on Wednesday were about 68⅛ millions.

The coin reserves of the Treasury Department on Monday were over 103 millions, including $35,915,000 on deposit on private account; currency balances, $40,124,807.

National Bank notes to the amount of $174,610 were issued last week by the Treasury Department, making the total issue to 1,692 banks thus far, amount to $827,319,329, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $27,912,345 leaving, with the existing 1,612 banks, (having an aggregate capital of $427,235,701,) an actual circulation at this date, of $299,406,984. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $341,970,450; and for the public deposits, $16,364 500—making a total of $358,334,950. The Treasury Department last week redeemed and destroyed $599,200 of worn and mutilated fractional currency, and issued $898,269 of new.

The U. S. Sub-Treasury receipts, week ending with Aug. 13, were $3,410,869 in coin, (including $3,223,000 from customs duties,) and $7,303,171 in currency; payments, $3,939,160 in coin, (including $475,506 of coin interest,) and $3,698,181 in currency; balance at the close of the week, included $67,957,943, of coin, against $68,486,234 the preceding Saturday, and $12,404,451 of currency, against $14,381,116 at the close of the preceding week. The business of the Office on the first two days of the current week, was as follows: On Monday, receipts, $458,698 in coin, (including $417,230 from customs,) and $929,294 in currency; payment $147,908 of coin (including $131,000 of coin interest), and $277,525 of currency. On Tuesday, receipts, $696,816 in coin (including $666,000 from customs), and $652,478 in currency; payments, $39,129 in coin (including $36,500 of coin interest) and $218,141 of currency. The balance at the close of business on Tuesday included $13,490,557 of currency, and $68,296,421 of coin against a balance a week previous of $15,084,792 currency, and $69,237,952 coin.

The U. S. Sub-Treasurer issued in July $9,522,000 of coin certificates.

The U. S. Sub-Treasurer retired, last week, $2,859,934 of coin certificates, received for customs.

Government revenues have been yielding moderately well, since our last. The excises, during the week yielded $3,604,071; customs at the port of New York, $3,099,935, and at the outports about a million (in coin) more, making the grand total income for the week equal to about $8,387,328 in currency. The income of the Government, from excises, since July 1, 1870, has been $31,209,694.

Gold has been less active and less variable in price, since our last, the range of the week having been from 115¾@118; and the closing quotation on Wednesday was 117⅜. The war reports from Europe have been generally against a confident speculative movement and buoyancy in the price. The export drain has been less extensive, having fallen below three millions last week, against 3⅞ millions the preceding week, and nearly 7 millions the week ending with Aug. 6th. On Wednesday Government marketed a million of Gold at from 117 27 to 117 46. The aggregate of the bids was $3,925,000. The shipments thus far this year have been about 42⅛ millions, against 23½ millions same time in 1869; 62½ millions same time in 1868; 38⅝ millions same time in 1867; 60 millions same time in 1866; and 19 millions same time in 1865. On Wednesday of the current week, the specie exports amounted to $1,370,000. The exchanges at the Gold Exchange Bank, which were 102 millions on Thursday of last week, fell to 42⅛ millions on Monday of this week, and were 70 millions on Tuesday. On Wednesday they were again under 31½ millions.

The coin balance of the U. S. Sub-Treasury on Thursday morning was $69,612,193.

The customs demand for Gold last week, averaged $537,167 a day; thus far, this week, it has averaged $541,615 a day, or equal to a weekly aggregate of $3,249,690. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $44,687; and since Jan. 1, 1870, $7,405,375, against $9,815,380 same time in 1869. The total customs revenue of the Government, in coin, at this port, since Jan. 1, has been $83,304,849 against $82,075,092, same time in 1869.

The customs revenue of the port on Wednesday was $513,000; and the coin interest disbursements were $41,400.

The customs revenue at the port of San Francisco, from Jan. 1 to August 5th, was $4,615,000, against $4,571,000 same time last year.

The exports of specie, from this port, last week, were $2,917,878 against $784,116 same week last year; and since Jan. 1870, $40,715,781, against $23,436,848 same time in 1869. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $475,506; and since Jan. 1, 1870, $61,844,699 against $64,122,135 same time in 1869.

The specie exports by steamer and railway from San Francisco, from Jan. 1 to Aug. 5th, were $22,125,792, against $24,326,898 same time last year.

Under its official programme for August, Government will make the following sales of Gold and purchases of bonds, during the remaining weeks of the month. It will sell Gold on Wednesday, August 24, to the amount of $1,000,000; Wednesday August 31, $1,000,000. And will buy Five-Twenties, as follows: Thursday, August 25, $2,000,000.

Foreign Exchange has been in comparatively moderate demand, and without remarkable changes in values, since our last. Bankers' sixty day bills on London closed on Wednesday at 109½@109¾; sight bills on London 110½@110¾. The offerings of produce bills have been moderate. The week's exports of domestic produce have been to the currency value of $3,288,748; and since January 1, 1870, $114,036,319 against $117,186,539 same time in 1869.

Government securities have met with a readier sale at firmer and buoyant prices, on very moderate offerings of nearly all issues. On Thursday, Government bought in a million of Five Twenties at about the open market rates.

U. S. sixes of 1881 closed here at 114¾@115; U. S. Five-twenties of 1862, 112⅞@113⅛; U. S. Five-twenties of 1864 at 111⅜@111⅝; U. S. Five-twenties of 1865 at 111½@111¾; U.S. Five-twenties of 1865 consolidated, 110¼@110½; U. S. Five-twenties of 1867, 110⅜@110½; U. S. Five-twenties of 1868, 110⅝@110⅞; U. S. Ten-forties at 108⅜@108⅝; U. S. Six per cent. currency bonds, 111¾@112¼.

The currency balance in the Treasury, according to Washington despatches of Wednesday, amounted to $28,952,240 42. The coin balances was $101,987,902 39, of which $33,626,500 were in gold certificates.

State bonds have been rather less active, but generally firm in price.

Railway bonds have been in more general demand including Central Pacific Sixes, which closed on Wednesday strong at 87@87½; and Union Pacific Sixes at 82¾@83.

Railway and miscellaneous share property has been less freely dealt in by speculative operators, yet has been generally strong, though irregular in price. Erie shares have been in unusual demand both in the New York and London markets.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	August 3.	Aug. 10.	Aug. 17.
Consols	88⅞	90¾	91¼

" 10-40s	80	81½	83
Erie	15	16½	17¾
Ill. Central	103	106	110
At. and Gt. West	20	20	22½

General business has been unusually dull, since our last, and in most instances buyers have had the advantage as to price. There has been less export call for Breadstuffs and Provisions. Petroleum, Rosin, and Spirits Turpentine have shown exceptional animation and buoyancy. Middling upland cotton closed at 19¼ cts. per lb. The stock of cotton now here is given at about 25,000 bales. The receipts at the port this week, have averaged about 1,975 bales a day. The receipts at all the ports, thus far in the year commencing with Sept. 1, 1869, have been 2,837,230 bales, against 2,040,850 bales in 1868–'9; exports, same time 2,188,550 bales, against 1,434,640 bales same time in 1868–'9; stock on hand at latest dates, 96,200 bales, against 26,375 bales same date 1869. The exports of domestic cotton goods from this port, since Jan. 1, 1870, have been 10,606 pkgs., against 15,810 pkgs., same time in 1869. From Boston, 4,598 pkgs. in 1870, against 6,025 pkgs. same time in 1869.

Foreign goods have been in quite moderate demand and somewhat weak in price. The dry goods entries at this port, last week, were $1,975,143, making with the general merchandise imports, a total of $5,214,146.

At the Live Stock markets, this week, Beeves have been less plenty and quiet at from 8@16½c. per lb.; week's receipts, 7,347. Milch cows continue very quiet at $40@$100 each, receipts, 63. Veal calves have been in better request at from 7@12c. per lb.; receipts, 2,535. Sheep have been in moderate request at from 3@6½c.; lambs at 6½@10c. per lb.; receipts, 34,204. Swine have been dull and nominal at 9¼@9⅜c. per lb., all live weight; receipts, 13,619.

Ocean freights for British ports have been quiet and quoted lower. Petroleum vessels have been in more demand and held with confidence. For Liverpool we quote flour at 1s. 9d.@2s. by sail, and 2s. by steamer per bbl.; grain at 5½@5¾d. by sail, and 5½@5¾d. by steamer per bushel; cotton at 3/16d. by sail and ¼d. by steamer per lb.; and heavy goods 20s.@40s. by sail, and 20s. @45s. by steamer, per ton. Total number of vessels in port on Wednesday, 469.

The following will show the exports (exclusive of specie) from New York to foreign ports for the week ending August 15th, and since the beginning of the year:

	1869.	1870.
For the week	$4,568,552	$3,288,748
Previously reported	112,617,987	110,747,571
Since Jan. 1	$117,186,539	$114,036,319

The imports for the week ending Aug. 13, and since the beginning of the year, have been as follows:

	1869.	1870.
Dry goods	$2,059,677	$1,975,143
Gen. merchandise	2,738,937	3,239,003
Total for the week	$4,798,614	$5,214,146
Previously reported	189,607,392	179,411,804
Since January 1	$194,406,006	$184,625,950

Michigan Railroad Bonds.

The Michigan Legislature has agreed upon an amendment to the constitution, to be submitted to the people, providing that the Legislature may make provision by law for the payment by counties, townships, and municipalities, of all bonds or other obligations heretofore issued in aid of railroads, such bonds to be paid by the county, township or municipality issuing them, and not in any case by the state; the question of payment to be submitted to each municipality. This was adopted in the House by 67 yeas to 28 nays, and in the Senate by 23 yeas to 4 nays. No provision is made for granting aid to railroads in the future.

Spuyten Duyvil and Port Morris Railroad.

The work on the Spuyten Duyvil and Port Morris Railroad, a branch of the Hudson River Railroad, will be completed before winter, if possible. The contractors on the different sections, are keeping large gangs of men at work, and at several places along the line, especially along the Westchester county bank of the Harlem river, the work is so far progressed as to be almost ready for the laying of the rails. The rolling stock will be ready for the road as soon as the last rail is laid.

☞ The Utica, Chenango and Cortland Railroad extends from Cortlandt to Otselic, but it is to be extended to Elmira south, and to Smith's Valley, so as to make a continuous line from Utica to Elmira.

☞ The rails on the Kent County (Md.) railroad are now laid to Duyer's Station. The location from Duyer's to Chestertown has been agreed upon, and will be put under contract immediately.

☞ The engineers employed by the Alexandria and Fredericksburg Railroad Company have commenced the work of locating the road, the experimental lines of which they had previously run.

☞ On the first of October the act of Congress goes into effect which repeals the United States tax of one-eighth of one per cent. on the receipts of city passenger railway companies.

Central Pacific Railroad.

HARVEY FISK. A. S. HATCH.

OFFICE OF FISK & HATCH, No. 5 Nassau st., NEW YORK, Aug. 15, 1870.

THE CENTRAL PACIFIC R. R. 6 per cent. GOLD BONDS, having 26 years to run, are to day selling at 86.25. *At the rate of* 88.10 *they yield* 7 *per cent. in gold; interest and principal payable in gold coin, in New York City.*

They are secured by a First Mortgage on property worth four times their total issue; a road having a princely revenue—nearly $3,000,000 for the first six months of this year, and $727,800 for July, being an increase of $800,000 over the large revenues of the same period last year, while the annual interest paym nts are $1,600,000. They are as good and as safe as Government Bonds. Holders of the latter would do well to capitalize the difference while the Centrals are so low—occasioned by the return of these Bonds from Germany, on account of the terrible war now raging in Europe. The amounts now coming are small, and are being steadily absorbed by heavy capitalists here.

THE U. S. CURRENCY SIXES—principal and interest payable in lawful money—with an average of 26 years to run, at 113 flat, pay only 5 per cent. currency.

TEN-FORTIES, with 34 years to run, (it is not probable this issue will be called in till maturity, as a portion of the Bonds authorized by the Funding Bill bear 5 per cent.), at 104¼, about the present price less coupon due Sept. 1, pay 4¾ per cent. gold.

SIXES of 1881, having 11 years to run, at the current rate, 114.50, pay only 4½ per cent. gold.

FIVE TWENTIES, assuming that they will not be called in for 5 years, at 109 pay but 4 per cent. gold, per annum.

This opportunity to realize so handsome an addition to their capital, and at the same time a large increase in the average annual interest yield, by an exchange into Central Pacific Bonds, may not occur again. We expect, as the demand for them is large, that they cannot be had at the present price for any length of time.

FISK & HATCH.

N. B.—We allow Interest on Deposits, make Collections, and do a general Banking business.

☞ The Pennsylvania Railroad Company, having bought all the stock of the Indianapolis and Vincennes Railroad, has given its own guaranty for the principal and interest of all the bonds of the road, and all the old guaranties have been canceled.

☞ The Albany *Journal* says a movement is on foot to build a road from Ithaca to the Central at Cayuga. It will cost $1,000,000 to build and equip it. Of this some $320,000 are already provided for. A contractor offers to proceed with the work if $350,000 more is subscribed.

☞ The Old Colony and Newport Railroad Corporation has purchased the Granite Railroad in Quincy, and will connect it with the main line. It is the oldest railroad in the country, and has always been operated by horse power.

☞ By act of Congress, approved June 28, 1870, the Bridge to be erected across the Delaware river, between Philadelphia and Camden, is declared to be a post route.

Journal of Railroad Law.

RAILROAD COMPANIES—LIABILITY FOR FAILURE TO ERECT FENCES—WHAT IS NEGLIGENCE IN AN INFANT.

The facts in the recent case of Schmidt, an infant, etc., *vs.* The Milwaukee and St. Paul Railway Company (28 Wis., 186,) are fully and clearly stated in the following opinion by

COLE, J.—The jury must have found, under the instructions of the Court, that the parents of the child were free from fault or negligence in allowing the infant to stray upon the railroad track. For the Court specifically instructed the jury, that if they found from the evidence that the injury to the plaintiff was caused by the neglect of the defendant or its agents, while the parents of the plaintiff were in the exercise of ordinary care in guarding the plaintiff, then they should find for the plaintiff. The same proposition is substantially embraced in other parts of the charge—that if the negligence of the parents, or of those whose duty it was to watch the infant, contributed to produce the injury, no recovery could be had. The jury were told that they must consider all the circumstances appearing in the evidence in order to determine whether the parents had exercised ordinary care in guarding the child or not; and this was undoubtedly correct. As was forcibly argued by the counsel for the plaintiff, in determining this question of negligence, the condition of the family, the season of the year, the place of the accident, the probability that it would happen, and all the surrounding facts and circumstances, were proper matters to be considered by the jury; and they must have found from the whole evidence that the parents were free from fault or negligence.

Then, we think the ruling of the Court below correct upon another proposition, which has been very elaborately discussed by counsel, that is, whether an infant of only eighteen months old must be judged by the same rule as an adult, when exposing himself to danger. In denying the motion for a nonsuit, the Court evidently was of the opinion that negligence could not be predicated upon the conduct of an infant of that age. But the counsel for the company insists that this is an erroneous view of the law, and that the correct rule upon the subject is, when an infant brings suit for injuries received, that he is bound to show himself free from all negligence or want of proper care, tending to produce the injury, the same as an adult. He argues and claims that all plaintiff's suing for such injuries stand upon the same ground, and are subjected to the same rules: and that, so far as the right of recovery is concerned, whatever would be negligence or want of proper care in an adult, is negligence or want of proper care in an infant. We are not prepared to yield our assent to the soundness of such a proposition, even though cases may be found which seem to sustain it. An infant of the age of eighteen months is utterly incapable of exercising any care or discretion in any matter whatever. He is incapable of comprehending the imminent danger of remaining on a railroad track when a train of cars is approaching. He is necessarily incapable of exercising any judgment or forethought, can neither apprehend the danger to which he is exposed, nor take suitable means to protect himself against it. Negligence cannot properly be imputed to him, since he knows nothing of care, or diligence, or danger. And to say that he is bound to the same legal rules in regard to the exercise of care and diligence in avoiding danger, and escaping the consequences of neglect on the part of others, which are applied to persons of full age and capacity, seems to us a most unreasonable doctrine. Reason, principles and the weight of authority, we think, sanction a different rule. Most of these cases where this question is discussed, are cited on the brief of the counsel for the plaintiff; and we are content to refer to the reasonings in those cases upon the point we are considering. They fully vindicate both the soundness and humanity of the doctrine, that negligence cannot be imputed to the conduct of an infant of such tender years as the plaintiff, and that in respect to his acts he is not to be judged by the same rules which are applied to an adult. All that is demanded in such cases is, a degree of care or diligence equal to the capacity of the child. In addition to the authorities cited by counsel upon this point see Whirley *vs.* Whiteman, 1 Head, (Tenn.,) 610, and Angell on highways, § 347. And this brings us to the point in the case which presents the greatest difficulty.

The child was, in the month of August, 1865, run over by a gravel train of the defendant, and lost his right arm in consequence of the injury so received. The railroad track ran across the farm of the plaintiff's father, some forty and forty-five rods from the dwelling house. The road had been in operation a year or more, but the company had neglected to construct any fences along the line of the road at that point. The child was on the track where a path leading from one part of his father's farm to the other, crossed the railroad.

The plaintiff requested the Court to give a number of special instructions, the fourth, fifth and sixth of which were as follows:

"Fourth. The defendant was guilty of negligence in failing to fence its road across the land in question.

"Fifth. If the jury find from the evidence that the want of a fence was the cause of the injury, without negligence of plaintiff's parents contributing thereto, they must find for the plaintiff.

"Sixth. If the jury find from the evidence that, owing to the want of a fence, this part of the road over the land in question was unsafe, and accidents more liable to occur there than where the road was fenced, and that the company had notice of this fact, then it was the duty of the defendant to use more than ordinary care and diligence to prevent such accidents, and to run their trains with reference to this consideration."

These instructions the Court gave, under exceptions, and also gave, at the request of the defendant, this instruction:

"That the plaintiff cannot recover for the negligence of the defendant in not building said fence, unless you find that the injury happened without the fault of the plaintiff and in consequence of the neglect to build the fence, and that the fence would have prevented it."

Now, considering these various instructions together, so far as they bear upon the question of the liability of the company arising from the fact that it had neglected to build a fence along the road at that place, they simply amount to this proposition: That though the defendant was guilty of negligence in failing to fence its road across the land in question, yet this fact would not authorize a recovery, unless the injury happened without the fault of the plaintiff's parent's contributing thereto, and in consequence of the neglect to build the fence and the fence would have prevented the accident.

Assuming, then, these facts to exist, as we must after the verdict—that the parents exercised ordinary care in protecting the child; that the company neglected to build a fence along its road at that place, as the law required; and that the child was injured in consequence of this neglect, the question arises. In such a case is not the company liable? The counsel for the company says that the failure to build a fence subjected the defendant to certain liabilities in case of an injury to cattle, horses, or other domestic animals; and that in case of injury to passengers happening in consequence of not fencing the road, certain other liabilities would attach; but that fences were never intended to keep men, women or children off the track, and are utterly useless for any such purpose.

In answer to this argument, it must in the first place be remembered, that the statute imposes upon all railroad companies of this State the positive duty of erecting and maintaining good and sufficient fences on both sides of their roads, with grates or bars therein, and farm crossings for the use of the proprietors of the adjoining lands. This is a clear, distinct and precise legal duty imposed by the Legislature: and the failure to perform it by the company in this case was the sole cause of the injury. For the jury in effect found, that a fence would have prevented the accident. The facts in this case show, that for more than a year the company had run its trains over the road, neglecting all the while to build a fence at that place—omitting to do what not only the law required, but common prudence demanded should be done, as well for the protection of persons traveling on its road as for the security of the domestic animals of those residing along the track, and the safety of children exposed to its dangers, who were incapable of taking care of themselves.

Now, when the company neglects to perform this duty, did it not necessarily assume responsibility for all damages which might result from that cause? Can the Court make an exception to this general liability, when an infant is injured solely in consequence of the want of a fence, no negligence of the parents contributing thereto? Would it not be an unwarrantable restriction of the statute, to hold that the duty imposed upon the company of maintaining a fence along its road had no reference to such children? If one were to look at the mere verbiage of the last part of the first section (chapter 268, Laws of 1860), he might conclude that the object of the law was solely for the protection of domestic animals. And yet the Courts have held that the law has a broader application, being in the nature of a police regulation, intended mainly to secure the safety of passengers upon railroad cars. Blair *vs.* The Mil. and Prairie du Chien R. R. Co., 20 Wis., 254, and cases there cited. Hence, where a passenger, without fault on his part, is injured in

consequence of the cars being thrown from the track by cattle passing on to the same at a place where the company ought to maintain a fence, he can recover for all damages sustained, without other proof of the negligence of the company. And this recovery is had in such a case upon the ground that when the company neglects to perform a duty imposed by the statute it "necessarily assumes responsibility for all damages which may ensue from that cause." Thus a liberal construction has already been placed upon the statute for the purpose of furthering the important and beneficial objects of its enactment. It has been extended to cases which, if not clearly within the letter, are certainly within the spirit of the law, as when it was applied to the case of a passenger injured in consequence of a failure of the company to fence its road. And it is in strict harmony with the principle and reasoning of these cases to say that the statute also embraces a case like the one before us.

Here, if the fence had been erected, the accident would not have happened. Solely and entirely from the omission of the company to perform this clear, positive, absolute duty, the plaintiff is maimed and deprived of his right arm. Had it been an ox or horse, or some other domestic animal, which had been injured by the failure to erect the fence, the liability of the company would be clear and absolute, regardless of the question whether the owner had been guilty of negligence. Can it be, then, a perversion of the intent of the statute to hold the company liable for a breach of the same duty, when a helpless infant is injured without any fault on the part of the parents? It appears to us not. In Wakefield *vs.* Conn. and Pass. R. R. Co., 37 Vt., 330, where a statute required the bell on locomotive engines to be rung, or the whistle blown, for a certain distance at crossings, the Court held that this duty was imposed upon railroad companies, not only in reference to persons approaching or in the act of crossing the track, but in reference to all persons who, being lawfully at or in the vicinity of the crossing, might be subjected to accident and injury by the passing train. In that case the plaintiff had crossed the track, and driven about 35 rods south, when a train of freight cars came over the road from the south, and was within five or six rods from the plaintiff's team when first discovered by him and his horses. The forward pair of horses, being greatly frightened, instantly turned back with such force as to break their fastenings to the other horses, and ran back to the crossing, where they were injured by the passing cars. The Court, while holding that the connection of the failure to blow the whistle or ring the bell with what did happen seemed very slight, yet could not for that reason say that the company was not responsible for any injury caused by an unwarrantable omission to perform the duty imposed by law.

In Singleton *vs.* The Eastern Counties R. R. Co., 97 Eng. C. Law, 287, it seems to be assumed by the judges, that if the children has strayed upon the railroad tracks through the fence, at a place where a rail was off, which fence the company was bound to keep in repair, this would be such an act of negligence as would render the company liable. Mr. Justice Williams says: "There was nothing to show how the children got on the railway; all was mere conjecture and surmise." But the fair inference from the case is, that if it had appeared that the child passed on to the track through a defective fence which the company was bound to keep, then the action might have been maintained. In this case, the connection between the omission of the company to perform its duty, and the accident which happened, is direct, clear and certain. If the company had built a fence at that place, the child would not have been injured. So the jury must have found, under these instructions. Upon such a state of facts, we are unable to say that the company is not liable for the damage sustained.

The sixth instruction, above cited, calls for no special remarks. We think it substantially correct.

It was further insisted that the judgment should be reversed because the damages are excessive. The jury gave a verdict for $8,000. It is, of course, difficult for any one to estimate the real amount of damages which the child has sustained in consequence of the loss of his arm. The question was one peculiarly proper for the jury to determine. We cannot interfere, unless the excess is so great that we can say that the jury must have acted from some improper influence or bias in the matter. This we cannot say.

There are many other points discussed in the arguments of counsel, but we do not deem it necessary to notice them. The questions which we have noticed are the controlling ones, and dispose of the cause.

The judgment of the County Court is affirmed.

Tide-Water Receipts.

The quantity of flour, wheat, corn and barley left at tide water from the commencement of navigation to the 31st of July, inclusive, during the years 1869 and 1870, was as follows:

	Flour, bbls.	Wheat, bu.	Corn, bu.	Barley, bu.
1869..	163,600	6,993,200	2,473,300	11,800
1870..	154,900	6,752,600	1,300,000	82,400
Dec..	8,700	240,600	173,300	*70,600

* Increase.

By reducing the wheat to flour the quantity of the latter left at tide water this year, compared with the corresponding period last year, shows a decrease equal to 56,820 bbls. flour.

The following comparative table shows the quantity of some of the principal articles of produce left at tide-water from the commencement of navigation to and including the 31st of July in the years indicated:

	1868.	1869.	1870.
Canal opened—	April 23.	May 6.	May 10.
Flour, bbls.....	115,900	163,600	154,900
Wheat, bushels...	4,993,000	6,993,200	6,752,600
Corn, bushels....	7,313,900	2,473,300	1,300,000
Barley, bushels..	326,500	11,800	82,400
Oats, bushels....	3,956,600	1,577,200	1,269,700
Rye, bushels.....	159,500	210,600	271,000
Malt, bushels....	217,300	112,600	212,500
Feed, lbs.....	.....	4,144,900	4,527,200

Manchester and Parkton Railroad.

Work is still progressing on this road, and we learn that more than one-third of its entire length is graded and ready for the laying of the track. A preliminary survey, looking to the extension of the road to Bachman's Mills, has been made by Mr. Gitt, engineer, and the intention seems to be to extend it to that point as rapidly as the means of the company will allow. It is an important point to strike on account of the large beds of iron ore and lime stone.—*Balt. Sun.*

Petroleum as Fuel.

The Altoona *Sun* reports the successful trial of petroleum as fuel on a locomotive belonging to the Pennsylvania railroad. A few weeks ago the experiment was unsuccessful, in consequence of the giving way of the gum hose used to convey the oil to the receiver. On the recent trial an improved pipe was used, and the locomotive, being chilled throughout, in seventy minutes' time had generated sufficient steam to fill the boiler to its utmost capacity, and to run the engine up the mountain. The petroleum does not come in contact with the fire, but by a system of tubing a vapor is generated, which passes into the furnace, and makes, it is alleged, an intense but easily controlled fire.

Police on the Railroads.

It is stated that a number of conductors on the different roads in the State hold commissions from the Governor, investing them with all the powers of policemen, to make arrests and quell disturbances when necessity requires. This will be a notable improvement to the comfort and convenience of the respectable portion of the traveling public, and will tend to suppress a number of petty annoyances to which passengers are at times subjected. Any refractory or turbulent rough or loafer can immediately be placed under arrest and disposed of at the stations along the road. The confidence men, too, will find their occupation gone, and will have to seek new fields of enterprise to exhibit their deft skill, and unsurpassable impudence. This system should govern all roads throughout the country.—*Albany Journal.*

☞ The Kansas Pacific railroad has been completed and opened to Denver. The Denver Central City and Georgetown Railroad is a fixed fact; so also is the Denver and Boulder Railroad. The Denver and Golden Railroad will be completed in one month. This will make five railroads centering at Denver.

☞ James Jenkins and Carlton Foster, of Oshkosh, and A. M. Skeels and J. Dobbs, Jr., of Ripon, have been elected directors of the Oshkosh and Ripon railroad company. It seems to be generally conceded that the section of the road between Oshkosh and Ripon should be constructed at once.

☞ There are now 14,247 miles of railway in England, representing an aggregate capital of $2,511,314,435, and occupying 289 square miles of territory, or one acre in every 273 of England and Wales; one in every 8,123 in Scotland, and one in every 853 in Ireland.

☞ In Belgium there are 1,250 miles of railroad, making an average of two and a half miles to every 10,000 of the population, or ten miles to every 100 square miles of territory. These railroads were constructed at an average cost of $91,500 a mile.

☞ Prussia has 3,800 miles of railroad, making an average of two miles to each 10,000 of the population, or four miles to each 100 square miles of territory. The average cost of construction was $83,700 a mile.

☞ The first twenty miles of the Cairo and Fulton Railroad will be graded and ready for the ties by the 1st of September.

☞ The amount of railroad bonds voted by the Michigan towns is $4,072,275 80, of which $361,400 has been issued to the companies.

☞ A meeting has been lately held in Dutchess county, to agitate the extension of the railroad now in process of construction between Carmel and Lake Mahopac, in Putnam county, passing midland between the Hudson River railroad and Harlem railroad; from thence through the towns of Washington, Stafford and Milan, in Dutchess county; Gallatin, Taghkanic, Claverack, Ghent and Kinderhook, in Columbia county; and Schodack and Greenbush, to Albany.

☞ The Troy *Press* says that work in the Bessemer Steel Works is more brisk than ever before. Fourteen "heats" are run out every twenty-four hours now, against twelve heretofore, making on the average seventy tons of steel per day. The manufactured steel goes to the Rensselaer Works where it is rolled into rails. There is great demand for steel rails on the Southern and Western railroads.

☞ A part of section four of the Tax and Tariff law, recently passed by Congress, reads as follows: "That on and after the first day of October, 1870, the stamp tax imposed in Schedule B, on promissory notes for a less sum than one hundred dollars, and on receipts for any sum of money, or for the payment of any debt, and the stamp tax imposed in Schedule C, on canned and preserved fish, be, and the same are hereby, repealed."

☞ The Vermont *Freeman* says that a competent engineer has been making preliminary surveys, preparatory to a locating and working survey of the Montpelier and Wells River road, from the depot in Montpelier southeasterly for some few miles.

☞ The California and Oregon Railroad has been finished fifty miles north of Marysville, and will be completed to Tehama about the first of September. The survey of the Oregon and California road has been made to the State line and graded to Salem.

☞ The Toronto *Monetary Times* says that a committee consisting of Sir Francis Hincks, the Hon. Mr. Aikins, and the Hon. Mr. Morris, has been appointed to consult with the Government of Ontario in reference to the construction of a railway between Fort William and the Pacific. It is expected that Ontario will appropriate a portion of her public lands towards this great enterprise.

☞ The Cecil *Democrat* says that the Philadelphia, Wilmington and Baltimore Railroad Co., are removing the iron rails from the track in the vicinity of Elkton, and substituting steel ones. Experience has proven that though steel costs more, its greater durability renders it cheaper in the end.

RENSSELAER POLYTECHNIC Institute, Troy, N. Y.—Full Courses of Instruction in Civil, Mining, and Mechanical Engineering, Chemistry, and Natural Science. Appropriate degrees conferred. Re-opens Sept. 14. For the Annual Register, giving full information, address Prof. CHARLES DROWNE, Director.

RAILS.

3,000 tons 56 lbs. Fish bar pattern.
3,500 " 50 lbs. " " "
Now in yard and to arrive soon for sale by
PERKINS LIVINGSTON & POST,
31 New Street.

THE NEW JERSEY STEEL AND IRON COMPANY,
TRENTON, N. J.,
And 17 Burling Slip, NEW-YORK,
Would call special attention to their
MARTIN STEEL,
Acknowledged by all who have used it to be the best material now made for
Firebox Plates, Locomotive Crank Pins, Piston Rods, Axles,
And all the finer machine purposes, such as
Rollers for Cotton Machinery, Lathe Screws, Sewing Machine Work, &c., &c.
The special features of this Steel are its ***Remarkable Toughness,*** its softness and entire freedom from hard spots, which obviate the necessity for annealing before turning.
The process by which this Steel is made differs entirely from any other in use, enabling it to be sold at lower prices than any other good steel, while it possesses properties hitherto unknown, and which are of the greatest importance for many uses.

TO CONTRACTORS.

THE AMERICAN AND MEXICAN RAILROAD AND TELEGRAPH COMPANY, at No. 71 Broadway, Room 31, New York, having secured the approval of the Government of Mexico of their surveyed routes from Guaymas to Hermosilla and through the States of Sonora and Chihuahua to the Rio Grande, are prepared to receive proposals for grading the road, furnishing and laying cross ties from Guaymas to Hermosilla, a distance of 80½ miles.
The proposals must be handed in on or before the first day of November next, and be made *for sections* and include excavations of rock and earth, and bridging, and be so made as to enable the Company to ascertain the cost per section as laid down on the Company's map and profile, which are now in their office for inspection. The Company reserves the right to reject any bids which in their judgment they deem advisable.
Per order of the Board of Directors.
Office hours 10 A. M. to 3 P. M.
JOSEPH BRITTON.
WM. H. DEGROOT,
WM. B. MAXSON,
Executive Committee.

CANADA AIR-LINE RAILWAY COMPANY.

The Directors of the Canada Air Line Railway invite tenders for the construction of their Line. Plans and specifications for the section from Glencoe to Aylmer will be on exhibition at the office of the Chief Engineer, G. L. REID, Esq., Hamilton, from the 22d August next.
All offers must be in the hands of the undersigned before the second day of September next, marked "Tenders for Construction of Canada Air-Line Railway."
JOSEPH PRICE, Secretary,
HAMILTON, Ontario, 25th July, 1870.

To Railroad Companies.

AN ACTIVE, ENERGETIC BUSINESS MAN, with thirty years experience, and a good knowledge of General Merchandise—*who has made the art of* BUYING *an especial study*—and who thoroughly understands the markets of New York City and New England—and is well acquainted in our Western Cities—desires a position as "Buyer of Supplies," for a Railroad or large Manufacturing Establishment. Abundant reference of the most unexceptionable character, as to qualifications, ability, integrity, &c., will be furnished.
Address, P. O. BOX, 480,
- 6t33 Wilmington, Del.

ST. JOSEPH AND DENVER CITY

DEPARTMENT OF DOCKS, 346 AND 348 BROADWAY, NEW YORK, July 16, 1870.

THE COMMISSIONERS OF THE DEPARTMENT OF DOCKS, having received, in accordance with the provisions of Sec. 33, of Chap. 383, laws of 1870, in public meetings, various plans for the establishment of permanent wharf accommodations for the commerce of New York, they now, in accordance with the further provision of said section, advertise for plans for the best method of improving the water front and harbor of the city of New York, by a new system of wharves, piers, docks, basins, and slips, which shall accommodate the present commerce of the city and harbor, and shall provide for the future expansion thereof, and for the facilitation of the transportation of freight along the water-front, so as to render the whole water-front of the city available to the commerce of the port.

Said plans will be received until September 15, 1870.

Plans are solicited that shall contain provision for the special accommodation of steamers and vessels engaged in foreign trade, in domestic trade, in the coal trade, in the trade in lumber and building material, in the hay and grain trade, in furnishing market supplies; also, for the accommodation of steamboats plying to places on the Hudson River and Long Island Sound, for the canal boats arriving in this city, and for the railroads and other commercial interests.

Plans should be accompanied by all necessary documents, estimates, and particulars.

PRATT'S
PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

Exhibition of the American Institute.

The Board of Managers of the American Institute announce that the Empire Skating Rink on Third-avenue, near Sixty-second street, having just been enlarged and improved, is now open for the reception of goods, and on Wednesday, Sept. 7, the Grand Exhibition will be formally opened to the public by an address at 12 M. It will continue open every secular day until Nov. 2, when the closing address will be delivered and awards to successful exhibitors announced.

The following is a list of the new officers chosen for the present year:

Horace Greeley, President.

Wm. Hall, Chas. P. Daly and Nathan C. Ely, Vice Presidents.

George Peyton, Recording Secretary; Samuel D. Tillman, Corresponding Secretary; Sylvester R. Comstock, Treasurer.

Board of Managers—Orestes Cleveland, Wm. H. Butler, J. G. Herriot, C. W. Hull, Wm. S. Carpenter, George Timpson, J. W. Stratton, James Knight, Thos. Rutter, Thos. Hicks, Samuel R. Wells, J. B. Lyman, J. T. Smith, Wm. Shriver, W. E. Pease, Thos. D. Stetson, Jas. R. Smith, Chas. E. Burd, E. S. Dickinson, Chas. H. Clayton, Henry J. Newton, A. M. Eagleson, Frank Everdell, Thos. Varker.

The managers expressly desire and urge exhibitors to hurry forward all goods not of a perishable character at once, thus securing good locations for exhibition and also avoiding the inevitable rush of articles which always occurs about the day of the public opening.

The building enlargements and improvements, including decorations, painting and refitting, have been quite extensive, involving an expense of about $12,000. A largely increased area of the space has been secured by leasing adjoining lots of ground, thereby enlarging the exposition and machinery departments to the extent of about 100,000 square feet. The painters are now at work, and the interior woodwork is all being painted white.

The Second-avenue entrance to the building has just been enlarged, and is now especially adapted to the reception of machinery. A new adjoining building, forty feet square, has just been completed, which is especially designed for steam power. New main lines of shafting, with stationary engines, provided with water and gas pipes, has been erected by the managers.

The Third-avenue main public entrance is being improved by enlargement, and a covered passage-way to the sidewalk, which is to be covered, painted and lined on either side with evergreens and flowers. Facilities for visitors reaching the Fair this fall have been considerably increased by the extension of the Madison-avenue railway line, which is now running cars from the Astor House to Yorkville.

A new Belgian pavement has been recently completed in East Sixty-fourth street from Fifth to Third avenues, making a fine carriage way from the west side to the east.

The managers have issued the following circular:

"The desire expressed by many to avail themselves of this occasion to exhibit their products will not excite surprise. American skill and invention are making such rapid strides in every branch of the useful arts, that no adequate conception can be formed of the actual advance unless specimens of improved machines and processes can be frequently submitted for examination and comparative tests. In the Old World the development of new plans for utilizing the forces and products of nature is so slow and uncertain that annual displays of skill and handicraft, under the auspices of a single Government, is not deemed essential. An international exposition once in a decade of years seems to satisfy the pride and curiosity of the European public; but in our own country the love of novelty, the passion for improvement, and the yearning for a better way, is so strong and general, that annual industrial exhibitions are demanded, and those who can afford to try new methods and processes, for their own benefit, are found to be the unfailing patrons of such displays. It must be admitted that country and State fairs and exhibitions by incorporated societies are very frequent, yet in most instances they do not excite unusual interest, except in their immediate neighborhood.

The American Institute may, therefore, be said to stand alone in its aim to be national in its character and influence. Its chief object is to call together, from all quarters of the Union, at stated periods, specimens of the best work, the greatest skill and the rarest ingenuity, and to test their comparative merits. The annual exhibition of the Institute, on account of its completeness, may be regarded as the best index of American progress.

It affords unusual facilities for the display of new inventions, and by its long continuance gives all classes of visitors ample time to satisfy themselves as to the actual value and merit of any article they may desire to use, thus affording to manufacturer and purchaser, to producer and consumer, a golden opportunity. To those who have failed to secure the highest award at former exhibitions, it holds out strong inducements to again present their work and inventions in such improved form as will enable them to bear off the palm, and their expectation in this regard will be naturally increased by the assurance that the managers use their best endeavors to select competent and impartial judges, whose decisions will not be overturned or invalidated by any personal bias or official interference.

A permanent classification of articles on exhibition has been arranged, and seven departments selected. They are as follows:

1. Department of Fine Arts and Education, including seven groups, consisting of paintings, engravings, photographs, sculpture, musical instruments, printing, &c.

2. Department of the Dwelling, including seven groups, consisting of apparatus for warming, cook-stoves, lamps, kitchen-ware, carpets, furniture, doors, window-sashes, &c.

3. Department of Dress and Handicraft, including seven groups, consisting of apparel for males and females, cloths, jewelry, writing-desks, &c.

4. Department of Chemistry and Mineralogy, including seven groups, consisting of soaps, acids, leather, paints, dye-stuffs, flour, meal, &c.

5. Department of Engines and Machinery, consisting of stationary engines, pumping machines, machinery for working of metals and wood,

6. Department of Intercommunication, consisting of locomotive engines, carriages, models of vessels, telegraphic apparatus, fire engines, &c.

7. Department of Agriculture and Horticulture, consisting of plants, flowers, fruits, butter, cheese, mowers, reapers and products of the soil used in the arts.

The grade of premiums and testimonials will be as follows:

First Premium—Large medal and diploma, which may set forth the reasons which govern the judges in rendering their decision.

Second Premium—A medal and diploma. An entrance fee of $3 will be charged upon all goods for competition.

Tables for exhibitors are furnished by the managers without extra charge. No Petroleum or patent medicines will be allowed a place in the exhibition. No goods can be sold and delivered within the Fair.

The Board of Managers have nearly perfected arrangements with all the prominent railway, steamboat and express companies to severally return freight free all articles exhibited, the freight on which shall have been paid to New York. Several of the leading features of the exposition, which will probably become popular, are entirely new inventions. Among others is a large church organ by Jardine, which is expected to work upon a new principle through the adoption of a pressure of twelve pounds. This musical instrument will be placed against the rear eastern wall, in an elevated position, about twenty feet from the floor.

One of the largest soda water fountains ever built will be erected in the middle of the main hall.

A newly-invented hotel elevating apparatus will also be on exhibition and in working condition, treating those who may desire it, to a ride to the top of the Rink.

The Committee of Fine Arts and Education, consists of Messrs. Newton, Stetson, and Clayton. On Engines and Machinery, Messrs. Shriver, Stratton and Dickinson. On Agriculture and Horticulture, Messrs. Carpenter, Lyman and Burd.

Boston, Concord and Montreal Railroad.

The earnings of this road for the years ending March 31, 1869 and 1870, were as follows:

	1869.	1870.

In hands of superintendent less than last year		2,187 74
Total		$330,746 55
Appropriated as follows:		
Paid coupons, back coupons, interest on over-due bonds, etc		$59,764 73
Paid preferred stock dividends		48,584 00
Wood, oil and stock on hand more than last year		3,049 21
Engineer department more than last year		6,757 32
Paid Trustees of sinking fund		12,500 00
Paid sundry expenses		3,120 82
Bonds and cash on hand		197,020 97
Total, as above		$330,746 55

Compared with the previous year, the gross earnings show a decrease of $18,041 20; with an increase in expenses of $36,530 44—making a decrease in the net earnings of $54,571 64. The report says:

The amount of gross earnings is somewhat less than last year, resulting from the interruption of business caused by the unusually severe freshets of last fall.

We have added to the equipment this year, 1 first-class freight engine, 2 monitor-top passenger cars, 2 monitor-top smoking and baggage cars, and 10 gravel cars, and have built 8 box and 55 platform cars.

We have made full and ample repairs on both engines and cars, so that they are all in good order and conition for business.

We have built a passenger depot at Ashland, and a dwelling house and depot combined, at Warren summit.

We have laid 44,500 new sleepers and have also laid 1,400 tons of new 56-lb. iron, taken up, repaired and relaid 10,700 old rails, and have taken up 750 tons of light iron and disposed of the same to the Extension. This makes the road, so far as iron is concerned, in better condition than it ever has been. The above will explain, in part, while the balance of net earnings is less than the previous year.

There has been no change in our business with connecting roads, since our last report, and no definite agreements have been made. The two dividends for the year, on the preferred stock, have been declared and paid, and are charged in the accounts.

It was thought by some, that it would be advisable to pass the dividends, until the loss sustained by the freshets was made up. This, the directors considered, would be unfair to the preferred stockholders, as they had already been waiting about ten years, without receiving their interest.

We, therefore, have deemed it proper to pay them, and will continue to do so, regularly.

The usual payment of $12,500 has been made to the Sinking Fund, which, with its accumulation, amounts to $253,750.

The bonds of the road, known as Convertible Mortgage Bonds, amounting to $350,000, viz: $200,000 seven per cent. bonds and $150,000 six per cent. bonds become due on the 1st day of July next, and are to be provided for. The directors propose to extend the time of payment for five years, and to attach new sets of coupons, at the same rates of interest, for that time.

As this is now the first mortgage on the road, there can be no question as to the security, it being a first class one in every respect.

The holders of over one half the amount of bonds have signified their acceptance of the proposal.

The road sustained heavy damage and injury from the unusual and severe freshets in October last, there having been some seventy places or more where culverts were carried away, together with breaks in the road, some of which were of a frightful character, being from 175 to 200 feet in length, and from 40 to 60 feet in depth.

The most of the same has been rebuilt, repaired and filled up, so that the road is now in good running order.

The expenses of the damage have been very large, the amount of which, as yet, cannot be fully determined.

The extension of the White Mountains, N. H., Railroad was opened to the Wing road in Bethlehem and the line of the town of Whitefield on the 1st day of October last, but the severe freshet which came soon after carried away the bridge and abutments at Littleton, and damaged the road so that we were not able to rebuild and repair so as to be running, until about the 1st of January, since which time we have been running regularly to the Wing road.

The directors, in the fall and winter, made contracts to build the road from Whitefield line to the Ruggles highway in Dalton, and it is now about completed and the iron laid, and we intend to be running to Whitefield village by the 1st day of June.

They have also to report that they have made a contract with Messrs. Thompson and Lindsay to do the grading, etc., from the highway in Dalton to Israel's River in Lancaster, to be finished so that the cars can be running to Lancaster by the first day of January, the contractors assuming and taking the notes or bonds voted by the town of Lancaster in part payment.

There has been paid for the extension, to this time, about $165,000. This amount has been raised outside and is not included in the accounts, but is to be arranged hereafter.

When the extension is completed to Whitefield and Lancaster, the directors feel confident it will increase the receipts largely, and prove of great advantage, and think it for the interest of the road to continue it to Northumberland and to connect with the Grand Trunk Railway, and eventually arrange to build or to extend to Colebrook and the towns in the upper part of the State.

At the session of the Legislature in June last, a charter was obtained by this road to build a branch road from the Wing road station to Sawyer's bridge and the foot of Mount Washington.

The directors have had surveys made and find the route a feasible one, and think it for the interest of this corporation to build as far as Sawyer's bridge, provided the assistance that has been proposed by individuals be given.

The total number of passengers carried during the year was 130,899; equal to 7,853,940 carried one mile. Total number of tons of freight, 67,376; equal to 4,042,560 tons carried one mile.

TRIAL BALANCE, MARCH 31, 1870.

Construction		$2,850,000 00
Wood, oil, etc., on hand		22,821 18

Treasurer.—EDWARD HARLOW.

Superintendent.—J. A. DODGE.

New York and Boston Air Line R. R.

At a recent meeting held in New Haven, to hear a report from the directors of the Air Line Railroad, as to the condition of the work along the line, Mr. Lyman, the president, made a statement of the amount of work done and money expended. On the western division, extending from

New Haven to Prospect street in Middletown (which is all completed and the cars running), there has been expended $993,869 19; on the Middletown division, extending from Prospect street to Portland, to a point fifteen hundred feet east of the river, and including the bridge, there had been expended in work and material $299,794 00; and on the eastern division, between Portland and Willimantic, there had been expended $1,221,504 85. This, together with $442,212 expended for the right of way, station grounds, equipment, engineering expenses, &c, makes the total amount expended up to this time $2,957,380 04. The amoont of money necessary to complete the middle division, including the bridge, is $237,020, and to complete the eastern division entire $874,511. Of the 27 miles of road east of Portland, 20 of it is graded and ready for laying the ties, and $75,000 worth of iron was on the the ground ready to be laid. It is expected that with an additional credit from New Haven for $500,000, the company will issue bonds for as much more, on the provision made in the charter, and thus be possessed of the means to complete the road within eight months.

North Carolina Railroad.

The gross earnings of this road for the years ending May 31, 1869 and 1870, compare as follows:

	1869.	1870.
From passengers	$196,187 95	$233,753 52
" freights	864,140 90	405,066 63
" mail	16,725 00	16,725 00
	$577,053 85	$655,545 15
Expenses, viz:		
Old	$68,972 99	$73,520 08
New	401,110 87	393,128 94
	$470,083 86	$466,649 02
Excess of earnings	$106,969 99	$188,896 13

In expenses, the word "old" means interest on old debts and unadjusted claims not entered on the books previously to this fiscal year. The word "new" means current expenses. Of the above "old" in the fiscal year 1868-'69, $41,145 29 is for interest, and $27,827 70 for other debts; and in 1869-'70, $46,932 86 is for interest, and $26,587 22 for other debts. Excluding the "old" entries, the net earnings for 1868-'69 would be $175,942 98; and for 1869-'70, $262,416 21.

Of the current expenditures for 1869-'70, ($393,128 94,) the following are regarded as extraordinary:

New railroad iron, chairs and spikes	$53,450 38
Buildings and bridges	15,163 21
Interest and discount	47,742 71
Incidentals	2,903 44
Rebuilding engines	5,373 70
Building cars	9,367 19
	$134,000 63

—leaving the net operating expenses for the year $259,128 31; and the net earnings over operating expenses, $396,416 84, an increase over the previous year of $80,596 08.

The general income accounts for the two years under review compare as follows:

Receipts:	1869.	1870.
Earnings, as above	$577,053 85	$655,545 15
Old iron sold	58,388 60	41,814 33
Other property sold	1,525 99	3,734 34
Rents	5,481 51	4,925 73
Shop account	2,623 85	1,257 26
Interest	7,262 67	6,096 90
Mileage of cars	4,843 64	6,469 92
Miscellaneous	987 31	358 86
Total receipts	$658,117 42	$720,202 49
Expenditures:		
Transportation	$119,067 46	$144,500 26
Motive power	25,928 02	32,817 63
Cars	39,612 52	52,232 41
Maintenance of road	94,040 07	106,057 25
Subsistence	17,716 95	6,214 76
Maintenance buildings	9,662 07	9,730 39
" bridges	8,269 43	5,529 72
Stock killed	1,583 25	2,294 53
Interest	71,390 12	47,742 71
Incidentals	7,289 49	4,741 96
New rails, chairs and spikes	72,655 34	53,450 38
Taxes	2,869 14	2,337 02
Total expenditures	$470,083 86	$466,649 02
Excess of receipts	$188,033 56	$253,553 47
Included in the expenses are "old" as follows	69,972 92	73,520 08
Excess of receipts over "new" or current exponses	$257,006 55	$327,073 55

The following is a condensed exhibit of the business of the company for the fiscal year ending May 31, 1870:

Assets on hand at commencement of year	$110,522 93
Real estate sold	1,211 00
Claims passed to profit and loss	5,772 33
Supplies on hand Sept. 1, 1869	28,905 85
Receipts	720,279 45
Increased liabilities	103,931 26
Total	$970,622 82
Ordinary and extraordinary exp	$466,649 02
Paid stock N. W. N. C. R. R. Co	20,000 00
Paid for real estate	113 00
Amount of dividend No. 10, declared Feb. 16, 1870, 3 per cent. on April 1, 1870, and 3 per ct. on July 1, 1870.	240,000 00
Cash and cash assets	216,846 99
Supplies on hand May 31, 1870	27,013 81
Total, as above	$970,622 82

Number of through passengers carried, 17,007; do., local do., 75,958—total, 92,963. Tons of through freight, 53,881; do., local do., 36,955—total, 90,836. Bales of cotton shipped, 44,553.

The financial condition of the company now and one year ago is thus compared in the report of the Treasurer:

The debt of the company reported and entered on the books of the company on the 31st May, 1869, was $677,859 04, to which add $73,520 08 of old debts, not reported and entered on the books of the company, but which have been paid during the year. We have the total debt of the company on the 31st May, 1869, of $751,378 12, to which add $240,000 for dividend No. 10, declared Feb. 16, 1870, we have the debt of the company for the year $991,379 12, of which amount there has been paid during the year $209,173 82, leaving the debt of the company as shown by the books of the Secretary on the 31st of May, 1870, to be $782,205 30, which debt may be decreased by assets on hand $243,860 80, and the probable reduction on negro bonds of $27,000, leaving actual balance to be paid $511,844 50.

The general exhibit of the business of the Company for the fiscal year, shows an increase of the debt of the Company of $103,931 26, the cause of which will be readily seen is by the dividend of $240,000, declared on the 16th February, 1870, and old debts of $73,520 08, not reported and entered on the books of the Company, and the difference in assets now and one year ago, all of which is necessary to show up in the fiscal year closing May 31st, 1870.

The total bonded debt of the Company under the Mortgage is $490,500, of which amount $120,000 is in five year bonds, $193,000 is in ten year bonds, and $177,500 is in twenty year bonds.

There yet remains unpaid of the Loan due March 1st, 1867, $64,500, which we are anxious to close out during thie year. The amount paid out during the past fiscal year for freight and other damages, exclusive of stock killed, has been $19,254 71, of this amount about $17,000 has been paid in settlement of suits against the Company for accidents to passengers, burning of cotton, &c., which suits were brought against the Company before the present administration came in. Some of the suits have been pending for years.

The future prospects of your road are cheering, its business is increasing year after year, and its present excellent condition can be maintained, with but comparatively little increase on the expenses of the past two years.

It is a matter of congratulation that your Road has been enabled to pay a cash dividend of $240,000 from its actual earnings during the year.

The financial condition of the company as of May 31, 1869 and 1870, is thus stated in the general ledger balances:

	1869.	1870.
Capital stock	$4,000,000 00	$4,000,000 00
Loan 8 per cent. due March 1, 1867	95 000 00	64,500 00
Interest due on same	1,880 00	1,620 00
Mort. loan 8 per ct. due Nov. 1, 1872.	153,000 00	120,000 00
Interest due on same	1,020 00	280 00
Mort. loan 8 per ct. due Nov. 1, 1877.	166,000 00	193,000 00
Interest due on same	1,640 00	440 00
Mort. loan 8 per ct. due Nov. 1, 1888.	146,000 00	177,500 00
Interest due on same	520 00	540 00
Dividend certificates fundable in 20 yrs' 8 per cent. mort. bonds	6,980 00	2,524 00
Dividend No. 9, balance payable in 20 years' 8 per cent. mort. bonds	8,250,00	8,120 00
Due on dividends	867 00	127,251 00
Temporary loans	18,530 00	1,200 00

List of U. S. Patents.

Issued for Improvements in Railroad Construction, Rolling Stock, &c., for the week ending Aug. 23d, 1870, and each bearing that date.

Reported weekly for the RAILROAD JOURNAL, from the Office of DAVID A. BURR, Solicitor of Patents and Attorney in Patent cases, Washington City, D. C.

No.

106,558—Ventilating Window for Railroad Cars, Samuel Darling, Providence, R. I.

106,589—Machine for repairing Boiler Flues, Joseph Hughes, Bloomington, Ill.

106,615—Railway Car Seat, Joseph J. Pease, Stockbridge, Mass.

106,625—Preserving Wool, Alex. J. Sheldon, Buffalo, N. Y.

106,635—Railway Car Axle, Fredk. Sturneyk, St. Paul, Minn.

106,647—Method of preventing decay in the timbers of bridges, buildings, &c., Augustus Allen, Cass Co., Mich.

106,648—Steam Coupling for R. R. Cars, Samuel A. Appold, Baltimore, Md.

106,662—Steam Generator, Jno. M. Clark, New York, N. Y.

106,668—Nut Lock, David Cumming, Jr., Brooklyn, N. Y.

106,669—Slide Valve for Steam Engine, Francis Curtis, Newburyport, Mass.

106,727—Pumping Engine, Louis C. Rodier, Springfield, Mass.

106,737—Means for adjusting wheels to different gauges, Wm. B. Snow, New York, N. Y.

106,739—Railway Car Seat, W. Horace Soper, Baltimore, Md.

Mexican Railway.

The Tenth ordinary general meeting of this Company was held in London on the 28th of June. Mr. R. W. Crawford, M. P., in the chair. The Secretary having read the notice convening the meeting, the following report was taken as read:

REPORT OF THE DIRECTORS.

The annexed report of Mr. Samuel, the consulting engineer to the Company, will inform the Shareholders of the satisfactory condition of the upper section of the line, and of the progress which had been made at the date of the latest advices, with the prosecution of the works on the lower section between Paso del Macho and Fortin. It justifies the hope, that the present toilsome and costly methods of transit through the difficult pass, by which the commerce of Mexico has hitherto found its way, in the fair season of the year, between the capital and the State and its most important seaport, Vera Cruz, will be superseded before many months have passed away by the safe and speedy communication of a railway, open for traffic at all times and seasons of the year. The Shareholders are probably aware of the important inquiries which have been for some time carried on before commissioners sent to this country by the Government of Russia, and a deputation of gentlemen selected for the purpose by the Secretary of State for India, into the merits claimed by its promoters for the method of railway construction and working known as the Fairlie system. These investigations have been attended by representatives of this Company also, and the chief engineer, Mr. Buchanan, being now in this country, is carefully considering the advantages of the system, with the view of determining how far it may be desirable to apply it in the prosecution of the works remaining to be completed. The following statements show the results of the working of the opened sections of the railway for the year 1869:

Statement of the traffic receipts, expenses, &c., on the railway from Mexico to the Puebla junction at Apixaco (86 miles), from 1st January to 31st May, from Mexico to Santa Anna, from 1st June to 11th September, and from Mexico to Puebla (115 miles) from 12th September to 31st December, 1869:

1869.	Gross receipts. £	Working expenses. £	Net profit. £
January	7,809	4,930	2,879
February	7,018	4,737	2,281
March	8,157	4,842	3,315
April	7,643	5,001	2,642
May	7,699	4,868	2,837
June	6,965	5,765	1,200
July	8,413	6,867	1,545
August	8,215	5,957	2,257
September	8,980	6,046	2,934
October	10,610	6,793	3,817
November	11,415	6,703	4,712
December	12,776	7,304	5,471
Total	105,699	69,813	35,886

Statement of the traffic receipts, expenses, &c., on the railway from Vera Cruz to Paso del Macho (47 miles), from 1st January to 31st December, 1869:

1869.	Gross receipts. £	Working expenses. £	Net profit or loss. £
January	2,448	2,490	L 43
February	1,844	3,785	L 1,941
March	2,181	2,546	L 365
April	2,442	2,821	L 418
May	2,251	3,291	L 1,040
June	2,580	3,026	L 446
July	2,159	2,951	L 791
August	2,300	2,814	L 513
September	1,565	2,618	L 1,052
October	2,215	2,584	L 369
November	2,483	2,818	L 334
December	3,159	2,880	P 279
Total	27,830	34,664	Loss 7,034

The earnings on the upper section for four months of the present year given below are satisfactory, as compared with the earnings for the same period of last year; and with regard to the lower section, which was kept open at a loss in consequence of its defective condition during the greater part of the year 1869, it will be observed from the particulars of the earnings for the first three months of the present year, also given underneath, that this section is now being worked again with a small profit.

Statement of the traffic receipts, expenses, &c. on the railway from Mexico to Puebla, (115 miles), from 1st January to 30th April, 1870:

1870.	Gross receipts. £	Working expenses. £	Net profit. £
January	11,925	5,900	6,025
February	9,774	7,227	2,547
March	11,900	6,821	5,080
April	11,476	5,399	6,077
Total	45,075	25,346	18,729

Statement of the traffic receipts, expenses, &c., on the railway from Vera Cruz to Paso del Macho (47 miles), from 1st January to 31st March, 1870,

January	3,352	2 731	621
February	3,111	2,734	377
March	3,598	3,438	160
Total	10,060	8,903	1,157

The Shareholders may have noticed that a weekly statement of the earnings on the upper section for the present year has for some time past appeared in the public journals. The following tabular statements enter into details not given in these weekly returns, with reference to the total weight of merchandise, &c., and the numbers of 1st, 2nd and 3d class passenger conveyed on the Mexico and Puebla line, down to the date of the more recent returns:

Statement of merchandise traffic on the Mexico and Puebla line from the 2nd January to the 30th April, 1870.

	Tons.	£
General merchandise	7,882	13,954
Pulque	10,992	14,373
	18,874	27,327
Carriages, animals, specie, jewelry, &c		1,955
Total		£30,282

Statement of passenger traffic on the Mexico and Puebla line from the 2nd January to the 30th April, 1870.

Passengers—1st class	4,047
" 2nd "	49,952½
" 3d "	30,130½
" Military	4,202
Total passengers	88,332
Total receipts, including excess luggage	£13,664

Of the total weight of general merchandise carried on the upper section for the first seventeen weeks of the present year, it thus appears that considerably more than one-half consisted of the national beverage, Pulque, yielding the large sum of £14,372, or upwards of 50 per cent. of the total receipts from general merchandise. It has been observed that the popularity of the enterprise, both with the Government authorities and the general public of Mexico, has never been so great as it is at the present time. As travellers from Vera Cruz to Puebla and Mexico, in going along the ordinary road, can see from the diligence many of the largest and most difficult works of this section, in active operation, close to the road-side for a distance of about seven miles, —comprising such as the Paso del Macho and Chiquihuite bridges,—both the Government and the people of Mexico have before them evidence of the energy with which the Government is constructing this important part of the line. From the last advices received by the board from Mexico, bearing date the 10th of May, it would appear that these opportunities of knowing what the Company has done, and is doing, have produced a very favorable impression.

	15 per cent. Duties. £	12 per ct. Duties. £
The gross sums received from the Government of Mexico during the year 1869 were	122,801	68,915
And for the first three months of the present year	37,443	25,183

The closed accounts for the year ended 31st December, 1869, have not yet been received from Mexico, but being promised by the mail due at the end of this month, the board propose, in submitting this report, to adjourn the general meeting until the day appointed for the second special meeting required to complete the statutes, when the accounts will be laid before the Shareholders in the usual form. In their report of the 21st December, 1869, the Directors informed the Shareholders that the Government of Mexico had approved the Statutes of the Company, subject to the addition of certain new articles which appear in the notice of the extraordinary general meeting printed on the back of the present report. The Government has also required that the word "shall" shall be substituted for the word "may" in Article 66 of the Company's Articles of Association, and the Directors have no hesitation in presenting both this alteration and the additional Articles to the Shareholders for adoption, with a view to the establishment of the internal relations of the Company with the Government of Mexico on a permanently satisfactory basis. Copies of the Decree of the Mexican Government

of the 27th November, 1867, as modified by the Decree of the 11th November, 1868, can be obtained by the Shareholders upon application to the Secretary at the Company's offices.

The following is the report of Mr. James Samuel, the consulting engineer:

GENTLEMEN:—My last report on the state of the open sections of the Mexican railway, and on the portions of the line under construction, was dated 16th December, 1869, and I have now the honour of handing you a report of the progress made in construction since the 9th November, 1869, the date when the works were resumed; and also on the condition of the open sections from Vera Cruz to Paso del Macho, and from Mexico to Puebla.

Vera Cruz to Paso del Macho.—The sleepers on about 37 miles of this portion of the line have been entirely renewed, leaving about ten miles to be done. The rails have been straightened wherever required, and the timber trestle bridges have been repaired, and are now in sound condition; and Mr. Buchanan, the chief engineer in Mexico, reports that a marked improvement has been effected in the general state of the permanent way. The new sleepers are of "sapote," a native timber found in certain districts of the Tierra Caliente, and possessing great durability. When the renewal of the sleepers on this section is completed we may expect with confidence that a very considerable reduction in the maintenance of way, and also in the repairs of locomotives and rolling stock, will be effected, as the dilapidated condition of this line has hitherto been one of the principal causes of the excessive working expenditure in the locomotive and permanent way departments. The iron bridge over the river Jamapan at Soledad (now completed) is a strong and permanent structure, but immediate attention must be given to the removal of the present timber trestle work on either side of the approaches to the bridge, and the substitution of iron girders and earthwork in lieu thereof, as recommended in my report to the board dated the 22nd April last.

Mexico and Puebla.—By the last advices, I learn that the general condition of this portion of the line, 115 miles in length, is satisfactory, and the trains are running with great regularity; no extra expenditure in the maintenance of way or works during the rainy season is anticipated. The renewal of the timber sleepers still continues to form a heavy item in the current working expenses. The cast-iron pipes for the San Cosme Water Works, as required in terms of the concession, have been laid for a distance of about 1,400 feet, in substitution of the stone aqueduct in front of the station at Buena Vista, in the City of Mexico.

Paso del Macho and Fortin.—The construction of this section of the line, 24 miles in length, was resumed on the 9th November last, and has been carried on as rapidly as the financial resources of the Company have permitted. The iron bridge over the Barranco at Paso del Macho, with a central span of 135 feet, and two side spans of 58 feet each, and also two girder bridges—one of 47 feet and the other consisting of three spans of 40 feet each—are all completed. The masonry of the piers and abutments of the San Alejo bridge is completed, and ready for the iron work of the superstructure, which has doubtless arrived ere this time. This bridge consists of five spans of 66 feet each. *Chiquihuite Bridge.*—On the 11th May last all the masonry of this bridge, consisting of one span of 110 feet, and two side spans of 60 feet each had been completed, and the ironwork was in course of erection. At the same date the masonry of the bridge over the Atoyac river of three spans of 100 feet each, was in an advanced state; and Mr. Buchanan believes that, with the force then and since employed, it must now be ready for the superstructure. The culverts are completed as far as the Atoyac river, a distance of 6¼ miles from Paso del Macho; and of the two short tunnels, of 140 and 320 feet in length respectively, on the 11th May, the east heading of the first tunnel had been driven 10 feet, and the west heading 20 feet, and the east heading of the second tunnel had been driven 75 feet from the face, and the excavation carried down to formation level. The entire area of this tunnel has been taken out for a distance of 30 feet. *Earthworks.*—The earthworks for a distance of 5 miles from Paso del Macho to the first tunnel are completed, and for two miles farther they are in an advanced state. From Paso del Macho for 2 miles towards Chiquihuite the line is laid with cast iron sleepers, and has been properly lined up and surfaced. Several surveys have been carefully made, with the view of altering the course of the line, so as to secure a position for the Cordoba station nearer to that town than that originally proposed, in order to meet the wishes of the inhabitants; and a line has been selected by which this object will be accomplished without extra cost, and without involving sharper curves, but by increasing the gradient from 1 in 40 to 1 in 33. During the rainy season, which ends in September, it is not expected that rapid progress will be made in carrying out the earthworks, but the masonry and tunneling remaining to be done can be prosecuted with vigor.

Locomotives and Rolling Stock.—The following are the returns of the locomotives and rolling stock according to the reports furnished to me from the heads of these departments, dated 29th January, 1870, for the lower section, and 31st March, 1870, for the upper section: *Lower Section.*—11 locomotives and tenders in good condition, with the exception of one undergoing repair; 5 first-class carriages; 2 second-class carriages; 1 passenger break van; 47 covered goods wagons; 9 platform wagons; 24 ballast wagons. All the foregoing carriages and wagons are reported as in good condition. In addition to these, there were 81 French and 28 Belgium ballast wagons of the old original stock, which, being completely worn out, are now being broken up. *Upper Section.*—9 locomotives and tenders; 7 are in good working order: 1, an old American locomotive, requires thorough repair; and another is in the shop, having new tyres fitted on the tender wheels; 1 American "dummy" steam carriage: this is still running, but will shortly require a new boiler and other considerable repairs; 6 first-class carriages in good condition; 9 second class carriages; 14 third class carriages: ten of these are in good condition, one is being altered into a first-class carriage, and three are under repair; 2 passenger break vans in good condition; 38 covered wagons: all are in good condition except one, which has suffered from fire, and is under repair; 18 platform cars: three of these are without wheels at present, the rest are in good condition; 30 Pulque cars in good condition; 1 horsebox in good condition; 5 ballast wagons in ordinary condition.

Materials Shipped.—Bridge work, station, and telegraph materials, to the gross value of £10,670 6s. 8d., have been shipped during the past half-year, but as the contractors have not yet presented the invoices and bills of lading, I am at present unable to furnish the exact weights and quantities of each description of material.

DIRECTORS.—Robert Wigram Crawford, Esq., M. P., Chairman. William Barron, Esq.; George W. Campbell, Esq.; James H. Crawford, Esq.; Antonio Escandon, Esq.; Henry H. Gibbs, Esq.; Henry Goschen, Esq.; Joseph H. Gibbs, Esq.; J. Stewart Hodgson, Esq.; Louis Huth, Esq.; Thomas C. Sandars, Esq.

Caughnawa Ship Canal.

At a meeting of the stockholders in this company at Montreal, Canada, on the 18th inst., the following gentlemen were elected Directors for the ensuing year, viz:—Messrs. Benjamin P. Reed, D. N. Skillings, Benjamin P. Cheney, and Hon. Levi Underwood, United States; Hon. John Young, Messrs. John Pratt, Henry Hogan, Samuel W. Foster, and James R. Skead, Canada; and, at a subsequent meeting of the Directors, Hon. John Young was elected President, Hon. Levi Underwood, Vice President, and John Pratt, Treasurer.

Finances of the United States.

The following is a statement of the transactions of the United States Government from June 30, 1869, to June 30, 1870:

Net balance in Treasury June 30, 1869		$155,680,340 85
NET RECEIPTS.		
From customs	$194,538,374 44	
From internal revenue	184,899,756 49	
From sales of public lands	3,350,481 76	
From miscellaneous sources	23,466,864 94	
		411,255,477 63
		$566,935,818 48
From excess in conversion, &c., over the redemption of bonds, Treasury notes and fractional currency		1,270,213 87
Total net receipts for 1870		$568,206,032 35
NET EXPENDITURES.		
For civil and miscellaneous	$53,237,668 56	
For War Department	57,655,675 40	
For Navy Department	21,780,229 87	
For Indians and pensions	31,748,140 32	
For interest on public debt	27,702,338 03	
Total	$292,124,052 18	
For purchase of bonds for sinking fund	126,579,508 57	
		$418,703,560 75
Net balance in Treasury June 30, 1870		$149,502,471 60
The above statement shows am't of bonds purchased for sinking fund, par value		$109,050,000 00
Amount premium and accrued interest		17,629,508 57
		$126,579,508 57
Net balance in Treasury June 30, 1869	$165,680,340 85	
Net balance in Treasury June 30, 1870	149,502,471 60	
		6,177,869 25
		$120,401,689 32
Also deduct the receipts from excess in conversion, &c., of bonds, notes and currency		$1,270,213 87
Actual gain in 1870		$119,131,425 45

The above is a correct resume of the transactions of the Treasury for the fiscal year ending June 30, 1870, as appear from the official records of the Department.

WILLIAM A. RICHARDSON, Acting Sec'y.

Treasury Department, Aug. 20, 1870.

☞ The La Clede and Fort Scott railroad company has been organized to construct a railroad from Lebanon, Mo., a station on the South Pacific railroad, 187 miles from St. Louis, nearly due west through Buffalo, Bolivar, Stockton and Nevada City, Mo., to Fort Scott, Kan., a distance of 128 miles. A section from Fort Scott east to Nevada City, 19½ miles, and another from Lebanon 28 miles to Buffalo are in course of construction. The road will open a route from Fort Scott to St. Louis only 315 miles in length.

American Railroad Journal.

Saturday, August 27, 1870.

Stock Exchange and Money Market.

The offerings of Money on call have been fully equal to the wants of responsible borrowers since our last, and rates have been quoted steady at from 4@6 per cent.; while mercantile credits have been in less favor at from 7@9 per cent. per annum, for the range of prime to good paper. The west has been drawing currency from this point for grain moving purposes, in a moderate amount. The city banks, in their last weekly exhibit, showed a further falling off of over 9½ millions in their deposits, nearly 3⅜ millions in their specie reserve, and 1⅝ million in their legal tender average; while they reported a reduction of nearly 2⅞ millions in loan and discount item; and a small decrease in their circulation. Their legal tender average is now under 50½ millions, as against 61⅝ millions on the 28th of May (the highest average of the current year, thus far). Their deposits are now about 205½ millions, as against nearly 234½ millions on the 16th of July. Their specie average is down to about 20¾ millions, against 41⅛ millions four weeks since. The U. S. Sub Treasury lost about ¼ million of its currency balance; while it added about the same amount to its coin reserve.

The specie reserve of the city banks according to the latest return is $20,738,347, against $21,594,510 same time last year. The city bank deposits are now $205,531,318, against $192,024,540 week ending Aug. 20 1869. The legal tender reserve amounts to $50,353,286, against $53,070,831 same time last year. The circulation now stands at $32,839,567, against $24,028,104 same time last year. The loans are now $275,772,982, against $262,741,133 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $68,032,568 a day, against a daily average of $73,682,274 the preceding week. The current weeks' exchanges average about 83¼ millions a day. The city banks, last week, reported a loss of $3,370,956 of specie, and $9,543,176 of deposits, and $1,622,976 of legal tender notes. They reduced their loans, $2,874,637; and their circulation, $69,599.

The city bank exchanges on Wednesday were about 66½ millions.

The coin reserves of the Treasury Department on Monday were over $102,395,920 including $33,813,500 on deposit on private account; currency balances, $37,897,596.

National Bank notes to the amount of $257,495 were issued last week by the Treasury Department, making the total issue to 1,092 banks thus far, amount to $327,576,824, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $28,185,295 leaving, with the existing 1,612 banks, (having an aggregate capital of $427,235,701,) an actual circulation at this date, of $299,390,529. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $342,270,300; and for the public deposits, $16,366,500—making a total of $358,636,800. The Treasury Department last week redeemed and destroyed $495,600 of worn and mutilated fractional currency, and issued $779,406 of new.

The U. S. Sub-Treasury receipts, week ending with Aug. 20, were $3,946,502 in coin, (including $3,491,000 from customs duties,) and $4,475,698 in currency; payments, $3,711,192 in coin, (including $347,767 of coin interest,) and $4,724,876 in currency; balance at the close of the week, included $68,193,156, of coin, against $67,957,943 the preceding Saturday, and $12,155,274 of currency, against $12,404,451 at the close of the preceding week. The business of the Office on the first two days of the current week, was as follows: On Monday, receipts, $378,518 in coin, (including $309,208 from customs,) and $542,251 in currency; payment $46,325 of coin (including $27,083 of coin interest), and $251,861, of currency. On Tuesday, receipts, $696,378 in coin (including $669,778 from customs), and $272,747 in currency; payments, $54,747 in coin (including $41,074 of coin interest) and $202,588 of currency. The balance at the close of business on Tuesday included $12,515,823 of currency, and $69,167,468 of coin against a balance a week previous of $13,490,557 currency, and $68,296,421 coin.

The U. S. Sub-Treasurer issued in July $9,522,000 of coin certificates.

The U. S. Sub-Treasurer retired, last week, $3,104,616 of coin certificates, received for customs.

Government revenues have been yielding rather less satisfactorily in the line of excise, though quite liberally in that of customs, since our last. The excises, during the week yielded $3,076,295; customs at the port of New York, $3,392,616, and at the outports about a million (in coin) more, making the grand total income for the week equal to about $8,276,600 in currency. The income of the Government, from excises, since July 1, 1870, has been $34,285,989.

Gold has been moderately active, since our last, ranging from 114¾@117⅝. The closing quotation on Wednesday was 117½. The war reports have been regarded as more in favor of a protracted struggle between France and Prussia, and the speculative demand for Gold has consequently been more confident. There has been less of an export drain, the last week's shipments having been down to $2,274,664, against about three millions the preceding week, 3⅞ millions the week ending with Aug. 13th, and nearly 7 millions the week ending with Aug. 6th. On Wednesday Government marketed a million of Gold at from 117 20 to 117 41. The aggregate of the bids was $2,050,000. The shipments thus far this year have been about 43½ millions, against 24¼ millions same time in 1869; 63¼ millions same time in 1868; 39¼ millions same time in 1867; 52 millions same time in 1866; and 19¼ millions same time in 1865. On Wednesday of the current week, the specie exports amounted to $509,360. The exchanges at the Gold Exchange Bank, which were 48 millions on Thursday of last week, advanced to 101 millions on Monday of this week, and were 67 millions on Tuesday. On Wednesday they were again under 66¾ millions.

The coin balance of the U. S. Sub-Treasury on Thursday morning was $70,119,620.

The customs demand for Gold last week, averaged $581,833 a day; thus far, this week, it has averaged $489,993 a day, or equal to a weekly aggregate of $2,939,958. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $117,105; and since Jan. 1, 1870, $7,522,482, against $9,824,531 same time in 1869. The total customs revenue of the Government, in coin, at this port, since Jan. 1, has been $86,798,740 against $85,576,567, same time in 1869.

The customs revenue of the port on Wednesday was $984,000; and the coin interest disbursements were $43,000.

The customs revenue at the port of San Francisco, from Jan. 1 to August 12th, was $4,910,000, against $4,603,000 same time last year.

The exports of specie, from this port, last week, were $2,274,664 against $492,981 same week last year; and since Jan. 1870, $42,990,445, against $24,220,964 same time in 1869. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $347,767; and since Jan. 1, 1870. $62,192,466 against $64,137,314 same time in 1869.

The specie exports by steamer and railway from San Francisco, from Jan. 1 to Aug. 12th, were $22,516,000, against $24,614,000 same time last year.

Under its official programme for August, Government will make the following closing sale of Gold for the month; Wednesday, August 31, $1,000,000.

Foreign Exchange has shown less activity, but with moderate offerings, rates have been fairly supported. Bankers' sixty day bills on London closed on Wednesday at 109⅝@109⅞; sight bills on London 110½@110¾. The offerings of produce bills have been up to a moderate average. The week's exports of domestic produce have been to the currency value of $3,095,961, and since January 1, 1870, $117,132,280, against $122-767,777 same time in 1869.

Government securities have been generally in fair request and having been offered with less freedom, have been quoted firm in price, though toward the close less buoyancy was apparent in values. On Thursday, Government bought in two millions of Five Twenties at about the open market rates, thus closing the purchases for the month of August.

U. S. sixes of 1881 closed here on Wednesday of the current week at 114¼@114⅜; U. S. Five-twenties of 1862, 112@112⅛; U. S. Five-twenties of 1864 at 110⅞@111⅛; U. S. Five-twenties of 1865 at 111@111¼; U.S. Five-twenties of 1865 consolidated, 110@110⅛; U. S. Five-twenties of 1867, 110@110⅛; U. S. Five-twenties of 1868, 110⅛@110⅜; U. S. Ten-forties at 108¾@109; U. S. Six per cent. currency bonds, 111½@112.

The currency balance in the Treasury, according to Washington despatches of Wednesday, amounted to $36,511,123. The coin balances was $101,852,073, of which $31,872,500 were in gold certificates.

State bonds have been moderately active, and generally stronger in price.

Railway bonds have been in fair investment demand including Central Pacific Sixes, which closed on Wednesday strong at 88@88¼; with a limited offering of the bonds reported at our quotations. During the first half of the current year, the Central Pacific Railroad earnings averaged over half a million dollars per month; and in the July, the opening month of the second half of the year, they were up $727,800, or equal to a yearly aggregate of nearly 8¾ millions; while the annual interest obligations of the road are given at less than 1⅝ millions. Since the revulsion immediately following the outbreak of hostilities between France and Prussia, the augmented investment inquiry for the bonds has carried up the price full five per cent., influenced in part by the handsome income reports of the road, thus far in the current year. The Union Pacific Sixes closed on Wednesday at 82@82¼. The registered First Mortgage bonds of the Chesapeake and Ohio Railroad have been in fair demand for investment purposes at 90 per cent. and accrued interest.

Railway and miscellaneous share property has been moderately dealt in by speculative operators opening somewhat panicky, under a false report of the serious illness of Commodore Vanderbilt, which was published in the morning journals of Friday the 19th inst., but rallying promptly, and closing with a fair degree of steadiness.

Foreign goods have been in quite moderate request as a rule at about previous figures, in most instances. The dry goods entries at this port, last week, were $2,658,051, making with the general merchandise imports, a total of $5,377,794.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Aug. 10.	Aug. 17.	Aug. 24.
Consols	90¾	91¼	91½
U.S. 5-20's of 1862	86¼	87¼	88
U. S. 5-20s, 1865	85	86¾	87½
" 1867	84	85¾	86½
" 10-40s	81½	83	83
Erie	16½	17¾	17¼
Ill. Central	106	110	111½
At. and Gt. West	20	22½	23

General business has been on a comparatively moderate scale, in the line of domestic produce, Cotton, Petroleum, and Naval Stores have been in rather better demand and firmer. Breadstuffs and Provisions have been depressed and generally cheaper. Middling upland cotton closed on Wednesday at 19⅞ cts. per lb. The stock of cotton now here is given at about 24,500 bales. The receipts at the port this week, have averaged about 2,275 bales a day. The receipts at all the ports, thus far in the year commencing with Sept. 1, 1869, have been 2,842,360 bales, against 2,042,050 bales in 1868-'9; exports, same time 2,194,350 bales, against 1,438,025 bales same time in 1868-'9; stock on hand at latest dates, 85,700 bales, against 16,500 bales same date 1869. The exports of domestic cotton goods from this port, since Jan. 1, 1870 have been 10,672 pkgs., against 15,815 pkgs., same time in 1869. From Boston, 4,638 pkgs. in 1870, against 6,032 pkgs. same time in 1869.

At the Live Stock markets, this week, Beeves have been in moderate demand at from 8@17c. per lb.; week's receipts, 6 556. Milch cows continue very quiet at $40@$100 each, receipts, 104. Veal calves have been in fair request at from 7@12c. per lb.; receipts, 2,790. Sheep have been more sought after at from 3@6½c.; lambs at 6½@10c. per lb.; all live weight receipts, 31,178. Dressed Hogs have been in request at 12¼@12⅝c. per lb.; receipts, 13,512.

The ocean freight market has been rather quiet, and quoted lower and irregular as to rates. For Liverpool we quote flour at 1s. 6d. by sail, and 1s. 6d.@1s. 9d. by steamer per bbl.; grain at 5d. by sail, and 5@5½d. by steamer per bushel; cotton at 3/16d. by sail and ¼d. by steamer per lb.; and heavy goods 15s.@30s. by sail, and 17s. 6d.@45s. by steamer, per ton. Total number of vessels in port on Wednesday, 445.

The following will show the exports (exclusive of specie) from New York to foreign ports for the week ending August 23d, and since the beginning of the year:

	1869.	1870.
For the week	$5 581,238	$3,095,961
Previously reported	117,186,539	114,036,319
Since Jan. 1	$122,767,777	$117,132,280

The imports for the week ending Aug. 20, and since the beginning of the year, have been as follows:

	1869.	1870.
Dry goods	$2 411,544	$2 658 051
Gen. merchandise	3,392,604	2,719,748
Total for the week	$5,804,148	$5,377,794
Previously reported	194,406,006	184,625,950
Since January 1	$200,210,154	$190,003,744

Pratt's Patent Compensating Fish Joint.

The Chief Engineer of the Central Railroad of New Jersey in his report for the year ending December 31, 1868, says: "There are 44.6 miles of single track now laid with 'PRATT'S PATENT FISH JOINT,' five miles of which, have been in use now more than one year. From present indications it is believed that the economy of this Joint will be very soon apparent in the decreased cost of repairs of rails and rolling stock."

Again, in his Report for the year ending December 31, 1869, the Chief Engineer says: "About 92 miles of single Track are now laid with the 'FISH JOINT.' The south, or heavy track is very nearly all laid with it. These Joints are giving very general satisfaction. There can be no further doubt of the economy of using them."

A full description of these "Joints" will be found in an advertisement on another page. They are made by Messrs. VERREE & MITCHELL, 939 North Delaware Avenue, Philadelphia, Pa.

Central Pacific Railroad.

HARVEY FISK. A. S. HATCH.

OFFICE OF FISK & HATCH, No. 5 Nassau st., NEW YORK, Aug. 20, 1870.

THE CENTRAL PACIFIC R. R. 6 per cent. GOLD BONDS, having 26 years to run, are to-day selling at 87¾ flat. *At the rate of* 88.10 *for the principal —equal to* 89.06, *as the purchaser gets the benefit of the back interest from July* 1*—they yield* 7 *per cent. in gold; interest and principal payable in gold coin, in New York City.*

They are secured by a First Mortgage on property worth four times their total issue; a road having a princely revenue—nearly $3,000,000 for the first six months of this year, and $727,800 for July, being an increase of $800,000 over the large revenues of the same period last year, while the annual interest payments are $1,600,000. They are as good and as safe as Government Bonds. Holders of the latter would do well to capitalize the difference while the Centrals are so low—occasioned by the return of these Bonds from Germany, on account of the terrible war now raging in Europe. The amounts now coming are small, and are being steadily absorbed by heavy capitalists here.

THE U. S. CURRENCY SIXES—principal and interest payable in lawful money—with an average of 26 years to run, at 113 flat, pay only 5 per cent. currency.

TEN-FORTIES, with 34 years to run, (it is not probable this issue will be called in till maturity, as a portion of the Bonds authorized by the Funding Bill bear 5 per cent.), at 104½, about the present price less coupon due Sept. 1, pay 4¾ per cent. gold.

SIXES of 1881, having 11 years to run, at the current rate, 114.50, pay only 4½ per cent. gold.

FIVE-TWENTIES, assuming that they will not be called in for 5 years, at 109 pay but 4 per cent. gold, per annum.

This opportunity to realize so handsome an addition to their capital, and at the same time a large increase in the average annual interest yield, by an exchange into Central Pacific Bonds, may not occur again. We expect, as the demand for them is large, that they cannot be had at the present price for any length of time.

FISK & HATCH.

N. B.—We allow Interest on Deposits, make Collections, and do a general Banking business.

Connecticut Western Railroad.

The work on this road is now being energetically carried forward. The western terminus of the road is at the State line near Lakeville. Thence it passes through the towns of Salisbury, Canaan, Norfolk, Winsted, New Hartford and Collinsville. From Collinsville there are two lines, one to Springfield and the other to Hartford. At its western terminus—the State line—it meets the Dutchess and Columbia Railroad, which, passing through Pine Plains and other towns, joins the Hartford and Erie about twenty-two or twenty-three miles from Fishkill. The railroad, by the terms of the contract, is to be completed this fall; but the opening of it is not looked for before some time next season.

☞ Up to July 1, 1870, there had been expended on the section of the Canada Central Railway, between Ottawa and Carleton Place the sum of $286,558 51.

The Importance of Nitro-Glycerine to Railroad and Mining Companies,

A scientific calculation of the volume of gasses, developed by the combustion of Nitro-Glycerine and the combustion of good Gunpowder, proves that Nitro-Glycerine possesses thirteen times its power when volumes are compared, and eight times its power for equal weight. Gunpowder gives 800 volumes of gas; Nitro-Glycerine 10,400 volumes, therefore where eight pounds of Gun powder are wanted, one pound of Nitro Glycerine will be sufficient to produce the same effect. The explosive power being so much greater than that of Gunpowder, the explosion is more sudden, consequently a great economy in labor results, the saving by the use of Nitro Glycerine being where wages are high, from fifty to seventy-five per cent.

Notwithstanding the immense advantages this agent has over Gunpowder, it has not hitherto been so generally adopted in the United States for blasting purposes as it deserves, the principal obstacles to its general introduction having been its expense, and still more the dangers of its transportation, its frequent handling rendering it liable to explode.

Railroad Contractors and Mining Operators will therefore be glad to learn, that an invention has been patented for a portable apparatus for the manufacture of Nitro Glycerine on the spot wherever it may be required for use in quantities of from one to one thousand pounds, at a price not exceeding $1.50 per pound, full particulars of which can be obtained at the office of the Portable Nitro Glycerine Company, 7 Broadway, Basement.

Journal of Railroad Law.

RAILROAD COMPANIES—DEATH BY INJURY—WHAT IS NEGLIGENCE.

The facts of the late case of Nicholson *vs.* The Erie Railway Company (41 N. Y., 525,) are fully and clearly stated in the following opinion by

SMITH, J.—The right of action in this case must rest upon the grounds upon which it was put by the Circuit Judge in his charge to the jury; that is, upon the ground of an omission on its part properly to secure the cars left in the yard of the Buffalo iron works. The charge directs the jury that it was the duty of the defendant to set the brakes or otherwise fasten the cars, when they were left by it in the said yard of the Buffalo iron works.

No act of omission or of affirmative misfeasance, fault or wrong is proved or pretended, although a recovery might have been upon the allegation of the complaint, upon this branch of the law of negligence.

Negligence consists in the commission of some lawful act in a careless manner, or in the omission to perform some legal duty, to the injury of another. It is essential to a recovery in the latter case, to establish that the defendant owed at that time some specific, clear, legal duty to the plaintiff or the party injured.

The first inquiry, therefore, which arises in the examination of this case is, what were the relative legal rights of Nicholson, the deceased, and the defendant in respect to the *locus in quo*.

The deceased was struck and killed on the defendant's premises. This branch track, whatever may have been the rights in respect thereto, between the defendant and the Buffalo Iron Works Company, must be deemed, for the purpose of this suit, the property of the defendant. It was a track constructed to be used as a railroad track by the defendants with their engines and cars, to accommodate their freight business in connection with, and for the benefit of their iron works. The cars, which caused the injury, were on the track, where the defendants had a clear legal right to place and keep them. They were placed there for a lawful purpose, and in the proper discharge of their usual and ordinary business.

They had the same unqualified right which every owner of property has to do with his own as he pleases, and keep it and use it where and as he pleases, on his own ground, up to the point when such use becomes a nuisance.

Nicholson, the deceased, on the contrary, was not on his own ground. He was where he had no legal right to be. At most, he had a mere license to cross the defendant's track, a license implied from use, and from the fact that such use had not been expressly forbidden. But such license created no legal right, and imposed no duty upon the defendant, except the general duty which every man owes to others, to do them no intentional wrong or injury.

No relation existed between the defendant and Nicholson to create any particular duty, such as exists between a master or servant or employer or his employee. The complaint alleges that the said James Nicholson was traveling upon a public highway and lawfully crossing the defendant's track. If the fact had been so, the defendant and Nicholson would have stood upon common ground, and could have had equal rights in such highway, and the defendant would have owed to him a clear legal duty; but the case seems to me to be without the first element to create a legal duty on the part of the defendants to set and secure their cars in respect to the rights of said Nicholson. He was not in their employ. He was not in the employ of their iron company. He had no lawful business at the time on their track; no legal right to use or cross it; and would have been simply excused from liability as a trespasser on the naked ground of a license, implied from previous use without objection.

The case is within the principal, I think, asserted in Hounsell *vs.* Smyth (97 Eng. Com. Law, 731).

In that case, the question arose upon demurrer. The complaint alleged that the defendant had a certain quarry which had long been open and worked for getting out stone and which was situated upon certain waste land, which was considered open to the public; and that all persons having occasion to come upon or over said waste land had been used and accustomed to go upon, along and across the same without interruption or hinderance from and with the license and permission of the owners thereof; that said quarry was between two highways; and that the defendant left the same unfenced and took no care to guard it, and that plaintiff having occasion to pass over said waste land in a dark night, fell into said quarry and was injured.

The Court sustained the demurrer, holding that the defendant owed no duty to the plaintiff. In respect to that part of the complaint, where it was alleged that all persons having occasion to cross or pass over the said waste land, have been used and accustomed to go upon, along, and across the same without interruption or hindrance from, and with the license and permission of the owners of such waste land, the learned Judge said: "No right is alleged. It is merely stated, that the owners allowed all persons who chose to do so, for recreation or for business, to go upon the waste without complaint; that they were not churlish enough to interfere with any person who went there. One who thus uses the waste has no right to complain of any excavation he finds there. He must take the permission with its concomitant conditions, and it may be perils."

That is precisely this case. All who pleased were permitted to cross the open common waste ground, adjacent to the defendant's track, and the track itself, without hindrance; but it was at their own risk and peril. The defendant undertook or assumed no duty in respect to such persons. As was said in the above cited case, "all that can be said is, that the plaintiff had a tacit permission to cross the track."

The same principal is assented in Southcote *vs.* Stanley (1 Hurlst. and Norm., 247); and in Bolch *vs.* Smith (7 id., 732).

The case of Driscoll *vs.* Newark and Rosendale Cement Co. (37 N. Y., 638), is not in conflict with these cases. In that case the defendant performed a lawful act in a careless manner; and the case belongs to the class, where an action for negligence lies for misfeasance in the commission of an act lawful in itself. The defendant fired a blast in a mine, without taking the proper precautions to warn persons who might be in danger from the explosion.

The charge of the learned Judge at the Circuit on this point, and his refusal to charge as requested on the same point, were therefore erroneous, and the exceptions to such charge, separately, well taken. As this point is decisive of the case, I have not deemed it expedient to discuss the other questions presented in the points. The judgment should therefore be reversed, and a new trial granted with costs to abide the event.

Judgment reversed.

For the Railroad Journal.

Railroad Bridges.

The subject of safety to life and limb on our railroads is beginning to attract the general attention it has long merited, and which we regret to add has been generally overlooked in some important particulars by our Railroad Companies and their active managers. This, it is due to companies and managers to say, is more owing to the want of suitable inventions and to the incapacity of the contractors and the builders they employ than to any indifference on their part to the comfort, convenience and safety of their patrons—a fact fully proven by the immense expenditures annually incurred by the railroad management of America in providing palaces for the transportation of passengers, and the general approval of iron bridges instead of the insecure wooden structures heretofore relied upon universally. It is not indifference, therefore, to the welfare of their patrons, nor selfishness on their part—because they build the best cars that are offered them, and expend upon the same an almost wasteful amount of ornamentation; and they are generally condemning wooden railroad bridges and gradually adopting the more rational device, a "wrought iron" bridge, which cannot burn down, and if properly constructed cannot break down or give way under any pressure the most exacting management can impose upon

them, which will be fully shown in the course of this article. If railroad companies then are anxious to provide safety and, as a consequence, comfort for their patrons, the best and safest cars and the strongest and most permanent bridges should be adopted by them. The only points involved in successful bridge-building are—

1st. That the whole may be made strong enough without employing an unnecessary weight of iron;

2d. That no part should be made relatively weak by making other parts unduly strong;

3d. That the workmanship and the material used should be of the best quality; and,

4th, That the planner and constructor should be a man of sound judgment and of long and varied experience.

An unnecessary quantity of iron is both pernicious and objectionable; 1st, it loads the structure with *dead* weight and 2d it increases its cost.

Sufficient strength, therefore, is what is wanted, without an excess of weight. And just here it is well to remark that the turning point, where excess of strength and consequently excessive and damaging weight is reached, is difficult to determine.

A bridge should be so constructed that its strength will be equally distributed over the entire structure, in order best to accommodate itself to passing loads and varying temperatures.

The tensile strain upon wrought iron in bridges should not exceed 10,000 lbs. per sectional area of a square inch. nor the compressive strain exceed 8,000 lbs.; while the bridge should be equal to a rolling load of 4,000 lbs. to the lineal foot—the train moving, without interruption, at a speed equal to 50 miles per hour. Many engineers, we are aware, think these strains too high; and most bridge builders, we are also aware, think an iron bridge sufficiently strong that is capable of bearing a rolling load of 2,500 lbs. to lineal foot—the strain pulling up and moving slowly over the same. But the most eminent engineers in this country and in Europe have agreed, after much calculation and study, that a railroad bridge cannot be taxed by the heaviest locomotive and the most heavily laden train beyond 3,360 lbs. per lineal foot. This shows that all railway bridges may, at any time, be thus taxed; hence we argue that if 3,360 lbs. per lineal foot is the maximum train that railroad bridges can be subjected to, a railroad bridge capable of supporting a strain of 4,000 lbs. per lineal foot is a perfect bridge, and cannot be broken or forced to give way.

Welds should always be avoided where strength is needed, because it is well known that a weld is never more than one-fifth of the strength of a solid section of iron—hence a *railway track suspended*, which is nothing else than a railway bridge, should never be upon vertical bars depending upon welds or screw bolts.

The cheapest bridge to build, as a general rule, is the bridge that best combines strength, safety and durability, because, among other reasons, it is the most cheaply maintained.

In asking for estimates, railroad companies should require bidders to give the weight of iron they contemplate using, per lineal foot—for by this alone can companies appreciate the prices named; and without this is strictly required companies will continue to be imposed upon.

New Schedule of Freights by the Trunk Lines.

The Erie, New York Central, Hudson River and Pennsylvania Railroad Companies have adopted a new and uniform rate of freight between this City and the West. The following are the new rates of first-class freight to leading points in the West:

New York to—	New Rates.	Old Rates.
Cleveland.....Per 100.lb.	$—63	$—32
Columbus, Ohio.....	—77	—40
Cincinnati.....	—90	—45
Indianapolis.....	—92	—47
Evansville.....	1 10	—57
Louisville, Ky.....	1 12	—60
St. Louis, Mo.....	1 25	—67
Quincy, Ill.....	1 25	—67
St. Joseph, Mo.....	1 72	1 14
Chicago, Ill.....	1 00	—50

The following are the rates by steam, via the Lakes:

To—	New Rates.	Old Rates.
Detroit, Cleveland and Toledo..	$—63	$—30
Chicago and Milwaukee.....	—73	—35

The Erie and New York Central management are said to have also agreed to not extend their transportation contracts and privileges with the United States and American Express Companies, and that these Railroad corporations will soon establish express departments themselves over their own several rail lines. The following are the rates from leading points in the West to New York:

To New York from—	
Cincinnati.....Per ton of 2000 lb.	$ 9 —
Indianapolis.....	9 —
Louisville.....	9 40
Chicago.....	8 —
St. Louis.....	9 80

☞ Rapid progress is being made in laying track on the Grand Rapids and Indiana railroad between Sturgis and Grand Rapids. Parties are at work, from Grand Rapids south and from Kalamazoo north. On the 13th instant, 17 miles of track had been laid north of Kalamazoo. Fourteen miles were to be laid from Kalamazoo south. It is expected that the iron will all be laid by September 1, or soon after, though several weeks will be required to ballast the track up, ready for general business.

☞ The *Railroad Gazette* says the Quincy, Missouri and Pacific railroad company are now ready to let the contracts for grading, bridging and tieing the road from a point opposite Brownville, Nebraska, to Rockport, the country seat of Atchison county, Mo.; also for grading, bridging and tieing from two miles west of the Fabius, to Edina, on the new route just established. The contract is already let for grading, etc., from West Quincy to the Fabius and two miles beyond.

☞ Mr. A. K. Davis, contractor for 20 miles of the Sabula, Ackley and Dakota railroad from Sabula westward, has sublet his contract as follows: E. H. Cantwell & Co., three miles; Messrs. McCawley & Co., two miles; Messrs. Glidden & Matthews. one mile; Messrs. Rogers & Kane, three miles; Mr. Swan, two miles; and Messrs. Irvin & Bartlett, nine miles.

☞ Articles of consolidation of the new Decatur and East St. Louis railroad with the Toledo, Wabash and Western railway, were filed in Springfield on the 9th inst. On that day through trains commenced running between Decatur and St. Louis.

An Act to Create a Port of Delivery at Du Luth, Minnesota.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That Du Luth, in the State of Minnesota, shall be and is hereby constituted a port of delivery within the collection district of Superior, and there shall be appointed a surveyor of customs to reside at said port, who shall perform the duties and receive the compensation and emoluments prescribed in the act of Congress approved March two, eighteen hundred and thirty-one, being "An act allowing the duties on foreign merchandise imported into Pittsburg, Wheeling, Cincinnati, Louisville, Saint Louis, Nashville and Natchez to be secured and paid at those places.

Approved July 11, 1870.

☞ The track of the St. Joseph and Denver railroad has been laid to a point seventy miles west of St. Joseph, and the grading is completed thirty miles beyond. It is expected the road will be finished to Marysville, 111 miles from St. Joseph, within sixty days. The contract for grading, masonry and bridging has been let for a distance of forty miles beyond Marysville, and will go forward without interruption. This will leave less than a hundred miles to complete the connection with the Union Pacific at Fort Kearney.

☞ The contract for grading 16 miles of the Omaha and Northwestern railroad north of the ten miles now in operation was let at a meeting of directors on the 13th inst. It is to be completed by the middle of November. This section is close to the Mississippi and terminates at Blair, there crossing the Sioux City and Pacific road. The final survey has been made to Niobrara *via* Logan Creek. General Low is the contractor for building the road.

☞ The Northern Pacific Railroad Co., has determined to build four large docks at Duluth for the use of its contractors and operators. The docks will cost at least $200,000. A Duluth paper says the officials of that road are already prospecting for sites for magnificent freight and passenger depots, which it is expected will soon be erected.

☞ A preliminary survey of the proposed line of the Iowa Southwestern railroad was recently commenced at Clinton, Iowa. It is intended to locate it down the river to Camanche and thence southwestward through Tipton and Iowa City into northwestern Missouri.

☞ The contract for constructing the Springfield and Northwestern railroad from Springfield to Beardstown has been let, and work is to be commenced immediately.

☞ Acting Secretary Richardson has directed that the September interest on the ten-forty bonds be payable on the 29th instant, without rebate. The amount to be paid is $4,864,000.

☞ A company of New York bankers have applied to the Comptroller of the Currency for permission to establish a gold bank in New York city under the provisions of the law passed by the last session of Congress.

☞ The Rockford, Rock Island and St. Louis Railroad was completed south from Monmouth Tuesday night. There is now an unbroken connection between Monmouth and St. Louis. Regular trains have commenced running.

Kansas Pacific Railway.

The Kansas Pacific Railway will be open for regular business Sept. 1. The completion of this new route to the Pacific will be celebrated by an excursion to Denver, leaving St. Louis, Tuesday, Aug. 30th. The party will number about 100, and be composed of the chief officers of the connecting railroads, proprietors and chief editors of some of the leading journals of the country, and members of the Congressional Committee on Pacific Railroads. The train will consist of Pullman's finest cars, three commissary cars, and everything will be done to insure the comfort and convenience of the guests. The trip will occupy from ten to twelve days, and will embrace a buffalo hunt at or near Fort Hayes, Kansas, a visit to Cheyenne, and three days sojourn in the mountains west of Denver.

Safety Nitro-Glycerine.

TRANSPORTATION NOT NECESSARY.

The Patent Portable Apparatus for Manufacturing Nitro Glycerine at a comparatively small cost, at any place where its use is required, upon a short notice, thus obviating the necessity of transporting; that frightful source of so many accidents.

☞ No possible danger attending its Manufacture.

Contracts made for any kind of blasting, and competent and reliable men furnished to conduct the same; or the Nitro Glycerine all furnished at the time and place required.

Call on or address

The Portable Nitro Glycerine Company

7 Broadway, (Basement) New York City.

To Contractors.

NOTICE is hereby given that Tenders will be received until Thursday, the first day of September, at noon, for the construction of the Main Line of Railway of the "North Shore Railroad and St. Maurice Navigation and Land Company." The Line will run between Quebec and Montreal, on the North Shore of the River St. Lawrence.

After the 10th of the present month the profile of the Railroad and the specifications and terms of contract may be examined at the office of the Company, Union Buildings, Place d'Armes, in the City of Quebec, between the hours of two and four o'clock in the afternoon.

By order of the Directors,

JOS. CAUCHON,
President of the Board of Directors.

August, 5, 1870.

Notice to Contractors.

SEALED TENDERS, addressed to the undersigned, and marked "Tenders for Grenville Canal Works," will be received at this Office until the evening of Wednesday, the 31st August instant, for the enlargement of about five miles of the Grenville Canal, and the construction of Three Locks.

The work may be let either as a whole, or divided into three different sections, each embracing one lock.

Plans and specifications can be seen at this Office, or at the Lachine Canal Office, and at Grenville, on and after Thursday, the 19th inst., where printed forms of tender and other information can also be obtained.

The signatures of two solvent and responsible persons, willing to become sureties for the due fulfilment of the contract, must be attached to each tender.

This Department does not, however, bind itself to accept the lowest, or any tender.

(By order.)

F. BRAUN,
Secretary.

DEPARTMENT OF PUBLIC WORKS,
Ottawa, 10th Aug., 1870.

THE NEW JERSEY STEEL AND IRON COMPANY,

TRENTON, N. J.,

And 17 Burling Slip, NEW-YORK,

Would call special attention to their

MARTIN STEEL,

Acknowledged by all who have used it to be the best material now made for

Firebox Plates, Locomotive Crank Pins, Piston Rods, Axles,

And all the finer machine purposes, such as

Rollers for Cotton Machinery, Lathe Screws, Sewing Machine Work, &c., &c.

The special features of this Steel are its ***Remarkable Toughness,*** its softness and entire freedom from hard spots, which obviate the necessity for annealing before turning.

The process by which this Steel is made differs entirely from any other in use, enabling it to be sold at lower prices than any other good steel, while it possesses properties hitherto unknown, and which are of the greatest importance for many uses.

TO CONTRACTORS.

THE AMERICAN AND MEXICAN RAILROAD AND TELEGRAPH COMPANY, at No. 71 Broadway, Room 31, New York, having secured the approval of the Government of Mexico of their surveyed routes from Guaymas to Hermosilla and through the States of Sonora and Chihuahua to the Rio Grande, are prepared to receive proposals for grading the road, furnishing and laying cross ties from Guaymas to Hermosilla, a distance of 80½ miles.

The proposals must be handed in on or before the first day of November next, and be made *for sections* and include excavations of rock and earth, and bridging, and be so made as to enable the Company to ascertain the cost per section as laid down on the Company's map and profile, which are now in their office for inspection. The Company reserves the right to reject any bids which in their judgment they deem advisable.

Per order of the Board of Directors.

Office hours 10 A. M. to 3 P. M.

JOSEPH BRITTON.
WM. H. DEGROOT,
WM. B. MAXSON,
Executive Committee.

To Railroad Companies.

AN ACTIVE, ENERGETIC BUSINESS MAN, with thirty years experience, and a good knowledge of General Merchandise—*who has made the art of* BUYING *an especial study*—and who thoroughly understands the markets of New York City and New England—and is well acquainted in our Western Cities—desires a position as "Buyer of Supplies," for a Railroad or large Manufacturing Establishment. Abundant reference of the most unexceptionable character, as to qualifications, ability, integrity, &c., will be furnished.

Address, P. O. BOX, 480,
6133 Wilmington, Del.

RAILROAD IRON.

2,000 TONS 50 LBS. ERIE PATTERN, BEST Crawshays make. Now in yard and for sale by

DANAS & LITCHFIELD,
18 William street,
49tf **New York.**

THE UPRIGHT PATENT TRUNK

Does not have to be removed from the wall to open it. Instead of trays to lift out, it is arranged with drawers made very light and strong. It is much stronger as only a small portion opens, whereas in the old style the whole top comes off. The same room in the bottom of the trunk for dresses and heavy clothing as in the old style.

THE UPRIGHT PATENT TRUNK CO.,
No. 6 Barclay Street,
next door to the Astor House.

Intercolonial Railway.

THE Commissioners appointed for the construction of the Intercolonial Railway give Public Notice that they are prepared to receive Tenders for the three remaining Sections of the Line, all in the Province of New Brunswick.

Section No. 21 will begin at the easterly end of Section No. 20, one and three-quarter miles east of the River Miramichi, and will extend to station No. 1640, three thousand feet westerly from the River Kouchibouguacis, a distance of about 25 miles.

Section No. 22 will extend from the easterly end of Section No. 21 to Station No. 1180, at the crossing of the River Buctouche, a distance of about 25 miles.

Section No. 23 will extend from the easterly end of Section No. 22 to the European and North American Railway, at Moncton Station, a distance of about 22 miles.

The Commissioners also give Public Notice that they are prepared to receive Tenders for reletting Section No. 10, the Contract for which has been annulled.

Section No. 10 is in the Province of New Brunswick and extends from the centre of the Chaplin Island Road, near the Court House at Newcastle, towards Bathurst, a distance of 20 miles in length.

Tenders for Section No. 10 will be made upon the basis of the quantities specified in the original Bill of Works for this Section; and in drawing the New Contract there will be deducted from the amount of the accepted Tender a percentage sum equivalent to the percentage of the whole work which the Chief Engineer shall report to have been executed by the first Contractors.

These Contracts to be completely finished by the first day of July, 1872.

Plans and Profiles with Specifications and Terms of Contract will be exhibited at the Offices of the Commissioners in Ottawa, Toronto, Quebec, Rimoushi, Dalhousie, Newcastle, Halifax and St. John, on and after the 15th September next, and Sealed Tenders addressed to the Commissioners of the Intercolonial Railway, and marked "Tenders," will be received at their Office in Ottawa, up to six o'clock P. M. on Wednesday, the 5th day of October next.

Sureties for the completion of the Contract will be required to sign the Tender. The names in full, occupation and address of each surety should also be given.

A. WALSH,
ED. B. CHANDLER,
C. J. BRYDGES,
A. W. McLELAN,
Commissioners.

INTERCOLONIAL RAILWAY,
Commissioners' Office,
Ottawa, 15th August, 1870.

TANNER, WALKER & McANERNEY,

63 BROADWAY, NEW YORK,

DEALERS IN RAILWAY SUPPLIES,

Are prepared to make Contracts for

Railroad Iron, English and American; Chairs, Spikes, Fish Bars, Bolts and Nuts; Locomotives; Passenger and Freight Cars, and Car Findings generally.

Portable and Stationary Engines; Car Irons Complete; Wheels and Axles; IRONS FOR RAILROAD BRIDGES; and other articles required by Railroad Companies.

SECURITIES OF ALL KINDS NEGOTIATED ON FAVORABLE TERMS.

THE CELEBRATED

Cold Rolled Shafting.

THIS SHAFTING IS IN EVERY PARticular Superior to any turned shafting ever made. It is the most economical shafting to buy, being so very much stronger than turned shafting, less diameter answers every purpose, causing a great saving in couplings, pulleys, and hangers. It is perfectly round, and made to Whitworth's Gauge. All who give it a trial, continue to use it exclusively. We have it in large quantities. Call and examine it, or send for a price list. GEO. PLACE & CO., 126 and 128 Chambers St., New York.

DEPARTMENT OF DOCKS, 346 AND 348 BROADWAY, NEW YORK, July 16, 1870.

THE COMMISSIONERS OF THE DEPARTMENT OF DOCKS, having received, in accordance with the provisions of Sec. 33, of Chap. 383, laws of 1870, in public meetings, various plans for the establishment of permanent wharf accommodations for the commerce of New York, they now, in accordance with the further provision of said section, advertise for plans for the best method of improving the water front and harbor of the city of New York, by a new system of wharves, piers, docks, basins, and slips, which shall accommodate the present commerce of the city and harbor, and shall provide for the future expansion thereof, and for the facilitation of the transportation of freight along the water-front, so as to render the whole water-front of the city available to the commerce of the port.

Said plans will be received until September 15, 1870.

Plans are solicited that shall contain provision for the special accommodation of steamers and vessels engaged in foreign trade, in domestic trade, in the coal trade, in the trade in lumber and building material, in the hay and grain trade, in furnishing market supplies; also, for the accommodation of steamboats plying to places on the Hudson River and Long Island Sound, for the canal boats arriving in this city, and for the railroads and other commercial interests

Plans should be accompanied by all necessary documents, estimates, and particulars.

PRATT'S
PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

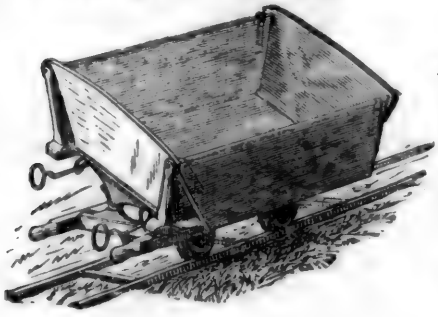
Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.



That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

New York Saturday, September 3, 1870.

Chicago, Danville and Vincennes Railroad.

We are glad to inform our readers of the continued progress of this legitimate and very promising enterprise. It now runs to Momence, 53 miles from Chicago, on the Kankakee River; over which stream a substantial bridge 900 feet long, resting on stone piers, has just been completed. Beyond Momence, the grading is done to St. Ann's, 10 miles; and it will be ready for the iron to Watseka (crossing of Tol., Peoria and W. R.) in 30 days; and to Milford, 11 miles further, in 60 days. Shipments of iron for this extension are now being made from both New York and Pittsburg.

The road is building for *service* in the hands of its owners, and not for speculative sale. It will be one of the most substantial and best finished roads, not only in the West, but in this country. Cuts, embankments and drainage have received very special attention; the bed is most carefully prepared, and a heavy rail is laid on ties 3,000 to the mile. Particular attention has been given to the grades,—in anticipation, especially, of a heavy coal traffic; and the maximum has been fixed at 20 feet to the mile.

It will open to Chicago an old-settled variously productive country, whose fertility and beauty one would seek long to match even in the Valley of the Missouri.

Mining Engines.

Messrs. M. BAIRD & Co., of the "Baldwin Locomotive Works," Philadelphia, have built during the present year a number of small locomotives for use in mines, hauling away cinder, &c. The engines referred to are miniature locomotives, adapted to narrow gauges of 2½, 3, or 3½ feet. The Thomas Iron Works, Hokendauqua, the Lehigh Crane Iron Works, Catasaqua, and the Glendor Iron Works, Easton, are each now working two of these machines for hauling away cinder from their furnaces. At the former establishment the two engines do the work which formerly required thirty mules. The economy of their use is therefore manifest. For out of door work, the little engines are built with outside cylinders, 9 inches in diameter and 12 inches stroke; the driving wheels are 30 inches in diameter. For mining purposes the cylinders are placed inside, the extreme width is reduced to about 5 feet and the extreme height to 5 feet 4 inches. When running in the heading of a mine it is intended that coke shall be used as a fuel so that little or no smoke or gas will be produced. These engines in complete working order, with tank of water on boiler and a man on the footboard, will weigh only from six to eight gross tons.

Railroads in Russia.

The Government of Russia is turning its vast advantages and power to the increase of railroad communication between various parts of the Empire to an extent which is remarkable. In 1838 the first railroad was laid down in Russia, from St. Petersburg to Tsarskai Selo, a distance of forty-five miles. Nothing was done after that until 1845, when thirteen miles were laid upon a railroad from St. Petersburg to Moscow. It was not completed to its full extent of four hundred miles until 1851. The Crimean war found Russia with very miserable means of communication between different parts of the Empire, and after that contest was over, the Government awakened to the fact that railroads were matters of military necessity. Up to the end of 1859 there were but six hundred and thirty-one miles of railroad in the whole of the Russian Possessions, but after that time these works began to increase. Private companies were encouraged to establish them, and the Government did not hesitate to lay them down between such points as were considered important for strategic purposes. On January 1, 1870, there were 4,981 miles of railroad in Russia, and by the end of the present year it is believed that nearly three thousand more will be added. Two thousand two hundred and twenty miles are under contract in addition, and will probably be finished by January, 1872—so that, at that time there will be quite ten thousand miles of Russian railway in operation.

These roads are laid down with a wise discrimination, resulting from a thorough study of the geographical characteristics of the Russian Empire, and opening from St. Petersburg and Moscow the means of penetration into remote districts to Finland, to the Black Sea, to Poland, the Caspian Sea, to Astracan and toward the Crimea. These railways stretch their arms to the Baltic toward China, the Sea of Azof to the rivers Don and Algar. There are branches even into Siberia. The exile who was once carried by long, fatiguing and dangerous journey, in which there was much suffering, may be now whisked by the locomotive and find himself in his new home after somewhat of a comfortable journey. The greater portion of the railroad enterprises in Russia have been accomplished within eight years, and the activity which has followed a long season of inaction and apathy upon these subjects is truly remarkable. With the same energy and power five years will only be necessary to make Russia in her means of accommodation to travelers, the first railway nation in Europe.

Port Jefferson Branch Railroad.

It is said that the long-contemplated extension of the Long Island railroad from Northport to Port Jefferson has been assured—$100,000 having been subscribed by the people along the line, and the Long Island railroad company having agreed to guarantee the payment of $100,000 of the bonds of the company. It is believed by the friends of the enterprise that the road can be built for this amount. The only matter which delays the commencement of the undertaking is the final completion of the lease to the Long Island Railroad. Mr. Charlick demands that the road shall guarantee a certain amount per mile for each and every mile a train is run, in which event, he says, he will run as many trains as they wish. The importance of this connection cannot be over-estimated. At present ship-building is thriving in Port Jefferson harbor, probably the only place in which this branch is prosperous in the country.

Chicago, Burlington and Quincy Railroad.

The earnings of this road for the years ending April 30, 1869 and 1870, were as follows:

	1869.	1870.
From passengers	$1,659,308 61	$1,718,323 38

		2,470,807 02
Leaving balance to credit of income account April 30, 1870		$896,662 97

The gross earnings of the railroad for the year have been $6,621,773 12; and the operating expenses for the same period, including taxes, rent of tracks, and cost of transfers, have been $4,017,178 72—leaving applicable to interest and dividends the sum of $2,604,594 40. The amount paid for dividends, and taxes on the same, during the year has been $1,600,831 57; for interest on bonds, $496,252 09; bonds purchased for sinking fund, $111,100—leaving a balance of $396,410 74; to which add balance from previous year of $500,252 23, making the total amount to credit of income account at the close of the year $896,662 97, exclusive of amount paid into the sinking fund, which at this time is $1,147,861 13. The President in his report says:

It will be seen that, while the earnings have been less in amount, the expenses have been considerably larger, being, during the past year, inclusive of taxes, 60.27 per cent. of gross earnings, while last year they were 53,58.

This increase in the proportion of the operating expenses has been partly owing to the diminished revenue, while the expenses could not be reduced in proportion; and partly, because there have been additional roads brought into use where the business, not being fully developed, and comparatively light, the ratio of expenses upon them has been greater in proportion to the business than elsewhere. The reduction of prices, for both passenger and freight business, has also, in some measure, effected the ratio of the expenses, as compared with the gross earnings.

There was in operation, including branches belonging to the Company, at the date of last year's report, 477½ miles of road. To this has been added, during the year, 125¾ miles.

The property of the Company now consists of

The Main Stem or Trunk to Galesburg of	165 miles.
The Continuation to Quincy	100 "
" " " Burlington	42 "
The branch from Buda directly south to Rushville	106¼ "
From Galesburg to Peoria	53 "
" Burlington to Keokuk	42¼ "
" Burlington to Carthage	30 "
" Galva to New Boston	50¼ "
" Aurora to Turner Junction, old line	13 "
	603¼ "

Of these, the continuation to Quincy, and that to Burlington connect with main trunk lines across Missouri and Iowa, the one to Kansas, and there connecting with its system of roads, and the other with Omaha and the Union Pacific, and may themselves appropriately be called trunk, or main lines. The average length of road in operation the past, as compared with the year before, has been 532 against 409¼, or 122¾ miles greater.

The gross earnings, therefore, have fallen off more than the statement in figures would indicate, because the extent of territory drained by the road has been greater than at any time before. The chief causes of this diminished revenue has been the loss of the corn crop last year almost entirely, and, to a considerable extent, also the two years before. Corn is the great staple of the State. A failure in its yield affects the business of the railroad in many indirect ways, as well as directly. It diminishes the number of cattle and hogs exported, and the quantity of lumber and merchandise imported into the country. The great amount of the falling off in this crop will be best seen by comparing the business of the road in its transportation for several successive years. The amount carried to Chicago over the road in 1867 was 460,081,097 pounds; in 1868 it was 284,981,687; it 1869 it was 270,536,621; in the past year it has been 201,632,717, much less than half the amount of 1867; and 85,000,000 less than in 1868; and about 70,000,000 less than it was last year, or, in other words, about 3,500 car-loads less than last year, and upwards of 12,000 car-loads less than in 1867. Corn is mainly transported during the next year after its production, and furnishes business for the whole of the year. The large business of the year 1867 was from the yield of 1866. The crop of 1867, which furnished our business for 1868, and also that of 1868, were greatly injured by the frosts. The excessive rains of last year almost entirely destroyed the yield of the year. The business of this spring and the past winter have, therefore, been very light in this article, and will continue so during this season. Since the first opening of the road, it is believed that there has been no year in which the production of this great staple has been so small.

The business in cattle and hogs has been more nearly up to that of the past years, though the number of hogs transported has been 40,000 less than last year. That this part of our business has been so well maintained, however, has been owing to the extensions of territory tributary to our road, not only in Illinois, but in Iowa and Kansas. Being of more condensed value, they can be taken from greater distances. All local business has, of course, been effected by the loss of the great staple, which also, in itself, is the largest item of purely local traffic. The extension of the roads in Kansas, Iowa and Missouri has enlarged the markets for lumber, the quantities of which transported from Chicago have steadily increased, which, also, may be said of the through business in general. The revenue from it, however, has by no means been in comparison with the increase in the amount of the business. There are three rival roads from Chicago to western Iowa and Nebraska, and three, also, to Kansas across Illinois and Missouri. All business done between Chicago and those great sections of country, is carried on with great competition, and with consequent reduction of prices, and with comparatively small profits.

It will be seen, therefore, that the local traffic of the road has fallen off for the reasons above stated, while the long and less valuable business has considerably increased—the aggregate of both being not greatly less than that of the year before—yet the aggregate profits have been largely diminished. With the usual average crops, it is believed we might reasonably have expected our large annual increase of business, and with the enlarged area for local traffic which the road now commands through its branches, there seems to be no reason to apprehend that the annual increase may not correspond with the increased extent of country reached by it.

The passenger business of the Company has been largely in excess of that of 1868—9, the prior year. The revenues from it have been in excess only $59,014.77, the fares having been considerably reduced below the average of the former year. The whole net earnings for the year, from both freight and passenger business, above all operating expenses and interest, and the amount paid for bonds for Sinking Fund and cancelled, has been about fifteen per cent. on the average capital of the year.

It is known to all Stockholders, that since the war, and with the ease with which capital has been, and still is, obtained for the construction of Railroads, and especially with the stimulus of county and township aid, generally given as a bonus, several new roads have been projected in the sections adjacent to and occupied by the road of this Company. Indeed, there is now no considerable section of country unoccupied by a railroad which will consent to remain without one. It has been, and still is, a question of great importance whether we should aid such as might be made tributaries, and control and make them friendly allies, or withhold the aid requisite to accomplish this, and allow these new enterprises to seek other connections and become the allies of rival roads for business. Not so far as would have been judicious and wise, but so far as at the time when the opportunity arose it was deemed expedient to do so, we have adopted the policy of rendering the needed assistance, and acquired the roads aided as allies and friends, or as the property of the Company. In one or two cases, it has erred in withholding aid. In the several cases where it has been given, though for a time it has involved large expenditures, it is fully believed that the Company will receive much direct benefit, while, at the same time, it has warded off much of impending future difficulty and injury to its business. Indeed, to two of the roads where such aid was given, and which were the occasion of the largest expenditure and embarrassment, it has been greatly indebted for its subsequent success and prosperity. All these enterprises to which it has for three years past been giving aid, are now completed, and though one or two of them, at the close of the fiscal year, can hardly be said to have been open for business, still they all begin to show good results.

The Lewiston Branch, from Yates City to Lewiston, long since fully paid for itself in the business which it brought to the road of this Company. That portion of the road formerly styled the American Central, between Galva, and our main

trunk, and New Boston, on the Mississippi, was next opened, a distance of fifty miles, about eight months since. It has since added to the revenues of this Company $184,009.68, with a disastrous year, as it may be styled, for business. That from Burlington to Keokuk has been open about six months, and has added to our gross revenues $69,966.26. The Peoria and Hannibal, which is the extension of the Lewiston Branch to Rushville, about thirty miles, and which has been open about the same time, has produced $79,876.

The Dixon, Peoria and Hannibal, so called, which is about forty-four miles long, is properly an extension of the Lewiston and Rushville Branch, northward, till it strikes the main trunk at Buda, is not quite ready for use, but is doing considerable business. This branch from Buda to Rushville constitutes a direct line running south from Buda one hundred miles, all the business of which will pass over the main line to Chicago, about one hundred and twenty miles, and will, for a local traffic, be quite as important as the same distance on the main line, and constitutes the shortest possible line from the country through which it runs to Chicago. The Carthage and Burlington Road, though its main line has been some time laid, yet was received by this Company without side-tracks or stations, and not in a condition for business. It can, therefore, hardly be said to have been opened up to the close of the fiscal year. These things have now been to a great degree remedied, and we may reasonably expect a fair contribution from that road in the future. Its traffic will pass two hundred and forty miles over our main line to Chicago. It is quite possible that the expectations which have been formed of business from some of the auxiliary roads may not be fully realized, but from the experience thus far of their business, and the repidity with which it increases upon those which have been longest in use, it is the full conviction of the Board that all the money expended upon them has not only been safely expended, but in nearly all of the cases it has been a necessity as well as a profitable investment. They are all substantially complete, without need of any further considerable expenditure.

There has been laid, during the year, of side and double track, thirteen and a half miles, and for the distance of eighty-two miles, between Chicago and Mendota, considerably more than one-half is double track. The whole track of the lines between Chicago, Quincy and Burlington, and most of the branches, are in excellent order, generally fully ballasted, and all the appointments of the road are in better condition than at any former period.

There are about six miles of steel rail in our tracks. When we first began the use of this rail as an experiment, there were found a number of rails so brittle that quite a number broke, and in one or two instances a rail was known to have broken into three pieces by the passage of a train. In the Annual Report of that year it was stated that the experiment had not answered the expectations formed from it. Since the first year, however, no breakings have occurred, and it has become apparent that steel rails are a success. At some points on the road, where the wear of the rail is very great, the steel is apparently as perfect as when it was placed in the track, while fifteen iron rails, exposed to the same wear have been worn out and removed. Since the first breakages, when the rails were first placed in the track, this is the uniform result of our experience thus far. It has been enough to prove that economy will require the replacing of the iron with the steel rail, as fast as may be practicable.

Our traffic with both the Hannibal and the Burlington and Missouri is steadily increasing. The latter has been but recently opened, and its business is not developed, but there is no doubt but that it will become a very valuable auxiliary to our business. Our interchange of business with it the past year has been worth to us, in gross earnings, $481,197.17. The traffic with the Hannibal and St. Jo. has been worth to us, in gross earnings, in the same time, $1,087,018.97.

The rapid development of Kansas and Nebraska, which States are now being intersected by railroads in every direction, the striking improvement in Missouri, and the opening of all Western Iowa by railways, and the settlement and progress of the Territories further west, indicate, not only a continued, but a still more rapid increase of business on the roads west of the Mississippi than has been the case in the past. The completion of the Kansas Pacific to Denver, now certain at an early day, as well as a connection with the Union Pacific, will give a strong impetus to business over the whole line of road from Chicago to Kansas City, as well as to Omaha. With bridges over the great rivers in that direction, and an unbroken and easy connection between all the roads, and free from the annoyance and great expense of transfer by ferries on such a river as the Missouri, the route by Quincy will, however, have great advantages in the contest for the command of business.

In the report of last year, a very full statement was given of the expenditures which had then been made, not only upon the branch roads mentioned, upon the Burlington bridge and the grounds west of the Mississippi, at that point, but also in the improvements and double track along our lines. These expenditures were not then at an end, as they now substantially are.

There has been issued and sold to Stockholders at par, during the year, to meet all these extraordinary expenditures:

Stock to the amount of	$ 2,764,400
The Capital Stock of the Company now stands at	16,590,210
The debt of the Company for which bonds and scrip are outstanding, is	4,649,750
There remains uncalled for, also, under the decree of the Court foreclosing the mortgage on the Northern Cross-road, now the road from Galesburg to Quincy	270,000

This money was due to bondholders, and has not been called for, and by order of the Court remains in the treasury of the Company, subject to the order of the Court.

In addition to this are the indirect liabilities of the Company, being the amount of bonds issued by the various Companies whose lines, or parts of whose lines, this Company has aided to construct as above stated, and which have generally, by lease or otherwise, become substantially the property of this Company, and all of which portions of road so built are tributary roads directly furnishing business to our main trunk road to Chicago.

These bonds are secured by mortgages made by the Companies upon the portion of the roads leased to our Company, and are liable to be redeemed from the net earnings of the business added by those roads to the general business of our road.

These bonds are eight per cent. bonds, and issued at different times, and amount in the gross, upon all the branch roads, to $3,800,000.

The business, or net profits to this Company from the business furnished to it by those roads, will, it is believed, in six or eight years, absorb those bonds entirely, leaving the lateral roads the property of this Company at only the cost of the money which it has advanced to aid in their completion.

The habit, which has become general in the country, of aiding in the construction of railroads by county or town subscription to stock, or in the way of donation, has stimulated the construction of railways to a great extent. It has become a system of speculation by parties who are engaged in the business, and is leading to the building of many roads which will in themselves be unprofitable, while with the amount supplied by the public as a bonus or as stock, the contracting speculators may make money from the construction.

These roads thus built will, in many instances, yield but little revenue, while also, in many cases, they will affect the values of existing railway property. At no time in the history of railways in this country, it is believed, has there been so great an excitement upon this subject, or so universal disposition to invest money in enterprises of this nature. It would be extraordinary if a revulsion did not follow.

The territory through which our lines run is not exempt from this fever, and, to some extent, the revenues of the Company will, in the future, be doubtless affected by it.

On looking over the whole ground, however, the Board sees no good reason to suppose that the property of the Company will not, in the future, continue as valuable as in the past.

The company have 153 locomotives, 70 passenger, 35 baggage, mail and express, 1 pay, 2,159 freight and stock, 700 platform and coal, 69 drovers', and conductors' 40 gravel, 3 tool, 1 pile driving, 158 rubble, 181 hand and 2 wrecking cars.

Number of miles run by locomotives on passenger trains, 1,025,555; on freight trains, 1,506,606; on miscellaneous trains, 1,139,134—total, 3,671,295. Average cost per mile for repairs, 11.11; for oil and waste, 0.84; for fuel, 9.37—average cost per mile run, 21.32. Miles run to pint of oil, 15.74; to cord of wood, 53.12; to ton of coal, 48.47. Average cost per mile for engineers, firemen and wipers, 7.83 Wood is rated at $6 per cord; coal at $4 per ton.

The number of passengers carried during the year was 1,268,493; of these 71,474 were through, and 1,197,019 way. Of the through passengers, 43,052 went west, and 28,422 east. Of the way passengers, 626,299 went west, and 570,720 east. Total carried west, 669,351; do. east, 599,142. Total mileage of passengers, 52,555,532; average do.. 44.43. Earnings per passenger per mile, 3.27 cents.

The whole tonnage moved over the entire line during the year, exclusive of Illinois Central business, was 1,052,754 tons; of which 436,178 tons were moved westward, 339,651 eastward and 276,925 to local points. Number of tons hauled one mile, 147,409,207. Average earnings per ton per mile, 2.77 cents. Illinois Central tonnage moved, 481,985; do. moved one mile, 40,486,740.

GENERAL ACCOUNT, APRIL 30, 1870.

Capital stock		$16,590,210 00
Funded debt, ($4,649,750) viz:		
Trust mortgage convertible sinking fund 8 per cent. bonds		150,000 00
Trust mortgage inconvertible sinking fund 8 per cent. bonds		1,876,000 00
Trust mortgage 7 per cent. bonds.		400,000 00
Second mortgage bonds issued on account of Northern Cross road, payable at Frankfort-on-the Main, interest at 4½ per cent. to July 1, 1875 and at 4 per cent. from July 1, 1875, to July 1, 1890		941,000 00
C., B. & Q. scrip of 13 semi-annual installments of $21,750 each, payable July and January at Frankfort on-the-Main, issued on account of N. C. R. R.		282,750 00
Amount due under decree of Court foreclosing the mort. on the N. C. R. R., not yet called for by the bondholders, and therefore retained by order of the Court		270,000 00
Unclaimed dividends..	$1,958 00	
Unpaid accounts and pay rolls	120,228 57	
Due agents and connecting roads	117,675 40

The directors chosen at the annual meeting June 29, 1870, are as follows:

President.—JAMES F. JOY.

Directors.—Erastus Corning, James F. Joy, Chauncy S. Colton, John C. Green, Nathaniel Thayer, John M. Forbes, Sidney Bartlett, John W. Brooks, Robert S. Watson, William Boott and John N. Denison.

Chairman of Board.—JOHN N. DENISON.

Gen'l Superintendent.—ROBERT HARRIS.

Secretary and Treasurer.—AMOS T. HALL.

German and French Railroads.

A DESCRIPTION OF RAILROADS AND STATIONS IN FRANCE AND PRUSSIA—DISTANCES FROM PRINCIPAL POINTS.

The following are the stations and distances on the principal German and French railroads which intersect the seat of the present war. The Rheinish Railroad runs in a northwesterly direction along the left bank of the Rhine from Bingerbrueck at the mouth of the Nahe river to Cologne, having a length of 95 miles. The following are the principal stations on the railway and their distances from the starting point: Bingerbrueck, Bacharach, 8 miles; Oberwesel, 12½ miles; St. Goar, 16½ miles; Bopard, 26 miles; Cappellen, 35 miles; Coblentz, 38½ miles; Neuwied, 46½ miles; Andernach, 49 miles; Brohl, 53½ miles; Nd. Bressig, 56 miles; Sinzig, 59½ miles; Remagen, 61¾ miles; Rolandseck, 66 miles; Mehlem, 68¾ miles; Godesberg, 70 miles, Bonn, 74½ miles; Boisdorf, 78 miles; Sechtem, 82¾ miles; Bruehl, 85 miles; Cologne, 95 miles.

From Neunkirchen, in Rhenish Prussia, east, the railroad stations and distances are: Kaiserslantern, in Rhenish Bavaria, 29 miles; Neustadt, 48½ miles; Ludwigshafen, 67 miles; Worms, 81 miles. The railroad from Germersheim to Spires, in Rhenish Bavaria, near the Rhine, is 7 miles in length. From Frankfort-on-the Main, south, along the Main Necar Railroad, the stations and distances are as follows: Darmstadt, 15¾ miles; Zwingenberg, 26½ miles; Auerbach, 28 miles; Bensheim, 30 miles; Heppenheim, 38 miles; Weinheim, 39¼ miles; Friedrichsfeld, 48 miles; Manheim, in Baden, 53½ miles. From Kehl, in Baden, on the Rhine, opposite Strasbourg, the railroad stations to the east, with their distances, are: Kork, 2½ miles; Legelshurst, 4 miles; Appenweier (junction) 7 miles.

From Manheim, in Baden, south along the Baden Railroad, running nearly parallel with the Rhine, the principal stations and their distances are: Heidelberg, 11½ miles; Laugenbrucken, 26¾ miles; Bruchsal, 32½ miles; Carlsruhe, 46 miles; Ettlingen, 50½ miles; Muggensturm, 56 miles; Rastadt, 61 miles; Oos, 66½ miles; Buehl, 69 miles; Achern, 79 miles; Renchen, 83 miles; Appenweier (junction), 86½ miles; Offenburg, 92 miles; Friburg, 131 miles; Basle, Switzerland, 170 miles. From Stuttgart, in Wurtemburg, northwest, the stations and distances are: Ludwigsburg, 9¼ miles; Bietigheim, 15 miles; Muehlecker, 29 miles, Maulbronn, 33¾ miles; Bretten, 39½ miles; Bruehsal, in Baden, 40 miles. From Paris, northeast, the stations and their distances are; Rheims, 99¼ miles; Charleville, 153½ miles; thence southeast, Sedan, 163 miles; Montmedy, 201½ miles; Longuyon, 214½ miles; Thionville, France, 241½ miles.

From Paris, east, the stations and their distances are: Nancy, 220 miles; thence north, to Metz, 244¾ miles; thence east, to St. Avold, 275½ miles; Forbach, 287¼ miles. From Paris, east again, the stations and distances are: Luneville, 240 miles; Avricourt, 255 miles; Saarbourg, 468¾ miles; Saverne, 285 miles; Strasbourg, 312½ miles. From Strasbourg, across the Rhine, to Kehl, the distance is 12½ miles.

The First Locomotive in America.

Not many of the present inhabitants of Rondout are aware that the first locomotive engines in America were brought here in 1829, on the sloop Eliza, then sailed by Charles McEntee. There were two of them sent from England in the ship Geo. Canning, by Horatio Allen, then a young civil engineer in the Delaware and Hudson Canal Company's service, who had been sent to England in 1827 to purchase four locomotives, to be used on the company's railroad connecting the mines at Carbondale with the canal at Honesdale. Some months later, two more engines arrived from England in the ship Elisha Hicks, Mr. Allen coming with them. They were put in two canal boats, towed up here by the old Congress, and sent to Honesdale, where one was put on the track. Mr. Allen ran it for a short distance across a tressle bridge and up the road, and then backed it down. None of the locomotives were used after that, as they were declared too heavy for the road, although weighing only four tons each. The two that arrived first never were sent up the canal, but stood for years in a shed near where Bullen & Everson's store now stands, and were finally broken up and sold to James W. Baldwin—for old iron, we believe.

Mr. Allen has the honor of being the man who ran the first locomotive in America. He is now one of the engineers on the East River Bridge. Thurlow Weed says the first locomotive run in America was on the Albany and Schenectady Railroad; but he is mistaken, for the company's road was built about three years before work was commenced on the Albany and Schenectady—John B. Jervis being chief engineer of both works, going to take charge of one after completing the other.—*Rondout Courier.*

Carlton Branch Railway.

The Directors of the Carlton Branch Railway Company have closed with Mr. E. R. Burpee for the construction of their road. The terms and conditions differ materially from those contained in the order first submitted. The price however is substantially the same. According to the first proposal, Mr. Burpee was to receive $125,000 for the road and breakwater, in the following manner: $40,000 from the issue of Carlton bebentures under the Statute, $10,000 Government bonus, $55,000 of the Company's stock, and $20,000 bonds. The terms agreed upon, differ from this in regard only to the character of the compensation. The stock pryment is reduced to an amount which will deprive the contractor of the power of swamping the Corporation and the Company's stock; the reduction of stock payment is made up by an increase of mortgage bonds on the road, and, in the event of Carlton constructing the Breakwater herself, an allowance of something like $22,000 in cash, bonds and stock will be made. The work on the road is to commence within a few days. The Directors of Western Extension Railway Company have decided to give the guarantee of 8 per cent, on $40 000, provided consolidation of management be agreed upon.—*St. John News.*

List of U. S. Patents.

Issued for Improvements relating to Railroad Construction, and Rolling Stock, Mining &c., for the week ending Aug. 30th, 1870, and each bearing that date.

Reported weekly for the RAILROAD JOURNAL, from the Office of DAVID A. BURR, Solicitor of Patents and Attorney in Patent cases, Washington City, D. C.

No.

106,760—Truss Bridge, John S. Adams, Elgin, Ills.

106,762—Lubricating Box, Charles Andrews, Providence, R. I.

106,761—Fire Proof R. R. Cars, Geo. C. Bestor, Peoria, Ills.

106,767—Steam Engine, Henry L. Butler and Thomas A. Christie, Pittsburg, Pa.

106,786—R. R. Car Duster and Ventilator, John P. Curry, New York, N. Y.

106,801—Maximum and Minimum Water Gauge, George J. Firmin, North Brixton, England.

106,804—Rotary Steam Engine or Pump, George S. Folliansbee, Philadelphia, Pa., assignor to himself and John Rosencrantz, same place.

106,807—Car Coupling, James H. Froman, Plattsburg, Mo.

106,820—Low Water Indicator, Geo. M. Hopkins and John A. Straight, Albion, N. P. (antedated Aug. 26, 1870.)

106,821—Low Water and High Pressure Indicator, same parties as above.

106,847—Safety Car Brake, Anthony S. Martin, Washington, D. C.

106,849—Combined Lock Nut and Splice Bar, Robt. L. McGowan, New Brighton, assignor to himself, Charles A. Woods, Pittsburg, Pa., John Fletcher, Ravenna, O., and Thos. Johnson, Allegheny, Pa.

106,855—Bridge, Thos. W. H. Moseley, Boston, Mass.

106,860—Oscillating Steam Engine, August Nittinger, Jr., Philadelphia.

106,886—Cornish Engine, John Storer, Peekskill, N. Y., ante-dated Aug 18, 1870.

106,887—Stock Car, Zadok Street, Salem, Ohio.

106,888—Stock Car, Zadok Street, Salem, Ohio.

106,899—Steam Engine Pump, Geo. Westinghouse, Jr., Pittsburg, Pa.

106,936—Car Coupling, Chas. M. Hoag, Nassau, N. Y.

106,940—R. R. Car Ventilator, Wm. H. Hunt, Bolton, Conn.

106,953—R. R. Car Seat, John M. O'Neill, Clinton, Iowa.

106,971—Burner for Locomotive Head Lights, Aaron C. Vaughan, Philadelphia, Pa., assignor to James M. Sellers and A. K. McClure, same place.

☞ The Montgomery and West Point Railroad has been purchased by the Western or Montgomery and Selma line.

Commerce of St. Paul, Minn.

The annual report of the Chamber of Commerce of St. Paul, just issued, shows the progress which that city is making in commerce and industry. During the year 1869 there was on the sale of liquors a decrease of 2½ per cent.; machinery, an increase of 14 per cent.; nails, an increase of 40 per cent.; castings, an increase of 50 per cent.; agricultural implements, an increase of 50 per cent.; reapers and mowers, an increase of 50 per cent.; household goods, an increase of 127 per cent.; pig iron, an increase of 156 per cent.; hardware, an increase of 222 per cent.; sewing machines, an increase of 450 per cent. Five hundred and nine buildings erected at an expense of $1,395,727 also attests the progress of St. Paul; as does the importation from other States of 24,373 packages of agricultural implements, the growth of the country in its vicinity. The assessed personal property is set down at $2,364,747, the real estate $59,773.87, and the incomes reported a total of $1,003,372. The revenue report on the 1st of May, 1869, was as follows:

Sales of wholesale dealers doing a business of $50,000 and over	$ 4,563,722
Sales of wholesale dealers doing a business under $50,000	3,250,000
This year's increase estimated from sales already reported	1,000,000
Manufacturers doing a business of $5000 and over, not including tobacco, liquors and segars	340,674
Manufacturers doing a business under $5000, not including tobacco, liquors and segars	690,000
This year's increase of manufacturers estimated from sales already reported	61,700
Sales of tobacco, liquors and segars to May 1, 1870, estimated from sales already reported	302,817
Sales of manufactures (not reported) to May 1, 1870	300,000
Sales of lumber and flour (not reported) to May 1, 1870	400,000
Brokers' sales to May 1, 1870	400,000
Produce brokers' and butchers' sales to May 1, 1870	300,000
	$11,608,913

The population earning and making as above, is estimated at about 24,000. That these figures represent growth will be readily perceptible when we quote that in 1856 the assessed personal property was only $583,220, while in 1869 it was nearly $3,000,000.

☞ The Cape Breton *News* says the work on the International Coal and Railway Company's railway, between Sydney Harbor and Bridgeport, is being vigorously pushed forward to ensure coal shipments. The track is partly laid. The railway from South Bar to the mines at Low Point will soon be completed.

☞ The following gentlemen have been elected directors of the Portsmouth and Dover railroad: John H. Bailey, Daniel Marcy, George L. Treadwell and Frank Jones of Portsmouth, and Amos D. Purington, Joshua G. Hall and Oliver Wyatt of Dover.

☞ The Shore Line Railway has been leased by the New York and New Haven and the Hartford and New Haven Railroads for 29 years at $100,000 a year.

Wooden Railway.

As the first of a new kind of railway improvement introduced into the country, considerable interest is attached to the Gosford road from Quebec to St. John. The contractor, Mr. Hurlburt, has made considerable progress with the work, and on Wednesday last a party of Quebec gentlemen, including the President and directors of the company, made a first trip over it to a point beyond the village of Jacques Cartier, fifteen miles from the city. About half an hour's drive from the town brought the party to the track, where a locomotive was in readiness to carry them over the line. The *Chronicle*, in its report of the trip, says:

The problem of wooden railways for colonization purposes may now be said to be solved, and as a proof it is only necessary to say that we passed over the road yesterday at a rate of from twenty to thirty miles an hour, a speed which is seldom passed on any of the iron roads in this Province. The cars conveying the party yesterday were simply rudimentary vehicles, known as platform carriages, but sufficient evidence was given that the line when completed will be as easy and smooth for traveling purposes as upon the old established iron or steel rails. The road is built upon a 4ft. 8½in. gauge, being the ordinary width of the modern English and American railways. Each rail is 14 feet long, 7 inches in depth, and 14 inches in width—sawn and prepared at a temporary mill recently erected by the contractor on the line for the purpose. Each rail rests on several sleepers to which they are fastened by wedges—by a process so simple that the rail, when required, can be removed or reversed by any ordinary mechanic. The locomotive is from the Rhode Island Ironworks, and is most assuredly a splendid piece of mechanical ingenuity, while it is supposed to weigh 21 tons loaded, without the tender. The bridge which spans the Jacques Cartier, and of which so much has been said, is evidently a solid structure judging from the heavily laden trains which pass over it daily. The first span of this bridge is 97 feet, and the second 79 feet—the total length, with the trestle work on the opposite side, being 1,450 feet. It is supposed from the calculations of the engineer to be able to bear a weight of 700 tons. The trestle work on the opposite side is also of very substantial make. At first view, passengers might feel alarmed at crossing this trestle work, or viaduct; but, to avoid the possibility of accident, the engineer has laid an additional rail, which materially increases the safety of the traveling. The trains also here move at a very slow speed. We may add that the height of this structure is about 60 feet from the ground; but to those accustomed to travel over the Crumlin (Mon.) viaduct, bridging a chasm of a mile in length and about 250 feet in height, the Jacques Cartier viaduct will not be alarming either to the view or the nerves.

Commerce of Cincinnati.

According to the annual report of the Board of Trade of Cincinnati for 1869, just issued, that city has a capital of $45,225,586 invested in manufacturing establishments, employing 59,354 hands, and turning out products to the value of $119,140,089. The manufacturing industry is classified, the chief classes being as follows: Iron, $18,623,559; wood, $11,135,335; food, $17,508,892; clothing, $12,471,507; liquors, $15,609,698. A comparative table of the statistics of the manufactures of the different cities of the United States places Cincinnati fourth on the list, only New York, Boston and Philadelphia surpassing her. Her imports for 1869 were valued at $283,927,902, and her exports $163,084,358, against $280,068,948 imports and $144,262,138 exports the previous year. In making up these statistics, however, that city is accustomed to count produce in transit, from which little or no profit is derived. There were enrolled at that port, during 1869, 57 steamboats, 14 towboats, 4 propellers, 3 ferries, 109 canal boats, 92 barges, making a total of 279 vessels of 51,563.40 tons, valued at $1,447,919. There were licensed 126 steam vessels of 43,455.39 tons capacity. The total value of the river commerce of the towns and cities on the Ohio River is set down at $715,000,000, of which amount Cincinnati is set down for $169,506,000, Louisville for $115,000,000, Pittsburg for $150,000,000, Wheeling and Smithland for $30,000,000, Paducah for $40,000,000, Cairo for $20,000,000, and Wabash River and New Albany for $15,000,000 each.

Memphis and Little Rock Railroad.

We learn from the Arkansas *Gazette* that a contract has just been awarded by this company to Capt. Pat. H. Wheat, of Devalls Bluff, and Mr. Chas. McCreanor for the completion of the White River bridge. It is to be finished, ready for the iron on the 1st of November. The road has just been completed to Brinkley, and there now remains but a gap of fifteen miles to complete. The larger part of even that work is done, and the president Mr. Brinkley, asserts positively that trains will run over the entire road on the 18th December next.

Pierce City and Fort Smith Railroad.

The first meeting of the stockholders of this road was held at Pierce City, Arkansas, on the 15th of July. Articles of organization were drawn and three hundred shares subscribed. The chair announced that nominations for officers, to serve the ensuing year were in order, and the following gentlemen were unanimously elected: Hon. John S. Phelps, president; A. J. Stewart, of Keittsville, W. H. Fallis, L. L. L. Allen, E. P. Linzee, A. Woolsey, of Pierce City, directors; J. B. Perkins, treasurer; A. L. White, secretary.

☞ Hon. John Cessna has been elected president of the Bedford (Pa.)and Bridgeport Railroad Company. The directors are: Wm. M. Lyon, Henry Loughlin, John Graff, L. T. Watson, G. W. Gump, Wm. M. Hall, Isaac Mengel, David Wolf, J. W. Lingenfelter, J. R. Durborrow, J. G. Hartley, D. M. Black. The people of Bedford are thoroughly awake to the importance of this enterprise.

☞ The *Monticellonian*, published in Monticello, Drew Co., Ark., learns from a private letter that an installment of iron has landed at Eunice for the above road. It is also creditably informed that a large number of hands are really at work on the road. Further, that the locomotive, construction cars and more iron is daily expected to land at the above point.

☞ Capt. George W. Hughes, chief, and Capt. H. C. West and Mr. Johnson, assistant engineers, have commenced the survey of the southern division of the Cairo and Fulton Railroad from a point on the river, to Little Rock, and the line and level will be rapidly run to the Texas border.

☞ The North Attleborough Branch Railroad is under way, and will be completed by the first of November. The Boston and Providence corporation, to whom it was leased, will supply the equipments when finished and run the road,

RAILROAD AND CANAL DIVIDEND STATEMENT.

Showing the amount of Stock Outstanding, the Dividend Periods and the date of last Dividend.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics.*" State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, September 3, 1870.

Stock Exchange and Money Market.

Money has been in fair supply, notwithstanding the further general reduction of the bank averages; and as the demand for accommodation has been less urgent, particularly for speculative purposes, rates have been quoted steady at from 4@6, chiefly 5@6 per cent. on call, and at from 6½@8½ per cent. per annum on strictly prime to good commercial paper. There has been a temporary cessation of the remittances of currency to the interior, the Western exchanges having been in favor of this city; and the banks have not suffered as severe a diminution of the available resources as had been anticipated. In their last weekly exhibit, the city banks, showed a falling off of over 8½ millions in their deposits, nearly 1⅛ millions in their specie reserve, and about 1⅜ million in their legal tender average; while they reported a reduction of over 1¾ millions in loan and discount item; and a small addition to their circulation. Their legal tender average is now under 49 millions, as against 61⅝ millions on the 28th of May (the highest average of the current year, thus far). Their deposits are now under 202 millions, as against nearly 234½ millions on the 16th of July. Their specie average is down to about 19⅝ millions, against 41½ millions six weeks since. The U. S. Sub Treasury lost about ½ million of its currency balance; and about 2⅜ millions of its coin reserve.

The specie reserve of the city banks according to the latest return is $19,639,884, against $19,469,102 same time last year. The city bank deposits are now $201,966,700, against $188,754,539 week ending Aug. 27, 1869. The legal tender reserve amounts to $48,959,713, against $52,792,884 same time last year. The circulation now stands at $32,904,906, against $28,999,742 same time last year. The loans are now $273,986,974, against $261,012,109 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $69,903,441 a day, against a daily average of $68,032,563 the preceding week. The current weeks' exchanges average about 55 millions a day. The city banks, last week, reported a loss of $1,093,962 of specie, $3,564,618 of deposits, and $1,893,573 of legal tender notes. They reduced their loans, $1,786,008; and added to their circulation, $65,339.

The city bank exchanges on Wednesday were about 47 millions.

The coin reserves of the Treasury Department on Monday were over $103,384,531 including $34,249,704 on deposit on private account; currency balances, $37,612,480.

National Bank notes to the amount of $355,440 were issued last week by the Treasury Department, making the total issue to 1,692 banks thus far, amount to $327,932,264, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $28,185,295 leaving, with the existing 1.612 banks, (having an aggregate capital of $427,235,701,) an actual circulation at this date, of $299,635,409. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $342,705,300; and for the public deposits, $16,366 500—making a total of $359,071,800. The Treasury Department last week redeemed and destroyed $588,800 of worn and mutilated fractional currency, and issued $471,922 of new.

The U. S. Sub-Treasury receipts, week ending with Aug. 27, were $3,859,241 in coin, (including $3,513,000 from customs duties,) and $3,609,325 in currency; payments, $4,407,986 in coin, (including $266,902 of coin interest,) and $6,008,252 in currency; balance at the close of the week, included $67,644,510, of coin, against $68,193,156 the preceding Saturday, and $9,756,346 of currency, against $12,155,274 at the close of the preceding week. The business of the Office on the first two days of the current week, was as follows: On Monday, receipts, $849,382 in coin, (including $530,084 from customs,) and $319,523 in currency; payment $655,569 of coin (including $16,525 of coin interest), and $523,618, of currency. On Tuesday, receipts, $907,867 in coin (including $884,000 from customs), and $3,251,288 in currency; payments, $255,866 in coin (including $172,225 of coin interest) and $202,588 of cur-

rency. The balance at the close of business on Tuesday included $12,422,831 of currency, and $68,490,325 of coin, against a balance a week previous of $12,515,823 currency, and $69,167,468 coin.

The aggregate receipts of the U. S. Sub-Treasury in August were $53,001,692, including $15,645,267 from customs; aggregate payments, $55,169,424, including $2,221,753 of coin interest, and $129,213.

The U. S. Sub-Treasurer issued in August $872,500 of coin certificates.

The U. S. Sub-Treasurer retired, last week, $3,140,924 of coin certificates, received for customs.

Government revenues have yielded moderately since our last. The excises, during the week yielded $2,738,341; customs at the port of New York, $3,377,925, and at the outports about a $1,120,000 (in coin) more, making the grand total income for the week equal to about $7,910,954 in currency. The income of the Government, from excises, since July 1, 1870, has been $37,024,330.

Gold has shown less animation and buoyancy, the range of the week having been from 116@118; and the closing quotation on Wednesday 117, as against 117⅛ the preceding Wednesday. The speculative demand has been less confident, though rumors have been prevalent of a combination having been formed to manipulate the market, and work up the price, in the interest of a special clique of operators. Government has announced that it will sell four millions of Gold in September; but it is generally believed that the Government sales would be promptly increased in the event of any positive demonstration on the part of speculators to run up the price and disturb legitimate business, by any such engineering as led to the memorable explosion in September of last year. The export drain of Gold last week was only about 1⅛ millions, against about 2¼ millions the preceding week, about three millions the week ending with August 20th, 3⅞ millions the week ending with Aug. 13th, and nearly 7 millions the week ending with Aug. 6th. On Wednesday Government marketed a million of Gold at from 116 21 to 116 33. The aggregate of the bids was $4,330,000. The shipments thus far this year have been about 44⅝ millions, against 24¾ millions same time in 1869; 63⅞ millions same time in 1868; 39⅞ millions same time in 1867; 52⅞ millions same time in 1866; and nearly 20 millions same time in 1865. On Wednesday of the current week, the specie exports amounted to only $359,500. The exchanges at the Gold Exchange Bank, which were 105⅛ millions on Thursday of last week, fell to 29⅜ millions on Monday of this week, and 28¼ millions on Tuesday. On Wednesday they were only 26¾ millions.

The coin balance of the U. S. Sub-Treasury on Thursday morning was $69,352,032.

The customs demand for Gold last week, averaged $585,500 a day; thus far, this week, it has averaged $707,042 a day, or equal to a weekly aggregate of $4,244,252. The arrivals of specie from Europe, Havana and other foreign ports, during the week were only $252; and since Jan. 1, 1870, $7,522,732, against $9,835,856 same time in 1869. The total customs revenue of the Government, in coin, at this port, since Jan. 1, has been $90,318,690 against $88,911,713, same time in 1869.

The customs revenue of the port on Wednesday was $935,458; and the coin interest disbursements were $33,156.

The customs revenue at the port of San Francisco, from Jan. 1 to August 20th, was $5,130,827, against $5,075,927 same time last year.

The exports of specie, from this port, last week, were $1,197,162 against $168,500 same week last year; and since Jan. 1870, $44,187,607, against $24,718,945 same time in 1869. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $266,902; and since Jan. 1, 1870, $62,459,368 against $64,624,015 same time in 1869.

The specie exports by steamer and railway from San Francisco, from Jan. 1, 1870 to Aug. 20th, were $22,693,533, against $25,409,552 same time last year.

Under its official programme for September, Government will sell four millions of Gold during the month as follows: Wednesday, September 7, $1,000,000; Wednesday, September 14, $1,000,000; Wednesday, September 21, $1,000,000; Wednesday, September 28, $1,000,000. And purchase seven millions of Five-Twenties, as follows: Thursday, September 1, $1,000,000; Thursday, September 8, $2,000,000; Thursday, September 15, $1,000,000; Thursday, September 22, $2,000,000; Thursday, September 29, $1,000,000.

Foreign Exchange has been quiet since our last, but as the offerings of prime bills have not been large, rates have been well supported. Bankers' sixty day bills on London closed on Wednesday at 109⅛@109⅞; sight bills on London 110⅜@110⅝. The offerings of produce bills have been comparatively light. The week's exports of domestic produce have been to the currency value of $2,648,703, and since January 1, 1870, $119,780,983, against $126,602,796 same time in 1869.

Government securities have been in moderate supply and demand all through the week. Prices have shown but little change, in any instance. On Tuesday morning, the Government financial programme relative to Gold sales and bond purchases, for the month of September, was made public by the city newspapers. The bond purchases for the month were limited to seven millions. The later dealings on Wednesday showed a firmer and buoyant market.

U. S. sixes of 1881 closed here on Wednesday of the current week at 114⅛@114½; U. S. Five-twenties of 1862, 112⅝@112⅞; U. S. Five-twenties of 1864 at 111⅛@111⅜; U. S. Five-twenties of 1865 at 111⅜@111⅞; U.S. Five-twenties of 1865 consolidated, 110@110¼; U. S. Five-twenties of 1867, 110⅛@110¼; U. S. Five-twenties of 1868, 110¼@110⅜; U. S. Ten-forties at 109@109⅛; U. S. Six per cent. currency bonds, 111½@111⅝.

State bonds have been less active, and less buoyant in price.

Railway and miscellaneous share property has been unusually dull through the week, and there have been few important fluctuations in values. The later dealings showed some increase in the volume of dealings, and rather more steadiness in values.

Railway bonds have been in moderate investment demand, including Central Pacific Sixes, which closed on Wednesday firmly at 88@88¼; which figures cover the accrued interest since July 1, equally to fully one per cent. in gold, making the net price of the bonds only about 87. The Union Pacific Sixes closed on Wednesday at 81¼@81⅜. The registered First Mortgage bonds of the Chesapeake and Ohio Railroad have been purchased moderately for investment purposes at 90 per cent. and accrued interest.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Aug. 17.	Aug. 24.	Aug. 31.

At Frankfort on Wednesday, U. S. Five Twenties were quoted at 91⅛@91¼.

General business has shown but little spirit in the line of domestic produce, though Breadstuffs, Cotton, Petroleum, Rice, Tobacco and Nava-Stores have been in somewhat better request Provisions have been in very light demand. Middling upland cotton closed on Wednesday at 19⅞ cts. per lb. The stock of cotton now here is given at about 24,500 bales. The receipts at the port this week, have averaged about 2,300 bales a day. The receipts at all the ports, since Sept. 1, 1869, have been 2,847,708 bales, against 2,043,686 bales same time in 1868–'9; exports same time 2,197,100 bales, against 1,441,050 bales same time in 1868–'9; stock on hand at latest dates, 75,950, bales, against 10,900 bales same date 1869. The exports of domestic cotton goods from this port, since Jan. 1, 1870 have been 12,004 pkgs., against 16,276 pkgs., same time in 1869. From Boston, 4,708 pkgs. in 1870, against 6,034 pkgs. same time in 1869.

At the Live Stock markets, this week, Beeves have been in fair demand at from 8@17c. per lb.; week's receipts, 5,977. Milch cows continue very quiet at $40@$100 each, receipts, 102. Veal calves continue in fair request at from 7@12c. per lb.; receipts, 2,569. Sheep have been less sought after at from 3@6½c.; lambs at 6½@10c. per lb.; receipts, 19,871. Hogs have been in light request at 9¾@10¼c. per lb., all live weight; receipts, 13,871.

There has been a fair movement in foreign goods at uniform prices, in most instances. The dry goods entries at this port, last week, were $3,595,295, making with the general merchandise imports, a total of $8,010,501.

At the auction sale of Scranton Coal on Wednesday, 80,000 tons were disposed of at a shade lower prices, ranging from $4.10@$5.50 per ton of 2,240 lbs., delivered at Elizabethport, N. J.

The ocean freight market has been moderately active, but irregular as to rates. For Liverpool we quote flour at 1s. 6d. by sail, and 1s. 6d.@1s. 7½d. by steamer per bbl.; grain at 4½@5d. by sail, and 6½d. by steamer per bushel; cotton at $\frac{3}{16}$d. by sail and ¼d. by steamer per lb.; and heavy goods 15s.@30s. by sail, and 17s. 6d.@45s. by steamer, per ton. Total number of vessels in port on Wednesday, 519.

The following will show the exports (exclusive of specie) from New York to foreign ports for the week ending August 30th, and since the beginning of the year:

	1869.	1870.
For the week.....	$3,835,019	$2,648,703
Previously reported..	122,767,777	117,132,280
Since Jan. 1.....	$126,602,796	$119,780,983

The imports for the week ending Aug. 27, and since the beginning of the year, have been as follows:

	1869.	1870.
Dry goods	$3,571,887	$3,595,295
Gen. merchandise..... ..	8,504,941	4,415,206
Total for the week.....	$7,076,828	$8,010,501
Previously reported....	200,210,154	190,003,744
Since January 1.....	$207,286,982	$198,014,245

The following quotations of sales of Railway and other securities are n addition to those given elsewhere in our columns:—

☞ The Shepherdstown (W. Va.) *Register* says that some of the contractors of the Shepherdstown division of the Shenandoah Valley Railroad are expected there next week to select sites for shanties, &c., and that a large number of hands will soon be set to work on that end of the line.

Milwaukee and Northern Railroad.

We learn that this Company are now shipping iron to complete the first section of their road to Cedarburg, about 20 miles from Milwaukee, and that it will be open for traffic in November next. Contracts are let to responsible persons to finish the road to Green Bay. This road passes through a district of country about 100 miles long by some 40 miles wide, bounded on one side by Lake Michigan, and on the other by Lakes Horicon and Winnebago and the Lower Fox River, and filled with the most dense and wealthy population of the State. This road shortens the distance by rail from Green Bay and Chicago about 60 miles. The lumber and grain traffic on this line when completed will be very great. This road is in responsible hands, and will be pushed forward to completion with great energy.

Boonton Iron Works.

Messrs. FULLER, LORD & Co., Proprietors of the above named old established Bolt and Nut Works, are prepared to supply all descriptions of Bolts and Nuts to Railroad Companies, Locomotive and Car Builders, &c. The special attention of Bridge Builders is directed to the superior facilities of this firm for manufacturing all descriptions and sizes of Bolts and Nuts used in the construction of Bridges.

☞ The coupons due October 1st on ARKANSAS STATE BONDS issued to Railroad Companies, will be paid on and after that date on presentation at the Banking House of FARNHAM, GILBERT & CO., No. 8 Wall street.

D. B. SICKLES,
Financial Agent, State of Arkansas.

☞ A certificate of incorporation of the Pittsburgh, Canton, and Chicago Railroad Company was filed at the Ohio Secretary of State's office, on the 13th ult. The corporation propose to build a track from New London, Huron county, to some point not yet named in Williams county, being an extension of the Pittsburgh, Canton and Chicago Railroad, as above. The capital stock is $500,000, divided into shares of $100 each.

☞ The citizens of Taunton, Mass., are very sanguine of the success of the new railroad projected from that place to Middleboro'. The Old Colony Railroad Company are ready to subscribe to the stock to the amount of $350,000; and Hon. Oliver Ames, of North Easton, who has subscribed $20,000, expresses a willingness to be one of seven to build the entire road.

☞ The Central Pacific, California and Oregon, Oakland and Alameda, and Joaquin Valley Railroad Companies have consolidated under the name of the Central Pacific Railroad Company.

☞ The Savannah, Griffin and North Alabama Railroad is finished to within six miles of Newnan, and is open for passenger traffic to that place by coaches connecting.

☞ The directors of the Montpelier and Wells River Railroad are: J. N. Hall, Roderick Richardson, E. G. Trench, George B. Fessenden, Jacob Smith, C. H. Heath, J. W. Brown and Joel Foster.

☞ The stockholders of the West Wisconsin Railway hold their annual meeting in the City of Hudson, on the 7th of September.

Journal of Railroad Law.

RAILROAD COMPANIES—OMISSION TO SOUND SIGNAL AT CROSSING—ORDINARY PRUDENCE.

The case of Baxter *vs.* The Troy and Boston Railroad Cpmpany (41 N. Y., 502), was an action to recover damages for an injury sustained at a highway crossing, in the northern part of the village of Lansingburgh. Plaintiff charged negligence upon the defendant. It was denied, defendant alleging that plaintiff's negligence contributed to the injury. The crossing was midway of a hill; the highway leading east and west. Plaintiff lived about twenty rods west of the crossing; he was driving east, up the ascent, on a walk, with a double team, about one o'clock P. M.; he heard neither whistle nor bell, nor the noise of the train.

The train causing the injury was the regular one o'clock up train, with the passage of which plaintiff had been familiar for years. He testified that he did not see the train; that he did not look for it; that he did not hear it, although its tread could be heard from the place where he lived.

There was much contradictory evidence upon the question whether the bell was rung, or the whistle sounded; and also, upon the question whether the plaintiff struck his horses in an effort to pass the crossing in front of the train.

The jury rendered a verdict for the plaintiff. The following is the able opinion of the Court delivered by

GROVER, J.—The only ground upon which the defendant's motion for nonsuit was based, was that the evidence showed that the negligence of the plaintiff contributed to the injury received by him. The law required the plaintiff to show, that in crossing the defendant's road, he exercised proper vigilance and care in protecting himself from injury from the locomotives and trains operated by defendant, irrespective of the question whether defendant was or was not negligent. The care to be exercised by the plaintiff required him to make a vigilant use of his eyes and ears, in ascertaining whether trains were approaching, and if from either source or otherwise, he learned that such was the fact, to use caution in avoiding the danger. (Wilcox *vs.* The Rome and Watertown R. R. Co., 39 N. Y., 358.) In this case and others, the cases have been so extensively reviewed by this Court, that a future examination would be superfluous. It follows, that the question presented upon the motion for nonsuit in this case, were: 1st. Whether the plaintiff was aware, from any source, of the situation and presence of the approaching train in time to avoid the danger. He testifies that he was not, and there was no such preponderance of evidence in conflict with his testimony on this point as to justify the Court in taking the question from the jury. 2d. Whether the exercise of proper care on his part, including the vigilant use of his eyes and ears in ascertaining whether trains were approaching would have made him aware of the danger in time to avoid it. If so, it is clear that the omission of this care by the plaintiff contributed to the injury, and that the plaintiff could not recover therefor. This requires an examination of the testimony. The plaintiff testified that he did not hear the train, or see it, until about the instant it struck his wagon. The crossing was where the defendant's track ran through a deep cut on a curve, as I understand the testimony. There was some proof tending to show that the wind blew from a direction opposite to that from which the train approached. From this evidence I think it cannot be successfully claimed that it conclusively appeared that the plaintiff would have heard the train, had he listened, although it is highly probable that he would. It was not, therefore, improper to submit this question to the jury. It is sometimes said that the most cautious and thoughtful are sometimes absorbed by their business, their cares and their griefs, and thus they cannot exert their usual caution. If by this it is to be understood that they cross railroad tracks while so absorbed and consequently inattentive to their safety, it is only another mode of saying that persons, generally careful, are sometimes careless, generally vigilant, sometimes heedless; and it follows, upon principle, that if such persons receive an injury in consequence of their heedlessness, they can no more recover therefor, because on other occasions they had been vigilant, than if always heedless. The law requires care at all times when in a situation of danger; and mental absorption, or revery from business, grief, etc., will not excuse its omission. The inquiry is whether, from the evidence, it satisfactorily appears that the plaintiff, by looking, could have seen the train in time to have avoided the collision. If so the plaintiff should have been nonsuited. If not the case was a proper one for admission to the jury. The plaintiff testified that he was well acquainted with the crossing; that he did not look for the train; that he could not have seen it until upon the track if he had, on account of the hill, etc. If this was true, the plaintiff was excused from looking, as the law does not require one to look to see something, when it is impossible to see it. Nor does the care required in crossing a railroad track in a highway, with a team, render it necessary that the party desiring to cross, if unable to look along the track without leaving his team, to leave it and go upon the track for that purpose before driving thereon. This would be a degree of care not observed by the mass of prudent persons. Besides, in most cases such care would be useless; for the speed of the trains is often such, that although the crossing would be entirely safe while the person stood upon the track, yet before he could return to his team and drive upon the track, a train might be approaching in the immediate vicinity of its crossing. All that the law requires is a reasonable use of the senses; that is, one approaching the crossing must look along the track when his view is unobstructed, and thus ascertain whether there is danger in crossing to be apprehended from trains approaching from either direction. According to the testimony of the plaintiff, he could not have seen the train that struck the wagon which he was driving in time to have avoided it. If this be true, his omission to look as required, directly contributed to the injury received, and the plaintiff should have been nonsuited. My impression from the evidence is, that the plaintiff could, by looking, have seen the train and avoided the danger, and should therefore have been nonsuited; but as a new trial must be granted upon other grounds and the evidence may be different from the present, I shall not consider this point further. The defendant requested the Court to charge the jury, that if the plaintiff, in approaching near the crossing, could have seen or heard the approaching train by the exercise of ordinary prudence, and failed to, he is guilty of negligence contributing to the injury, and cannot recover. The Court refused, and exception was taken. The Court erred in refusing to charge the proposition generally, unless the refusal is understood to have been placed upon the ground that the proposition did not exclude the idea that the plaintiff could not have seen or heard the train in time to have avoided the danger. If the proposition is so understood, the refusal was not erroneous. But the Court clearly erred in refusing to charge the fourth proposition requested by defendant's counsel. The proposition was simply that the plaintiff was not relieved from ordinary prudence in approaching the crossing by the omission of the defendant to give the signals required by statute. The soundness of this proposition will appear from every well considered case involving the question, as well as from the elementary writers, and the reasons assigned for the rule fixing the right of recovery. So long as it shall be held that contributing negligence of the plaintiff will bar a recovery, it can never be held that the negligence of the defendant will exonerate the plaintiff from observing ordinary prudence, whether such negligence consists of duties enjoined by statute or the common law. It is insisted that the Court had in substance already charged the same proposition. The refusal was not placed on that ground, and the jury were left to infer that the refusal was because the Court held the law to be different. I have examined the entire charge and find nothing therein that will obviate this error.

The judgment must be reversed and a new trial ordered.

Judgment reversed.

Portland and Ogdensburg Railroad.

There seems to be no doubt but that this road will be built through the Notch at no distant day. The Maine section is already well advanced toward completion and the Vermont section is under contract. The exact route through the Notch has not yet been determined upon. Three different surveys have been made, and one which follows the side of Mount Webster is said to bring the grade down to only sixty-five feet to the mile. By going in a more direct line and by a somewhat heavier grade a mile and a half in distance may be saved. The heaviest grade proposed is about one hundred feet. There was an informal meeting of the directors and engineers of the road at the Crawford House a few days since, to hear a report from Mr. B. H. Latrobe of Baltimore, the distinguished engineer of the Baltimore and Ohio Railroad. Among those present were General Samuel J. Anderson of Portland, President of the road; Hon. J. B. Brown, Horatio N. Jose and Samuel Spring of Portland, and Horace Fairbanks and F. Fairbanks of St. Johnsbury, Vt., Directors; John F. Anderson of Portland, Engineer-in-Chief; George T. Clark of Flint, Mich. (who accompanied Mr. Latrobe); Thomas E. Peverly of New York and Charles J. Nourse of Maine, engineers of the Maine end of the road, and John E. Early and A. C. Mitchell of St. Johnsbury, engineers of the Vermont end. Mr. Latrobe gave it as his opinion that a railroad through the Notch is entirely practicable.

Messrs. Jay Cooke & Co.

We learn that Messrs. JAY COOKE & Co. are about to establish an American banking-house in London, as an important and long contemplated auxiliary to their New York, Washington and Philadelphia establishments, in connection with Hon. HUGH MCCULLOCH, late Secretary of the Treasury, as the resident partner. The eminent experience of MR. MCCULLOCH as a private banker, and as President of the State Bank of Indiana—as well as the First Controller of the Currency, in which capacity he organized our whole system of National banking—in addition to his faithful conduct of the Treasury through a four years' term of unusual interest and critical importance to the public credit, both in respect to the collection and application of the revenues and to successfully funding more than a thousand millions of the temporary obligations of the department, renders his name alone a great acquisition to the house of Messrs. COOKE. His known prudence in and devotion to business, combined with personal worth, no less than his financial reputation and public services, will, we doubt not, commend him at once to the confidence and cordial respect of the banking interests abroad, among whom he proposes to make his future home.

☞ Articles of association for the Chicago, Valparaiso and Southern Railroad Company, with a capital stock of $400,000, divided into four thousand shares of $100 each, have been filed in the office of the Secretary of State. The articles provide that the "road shall commence at or near La Crosse, in Laporte county, State of Indiana, and run thence by way of Valparaiso through Porter county to Lake Station, in Lake county, in said State, and shall be twenty-three miles long, or thereabouts."

☞ The Montreal *Gazette* says that the plans and specifications for the extensive Public Works projected for Bond Eau Harbor are rapidly drawing towards completion; and tenders for the execution of the works will be advertised for in a very few days. This action on the part of the Dominion Government will be duly appreciated by the people of the West, who have for so many years urged the necessity of a harbor of refuge for shipping on the north shore of Lake Erie.

☞ Grading on the Northern Pacific Railroad is progressing very rapidly—upwards of thirty miles of the road bed being ready for the ties. Track-laying has also commenced, and will be pushed forward as fast as the iron is received. Governor Smith, of Vermont, the President of the road, and party, were present to witness the laying of the first rail. There are three thousand men at work on the grade.

☞ The iron for the Toronto, Grey and Bruce railroad to Arthur has been purchased, and Mr. Shanly will commence laying it down on the 1st of September. In two months or so the cars will be running to Orangeville. The road is to be extended to Mt. Morris, and eventually to Owen Sound.

☞ The period for the reception of tenders for the construction of the North Shore Railway, has been extended from Thursday, September 1, at noon, to Monday, the 12th of September, inclusive.

Railroads of Arkansas.

D. B. Sickles, Financial Agent, in this city, of the State of Arkansas, gives some very encouraging statements in regard to the progress of the work on the various railroads now in course of construction in that State. He informs us that the Memphis and Little Rock Railroad has recently been opened to Brinkley, and that passengers from Memphis can now reach Little Rock in about twelve hours. The completion of the road before the 1st of January is positively assured. The Little Rock and Fort Smith road is finished as far as Gold Creek, a distance of eighty miles from Little Rock, and the rails will be down to Lewisburg in about two weeks. On the Little Rock, Pine Bluff and New Orleans railroad, thirty-five miles have been graded and made ready for ties; iron rails, with fastenings, sufficient to complete ten miles of track are now at Chicora, the terminus of the road; and it is the intention of the company to have trains running through to Pine Bluff by the 1st of January. The Mississippi, Ouachita and Red River road has over 500 laborers employed, and about twenty miles of road bed have been prepared for the rails, which are now on the ground. It is asserted that in less than twelve months Arkansas will have over 600 miles of railroad in operation through the richest sections of the State.

☞ The Fayetteville (Ark.) *Democrat* says: "The engineers of the Little Rock and Fort Smith Railroad are now on this side of Mulberry, and will finish the location of the road to this place in two or three weeks from this time; when they will immediately commence the preliminary survey of the Arkansas Western Railroad from Van Buren to the Missouri State line."

☞ Articles of association of the Chicago, Valparaiso and Southern railroad company were filed at Indianapolis on the 17th ult. The capital of the company is four hundred thousand dollars, of four thousand shares at one hundred dollars each. The road is to commence at La Crosse, Laporte county, and run by way of Valparaiso, through Porter county to Lake Station, in Lake county, a distance of about 23 miles.

☞ The Delaware County and Minnesota railroad company was organized at Sand Spring, Delaware County, Iowa, on the Dubuque Southwestern railroad, on the 12th ult., with a capital stock of three millions of dollars. Its object is to build a railroad from some point in Delaware County, northwesterly to the Minnesota State line.

☞ The Wheeling *Register* says work on the Baltimore and Ohio bridge at Bellaire is being pushed forward with rapidity. The Keystone Bridge Company, of Pittsburg, have got the timbers ready for the entire bridge, and are already putting the iron superstructure on some of the piers. It looks as if the bridge would be ready for the passage of the trains by Christmas.

☞ The first anniversary of the Windsor and Annapolis Railway was appropriately celebrated at Waterville on Thursday, the 10th of August, employees and guests to the number of upwards of four hundred participating in the demonstration. Vernon Smith, Esq., is manager of the line.

Boston, Concord and Montreal Railroad.

The extension of the Boston, Concord and Montreal Railroad to Whitefield, has brought the White Mountain Notch and the Crawford House into closer rail connection with Boston. The distance from Whitefield to the Crawford House is only seventeen miles—a pleasant stage ride. Whitefield is ten miles from Littleton. By October the road will be in running order to Lancaster, nine miles above. The track is already laid for half that distance. From Lancaster to Northumberland, where a connection will be made with the Grand Trunk Railroad, the distance is only nine miles. This will open a new and speedy route between Montreal and Boston, and also greatly facilitate travel from both those points to the mountain. It is also contemplated to bring the Mount Washington Railway and the Notch into closer connection with its road by means of a branch from the Wing road, a point about midway between Littleton and Whitefield.

Exhibition of the American Institute.

The preparations of the American Institute Building are rapidly approaching an end. Already have goods been forwarded to the building, and 500 applications for spaces been received. The Fair, which will be formally opened on the 7th of September, is expected by the management to exceed any of those held heretofore. The addition that has been built extending to Second-ave., will be devoted to machinery. Adjoining the extension a small engine-house has been building, and the coal for feeding the engine has been stored. The engine-house itself will be of brick, and will be a small but distinct building in itself. From the Third ave. entrance to the beginning of the extension, rows of tables have been placed, and the floor, wherever in bad condition, has been repaired.

☞ The Northern Pacific Railroad Co. commenced laying rails on the line of their road, twenty miles west of Duluth, on the 14th ult. This company have contracted to receive 25,000 tons of rails at Duluth before the close of navigation this season. About 1,000 tons had arrived up to the 15th ult.

☞ The following gentlemen have been elected directors of the George's Valley Railroad Company: Robert Patterson, Ward Mason, William H. Hunt, Thomas Storer, R. F. Alexander, William S. Mason, A. H. Wentworth, Nahum Thurston, George Y. Creighton, Hiram Bliss, Jr., and Isaac Reed.

☞ The stockholders of the Memphis and Charleston Railroad have voted in favor of issuing a million dollars of third mortgage bonds to liquidate their indebtedness to the State of Tennessee.

☞ Ossipee, N. H., has voted five per cent. of its valuation to aid in the extension of the Great Falls and Conway Railroad to West Ossipee.

☞ Over 300 men are at work upon the Belfast and Moosehead Lake Railroad, and its completion by the first of October is certain.

☞ Work has begun on the Somerset Railroad at Anson, Maine.

☞ Contractors have begun at St. Albans to lay the track of the Missisquoi Railroad.

☞ The Hartford and New Haven Railroad Company has called a meeting of its stockholders on the 7th of September "for the purpose of approving a contract for a perpetual union of property interest" with the New York and New Haven Railroad Company. The last session of the Legislature emphatically rejected a bill under which practically all the railroads in the State, connecting or parallel, might have consolidated on their own terms. The proposed union is to be made under an act of 1869, which allows any railroad company in the State to make any contract with other railroads not forbidden by law.

☞ The following persons were recently elected as directors of the Blackwater River (N. H.) Railroad Company: C. C. Coffin, Boston; A. M. Shaw, Lebanon; J. Y. Mugridge, Concord; Joseph Barnard, Hopkinton; Cyrus Gookin, Salisbury; J. C. Pearson and B. F. Sawyer, Webster. This board has been organized by the choice of C. C. Coffin, President, Joseph Couch, clerk, and J. C. Pearson, building agent. The prospect of the construction of the road are thought to be excellent.

☞ Litchfield (Conn.) has subscribed $215,000 to the capital stock of the Shepaug Valley Railroad Company. This leaves only $60,000 to be raised in Washington, Roxbury and Bridgewater, to make the total cash subscriptions $400,000, the sum which must be secured before the construction of the road will be begun.

☞ The Lancaster (Penn.) *Examiner* says that work on the Columbia and Port Deposit railroad is progressing. The track is laid to a point north of the mouth of the Octoraro creek, and Mr. Hutchinson, engineer, is now engaged with a corps of men in permanently locating the route from Peach Bottom to Columbia.

☞ The track on the Fredericksburg and Charlottesville railroad has been laid about fifteen miles.

To Contractors.

NOTICE is hereby given that Tenders will be received until Monday, the twelfth day of September, at noon, for the construction of the Main Line of Railway of the "North Shore Railroad and St. Maurice Navigation and Land Company." The Line will run between Quebec and Montreal, on the North Shore of the River St. Lawrence.

After the 10th of the present month the profile of the Railroad and the specifications and terms of contract may be examined at the office of the Company, Union Buildings, Place d'Armes, in the City of Quebec, between the hours of two and four o'clock in the afternoon.

By order of the Directors.

JOS. CAUCHON,
President of the Board of Directors.

August, 5, 1870.

AGENCY OF THE

Bank of British North America,

17 NASSAU STREET.

Demand and Time Bills of Exchange, payable in London and elsewhere, bought and sold at current rates; also, cable Transfers.

Demand Drafts on Scotland and Ireland, also on Canada, British Columbia and San Francisco. Bills collected, and other Banking Business transacted.

JOHN PATON,

OFFICE OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY,
Richmond, Virginia.

Notice to Contractors.

PROPOSALS will be received until 12 o'clock noon on the 21st September, at Charleston, West Virginia, and until 12 o'clock noon on the 28th September, in Richmond, Virginia, for the construction of about TWO THOUSAND LINEAR FEET OF "HOWE TRUSS" BRIDGING, in spans varying from 50 to 150 feet, on the line of the Chesapeake and Ohio Railroad, between the Falls of Kanawha and the Ohio River. Bids will be received for all, or part of the above. Specifications may be had on application to W. A. KUPER, Principal Assistant Engineer, Charleston, W. Va. Also at the same times and places for the GRADUATION, &c., of a Section on New River, about thirty-five miles above its mouth, including a TUNNEL 1,830 feet in length.

The right to reject any or all proposals is reserved.

H. D. WHITCOMB,
Chief Engineer.

GREAT NATIONAL INDUSTRIAL EXHIBITION.

THE THIRTY-NINTH
ANNUAL FAIR
of the
AMERICAN INSTITUTE.

Articles for exhibition will be received at the spacious building on 3d ave., between 63d and 64th sts., New York, from Monday, the 29th of August, until Tuesday, the 6th of September.

Applications for space previous to that time can be made at the office of the Institute, in the Cooper Building.

Safety Nitro-Glycerine.

TRANSPORTATION NOT NECESSARY.

The Patent Portable Apparatus for Manufacturing Nitro Glycerine at a comparatively small cost, at any place where its use is required, upon a short notice, thus obviating the necessity of transporting; that frightful source of so many accidents.

☞ No possible danger attending its Manufacture.

Contracts made for any kind of blasting, and competent and reliable men furnished to conduct the same; or the Nitro Glycerine all furnished at the time and place required.

Call on or address

The Portable Nitro Glycerine Company
7 Broadway, (Basement) **New York City.**

THE CELEBRATED

Cold Rolled Shafting.

THIS SHAFTING IS IN EVERY PARTICULAR Superior to any turned shafting ever made. It is the most economical shafting to buy, being so very much stronger than turned shafting, less diameter answers every purpose, causing a great saving in couplings, pulleys, and hangers. It is perfectly round, and made to Whitworth's Gauge. All who give it a trial, continue to use it exclusively. We have it in large quantities. Call and examine it, or send for a price list. GEO. PLACE & CO., 126 and 128 Chambers St., New York.

DEPARTMENT OF DOCKS, 346 AND 348 BROADWAY,
NEW YORK, July 16, 1870.

THE COMMISSIONERS OF THE DEPARTMENT OF DOCKS, having received, in accordance with the provisions of Sec. 33, of Chap. 383, laws of 1870, in public meetings, various plans for the establishment of permanent wharf accommodations for the commerce of New York, they now, in accordance with the further provision of said section, advertise for plans for the best method of improving the water front and harbor of the city of New York, by a new system of wharves, piers, docks, basins, and slips, which shall accommodate the present commerce of the city and harbor, and shall provide for the future expansion thereof, and for the facilitation of the transportation of freight along the water-front, so as to render the whole water-front of the city available to the commerce of the port.

Said plans will be received until September 15, 1870.

Plans are solicited that shall contain provision for the special accommodation of steamers and vessels engaged in foreign trade, in domestic trade, in the coal trade, in the trade in lumber and building material, in the hay and grain trade, in furnishing market supplies; also, for the accommodation of steamboats plying to places on the Hudson River and Long Island Sound, for the canal boats arriving in this city, and for the railroads and other commercial interests

Plans should be accompanied by all necessary documents, estimates, and particulars.

JOHN T. AGNEW,
WILSON G. HUNT,
HUGH SMITH,
WILLIAM WOOD,
RICHARD M. HENRY
Commissioners of the Department of Docks

THE NEW JERSEY STEEL AND IRON COMPANY,

TRENTON, N. J.,

And 17 Burling Slip, NEW-YORK,

Would call special attention to their

MARTIN STEEL,

Acknowledged by all who have used it to be the best material now made for

Firebox Plates, Locomotive Crank Pins, Piston Rods, Axles,

And all the finer machine purposes, such as

Rollers for Cotton Machinery, Lathe Screws, Sewing Machine Work, &c., &c.

The special features of this Steel are its ***Remarkable Toughness,*** its softness and entire freedom from hard spots, which obviate the necessity for annealing before turning.

The process by which this Steel is made differs entirely from any other in use, enabling it to be sold at lower prices than any other good steel, while it possesses properties hitherto unknown, and which are of the greatest importance for many uses.

TO CONTRACTORS.

THE AMERICAN AND MEXICAN RAILROAD AND TELEGRAPH COMPANY, at No. 71 Broadway, Room 31, New York, having secured the approval of the Government of Mexico of their surveyed routes from Guaymas to Hermosilla and through the States of Sonora and Chihuahua to the Rio Grande, are prepared to receive proposals for grading the road, furnishing and laying cross ties from Guaymas to Hermosilla, a distance of 80½ miles.

The proposals must be handed in on or before the first day of November next, and be made *for sections* and include excavations of rock and earth, and bridging, and be so made as to enable the Company to ascertain the cost per section as laid down on the Company's map and profile, which are now in their office for inspection. The Company reserves the right to reject any bids which in their judgment they deem advisable.

Per order of the Board of Directors.

Office hours 10 A. M. to 3 P. M.

JOSEPH BRITTON.
WM. H. DEGROOT,
WM. B. MAXSON,
Executive Committee.

To Railroad Companies.

AN ACTIVE, ENERGETIC BUSINESS MAN, with thirty years experience, and a good knowledge of General Merchandise—*who has made the art of* BUYING *an especial study*—and who thoroughly understands the markets of New York City and New England—and is well acquainted in our Western Cities—desires a position as "Buyer of Supplies," for a Railroad or large Manufacturing Establishment. Abundant reference of the most unexceptionable character, as to qualifications, ability, integrity, &c., will be furnished.

Address, P. O. BOX, 480,
6t33 Wilmington, Del.

RAILROAD IRON.

DANAS & LITCHFIELD,
18 William street,
49tf **New York.**

THE UPRIGHT PATENT TRUNK

Does not have to be removed from the wall to open it. Instead of trays to lift out, it is arranged with drawers made very light and strong.

It is much stronger as only a small portion opens, whereas in the old style the whole top comes off.

The same room in the bottom of the trunk for dresses and heavy clothing as in the old style.

THE UPRIGHT PATENT TRUNK CO.,
No. 6 Barclay Street,
next door to the Astor House.

Intercolonial Railway.

THE Commissioners appointed for the construction of the Intercolonial Railway give Public Notice that they are prepared to receive Tenders for the three remaining Sections of the Line, all in the Province of New Brunswick.

Section No. 21 will begin at the easterly end of Section No. 20, one and three-quarter miles east of the River Miramichi, and will extend to station No. 1640, three thousand feet westerly from the River Kouchibouguacis, a distance of about 25 miles.

Section No. 22 will extend from the easterly end of Section No. 21 to Station No. 1180, at the crossing of the River Buctouche, a distance of about 25 miles.

Section No. 23 will extend from the easterly end of Section No. 22 to the European and North American Railway, at Moncton Station, a distance of about 22 miles.

The Commissioners also give Public Notice that they are prepared to receive Tenders for reletting Section No. 10, the Contract for which has been annulled.

Section No. 10 is in the Province of New Brunswick and extends from the centre of the Chaplin Island Road, near the Court House at Newcastle, towards Bathurst, a distance of 20 miles in length.

Tenders for Section No. 10 will be made upon the basis of the quantities specified in the original Bill of Works for this Section; and in drawing the New Contract there will be deducted from the amount of the accepted Tender a percentage sum equivalent to the percentage of the whole work which the Chief Engineer shall report to have been executed by the first Contractors.

These Contracts to be completely finished by the first day of July, 1872.

Plans and Profiles with Specifications and Terms of Contract will be exhibited at the Offices of the Commissioners in Ottawa, Toronto, Quebec, Rimouski, Dalhousie, Newcastle, Halifax and St. John, on and after the 15th September next, and Sealed Tenders addressed to the Commissioners of the Intercolonial Railway, and marked "Tenders," will be received at their Office in Ottawa, up to six o'clock P. M. on Wednesday, the 5th day of October next.

Sureties for the completion of the Contract will be required to sign the Tender. The names in full, occupation and address of each surety should also be given.

A. WALSH,
ED. B. CHANDLER,
C. J. BRYDGES,
A. W. McLELAN,

PRATT'S
PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

Arkansas State Debt.

During the years 1837 and 1838 the legislature of the State of Arkansas authorized the issue of one million seven hundred and seventy-two thousand bonds of the State to establish a banking institution known as the Real Estate Bank. The failure of this institution to pay the interest on the bonds thus issued to it, compelled the State authorities to suspend the organization and to force it into liquidation. All the assets of the bank passed into the control of the State; and from 1852 until Jan. 1st, 1870, the interest on these bonds was unprovided for by the authorities.

After the reconstruction of the State, Governor Clayton urged the passage of a general funding bill by the legislature, which recommendation was adopted and nearly all of the outstanding bonds have since been funded with the accrued interest thereon. These bonds, of which there are now about $4,300,000, are payable in thirty years, and bear interest at the rate of six per cent. per annum, which is provided for by a tax of one-quarter of one per cent. The proceeds of the sale of certain lands mortgaged to the State are to be applied to the reduction of the debt, and when entirely disposed of will reduce the debt to about $2,500,000. The interest on these bonds has been promptly paid, and it is stated that sufficient funds are now in the Treasury to enable the Treasurer of the State to anticipate the interest due January 1st, 1871.

About eighteen months ago the legislature also passed a bill extending aid to certain railroad companies, loaning its credit in the form of State bonds payable in thirty years and bearing interest at the rate of seven per cent. These bonds are issued at the rate of $15,000 per mile to such companies as have not received a railroad land grant from the United States, and $10,000 per mile to such roads as have received a land grant from the United States.

The whole aggregate number of miles of railroad proposed to be built by such companies, to which such aid is granted, is limited to 850 miles by a constitutional provision submitted to and ratified by the people.

The semi annual interest on these bonds, of which about one million eight hundred thousand have been issued, will be paid on presentation of the coupons at the office of Messrs. FARNHAM, GILBERT & Co., Bankers, No. 8 Wall street, on the 1st of October, as will be seen by the official notice of the financial agent, MR. D. B. SICKELS, to be found on our 1035th page.

Windsor and Annapolis Railway.

This road, the first anniversary of which was celebrated on the 10th of August, is 84 miles in length, extending from Annapolis to Windsor. At Windsor it connects with the Windsor Branch of the Nova Scotia railway, running thence 32 miles to a junction with the main line. From the Windsor Junction to Pictou is 100 miles, and to Halifax, 13 miles—making the distance from Annapolis to Pictou, 216 miles, and from Annapolis to Halifax, 129 miles. The equipment of the Windsor and Annapolis railway consists of 9 locomotives (6 of which are new), seven first-class passenger; one combination, first and second-class; two second-class; two Post office; ten horse; ten cattle; twenty freight; and eighty flat cars, which are in good running condition. By agreement the earnings of the road up to the 30th of June, 1870, were handed over to the contractors, who undertook to pay off working expenses, and interest on capital invested. The earnings have been, during the present summer, at the rate of about $9,000 per month.

Albany and Susquehanna Railroad.

At an election for directors of this company at Albany on the 6th inst., the following gentlemen were chosen: Thomas Dickson, Abial A. Low, J. Pierpont Morgan, of New York; Joseph H. Ramsey, Robert H. Pruyn, Thomas Olcott, William A. Rice, of Albany; Minard Harder, of Cobleskill; John Westover, of Richmondville; John Cook, of Worcester; Jared Goodyear, of Colliersville; Eliakim R. Ford, of Oneonta; Ira E. Sherman, of Sidney Plains.

At a subsequent meeting of the directors, Joseph H. Ramsey was elected President; J. Pierpont Morgan, Vice President; William L. M. Phelps, Secretary and Treasurer.

Western Maryland Railroad.

We learn that work has been commenced on some parts of this road by the new contractors. A considerable number of operatives are now engaged on the section extending from Double Pipe Creek, the present terminus, to Mechanicstown, and between there and the mountain. It is esteemed important to have the road finished as speedily as possible to Mechanicstown, so that an accumulation of business can be realized by connecting with the Frederick and Emmittsburg turnpike. There is but little required to be done except leveling what has already been graded and lay the rails. This, it is expected, will be completed and the trains running to Mechanicstown about the first of November ensuing. Men are likewise at work on different portions of the line, except the points between Baltimore and Owing's Mills, and Hagerstown and Williamsport. It is the intention to commence on these as soon as possible. Laborers are now going up the road daily in large numbers to engage with the several contractors. Messrs. PLACKED & Co., who have the bridge contracts, are busily engaged preparing their bridges, including the large one across the Monocacy. Corps of engineers are now surveying and operating on different sections of the entire route. George M. Bokee, Esq., President of the road, has been for some days making a careful tour, in company with engineers, over the whole line. He is still out on this practical mission. We learn that a very large number of those who hold the unendorsed bonds of the company —second mortgage—have promptly agreed to the proposition of funding the interest due and to ac-

crue for three years to come, receiving certificates of indebtedness therefor bearing eight per cent. The indications are that nearly all this class of bondholders will come in and do likewise. The road, we are told, is doing a good business, with fair prospects ahead. It is all important to commence and complete at the earliest moment the new line from Baltimore to Owing's Mills, so as to secure an independent connection with our city.—*Balt. Saturday Night.*

Boston and Maine Railroad.

The earnings of this road for the years ending May 31, 1869 and 1870, were as follows:

	1869.	1870.
From passengers....	$997,897 09	$1,113,119 32

From which two dividends of five per cent. each have been paid.....		455,000 00
Balance.....		$9,777 91
Add balance from previous year....		993,200 86
Total, as in General Balance Sheet..		$1,002,978 77

The above balance of $1,002,978 77, is invested as follows: in Newburyport railroad bonds, $300,000; in Danvers railroad bonds (guaranteed by this corporation) $73,000; in the Danvers railroad contract and stock, $27,430; in the Dover and Winnipiseogee railroad stock, $258,464 14—and the remainder in expenditures on the road, rolling stock, etc., in addition to the capital received from the sale of stock. It is therefore only an element indicating, in some measure, the value of the stock above par; but it is not available for the payment of debts or dividends. The report says:

During the past year, the work upon the extension and reconstruction of the passenger depot in Boston has been substantially brought to a close. The most important rooms below were occupied in the winter of 1869. The new offices, in the front end of the building, have been occupied since about June 1, 1870. In most of these rooms the fixtures have been erected and the furniture procured. It has taken about two and one-half years to accomplish all that has been done. It is believed to be well done and will be sufficient for many years to come.

The plan, arrangement and execution of the work reflect credit alike upon the architect and the contractors. The whole cost has been, at least, $250,000, of which $175,000 have been charged to construction; the balance to repairs of stations in the current expenses of the road.

The gale of September last completely demolished the car-house northerly of Charles River draw.

As the space formerly occupied by this building was much needed for track-room, a new car-house has been erected on the island in Miller's River. This is the first station building that has been constructed by us, at the Boston terminus, north of Prison Point. But as we own about twenty-five acres of land between Miller's River channel and the Eastern Railroad crossing, south of Somerville Station, extending along more than sixteen hundred feet on each side of our tracks, and as the business of the road increases, and more rolling-stock of all kinds will be required, it may become necessary to put up other and more expensive buildings upon that tract of land.

The crowded conditions of our buildings on the island, south of Miller's River draw, will, sooner or later probably, compel a removal of a large portion of our mechanical business to the locality north of Miller's River channel.

We have recently made contracts for the erection of passenger depots at Reading and Malden, each to be of wood, slated, and one hundred feet long. The whole expenditure, including the foundations and platforms, will be about $5,000 each.

In order to make provision for future contingencies, another tract of land has been purchased in the immediate neighborhood of the passenger depot in North Lawrence. For this the sum of $7,437 was paid.

In addition to our extensive depot grounds in North Lawrence, we have in South Lawrence about thirty acres of land. A small portion only of it is occupied by the road for depot purposes. Much of it was purchased for protection and with an intelligent appreciation of the future. A new passenger depot here is much needed. The principal difficulty has heretofore been to decide upon the proper spot where to erect it.

Grading has been commenced near the bridge in Bradford on the new location between that place and North Andover. In addition to the expense of this alteration and the laying of a double track, a new set of station buildings will become necessary at Bradford. When this work is accomplished, and a double track laid from North Andover to the bridge over the Merrimac and continued to Newton, and also another track for several miles midway between Boston and Portland, so that the through trains can pass each other on the double track, a long desired object will be accomplished.

The iron bridge over the river in Exeter, alluded to in the last annual report, has been finished, and thus far gives satisfaction. This, with the alteration in the grade at this place, was an expensive job, but it is a great improvement to the road.

A new freight house has been built at South Newmarket at an expense, above the foundation, of about $950. It is narrow, and within the limits of the location, but it is sufficiently large to accommodate the public.

Much inconvenience has, in years past, been experienced, both by us and the public, in consequence of our straitened accommodations for freight purposes in Dover. This, you all know, is a very important station. It is destined to increase in importance. In order to do this business properly it became necessary to purchase land and erect a freight house without the compact part of the city.

We accordingly purchased of several parties a tract of land, 3,200 feet long, averaging 200 feet wide, containing some fifteen acres, together with several houses, at a cost of more than $16,000. It is not interfered with by a single road crossing, while it has easy communication with the new road from Dover to Great Falls, east of Garrison Hill. A freight house, 250×44 feet, brick, with slated roof, is now in process of erection. The whole outlay, including land, grading and depot, will be not less than $25,000. It cannot fail to give the business community in Dover general satisfaction.

The pressing need of tenments at South Berwick Junction, for the accommodation of our employees engaged upon the trains, induced us to provide three commodious houses, fitted up for two families each. We previously had at that station two other small houses, occupied by one family each, and also a tenement in the passenger depot building where the station agent has usually lived. Therefore there are now accommodations, at that place, for nine families and more will be wanted. In process of time this station will become a very important point and centre on our road, where several locomotives will be necessarily kept, and engine-men, firemen and other employes must make this their residence and home. This also is, and always has been, an important depot for wood. Several thousand cords have been brought here annually. It is also the point of junction with the road of the Portland, Saco and Portsmouth Railroad Co., with which we have been connected in business and by contract, either separately, or in conjunction with the Eastern Railroad Co., ever since the opening of our road in 1843.

It will be necessary soon to renew several depot buildings, both passenger and freight. Many of them were built when the road was first constructed and before the necessities of the public were fully known. It will probably be found advisable also to provide tenements for the trackmen, so that they can live on the line of the road. We have several such. They are good property to rent, and will insure the presence of a very important class of men at their posts, in time of need, by day by night.

It has been our special object to keep the road up to a high state of efficiency in all its departments, so as to meet the demands occasioned by the increased traffic and by the wishes and tastes of the patrons of the road. To accomplish this, large expenditures have been made, within a few years past, in grading, rails, sleepers, cars, engines and depots, all which will appear in this and previous reports. The same policy will have to be maintained in the future as in the past.

Three years since there were laid one hundred tons of steel rails. They cost about $170 per ton. They promise to endure many years under the severest service.

We have recently received five hundred tons of the Sir John Brown steel rails, and one hundred and seventy-five tons of the Naylor stamp are contracted for. These rails will cost us not much more than one hundred dollars per ton, laid down on the wharf in Boston, only about twenty-five per cent. more than the best American iron rails.

During the last three or four years we have increased our rolling stock very largely. At the present time we have forty-six locomotives, eighty passenger cars—fifty-nine of them with monitor tops, twenty baggage cars, and more than one thousand regular merchandise cars, besides nearly two hundred gravel and other cars of various kinds not used for the conveyance of general merchandise.

The general business upon the road has increased during the same time in a corresponding ratio. Thus, the gross receipts from passengers and freight were:

In the year ending May 31,	1866...	$1,462,228 00
" "	1867...	1,558,680 25
" "	1868...	1,610,488 85
" "	1869...	1,687,810 94
" "	1870...	1,806,971 68

Scarcely anything demonstrates more clearly the growth and prosperity of the suburban towns, along the line of our road, than the steady increase of the sales of season, family and other commutation tickets. The present number of regular season ticket passengers is about 2,550. These persons have a right to two passages, amounting to over 5,000 passages, daily. The transportation of them all, between any two points, would require ten trains of five cars each, between those points, twice daily. The compensation for the low fares of season ticket passengers is found in the increased incidental business brought by them upon the road, which pays full fares and remunerative prices.

The contract now existing, between the Portland, Saco and Portsmouth Railroad Company on the one part and the Eastern and Boston and Maine Railroad Companies on the other part, is dated April 1, 1847. It is permanent in its terms, but a provision exists by which either of the three corporations may terminate the same by giving 180 days notice and paying the sum of $100,000 to each of the other corporations.

By this contract the stockholders of the Portland, Saco and Portsmouth Road were insured semi-annual dividends of three dollars for each share, in United States coin. They received their dividends in paper currency, under protest, for six years commencing in June, 1863. Since May, 1869, the dividends have been paid in coin, and a satisfactory settlement made on account of the arrearges by the payment of $180,000, in currency, a sum equal to a dividend of twelve per cent. on the capital stock of that road. We have paid directly to that road, during the past year, the sum of $148,107 07. The Eastern Railroad has paid the same amount. The sum of $67,955 39 has been charged to suspense account and so reckoned among the current expenses of the year. The balance of $80,151 68 is placed in a special account and will be found in Table A.

On the nineteenth day of July 1870, there was served upon the President of this Corporation a notice of an intention, on the part of the Portland, Saco and Portsmouth Road, to terminate said contract, in accordance with the provisions thereof, to take effect January 20, 1871. A similar notice was also served on the President of the Eastern Railroad Company.

Upon any settlement that may be made under the provisions of that contract, there will be found justly due, from the Portland, Saco and Portsmouth Road, in addition to the forfeiture heretofore mentioned, a large sum of money for improvements made by the Eastern and Boston and Maine Railroads, which sums are to be paid contemporaneously with the termination of the contract.

Condensed Balance Sheet.

Commerce of New York.

The foreign imports at New York for the month of July 1869 and 1870, are officially stated as follows:

	1869.	1870.
Entered for consumpt'n	$12,560,282	$13,579,723
Do. for warehousing	10,705,702	10,042,048
Free goods	1,214,472	988,444
Specie and bullion	202,487	194,990
Total entered at port	$24,682,893	$24,805,205
Withdrawn fr. wareh'use	8,151,534	8,463,853

The foreign imports at New York for the seven months from January 1, were:

	1869.	1870.
Entered for consumpt'n	$93,215,706	$92,455,750
Do. for warehousing	83,816,016	75,422,130
Free goods	9,086,943	7,430,190
Specie and bullion	10,213,747	7,857,949
Total entered at port	$196,332,412	$183,666,019
Withdrawn fr. wareh'use	61,138,759	68,898,225

Revenue from customs at New York.

	1869.	1870.
In July	$10,045,078 14	$10,592,841 37
Add 6 months	63,467,409 94	67,581,811 10
Seven months	$73,512,488 08	$78,174,652 47

The exports from New York to foreign ports in the month of July, were:

	1869.	1870.
Domestic produce	$18,460,823	$15,965,557
Foreign free goods	27,020	24,522
Do. dutiable	604,923	727,794
Specie and bullion	6,474,624	16,922,451
Total exports	$25,556,890	$33,640,324
Do. exclusive of specie	19,082,266	16,717,873

The exports from New York to foreign ports for seven months from January 1, were:

	1869.	1870.
Domestic produce	$100,242,492	$98,665,180
Foreign free goods	183,890	298,328
Do. dutiable	3,928,017	6,045,179
Specie and bullion	21,926,517	33,763,051
Total exports	$126,280,916	$138,771,738
Do. exclusive of specie	104,354,399	105,008,687

Queen Anne's and Kent (Md.) Railroad.

A contract for the building of this road has been entered into between the company and Capt. Robert Irwin & Sons and John Keaveney & Co. for the entire completion of the road from Sudlersville, its present terminus, to Centreville, the county town of Queen Annie's county. The whole length of the road is 26 miles, 17 miles of which remain to be built. The nine miles from Massey's Cross Roads to Sudlersville are finished and run by the company, together with ten miles of road from Massey's to Townsend, a point on the Delaware railroad, the ten miles between Massey's and Townsend having been leased jointly by the Queen Annie's and Kent railroad and the Kent County railroad companies. The terminus of the Queen Annie's and Kent railroad, as fixed by the charter, is at Queenstown or some other point on the Chester river.

☞ The Gettysburg (Pa.) railroad, with all its corporate franchises and appurtenances, will be sold at public auction, at the Merchants' Exchange in Philadelphia, on Thursday, the 13th of October next. The sale is at the instance of the assignees of the company.

☞ It is expected that the cars will run on the Portland and Rochester railroad to Springvale on the 12th of October.

Montgomery and Eufaula Railroad.

The earnings of this road for the year ending April 30, 1870, were as follows:

From passengers		$33,407 86
" freights		32,102 28
" mails		675 00
" other sources		25 75
Total		$66,210 89
Expenses, viz:		
Office and station expenses	$8,493 87	
Cost of running	10,489 85	
General expenses	3 409 94	
Repairs of engines, cars, &c.	8,531 87	
Repairs of track and roadway	16,422 78	
Repairs of buildings	1,546 79	
Miscellaneous	209 86	
		49,104 96
Net earnings		$17,105 93
Add balance previous year—Income account		28,139 98
Total		$45,245 91
From which deduct—		
Taxes	$4,191 79	
Interest and discounts	22,763 09	
		26,954 88
Balance to credit of income acc't		$18,291 03

Which amount has been appropriated to the payment of interest coupons due in New York March 1st. Said coupons having been paid at the agency of the Company in New York, but no return with coupons yet received, the amount stands to the credit of income account.

The gross earnings of the past fiscal year exceed the previous year by upwards of fifty-one per cent. This increase is certainly legitimate, and one which will continue as the road extends; and after completion of road, will continue for years to come before the maximum will be reached. The growth of mercantile, agricultural and other interests along the line of the road, the advance in population, and the projected railroad connections warrant this expectation.

When the business done upon twenty-eight miles only of road, without any rail connection, its business purely local, supported wholly by its resident population, shows such results, what may not be reasonably anticipated when the line is finally completed, and a direct connection formed to tide-water and the Atlantic cities?

The expenses for the past fiscal year show an increase over the previous year of upwards of eighty-nine per cent.

It will be seen that the increase is mainly attributable to repairs of rolling stock and repairs of track and roadway. The Report says:

In our last annual report, we referred to a contract which had been entered into for the completion of grading and bridging to Union Springs. In compliance with the terms of said contract, the work was to have been completed on 1st December last. Its fulfillment was not accomplished. Directors and officers did all that was possible, and more than contractors could reasonably expect, to encourage and aid in the rapid and successful prosecution and completion of the work within or near the contract time. It is very embarrassing to the directors to again report to the stockholders, that the cars are not yet running to Union Springs. The prime causes of delay are apparent to many of you; many of you cannot fully comprehend the adverse circumstances with which the contractors have had to contend. It is a fact, conceded by all, that the present labor system is deficient; little or no reliance can be placed on the laboring class. High wages, prompt payment, and many other inducements have been given to attract labor—but all with little avail. Another cause for the delay has been heavy rains and high water, and the peculiar nature of the soil in the prairie section through which the contractors have been at work for the past year, has rendered it almost impracticable to accomplish satisfactory work, or to retain the labor on the work; these have been the most serious hindrances, and have operated in retarding the work and delay of contractors in a more rapid progress. It is not our purpose herein to shield the contractors from the censure due them; but simply to bring to your notice the main causes of their delay. We have now passed through the heavy prairie soil, and have reached a soil more easily worked, and which is not so greatly affected by rains and standing water; thus enabling the contractors to work to better advantage than heretofore.

After having crossed Line Creek swamp, it was deemed advisable to change the location from the original line. The preliminary surveys for the new line were commenced on the 8th of January last. A good and satisfactory line was located, grading completed and track laid for three miles by the 3d March. By this change much very heavy and expensive work has been avoided, with no material addition to length of road. Much praise is due to Mr. F. L. Wadsworth, late engineer, and to Col. W. J. Winn, present engineer in charge, for the able and efficient manner in which they made the change, and the able manner in which they have directed the work committed to them.

The rainy season being past, the working force is being increased; and with the assistance of Messrs. A. J. Lane & Co. and Messrs. Davis & Hammond, who are bringing labor from other States, we may certainly hope to run the cars to Union Springs in about sixty days.

Much interest has been manifested, at home and at a distance, for the extension and speedy construction of our railroad from Union Springs to Eufaula. It is a matter of the utmost importance to this Company, and in fact to the State of Alabama, that the entire line to Eufaula be at once built; the completion of which will give an unbroken all rail communication with the Atlantic coast, at the port of Brunswick. At Eufaula we will connect with the Brunswick and Albany railroad, now in course of construction, and to be completed to Eufaula by October, 1871; at which time we anticipate running trains to Eufaula. It has been a question in the minds of many, as to the ability of the Company to proceed at once with the further extension. Although we have thus far progressed very slow, met with disappointments and embarrassments, we are glad to report that the prospects for a rapid completion of the enterprise to Eufaula is now very encouraging.

At the recent session of the general assembly, we appealed for additional aid, which was favorably considered and resulted in the enactment of a law granting to this Company a loan of State bonds for three hundred thousand dollars; conditioned that we deposit with the Governor a like amount of the second mortgage bonds of this Company, as a security for the loan by the State; and further, that we furnish to the Governor good and sufficient personal security that the railroad will be completed to Eufaula by the 1st October, 1871, and for the faithful application of the money.

We have also submitted a proposition to the Mayor and City Council of Eufaula, for a subscription by the city of one hundred thousand dollars to the capital stock of the Company.

With the foregoing State aid and city aid, and our first mortgage bonds, bearing State's endorsement for sixteen thousand dollars per mile, will enable us to proceed much more rapidly than heretofore, and with much less pecuniary embarrassment.

The preliminary surveys, from Union Springs to Eufaula, were made during the past year by Mr. M. L. Wood—by direction he surveyed and made profiles of two routes; first by way of Midway and Fort Browder, and the other line by way of Clayton and Mount Andrew—which surveys resulted in the adoption of the route via Midway, as the most direct and practicable route. Much feeling has been manifested at Clayton and lower part of Barbour county, concerning the location of the road, but by survey of the route, it is deemed to be to the Company's interest to adopt the Midway route; and the directors have looked to your interest in this matter, and not allowed local prejudice to influence them in the least. Mr. Wood is now on the line with a full corps of engineers, locating the road to Eufaula on the route adopted.

The contract for building the road has been awarded to Messrs. A. J. Lane & Co., of Georgia, who, as skillful and experienced railroad contractors, stand very high, and we are inspired with the firm belief, that they will not fall behind the agreed time. They will commence work at once, and with a competent force, which will be increased as they progress.

Should the same rapid progress be made hereafter as heretofore in the construction of the Albany and Brunswick R. R., we may certainly anticipate a connection to Brunswick by the time, or very soon after we reach Eufaula; to this connection we confidently look for a remunerative traffic.

In addition to aforesaid eastern connection, now in course of construction, there is being rapidly built a new and important link between Montgomery and the great Northwest—the graniery of the nation. The South and North Alabama Railroad (Montgomery to Decatur) forms a direct line to Nashville, Louisville, and all points north, and the completion of that road insures incalculable benefits to the whole State of Alabama, and especially to Middle and Southern Alabama. It will, to a very great extent, furnish business to your road, as it will be the shortest route between Southwestern Georgia and Southeast Alabama to Nashville, Louisville and St. Louis.

The distance from Louisville to Albany, Georgia via Montgomery and your line; also, the distance via Atlanta and Macon to Albany, Georgia, are as follows, to wit:

	Miles.
Via S. and N. R. R. and Montgomery:	
Louisville to Nashville	185
Nashville to Decatur	122
Decatur to Montgomery	182
Montgomery to Eufaula	80
Eufaula to Albany, Georgia	63
	632
Via Atlanta and Macon:	
Louisville to Nashville	185
Nashville to Chattanooga	141
Chattanooga to Atlanta	188
Atlanta to Macon	108
Macon to Albany, Georgia	106
	688

Showing the distance to be in favor of Montgomery and over your line of railroad to Albany, Georgia, 51 miles, at which point there is rail and water communication with Florida and South Georgia; also, with the port of Brunswick, and with Savannah via M. and W. P. R. R.; Columbus and Macon, 388 miles; and distance to Savannah via Brunswick and Albany and the Atlantic and Gulf R. R. is 336 miles; showing distance between Montgomery and Savannah to be in favor of your road by 52 miles, and giving port of Brunswick a distance in its favor of 84 miles over that of Savannah by the old route, and the distance to Charlestown shorter by your road 45 miles than by Atlanta and Augusta.

The completion of the South and North Alabama Railroad will place Montgomery distant from Louisville 489 miles, while Atlanta is distant from Louisville 474 miles, thus Atlanta but

15 miles nearer than Montgomery, with Montgomery in the heart of the cotton region and Atlanta remote from.

With proper efforts on the part of the several connecting railroads and harmonious action, encouraged by the commercial men, there is no reason why the railroads centreing at Montgomery should not do the business between the northwest and southeast, and your line of road must naturally receive its full proportion of the traffic.

As our road lengthens and business increases, the necessity for increased facilities become more imperative. We require permanent depot buildings, repair shops, machinery, engine and car houses; these additional requirements will be somewhat expensive, but are a necessity and cannot be longer delayed. The passenger business of the several railroads centreing in Montgomery require, and the people have a right to expect, that a Union passenger depot should be built. The question has been agitated, but no site has been located or any definite action taken. When the time for action arrives, it is the desire of this Company to act in harmony with all the other railroad corporations in the matter. Economy and convenience certainly require the passenger and freight business to be separate. Additional rolling stock will also be required.

For the sake of convenience, the road has been divided into two divisions (Western and Eastern). The western division extends from Montgomery to Union Springs, and the eastern division from Union Springs to Eufaula.

The amount expended prior to 1st May last, (as per last annual report,) for construction purposes, was	$882,625 25
Amount expended during past year.	313,770 77
Total expenditure for Western Division	$1,196,396 02
Add amount expended for Eastern Division	2,533 98
Showing total expenditure for construction	$1,198,930 00

Although we are operating but 35 miles of road, the foregoing table includes cost of iron, chairs, spikes, cross-ties, and most of grading for the remaining five miles to Union Springs.

In our last annual report, we reported that a proposition had been made to Town Council of Union Springs for subscription of twenty-five thousand dollars, and that favorable action had been taken, submitted to the people, and duly ratified by them at a popular election. In pursuance to the action of the authorities and people, the Town Council of Union Springs have issued their eight per cent, interest-bearing conpon bonds for twenty-five thousand dollars, delivered the same over to the Treasurer, and received therefor a certificate for two hundred and fifty shares of the stock of this Company.

The funded or mortgage debt is classified as follows:

First mortgage bonds endorsed by State, sold	$470,000 00
First mort. bonds unendorsed, sold	2,000 00
Second mortgage to State of Alabama, account 3 per cent. fund	30,000 00
Showing total funded debt	$502,000 00

There remain on hand unsold of endorsed bonds $90,000, and on completion of road to Union Springs, we will receive an additional endorsement of $80,000, the proceeds of which will be applied towards the liquidation of our floating debt.

The company have 4 locomotives, 4 passenger, 1 baggage, 12 box, 22 platform and 8 road and service cars. Number of miles run, 41,848. Passengers carried, 35,920; do. carried one mile, 625,921. Tons of freight, 17,371.

BALANCE SHEET, April 30th, 1870.

Evansville and Southern Illinois Railroad.

JOINT RESOLUTION granting the Evansville and Southern Illinois Railroad Company the right to build a bridge across the Big Wabash river.

Be it resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the Evansville and Southern Illinois Railroad Company, a corporation organized under an act of the Legislature of the State of Illinois, is hereby granted the right to construct an iron or wooden bridge for railroad purposes and as a public highway, either with a draw or a continuous span, as it may determine, across the Big Wabash river at any point said corporation may select, either at the little chain, in or opposite White county, Illinois, and Posey county, Indiana, or at any point above the same, extending up said river as far as the town of New Harmony, in said county of Posey, and State of Indiana; and should said railroad company hereafter at any time consolidate with the Evansville, Carmi and Paducah Railroad Company, of Indiana, or any company now organized or hereafter to be organized in the said State of Indiana, that the rights and franchises hereby granted shall enure to and become vested in said consolidation company and its assigns forever: *Provided*, That the bridge to be constructed under the authority hereby granted shall not interfere with the free navigation of said stream beyond what is necessary in order to carry into full effect the rights and privileges hereby granted, and shall be built at right angles with the current of the stream where said bridge may be erected, and that a space of at least one hundred and seventy feet over the main channel of said stream shall be left between the piers of said structure: *And provided further*, That if said bridge shall be built with a draw of not less than one hundred feet in width, and said draw is kept in repair for the passage of boats at all times, the detention of passing said bridge shall not be construed as interfering with the navigation of the stream; *And it is further provided*, That said bridge shall be *and* considered a legal structure, and shall be a post road for the transmission of the United States mails: *And provided further*, That in case said bridge is built with a continuous span, the piers shall be at least two hundred feet apart, and the bridge shall be built at such height as not to interfere with the navigation of said river by steamboats.

Approved July 14, 1870.

Windsor and Forest Line Railroad.

The first meeting of the grantees named in the charter of the Windsor and Forest Line Railroad was held at Lempster, N. H., on the 2d inst. The corporation was organized by the choice of the following Board of Directors: T. H. Wood of Nashua, H. W. Parker of Claremont, Josiah G. Graves of Nashua, George E. Dame of Lempster, Christopher Robb of Stoddard, Mark N. Spaulding of Hancock and James Burnap of Marlow.

Subsequently, at a meeting of the Board of Directors, T. H. Wood of Nashua was chosen President, Otis F. R. Waite of Claremont, Clerk of the Board of Directors and of the Corporation, and V. C. Gilman of Nashua, Treasurer.

☞ A meeting was to have been held at Cherry Valley on Thursday last to take action in regard to the proposed extension of the Albany, Sharon and Cherry Valley railroad to Utica by way of Warren, Mohawk, Illion, and Frankfort. It is claimed to be ten miles shorter than by way of Richfield Springs and Cedarville. The following are the distances: Cherry Valley to Warren, 10 miles; Warren to Mohawk, 15 miles; Mohawk to Utica, 14 miles; in all, 39. Cherry Valley to Richfield Springs, 15 miles; Richfield Springs to Utica, 34½ miles; in all, 49½ miles.

☞ The Fort Smith (Ark.) *Herald* says that iron sufficient to complete the Little Rock and Fort Smith railroad to Lewisburg, is now on hand, and will be placed as rapidly as possible, and beyond doubt, the road will be finished to that point in September. The road is graded to a point within 15 miles of Spadra; the clearing of the road progresses beyond that point; and the bridge on Piney creek is rapidly hastening to completion.

☞ The last rail on the Fort Wayne, Muncie and Cincinnati railroad was laid down on the 28th of August, so that communication between the extreme points named is now open. The new line shortens the distance between those points some thirty-six miles, and opens up an entirely new region of country, rich in natural productions and thickly settled.

☞ The section of the Canada Central Railway between Ottawa and Carleton Place, forming with its connections a thorough broad gauge route from Ottawa to the West, will be open for traffic on the 16th instant.

☞ The Greenwich and Johnsonville Railroad Company have commenced running trains regularly, connecting with the Troy and Boston trains, morning and evening, at Johnsonville, Rensselaer county.

☞ The parties contracting to build the ten miles extension of the Richmond, Fredericksburg and Potomac railroad to Occoquan will commence at once and hurry on the work to completion.

☞ Ground has been broken for the commencement of a railroad from Evansville, Ind., to St. Louis, Mo.

☞ The last rail was laid on the Indianapolis, Bloomington and Western Railway on the 2d of September.

☞ The Portland and Ogdensburg road is finished to Lake Sebago, sixteen miles.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, September 10, 1870.

Stock Exchange and Money Market.

Money has been in more request for speculative use at 5@7, generally at 5@6 per cent. on call; and for mercantile purposes at from 7@9 per cent. per annum, on prime to good grades of business paper, which rates show a somewhat firmer market, as against the borrowing interest. The offerings of capital have been on a reduced scale, both on bank and private account. The outflow of currency to the interior has been light. The city banks, in their last weekly return, show a gain of about ¾ths of a million of legal tender notes; while reporting a loss of about 1¼ millions of deposits, and nearly 1⅜ millions of other specie reserve. They contracted their loan and discount averages a little more than two millions; and cut down their circulation slightly. Their legal tender average is now 49¾ millions, as against 61⅝ millions on the 28th of May (the highest average of the current year, thus far). Their deposits are now under 200⅝ millions, as against nearly 234½ millions on the 16th of July. Their specie average is about 18¼ millions, against 41⅛ millions six weeks since. The U. S. Sub Treasury added about 2¾ millions to its currency balance; and lost about 4⅝ millions of its coin reserve. The taking out of the September interest accounts in part for the reduction in the coin balance.

The specie reserve of the city banks according to the latest return is $18,285,629, against $17,461,722 same time last year. The city bank deposits are now $200,691,553, against $191,101,086 week ending Sept. 4 1869. The legal tender reserve amounts to $49,730,772, against $55,289,782 same time last year. The circulation now stands at $32,736,625, against $28,960,035 same time last year. The loans are now $271,914,145, against $262,549,839 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $59,425,479 a day, against a daily average of $69,903,441 the preceding week. The current weeks' exchanges average about 78 millions a day. The city banks, last week, reported a loss of $1,353,755 of specie, and of $1,275,147 of deposits, with a gain of $771,059 legal tender notes. They reduced their loans, $2,072,829; and their circulation, $168,281.

The city bank exchanges on Wednesday were about 79½ millions.

The coin reserves of the Treasury Department on Monday were over $99,768,335 including $28,424,820 on deposit on private account; currency balances, $37,615,824.

National Bank notes to the amount of $241 200 were issued last week by the Treasury Department, making the total issue to 1,692 banks thus far, amount to $328,173,464, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $28,783,400 leaving, with the existing 1,612 banks, (having an aggregate capital of $427,235,701,) an actual circulation at this date, of $299,390,064. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $342,648,300; and for the public deposits, $16,341 500—making a total of $358,989,800. The Treasury Department last week redeemed and destroyed $729,900 of worn and mutilated fractional currency, and issued $430.215 of new.

The U. S. Sub-Treasury receipts, week ending with Sept. 3, were $4,948,417 in coin, (including $3,759,000 from customs duties,) and $6,544,181 in currency; payments, $8,962,610 in coin, (including $2,809,653 of coin interest,) and $4,237,382 in currency; balance at the close of the week, included $63,030,318, of coin, against $67,644,510 the preceding Saturday, and $12,063,196 of currency, against $9,756,846 at the close of the preceding week. The business of the Office on the first two days of the current week, was as follows: On Monday, receipts, $441,705 in coin, (including $384,483 from customs,) and $451,261 in currency; payments $127,124 of coin (including $97,186 of coin interest), and $655,984, of currency. On Tuesday, receipts, $509,575 in coin (including $475,000 from customs), and $286,938 in currency; payments, $91,264 in coin (including $73,620 of coin interest) and $243,870 of currency. The balance at the close of business on

Tuesday included $11,898,540 of currency, and $63,763 210 of coin, against a balance a week previous of $12,422,831 currency, and $68,490,325 coin.

The aggregate receipts of the U. S. Sub-Treasury in August were $53,001,692, including $15,-645,267 from customs; aggregate payments, $55,-169,424, including $2,221,753 of coin interest, and $129,213.

The U. S. Sub-Treasurer issued in August $872,500 of coin certificates.

The U. S. Sub-Treasurer retired, last week, $3,-339,010 of coin certificates, received for customs.

Government revenues have yielded very liberally in the customs favor, since our last, and a fair average income has been derived from excises. The excises, during the week yielded about 3½ millions; customs at the port of New York, $3,-623,010, and at the outports about $900,000 (in coin) more, making the grand total income for the week equal to about $8,326,450 in currency. The income of the Government, from excises, since July 1, 1870, has been about 40 millions.

Gold has been quite active, but, under the extraordinary news from Europe, has been decidedly lower, and quite variable in price. The offerings have been much more liberal, largely on speculative account. The demand has been a confident one, mainly from street operators, the customs and export calls having been less urgent. The range of the price has been from 113⅛ to 116¾; and the closing quotation on Wednesday was 114⅛. The export drain of Gold last week was only a little over a million dollars, against 1⅛ millions the preceding week; 2¼ millions the week ending with Aug. 27th, about three millions the week ending with August 20th, 3⅞ millions the week ending with Aug. 13th, and nearly 7 millions the week ending with Aug. 6th. On Wednesday Government marketed a million of Gold at from 114.18⅛@114.40. The aggregate of the bids was $2,535,000. The shipments thus far this year have been about 45¼ millions, against 24⅞ millions same time in 1869; 64⅜ millions same time in 1868; 40 millions same time in 1867; 53⅛ millions same time in 1866; and 20⅜ millions same time in 1865. On Wednesday of the current week, the specie exports were inimportant. The exchanges at the Gold Exchange Bank, which were only 55⅛ millions on Thursday of last week, run up to 152½ millions on Monday of this week, and were 107⅝ millions on Tuesday. On Wednesday they were only 67 millions.

The coin balance of the U. S. Sub-Treasury on Thursday morning was $64,489,494.

The customs demand for Gold last week, averaged $629,833 a day; thus far, this week, it has averaged $429,741 a day, or equal to a weekly aggregate of $2,578,446. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $159,301; and since Jan. 1, 1870, $7,682,033, against $9,847,241 same time in 1869. The total customs revenue of the Government, in coin, at this port, since Jan. 1, has been $94,073,748 against $92,025,901, same time in 1869.

The exports of specie, from this port, last week, were $1,038,845 against $335,183 same week last year; and since Jan. 1870, $45,226,452, against $24,882,445 same time in 1869. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $2,809,653; and since Jan. 1, 1870, $65,269,-021 against $67,223,255 same time in 1869.

The customs revenue of the port on Wednesday was $752,000; and the coin interest disbursements were $79,870.

The customs revenue at the port of San Francisco, from Jan. 1 to August 27th, was $5,416,000, against $5,291,000 same time last year.

The specie exports by steamer and railway from San Francisco, from Jan. 1, 1870 to Aug. 27th, were $22,911,000, against $25,814,000 same time last year.

Under its official programme for September, Government will sell Gold during the month as follows: Wednesday, September 14, $1,000,000; Wednesday, September 21, $1,000,000; Wednesday, September 28, $1,000,000. And purchase Five-Twenties, as follows: Thursday, September 15, $1,000,000; Thursday, September 22, $2,000,-000; Thursday, September 29, $1,000,000.

Foreign Exchange has been quoted steady most of the week, on a moderate offering of bills, and pretty fair call, chiefly for sterling drafts. Bankers' sixty day bills on London closed on Wednesday at 109½@109⅝; sight bills on London 110⅛@110⅝. The offerings of produce bills have been rather heavier. The week's exports of domestic produce have been to the currency value of $3,012,487, and since January 1, 1870, $122,793,470, against $130,996,579 sametime in 1869.

Government securities have been offered less freely, and have been quoted strong in price, as a rule, through the week, but the dealings have not been very extensive. The main feature has been the speculative activity in the Five Twenties of 1862, which advanced sharply, on free purchases, partly for shipment and partly to cover outstanding *short* contracts. The news from Europe tended to strengthen the confidence of holders. The last debt exhibit—showing a further handsome reduction of the public debt—also favorably influenced the course of values. Government bought in two millions of Five Twenties on Thursday of the current week at equal to about the open market rates. The latest dealings showed a less buoyant market.

U. S. sixes of 1881 closed here on Wednesday of the current week at 114⅛@114¼; U. S. Five-twenties of 1862, 112¾@113; U. S. Five twenties of 1864 at 111⅜@111½; U. S. Five-twenties of 1865 at 111⅜@111⅝; U.S. Five-twenties of 1865 consolidated, 110⅛@110¼; U.S. Five-twenties of 1867, 110¼@110⅜; U. S. Five-twenties of 1868, 110½@110⅝; U. S. Ten-forties at 105⅞@106, ex September coupon; U. S. Six per cent. currency bonds, 111⅛@111¾.

State bonds have been in moderate demand, and rather stronger in price.

Railway bonds have been in fair investment demand, including Central Pacific Sixes, which closed on Wednesday firmly at 88⅜@88½. The Union Pacific Sixes closed on Wednesday at 80¼@80½. The registered First Mortgage bonds of the Chesapeake and Ohio Railroad have been selling moderately to investment buyers at 90 per cent. and accrued interest.

Railway and miscellaneous share property has been more confidently dealt in through the week, and prices have shown more firmness and buoyancy. The latter dealings indicated a weaker market.

The earnings of the Central Pacific Railroad for August were $806,040, a large increase over the same month last year. The earnings of the road during the first two months of the current half year are thus equal to about 1½ millions.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Aug. 24.	Aug. 31.	Sept. 7
Consols	91⅛	92⅛	91⅞
U. S. 5-20's of 1862	88	88½	88¾
U. S. 5-20s, 1865	87½	87½	88¼
" 1867	86½	86¾	87¼
" 10-40s	83	83	84
Erie	17¼	17½	18¼
Ill. Central	111½	111½	112
At. and Gt. West	23	22	23½

At Frankfort on Wednesday, U. S. Five Twenties were quoted at 92¾.

General business has shown less animation, Cotton, Petroleum, and Naval Stores have been held with more firmness. Breadstuffs and Provisions have been depressed and declining. Middling upland cotton closed on Wednesday at 20 cts. per lb. The stock of cotton now here is given at about 12,000 bales. The receipts at the port this week, have averaged about 1,500 bales a day. The receipts at all the ports, since Sept. 1, 1870, have been 6,719 bales, against 3,432 bales same time in 1869–'70; exports same time 7,734 bales, against 1,353 bales same time in 1869–'70; stock on hand at latest dates, 59,768, bales, against 10,539 bales same date 1869. The exports of domestic cotton goods from this port, since Jan. 1, 1870 have been 12,048 pkgs., against 16,439 pkgs., same time in 1869. From Boston, 4,820 pkgs. in 1870, against 6,161 pkgs. same time in 1869.

At the Live Stock markets, this week, Beeves have been in better supply and less demand at from 8@16½c. per lb.; week's receipts, 8,789. Milch cows continue very quiet at $40@$100 each, receipts, 84. Veal calves have been in demand at from 5@13c. per lb.; receipts, 2,679. Sheep have been moderately sought after at from 3@6½c.; lambs at 6½@10c. per lb.; receipts, 33,-445. Hogs have been in limited request at 9¾@10¼c. per lb., all live weight; receipts, 14,871.

Foreign goods have been in more demand at generally firm and buoyant prices. The dry goods entries at this port, last week, were $3,-532,797, making with the general merchandise imports, a total of $7,633,970.

Freights have been moderately active, in the line of Breadstuff and Petroleum engagements for British and Continental ports, but otherwise quiet. Rates have been quoted firmer. For Liverpool we quote flour at 1s. 6d. by sail, and 1s. 6d.@1s. 9d. by steamer per bbl.; grain at 6@6½d. by sail, and 8¼@8½d. by steamer per bushel; cotton at 3/16d. by sail and ¼d. by steamer per lb.; and heavy goods 15s.@30s. by sail, and 17s. 6d.@45s. by steamer, per ton. Total number of vessels in port on Wednesday, 462.

The following will show the exports (exclusive of specie) from New York to foreign ports for the week ending September 6, and since the beginning of the year:

	1869.	1870.
For the week	$4 393,783	$3,012,487
Previously reported	126 602,796	119,780,983
Since Jan. 1	$130,996,579	$122,793,470

The imports for the week ending Sept. 3, and since the beginning of the year, have been as follows:

	1869.	1870.
Dry goods	$2,116,405	$3,532,797
Gen. merchandise	3,405,672	4,101,173
Total for the week	$5,522,077	$7,633,970
Previously reported	207,286,982	198,014,245
Since January 1	$212,809,059	$205,648,215

The following quotations of sales of Railway and other securities are n addition to those given elsewhere in our columns:—

New York.—South Carolina 6s, new, Jan. and July, 69⅛; Arkansas 7s, issued to L. R. and Ft. S. R. R., 74; Louisiana 6s, 72; do., 6s, Levee bonds, 71; Georgia 7s, 91½; Alabama 5s, 70; Chicago and Milwaukee 1st mort., 90; Pacific R. R. 7s, guar. by Mo., 96½; Toledo, Wabash and Western consol. bonds, 81⅝; Galena and Chicago 1st mort., 99; Toledo, Peoria and Warsaw 1st mort., W. D., 80; South Side R. R. 1st mort., 88¼; Great Western (Ills.) 1st mort., 1888, 87½; New York and New Haven R. R., 150; Albany and Susquehanna R. R., 87; St. Louis and Iron Mt., R. R., 45; Dubuque and Sioux City R. R., 100; Consol. Coal of Md., 26⅜; Western Union Telegraph, 34¾; Am. Mer. Union Exp., 41; Adams Exp. Co., 66¾; U. S. Exp., 41½; Central gold, 0.20; Grass Valley gold, 0.26; Quartz Hill, gold, 0.24.

Philadelphia.—Delaware Division Canal, 46; Pennsylvania Canal, 20; Oil Creek and Allegheny River R. R., 46; do., bonds, 80; Wyoming Valley Canal bonds, 78; Pennsylvania and New York Canal 7s, 92; West Jersey R. R. 7s, 95¾; Sunbury and Erie 7s, 103; Pennsylvania R. R. Gen. mort., coupon, 95½; Union Passenger R. R., 43; Ocean oil, 0.56. The latest quotations are: City 6s, 101¾@102; do. free of tax, 101¾@101⅞; State 5s, coupon, 105@—; do., 6s, W. L., 105⅜@106½; do., 1st series, 104@106¼; do., 2d series, 108@109; do., 3d series, 111@111½; Reading, 48⅛@48¼; do., 7s, 1893, 104½@105½; do., mort. 6s, 1880, 94½@94⅝; Camden and Amboy, 114¾@115; do., mort. 6s, 1889, 94½@95; do., 1883, 92@93; do., 1889, 90⅛@91⅛; Penn. R. 20@22; George's Creek Coal, 60@62; Atlantic Coal, 1.50@2.00; Bare Hill, 0.00@0.25.

Bessemer Steel Works.

An extensive addition is being built to the Bessemer Steel Works building at the Iron Works of Messrs. JOHN A. GRISWOLD & Co. Troy, N. Y., in which will be put up a train of steel rolls, in order that they may roll the steel as well as hammer it before it goes to the Rensselaer Works to be rolled into rails. The new addition is to be about half the size of the main building, and will greatly increase the facilities of the works. All of the mills are in good running order, and all are running on full time, some of them lighting up on Sunday night so there may be no delay in going directly to work on Monday morning. They all have a large quantity of manufacturing materials on hand, and orders are very full, so that winter prospects are unusually flattering.

☞ A preliminary survey of the Arkansas Western railroad, from Van Buren to the Missouri border, is in progress.

HARVEY FISK. A. S. HATCH.

OFFICE OF FISK & HATCH,
BANKERS, &C., No. 5 NASSAU-ST.

☞ As we originally sold so many millions of FIVE TWENTY BONDS, and as the Government will soon be able to pay them off and to issue in their place the new bonds, bearing four and one-half per cent. interest, we are constantly asked: "What had we better do with our Five-Twenties?"

We answer: "Keep them until you find a Security which you are satisfied is just as good; that is, just as sure to be paid, principal and interest—since it would be better to lose the present premium of ten per cent. than to risk the loss of the principal, or fail to get your interest promptly."

We are advising our most intimate friends to change into the bonds of the Central Pacific Railroad Company, and for the following reasons: "The main line of the road is finished, and is no longer an experiment; it has now, in its infancy, a gross income of nearly $8,000,000, while its operating expenses are but fifty per cent., and its annual interest payments are less than $2,000,000. Its bonds are secured by property worth four times their amount. At their present price (between 88 and 90) they pay seven per cent. interest in gold—and because the present difference of twenty to twenty two per cent. between them and the Five-twenties is a sure profit and so much addition to your capital."

We originally placed these Bonds on the market; the Road has proved a triumphant success; its revenues are large and certain; its Bonds are as good as the Bonds of the Government, and we feel confident the time will come when they cannot be had except at a premium.

The Bonds are all of $1,000. Interest, six per cent., payable January and July, which, together with principal, is payable in U. S. gold coin, dollar for dollar, in New York City.

FISK & HATCH.

N. B.—We allow interest on deposits, make collections, and do a general Banking business.

☞ The coupons due October 1st on ARKANSAS STATE BONDS issued to Railroad Companies, will be paid on and after that date on presentation at the Banking House of FARNHAM, GILBERT & CO., No. 8 Wall street.

D. B. SICKLES,
Financial Agent, State of Arkansas.

☞ The contract of the grading and masonry of the Lexington and Arlington branch railroad, to connect with the Boston and Lowell railroad, has been awarded to Mr. Charles Linnehan of East Cambridge. The work will be commenced forthwith, and the contract is to be completed on or before the first day of November next. The road will be opened for travel on or before next Christmas day.

☞ Mr. Wm. L. Slaughter has been elected Chief Engineer of the Fredericksburg and Gordonsville railroad, vice Col. C. M. Braxton, resigned.

☞ Frederick L. Dibble, Esq., of Fredericton, N. B., has been appointed Chief Engineer of the Carmatic railway, Madras Presidency, India.

Movements of Produce.

The Receipts of certain articles of domestic produce at the port of New York for eight months from January 1st, were:

	1869.	1870.
Ashes, bbls.	6,705	5,508
Breadstuffs—		
Wheat flour, bbls.	1,819,166	2,327,047
Cornmeal, bbls.	163,925	150,056
Wheat, bush.	11,862,315	12,829,749
Rye, bush.	256,032	321,233
Oats, bush.	2,742,071	4,477,848
Barley, bush.	892,516	1,149,691
Peas, bush	35,199	177,453
Corn, bush	6,261,063	5,393,643
Cotton, bales	372,445	443,133
Naval Stores—		
Crude turp., bbls.	11,937	5,631
Spirits turp., bbls	47,375	44,961
Rosin, bbls	376,609	375,072

☞ The Chief Engineer of the Chesapeake and Ohio canal has been directed by the Engineer bureau of the United States army to make the survey of the route for the James river and Kanawha canal, for which an appropriation was made by the last Congress, and the party has just begun work, which will occupy about three months.

Journal of Railroad Law.

RAILROAD COMPANIES—WHAT CONSTITUTES LEGAL EXCUSE FOR FAILURE TO TRANSPORT.

The facts of the late case of McLaren and another *vs.* The Detroit and Milwaukee Railroad Company (23 Wis. 138,) are fully and clearly stated in the following opinion by

COLE, J.—It appears to us that there is not enough shown in this case to excuse the company. Having received the lard, it was under obligation to transport it within a reasonable time to the terminus of its road, Detroit, and tender it to the next carrier to be transported to its destination. This, it is admitted, the company did not do. There was a long delay much beyond the period usually required to transport goods from Milwaukee to Detroit at that season of the year. But it is said that the defendant was excused from performing its contract to deliver the goods to the next connecting line at Detroit, on account of the temporary obstruction of freight east of that point. The testimony in regard to the block of freight was substantially the following: Foxley, who was the freight agent for the defendant at Milwaukee in the month of December, 1864, and January, February and March, 1865, and remembered shipping the lard for the plaintiff, testified, that he was called upon in January by McLaren to explain why the lard shipped in December had not arrived at its destination. He says that he took steps to trace it up, and was told by the agent at Detroit, that it had not arrived at that place. He then proceeds "I wrote either to the agent at Grand Haven or the superintendent of the road at Detroit, or both, and found that the lard had been lying at Grand Haven, owing to the inability of the agent at Detroit to make room for it in his depot. This liability of the agent at Detroit to take the lard arose from the inability of the Great Western and Grand Trunk railways to take freight from him. I state this merely on information from John Crampton, general freight agent of the Detroit and Milwaukee Railroad Company, and other officers connected the road." Reekee, who was station agent and check clerk for the road at Grand Haven at the same time, testified that the lots of lard were delayed at that point, as he was informed, by a block of freight at Suspension Bridge; that this prevented the Great Western road from receiving freight from the Detroit and Milwaukee road at Detroit. He adds: "This block commenced some time in December, 1864. The block at the bridge occasioned the block at Detroit; this in its turn occasioned the block of freight at Grand Haven. To break the block at Grand Haven, I telegraphed to the superintendent of the road at Detroit. In reply I got two messages, one that there was no need to send cars, as the Great Western could not take the freight at Detroit. Subsequent to this, I got a message from the superintendent, directing not to send any more through freight until further orders." On his cross examination, he says, that it must have been the latter part of January when he received that dispatch. Gray, who was freight agent of the company at Detroit, testified that the lard was not detained at Detroit, but was forwarded without delay by the Great Western road. He says: "I know that at the beginning of December, and all the winter through up to the end of March,

there was a block at Suspension Bridge, and the said road would only take a limited quantity, and the consequence was, my warehouse was filled right through with freight. During a portion they would only receive perishable freight. On the 11th of February they gave me notice that they would receive freight of no kind from us. I know the reason to be, that they were blocked up and could not take it. This is the material testimony bearing upon the defense, that, under the circumstances, the defendant was excused for its failure to perform its contract by delivering the lard in a reasonable time to the next carrier at Detroit. And it appears to us that it is insufficient to establish a legal defense to the action. The defendant was bound to so transport the lard and tender it to the next carrier, that, if the latter wrongfully refused to receive the property, the plaintiffs would have had their action against it for such refusal. It appears that this block at Suspension Bridge had more particular reference to Eastern freight. And while the Great Western might have been unwilling to receive freight consigned to points east of Suspension Bridge on account of the obstruction at that place, it might have been willing to receive the lard in question, which was only going to Buffalo. The transportation of freight to Buffalo might have been practicable, notwithstanding the accumulation at Suspension Bridge. At all events, the defendant was bound to show a performance of its contract or offer some excuse for not performing it. Had it transported the lard to Detroit in a reasonable time, according to the usual course of business, and tendered it to the next carrier, it would have discharged its liability. But this it did not do. It is said that the defendant was under no necessity of transporting the lard to Detroit and making a manual tender of it to the next carrier, to excuse itself; that if the Great Western had given notice that it would receive no freight of any kind, a tender of the lard would have been an idle ceremony. Whether the defendant, in order to discharge its duty, would be bound to make a tender of the lard to the Great Western, after having received notice from that company that it would take no more freight, is a question not arising upon the facts of this case, and therefore calls for no expression of opinion on our part. It does not appear that the Great Western gave any such notice until the 11th of February, some time after the period when all the lard would have been delivered to that company had the defendant used proper diligence in transporting it to Detroit. It is true, in the testimony of the agents of the defendant above cited, there are statements to the effect that the witness knew there was a block of freight at the Suspension Bridge, commencing some time in December, 1864. But this alone would not excuse the delay in transporting the property over its own road and tending it to the next carrier. See the case of the East Tennessee and Georgia R. R. Co. *vs.* Nelson 1, Caldwell (Tenn.) 272 which is in point upon this question.

We shall not notice in detail the instructions given on the part of the plaintiffs, nor those asked by the defendant, which were refused. The remarks above made are sufficient to dispose of all material questions arising upon the record.

We think the cause was fairly submitted to the jury upon the evidence.

The judgment of the Circuit Court is affirmed.

The Public Debt Statement.

The following is a recapitulation of the public debt statement August 31, 1870:

DEBT BEARING COIN INTEREST.	
Five per cent. bonds	$221,589,300 00
Six per cent. bonds	1,748,562,750 00
Total	$1,970,152,050 00
Accrued interest	37,016,664 09
DEBT BEARING INTEREST IN LAWFUL MONEY.	
Three per cent. certificates	$45,395,000 00
Navy Pension fund 3 per cent.	14,000,000 00
Total	$59,395,000 00
Interest	460,672 93
Debt on which interest has ceased since maturity	$3,505,127 35
Interest	$458,616 01
DEBT BEARING NO INTEREST.	
Demand and legal tender notes	$356,103,971 00
Fractional currency	40,054,384 48
Gold certificates of deposit	28,415,320 00
Total	$424,573,675 48
Total amount outstanding	$2,457,625,852 83
Total interest	37,935,953 08
Total debt, principal and interest, to date, including interest due and unpaid	$2,495,561,805 86
AMOUNT IN TREASURY.	
Coin	$102,504,705 80
Currency	37,135,949 65
Total	$139,640,655 45
Debt less amount in Treasury	$2,355,921,150 41
Debt less amount in Treasury August 1, 1870	2,369,324,476 00
Decrease of debt during the past month	$13,403,325 59
Decrease of debt since March 1st, 1869	$169,542,109 60

Bonds issued to the Pacific Railroad Companies, interest 6 per cent. payable in lawful money:

	Amount outstanding.	Accrued interest, not yet paid.
Union Pacific	$27,236,512	$272,365 12
Kansas Pacific, late Union Pacific, Eastern division	6,303,000	63,030 00
Sioux City and Pacific	1,628,320	16,283 20
Central Pacific	25,881,000	258,810 00
Central Branch Union Pacific—assignees of Atchison and Pike's Peak	1,600,000	16,000 00
Western Pacific	1,970,000	9,700 00
Totals	$64,618,832	$664,188 32
Interest paid by United States	$8,815,345 49	
Interest repaid by transportation of mails, etc.	2,284,855 78	
Balance of interest paid by United States	6,530,489 71	

☞ The stockholders of the Richmond and Danville railroad company have formally ratified the action of their board of directors in purchasing the State's interest ($1,200,000) in their road upon the terms of the recent act of the Legislature, viz: State stock in said road to be exchanged for State bonds, dollar for dollar, and payments or exchange to be made in twelve equal semi-annual installments.

☞ The West Jersey railroad company is paying *in gold* the coupons due on the 1st instant on its loan of $400,000.

An Indian Rubber Car Wheel.

It has always seemed as though the perfection of locomotive luxury would be reached when either the rails or the car wheels were made of rubber. John Raddin of Lynn has devised a wheel a portion of which is rubber. The mechanism and experiments are thus described in the Boston *Advertiser:*

The wheel is cast in three parts—the hub, the web, and a plate to which the hub is bolted. Between the axle and the hub intervenes a ring of solid rubber about three inches wide and one inch thick. The effect of a wheel made in this manner is that a sudden blow on the web is communicated to the rubber and thence to the axle. It is claimed that this wheel is cheaper, safer, because less liable to break, and more comfortable for the passenger. The new wheel reduces the jar to a minimum, and one can read without the least danger to the eyes. Going around curves, the oscillation is hardly noticeable, and the sound is deadened so that conversation ceases to be an effort.

As to the economy and usefulness of the wheels, Superintendent Prescott is as yet the only one who can speak from experience. Superintendent Winslow has had them on two cars, which have run between Nashua and this city since March, and is very much pleased with them. Eight of them were run under a car on the Eastern Railroad 100,000 miles, and were then taken apart and found to be in good condition. The ordinary car wheel is worn out after 40,000 miles running; then the axle and wheels have to be taken off and carried to a machine shop, where the old wheels are driven off and the axle is turned to fit a new set.

The elasticity of the Raddin wheel make the tread wear twice as long as the common wheel, and then the bolts are taken out and a new wheel is bolted in its place. The same elasticity saves the track and the wear of the flange in going around the curves. Car wheel manufacturers say the vibration of the patent wheel is very much less than that of the old style, and the wheel being in three pieces the liability to break is very much diminished. The wheels are also being applied to locomotives. Several railroads have ordered some of the wheels for trial. A stock company is to be organized for the manufacture. The invention has been patented in Belgium, England, and France, and Mr. Raddin has ten patents in this country.

Narrow Gauge Railways.

The Duke of Sutherland has returned to Dunrobin Castle from his inspection of the Norwegian narrow gauge railways which his Grace has just made in company with Mr. Fowler of Braemore. Upwards of a hundred miles of railway on the 3 feet 6 inches gauge have been carried out in Norway by Mr. Carl Pehl, the Government engineer, and they have been most successful for the light traffic of that country in their economical construction and the convenience of their smaller carriages and wagons. The supporters of this system have no doubt that if the northern parts of Scotland could have had the advantage of such a cheap description of railways, a much greater extent of the country would ere now have been supplied with railway accommodation. The average cost per mile, including plant, is about 4,000*l.*, and the works of the railway and stations, and the quality of the plant, are said to be all that could be desired for public convenience.—*Inverness Courier.*

☞ The ceremony of "breaking ground" and inaugurating operations on the Shenandoah Valley railroad took place near Front Royal, Warren county, Va., on Thursday, the 8th of September.

☞ A surveying party have been prospecting for a new railroad route from Fort Edward, to connect with the Hoosac Tunnel at North Adams

Arkansas Statistics.

Assessed valuation of taxable property, for the year 1870	$100,000,000
Value of real estate and personal property	$150,000 000
Estimated population	800,000
Debt of the State	$4,500,000
Number of acres of land owned by the State	2 000,000
Number of miles of railroad in operation	150
Amount of bales of cotton raised this year, about	250,000
Value ofother farm products	$20,000,000

Baltimore, Pittsburg and Chicago R. R.

This company has been permanently organized by the election of L. L. Hunt, of Kenton, President, and F. S. Boil, of Belleville, Secretary and Treasurer. The proposed route is from Pittsburg to the State line of Ohio, thence by way of New Lisbon down the line of the Sandy and Beaver canal to Hanoverton, through the counties of Tuscarawas, Carroll, Wayne and Holmes; through Loudonville, Belleville, Mt. Gilead, Marion, Kenton and Celina. The Chicago connection of the Baltimore, Pittsburg and Chicago road touches the following points: Bluffton, Huntingdon, Rochester, Knox and Valparaiso, Indiana.

The Batesville (Ark.) *Times* says that the engineers have commenced the survey of the route for the proposed railroad from Memphis, through Batesville, to the Missouri line, and it is their purpose to push the work with vigor. Mr. B. B. Waddill is chief engineer.

☞ The Chestertown (Md.) *Journal* says that the Kent County railroad is now completed to Worton, only five miles from Chestertown. A train runs daily from that point to Townsend, on the Delaware road. The grading between Worton and Chestertown is progressing rapidly.

☞ Messrs. Straw, Patterson & Co., of Lewiston, Me., have received the contract for building the extension of the Maine Central Railroad from Danville Junction to Cumberland, on the Portland and Kennebec Railroad.

Safety Nitro-Glycerine.

TRANSPORTATION NOT NECESSARY.

The Patent Portable Apparatus for Manufacturing Nitro Glycerine at a comparatively small cost, at any place where its use is required, upon a short notice, thus obviating the necessity of transporting; that frightful source of so many accidents.

☞ No possible danger attending its Manufacture.

Contracts made for any kind of blasting, and competent and reliable men furnished to conduct the same; or the Nitro Glycerine all furnished at the time and place required.

Call on or address

OFFICE OF THE CHESAPEAKE AND OHIO RAILROAD COMPANY, Richmond, Virginia.

Notice to Contractors.

PROPOSALS will be received until 12 o'clock noon on the 21st September, at Charleston, West Virginia, and until 12 o'clock noon on the 28th September, in Richmond, Virginia, for the construction of about TWO THOUSAND LINEAR FEET OF "HOWE TRUSS" BRIDGING, in spans varying from 50 to 150 feet, on the line of the Chesapeake and Ohio Railroad, between the Falls of Kanawha and the Ohio River. Bids will be received for all, or part of the above. Specifications may be had on application to W. A. KUPER, Principal Assistant Engineer, Charleston, W. Va. Also at the same times and places for the GRADUATION, &c., of a Section on New River, about thirty-five miles above its mouth, including a TUNNEL 1,800 feet in length.

The right to reject any or all proposals is reserved.

H. D. WHITCOMB,
Chief Engineer.

To Contractors.

NOTICE is hereby given that Tenders will be received until Monday, the twelfth day of September, at noon, for the construction of the Main Line of Railway of the "North Shore Railroad and St. Maurice Navigation and Land Company." The Line will run between Quebec and Montreal, on the North Shore of the River St. Lawrence.

After the 10th of the present month the profile of the Railroad and the specifications and terms of contract may be examined at the office of the Company, Union Buildings, Place d'Armes, in the City of Quebec, between the hours of two and four o'clock in the afternoon.

By order of the Directors,
JOS. CAUCHON,
President of the Board of Directors.
August, 5, 1870.

THE CELEBRATED

Cold Rolled Shafting.

THIS SHAFTING IS IN EVERY PARticular Superior to any turned shafting ever made. It is the most economical shafting to buy, being so very much stronger than turned shafting, less diameter answers every purpose, causing a great saving in couplings, pulleys, and hangers. It is perfectly round, and made to Whitworth's Gauge. All who give it a trial, continue to use it exclusively. We have it in large quantities. Call and examine it, or send for a price list. GEO. PLACE & CO., 126 and 128 Chambers St., New York.

DEPARTMENT OF DOCKS, 346 AND 348 BROADWAY, NEW YORK, July 16, 1870.

THE COMMISSIONERS OF THE DEPARTMENT OF DOCKS, having received, in accordance with the provisions of Sec. 33, of Chap. 383, laws of 1870, in public meetings, various plans for the establishment of permanent wharf accommodations for the commerce of New York, they now, in accordance with the further provision of said section, advertise for plans for the best method of improving the water front and harbor of the city of New York, by a new system of wharves, piers, docks, basins, and slips, which shall accommodate the present commerce of the city and harbor, and shall provide for the future expansion thereof, and for the facilitation of the transportation of freight along the water-front, so as to render the whole water-front of the city available to the commerce of the port.

Said plans will be received until September 15, 1870.

Plans are solicited that shall contain provision for the special accommodation of steamers and vessels engaged in foreign trade, in domestic trade, in the coal trade, in the trade in lumber and building material, in the hay and grain trade, in furnishing market supplies; also, for the accommodation of steamboats plying to places on the Hudson River and Long Island Sound, for the canal boats arriving in this city, and for the railroads and other commercial interests

Plans should be accompanied by all necessary documents, estimates, and particulars.

JOHN T. AGNEW,
WILSON G. HUNT,

THE NEW JERSEY STEEL AND IRON COMPANY,

TRENTON, N. J.,

And 17 Burling Slip, NEW-YORK,

Would call special attention to their

MARTIN STEEL,

Acknowledged by all who have used it to be the best material now made for

Firebox Plates, Locomotive Crank Pins, Piston Rods, Axles,

And all the finer machine purposes, such as

Rollers for Cotton Machinery, Lathe Screws, Sewing Machine Work, &c., &c.

The special features of this Steel are its ***Remarkable Toughness,*** its softness and entire freedom from hard spots, which obviate the necessity for annealing before turning.

The process by which this Steel is made differs entirely from any other in use, enabling it to be sold at lower prices than any other good steel, while it possesses properties hitherto unknown, and which are of the greatest importance for many uses.

TO CONTRACTORS.

THE AMERICAN AND MEXICAN RAILROAD AND TELEGRAPH COMPANY, at No. 71 Broadway, Room 31, New York, having secured the approval of the Government of Mexico of their surveyed routes from Guaymas to Hermosilla and through the States of Sonora and Chihuahua to the Rio Grande, are prepared to receive proposals for grading the road, furnishing and laying cross ties from Guaymas to Hermosilla, a distance of 80½ miles.

The proposals must be handed in on or before the first day of November next, and be made *for sections* and include excavations of rock and earth, and bridging, and be so made as to enable the Company to ascertain the cost per section as laid down on the Company's map and profile, which are now in their office for inspection. The Company reserves the right to reject any bids which in their judgment they deem advisable.

Per order of the Board of Directors.

Office hours 10 A. M. to 3 P. M.

JOSEPH BRITTON.
WM. H. DEGROOT,
WM. B. MAXSON,
Executive Committee.

To Railroad Companies.

AN ACTIVE, ENERGETIC BUSINESS MAN, with thirty years experience, and a good knowledge of General Merchandise—*who has made the art of* BUYING *an especial study*—and who thoroughly understands the markets of New York City and New England—and is well acquainted in our Western Cities—desires a position as "Buyer of Supplies," for a Railroad or large Manufacturing Establishment. Abundant reference of the most unexceptionable character, as to qualifications, ability, integrity, &c., will be furnished.

Address, P. O. BOX, 480,
6433 Wilmington, Del.

RAILROAD IRON.

DANAS & LITCHFIELD,
18 William street,
49tf **New York.**

THE UPRIGHT PATENT TRUNK

Does not have to be removed from the wall to open it. Instead of trays to lift out, it is arranged with drawers made very light and strong.

It is much stronger as only a small portion opens, whereas in the old style the whole top comes off.

The same room in the bottom of the trunk for dresses and heavy clothing as in the old style.

THE UPRIGHT PATENT TRUNK CO.,
No. 6 Barclay Street,
next door to the Astor House.

Intercolonial Railway.

THE Commissioners appointed for the construction of the Intercolonial Railway give Public Notice that they are prepared to receive Tenders for the three remaining Sections of the Line, all in the Province of New Brunswick.

Section No. 21 will begin at the easterly end of Section No. 20, one and three-quarter miles east of the River Miramichi, and will extend to station No. 1640, three thousand feet westerly from the River Kouchibouguacis, a distance of about 25 miles.

Section No. 22 will extend from the easterly end of Section No. 21 to Station No. 1180, at the crossing of the River Buctouche, a distance of about 25 miles.

Section No. 23 will extend from the easterly end of Section No. 22 to the European and North American Railway, at Moncton Station, a distance of about 22 miles.

The Commissioners also give Public Notice that they are prepared to receive Tenders for relotting Section No. 10, the Contract for which has been annulled.

Section No. 10 is in the Province of New Brunswick and extends from the centre of the Chaplin Island Road, near the Court House at Newcastle, towards Bathurst, a distance of 20 miles in length.

Tenders for Section No. 10 will be made upon the basis of the quantities specified in the original Bill of Works for this Section; and in drawing the New Contract there will be deducted from the amount of the accepted Tender a percentage sum equivalent to the percentage of the whole work which the Chief Engineer shall report to have been executed by the first Contractors.

These Contracts to be completely finished by the first day of July, 1872.

Plans and Profiles with Specifications and Terms of Contract will be exhibited at the Offices of the Commissioners in Ottawa, Toronto, Quebec, Rimouski, Dalhousie, Newcastle, Halifax and St. John, on and after the 15th September next, and Sealed Tenders addressed to the Commissioners of the Intercolonial Railway, and marked "Tenders," will be received at their Office in Ottawa, up to six o'clock P. M. on Wednesday, the 5th day of October next.

Sureties for the completion of the Contract will be required to sign the Tender. The names in full, occupation and address of each surety should also be given.

PRATT'S
PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

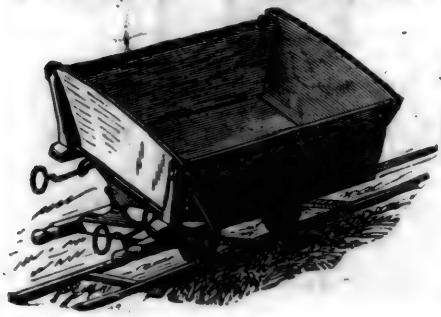
Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.



That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Baltimore and Potomac Railroad.

At the annual meeting of the stockholders of this company in Baltimore on the 9th inst., the following gentlemen were elected directors for the ensuing year, Governor Oden Bowie, Col. Samuel Cox, Hon. Eli J. Henkle, C. G. Miller, Col. William D. Bowie, William T. Walters and George B. Roberts. The President of the company, Hon. Oden Bowie, submitted his Annual Report, accompanied by the Report of Mr. C. S. Emach, Chief Engineer, which were adopted. The following is the Report of the President:

During the past year much progress has been made upon the road. Nearly fifty miles have been graded, the cross-ties secured, and the road bed prepared for the reception of the rails. That portion of the line through Charles county to the Potomac river has been located, and the grading will be let immediately. After much consideration the Pope's Creek line through this county was adopted, as being the shortest and cheapest on this side of the river, as affording the best crossing and harbor at the Potomac, as being in the most direct line from Baltimore to Richmond, and as affording our road the opportunity to connect with the Richmond, Fredericksburg and Potomac road at Aquia Creek by steamboat up the Potomac river, or to construct a line through Virginia to Richmond, as may be most desirable. A charter for this purpose has been obtained from the Virginia Legislature within the last few months.

The comprehensive and detailed report of the Chief Engineer, herewith submitted, will show that all the grading has been nearly completed, except at the three termini of the road. As before stated, that in Charles county is now ready for letting, and the work is so light as to be rapidly completed. That in the District of Columbia is under contract and being prosecuted, and as the distance is only three miles, will soon be finished.

The line from the Patapsco river to the city of Baltimore, a distance of six miles, has recently been condemned or procured by purchase. As soon as the Courts meet in the present month and confirm the inquisitions it will be placed under contract and immediately prepared for the reception of the rails.

Arrangements have been and are being made for procuring the rails during the coming winter. Our contracts require the completion of the entire road during the year 1871. There is no reason why they cannot all easily be complied with and we give the confident assurance to the friends of the Baltimore and Potomac Road that it will be in operation during the coming year, if not before our next annual meeting.

The report of the Chief Engineer of the company is as follows:

All of the graduation and masonry under contract at the time of my last annual report has been finished, with the exception of section sixteen, which will be completed in less than one month.

Much delay and expense has been incurred by encountering exceedingly hard, tenacious clay in nearly all of the deep cuts.

The difficulty of crossing the Big Patuxent Swamp was very successfully overcome by providing a timber foundation for the bank.

With the exception of the wooden superstructure for the bridges over the Patuxent rivers, and two other streams, the road is ready for the track from the Patapsco river to Upper Marlboro', a distance of 29¾ miles on the main stem, and from the Junction at Huntington to the District of Columbia line, a distance of 10¾ miles, on the Washington Branch. In all, 40½ miles.

The right of way has been secured, and the contracts awarded for graduation, masonry and bridging in the District of Columbia and city of Washington. As the work is light, outside of the city, it can soon be finished so as to give us a temporary connection with the street cars at the navy yard, until the tunnel in the city, now in progress of construction, is completed.

The right of way in Baltimore county has just been secured, from the Patapsco river to the Calverton turnpike, which will enable us soon to make a connection with Baltimore by street cars, and open the road for local traffic, until the tunnels in the two cities are finished, affording ample time for the settlement of banks, thorough ballasting of the track, &c., putting the road in a first-class condition for the reception of the great amount of travel and freight between the North and the South, which will necessarily pass over it when the through connections are made.

The northern end of the tunnel at Baltimore, under North Boundary avenue, between the city bridge over Jones' Falls (now in course of construction) and the Northern Central Railway, is in a rapid state of progress, and will be finished about the first of next October, allowing the public the use of the avenue as soon as the Falls' bridge is completed. This is the most expensive section of the tunnel to build. It is a source of gratification, however, to know that it will be finished before that part of the avenue is graded, thus saving the company an immense amount of extra expense in excavation and temporary bridging and the public much annoyance.

The location of the route below Upper Marlboro' was not decided upon until the 16th of last December. Every practical route in that vicinity had been carefully surveyed and estimated, consuming considerable time. The eastern route was finally adopted by your Board of Directors for several reasons, among which were: 1st. It was the least expensive to construct. 2d. Having easier gradients and lower summits, it would cost less to operate when built. 3d. The right of way was secured at a trifling cost, without the probability of litigation, which was so much feared, and had every reason to expect, on the other routes. The line was then very carefully revised and improved, taking every possible advantage that the topography of the country would admit, thereby very materially diminishing the cost when compared with the preliminary estimates. This location ended at the Charles County Line. The right of way is secured. All of the heavy sections were awarded to responsible contractors last April. The grading is finished to the Western Branch, and the balance is progressing as rapidly as can be reasonably expected. The pile foundations for the bridges are nearly completed.

In order to decide which of the two routes in Charles county (referred to in my last annual report) should be adopted, thus fixing the Southern terminus of your road, careful and expensive surveys of all the various routes were made in King George and Caroline counties, Virginia, resulting in establishing the fact that a direct line can be secured between Pope's Creek and Richmond, within the average cost of works of a similar character, affording the most direct and comparatively the cheapest line between Baltimore and Richmond, on the South. Acting upon the infor-

mation developed by these surveys, your Board of Directors adopted the Pope's Creek route on the fifth of last July. The location is now completed, and the work ready to be commenced.

In conclusion, permit me to congratulate you upon the favorable aspect of the work now in course of construction. At this time it is not retarded, except by a single injunction, and it is to be hoped no more legal impediments will be met to delay its speedy completion.

Maine Central Railroad.

The earnings of this road for the years ending December 31, 1868 and 1869, were as follows:

	1868.	1869.
From passengers	$269,257 05	$298,815 25
" freight	251,990 09	259,537 52
" mails, etc.	23,703 36	27,284 90
	$544,950 50	$585,637 67
Expenses, viz:		
Repairing track	$114,505 95	$142,741 91
Repairing engines and cars	74,212 83	85 852 99
Train expenses	21,236 40	24,070 66
Station services	24,808 54	27,474 91
Salaries	8,822 46	11,552 00
Repairing buildings	9,885 66	12,612 07
Repairing fence	7,571 49	6,901 51
Oil and waste	4,420 81	4,284 81
Wood and coal	40 066 98	44,327 88
Loss and damage	1,494 63	1,519 50
Taxes and insurance	12,185 84	20,818 65
General expenses	12,295 31	23,342 28
	$331,506 90	$405,499 17
Balance of earnings	$213,443 60	$180,138 50
Add balance from previous year		277,956 50
Total		$458,095 00
From which deduct—		
Interest on bonds	$142,571 38	
Interest account	4,171 88	
13 months rent Dexter & Newport R. R.	19,500 00	
		165,243 26
Balance January 1, 1870		$292,851 74

Compared with the previous year, the gross earnings show an increase of $40,687 17; with an increase in expenses of $73,992 27. The earnings upon the Dexter and Newport Railroad ($35,055 57,) are however included in the above amount; and the expenses ($17,645 33), which were incurred in the management and repairs of that road and in completing certain portions of it as agreed by this company when it came into their hands under the lease. Thus leaving the actual increase in earnings of the main line $5,629 60; and the increase in expenses, $56,346 94. The report says:

The increase in the earnings have not been so much as we could desire, not so much as the situation of our line in the State ought to command. The passengers are and can at all times be amply accommodated, both the local and the through or Boston travel. As the change of cars at Portland is rather agreeable than otherwise, after riding an hundred or more miles in a car, the change to a fresh, neat car, is not objectionable, but this change of all the goods and products of the State destined for Boston and the manufacturing districts of Massachusetts and of the commodities coming from Boston to this State is a serious and an increasing evil. The interchange of commodities between this State and Massachusetts has been increasing and would along this line of road be very much increased but for the break of gauge at Portland and the delays and expenses incident to it. This evil must in some way be speedily overcome, if we would derive the full benefit from the natural growth of business on this line of road. This might in a great measure be removed if it were possible to secure any accommodations at the Portland end of the Boston road, for receiving commodities from this road. There are practically no greater accommodations there than there were fifteen years ago. Everything has to be done out of doors, in the open air, now as then. Little if any improvement in the track accommodations; in fact we regret to say, the spirit of the improvement in accommodations is not found there. It is not for the want of adequate means, for the earnings of that road are ample to make all the necessary improvements there. In some way, either by the method suggested in the report of the Superintendent, or by the use of the changeable gauge cars, these shackles upon the interchange of traffic, must be removed.

The work on the two branch roads that when completed, are to be connected with this road, has been prosecuted during the past year with commendable vigor. The W. Waterville line is well nigh graded and ready for the rails to Madison; and the line from Burnham to Belfast is so far completed, in the way of grading, as that the laying of rails will be commenced early in the spring. The traffic upon the branch to Dexter, has proved quite as great as we had any reason to expect, during the first year of its operation. So long as the branches are not a burden upon the main line, they are desirable, because they stimulate productions, in opening thom to a new market, and induce the investment of capital in the use of the unrivaled water power our State affords. Short lines can only be worked with profit in this State by large corporations with which they are connected. In this way the surplus rolling stock required for the larger corporation, can in part be transferred, to work the short lines, and the shops of the larger line are available to perform all the necessary repairs for the branch road. Thus saving the cost of all such fixtures for the short lines.

Our relations with all connecting roads are and have been amicable. With the European and North American, now opened to Winn, sixty miles east of Bangor, arrangements have been made for the use of our depot and for tracks over our grounds at Bangor. During the year to come, it is expected that that road will be connected at the boundary of the State with the line now completed, thence to St. John. We may then look for an increased traffic from that source.

The Grand Trunk Railway with which we are now connected at Danville, has been greatly improved during the past year, and the liberal plan now adopted by that Company, for running our passenger trains between Danville and Portland, receives the hearty approval of all the patrons of this road.

During the past year conferences have been held between the directors of this company, and of the Portland and Kennebec, and the Somerset and Kennebec Companies, with the view of harmonizing their interests, and of uniting them under one corporation, and of course one management. During the twenty years past a great amount of time, efforts and money have been spent by these two companies, that has not inured to the benefit of any one, and there seems likely to be no end to these troubles, except by uniting their interests into one management and one corporation. The result of such an arrangement to the companies embraced by it, would beyond all question prove highly beneficial. It will stop the waste above alluded to and reduce the expenses of management, and thus enable them to give greater facilities to the communities through which they run, besides enabling the stockholders to realize something on their property. And above all and more than all, it will enable them to go into the money market with their securities, based upon the combined property of the new corporation, with vastly increased credit to raise money to meet the bonds of the several companies, soon to mature; while the public will obtain increased accommodations and facilities of inter-communication between the several parts of the two lines of road now practically closed to this kind of traffic. For instance, while these roads are separate, as they are now, the productions of Somerset county cannot reach any portion of the line of the Maine Central Road east of the point of crossing at Kendall's Mills, and *vice versa*. Nor can the productions pass from the various places on the line of the road east of Kendall's Mills, or from the line of the road between Danville and Waterville on to any part of the line of the Portland and Kennebec or Somerset and Kennebec roads, and *vice versa*, with any such facility as such a valuable traffic should possess. All of this traffic now lost to both lines, would at once be provided for and would be a new business, and a valuable one to the new corporation. And if our State, so bountifully supplied with water along the lines of these roads, is to become a manufacturing community, as it must, if it will increase or even maintain its population, these facilities of inter-communication will become doubly necessary and valuable. For these among other reasons, your Directors have come to an understanding with the Directors of the roads aforesaid, as to their consolidation, subject of course to your approval, and have joined with them in the effort to obtain such legislation as will enable them best to carry out the proposed arrangements.

Keeping in view the fixed policy of your board, to keep the road and rolling stock in first rate condition, a larger outlay has been made the past year than in any former year upon the track, and upon the rolling stock and in improvements in buildings upon the line, larger than will be required during the year to come.

By the Report of the Treasurer, you will see that $300,000 of the bonds of the Penobscot and Kennebec Company and $100,000 of the Maine Central Railroad Company, will mature during the year to come, and it will be necessary to provide the means to meet this indebtedness at an early day. The only means available to the company are, the issue of a new series of bonds, either to be exchanged for the old or to be sold, and the avails appropriated to pay them. All the powers for this, required of the Stockholders, have been heretofore granted, and it will be the first duty of the board to be elected, to attend to this important object. The bond shave been created, but their issue has been delayed until the results of the efforts to procure the necessary legislation to create bonds based on the credit of the consolidated company should be ascertained.

The company have 15 locomotives, 16 passenger, 3 smoking, 1 passenger and baggage, 7 mail and baggage, 8 saloon, 258 merchandise, and 29 cattle cars. Miles run by passenger trains, 86,-265; by freight trains, 92,710; by other trains, 45,268—total, 224,243. Passengers carried, 183,-849. Freight moved, 97,989 tons.

The standing of the company is shown by the annexed general account. The funded debt amounts to $2,377,480, of which $78,080 is payable in stock. The stock bonds and stock coupons, amounting to $78,120, have all matured, and are payable in capital stock. The $1,000 Million Loan bonds, being over due, will be paid on presentation. The $1,100,000 Loan bonds were issued from August, 1860, to September 1861, on 30 years, and are cash bonds. The 1st mortgage, Penobscot and Kennebec R. R. Co., are cash bonds, and mature as follows: $20,000 on the 21st of April of each year, up to and including 1874, and $500,000 on the 2d of October, 1874. The 2d mort. bonds, P. & K. R. R. Co., are cash bonds, and will due August 1, 1870. The $400,-000 Loan bonds of this company, of which $307,-700 are outstanding, were issued from December 1, 1862, to May 1, 1863, on eight years, and are cash bonds.

Treasurer.—JOSHUA NYE.

Superintendent.—EDWIN NOYES.

Intercolonial Railway.

We learn that substantial progress is being made in the work of the Intercolonial Railway. The contracts are now let, and the work is being actively prosecuted on the entire length from Riviere du Loup to Miramachi, and from Sackville to Truro in Nova Scotia. The contracts between Miramachi and Monckton, all that remains to complete the entire line, will be let on the 6th of October next. The estimates for July and August reached the large sum of $200,000 per month, and all the labor that is available is being employed upon the works. To attempt in fact to do more than is being done, would so greatly enhance the cost of labor as seriously to embarrass the contractors, and impede rather than promote the completion of the railway. The extent of work being actually done, however, may be estimated from the large monthly estimates. The difficulties arising from the action of contractors in the first instance, in offering to do work under fair-paying prices, have been overcome; and that, too, without even the suspicion of improper conduct on the part either of the Government or the Commissioners; and the contracts are now in the hands of responsible men, at prices which justify the belief that they will be able to carry them through. We may therefore, look forward to a steady progress, and, let us hope, an early completion of this great interprovincial communication.—*Montreal Gazette.*

Hartford and New Haven and New York and New Haven Railroads.

The stockholders of the Hartford and New Haven Railroad Company, at a special meeting held in Hartford on the 7th inst., voted unanimously to approve of a contract entered into between the directors of that company and the directors of the New York and New Haven Railroad Company for a perpetual union of the property and interests (but not a consolidation of the stock), of the two companies, under the provisions of an act of the Connecticut Legislature passed in 1869. The contract was also approved by the stockholders of the New York and New Haven Railroad Co., at a meeting held in New Haven for that purpose on the same day. The contract unites the two roads under one board of management, composed of five directors from each. The earnings of both roads go into a common fund, from which the expenses are to be paid, and the net earnings are to be divided in the proportion of forty-three per cent. to the Hartford and New Haven road, and fifty-seven per cent. to the New York and New Haven road. The stockholders of the New York and New Haven Railroad Company also voted to authorise a lease of the Shore Line Railway; also to accept an amendment to the charter of the company, passed by the Connecticut Legislature, relating to bridges over the Housatonic river and Norwalk harbor. The stockholders of the Shore Line Railroad Company, at a meeting held on the same day, also voted to accept the action of the Directors of that road in regard to leasing the road to the New York and New Haven Railroad Company.

Chicago and Northwestern Railway.

The earnings of this road for the years ending May 31, 1869 and 1870, were as follows:

	1868–'69.	1869–'70.
From passengers	$3,990,998 13	$3,799,257 80
" freight	9,291,478 89	8,187,597 10

Leaving balance to credit of Income Account, May 31, 1870		$541,424 29

The convertible privilege attached to the consolidated Sinking Fund Bonds was largely availed of up to the first of May last, at which time it expired, by its own limitation, on all outstanding bonds of this issue.

Payments were made during the year of 10 per cent. Equipment bonds, to the extent of $550,000, leaving a balance of $825,000 of these bonds to be retired at maturity in three equal semi-annual payments, expiring November 1st, 1871.

The effect of these payments is to release from the operation of the equipment mortgage a large and valuable equipment of engines and cars, which have been fully maintained, now held under the Trust Deed, costing $2,750,000, and to revest the same under the lien of other existing mortgages, thereby adding to their values, and especially enhancing the security of the consolidated sinking fund bonds.

The decrease in net earnings from those of the previous year amounted to $1,252,213 02, a large share of which was immediately due to the unexpected falling off in business which attended and followed the period of the harvest of 1869. During the months of August, September and October of that year, the decrease amounted to $614,059 63, or to nearly one-half of the entire net losses of the fiscal year.

The decline in the prices of grain, consequent upon the limited demand at the seaboard for consumption and export, and the general disturbance of business throughout the country resulting from unsettled values of all kinds of merchandise, the violent fluctuations in gold in September last, and the depressed condition of trade, effectually checked those commercial operations which ordinarily give activity and abundance to the shipments of grain and other products along our lines before the close of navigation.

The effect of this state of things was felt far into the winter and spring, during which time the company sought to encourage shipments by accepting lower rates for freight, and as a consequence received less revenue from the same amount of business than accrued from the business of a corresponding period in the preceding year.

Added to these conditions—which to a greater degree affected the earnings of all the lines, and in many instances augmented the cost of operat-

ing, by the preparations which were made for business that was not realized, and by increased and unstable prices of supplies—there were other and exceptional causes which are referred to in detail in the General Superintendent's report, published herewith, that particularly affected the earnings of the respective divisions of the road.

The business of the Milwaukee and Madison divisions show but little change—there being a slight increase in the number of passengers, and a decline of less than three per cent. in gross earnings on the Milwaukee division; and a loss on freight and passengers, amounting to $10,168 48 for the year, on the Madison Division.

Compared with the previous year, there was a considerable loss in earnings, mostly from a decrease in freights, on the Wisconsin Division. This is partly attributable to the short crops, which afforded less transportation than was anticipated for distribution among competing lines, whether by rail or water; and partly to the increased activity of other railway lines, whose success more directly depended upon concentrating their efforts on this field of competing traffic, and in securing to themselves a large share of the transportation of Minnesota and Western Wisconsin. The completion and connection of our system of roads with the Winona and St. Peter and the La Crosse, Trempealeau and Prescott railroads owned by this company, will place us in a more favorable position to secure an increase from these sources in the future.

Reference is made by the General Superintendent in his report to the great amount of transportation of construction materials which ceased with the completion of the Union Pacific railroad, causing a large decline in the receipts of the Galena and Iowa divisions. This item of business was of course exceptional and temporary, and as large as it was, the belief was entertained that a sufficiently compensating business would spring up soon after the opening of the Pacific line to offset its loss. The through business, together with the natural increase of local traffic, will at no distant day justify this view, and exceed all former earnings; but the early completion of three other competing lines to Council Bluffs and Omaha during the last year, at a time of unusual stagnation in the trade of California, has divided up the through traffic as fast as it was developed, among the four eastern and southeastern lines now converging at Council Bluffs. This company, however, retains its legitimate share of the traffic, and with its facilities, directness, and important position, must continue to command its full proportion of the business.

The Peninsula division, occupied chiefly in the transportation of iron ore, is in a prosperous condition, and its business steadily increasing. The peculiarity of this service requiring large expenditure and outfit for earning in a few months, during lake navigation, almost the entire revenues of the year, might, under less favorable circumstances, justify higher rates for transportation than are now charged for it. Taking into account the increased wear and tear of so short a season, and the natural deterioration during the balance of the year of the large equipment exclusively employed in this trade, it is gratifying to know that the demand for Lake Superior ores assures a degree of permanence to the business essential to the prosperity of this division.

Sixteen miles of railroad have been constructed and put in operation by the Winona and St. Peter Railroad Company, from Waseca to Janesville, Minn., during the past year, making 121 miles of that road now completed west from Winona, under the auspices and control of this company. A further extension of about twenty-five miles to Saint Peter, including a branch to Mankato, will be made the present season, which will open up still further a fine prairie country, and passing through the belt of the Big Woods, near the central portion of the State, to the Minnesota River, will intersect the Saint Paul and Sioux City railroad and reach a commanding position, to draw from these sources, and from the rich, productive and older-settled counties tributary to the valley of the Minnesota River, a large accession of business.

In connection with this work, progress has been made in preparing the La Crosse, Tempealeau and Prescott railroad for the rails, and it is in contemplation to complete this line the present year, from Winona to the Milwaukee and Saint Paul Junction, near La Crosse; thus forming, with the Winona and Saint Peter railroad, a continuous line, extending from Saint Peter, Mankato and the Minnesota River valley, at the west, to Milwaukee, Chicago, and their connections to the east.

Since the publication of the last annual report, the company has brought to successful termination most important and protracted negotiations, set on foot in 1868, for the modification of the terms of the lease of the Chicago, Iowa and Nebraska railroad, which embraces 81½ miles of our line, between Clinton and Cedar Rapids, in the State of Iowa.

This lease, which is in perpetuity, was made by the Galena Railroad Company before consolidation, and fixed the amount of annual rental to be paid by the Chicago, Iowa and Nebraska Company at 47½ per cent. of the gross earnings of its road. From limited earnings as a local road, paying a moderate yearly rental, the business has grown to large proportions, yielding to the lessors correspondingly large returns for the use of the property. At the same time it has been necessary to keep pace with the growth of business by increased equipment and material improvements, and considerable expenditures have been incurred for these purposes. Within the last two years a superior and substantial iron bridge, combining in its different sections the merits of the best iron bridges in the country, has been built in place of the old wooden structures across the east channel of the Mississippi River, connecting this division with the Illinois shore.

In view of these facts, this company felt warranted in urging upon the Chicago, Iowa and Nebraska Company a concession in the terms of rental, as being not only equitable and necessary, but best calculated to promote the ultimate interests of both parties, and the development of additional business in the future. This result has been amicably attained, and a permanent reduction of the rental to 37½ per cent. made, to take effect from and after December 1st, 1869. The saving for each year in the future will amount to a little more than 23½ per cent. on the rental required to be paid under the original lease.

The permanent improvements, new equipment, extensive renewals and thorough repairs put upon the road during the year, and referred to in the report of the General Superintendent, have preserved the road and rolling stock in good condition, enlarged their capacity for an increased business, and been ample to maintain the value of the property.

The following *resolutions* were offered for the action of the stockholders at the last annual meeting, by Mr. J. L. Ten Have Frzn, of Amsterdam, and seconded by Mr. A. G. Dulman, of New York, both stockholders and representatives of the large amount of stock held abroad by the Dutch investors, in Holland.

Resolved, By the stockholders of the Chicago and Northwestern Railway Company, in their annual meeting assembled, at their office in Chicago, Illinois, on the 2d day of June, A. D. 1870, that said Company does hereby accept, as an amendment to this charter, for the purpose of making the same a component part thereof, a certain act of the Legislature of the State of Illinois, entitled "An Act to amend an act, entitled 'An Act to Provide for a General System of Railroad Incorporations,'" approved November 5th, 1849; which said act was approved March 22d, A. D. 1869, and is as follows:

SECTION 1. *Be it enacted by the People of the State of Illinois, represented in the General Assembly*, That it shall be lawful for any railroad company organized and doing business, or which shall hereafter be organized under any law or laws of this State, by resolution of its Board of Directors, or Executive Committee, to divide its Board of Directors into three classes, numbered consecutively, the term of office of the first class to expire on the day of the annual election of said Company then next ensuing, the second class one year thereafter, and the third class two years thereafter.

At each annual election after such classification, the stockholders of such Company shall elect, for a term of three years, a number of directors equal to the number in the class whose term expires on the day of such election. All other vacancies to be filled in accordance with the by-laws of said Company.

SECTION 2. This act shall be a public act, and take effect and be in force from and after its passage.

And does also, and in like manner, and for the like purposes, accept a certain act of the Legislature of the State of Wisconsin, entitled "An Act to Provide for the Classification and Election of Railroad Directors," approved on the 16th day of March, A. D. 1870, and is as follows:

The People of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:

SECTION 1. The terms of office of the Directors of any Railroad or Railway Company of this State may be extended in the manner herein provided.

SECTION 2. Any Railroad or Railway Company organized and doing business under any law or laws of this State, may, by resolution of its Board of Directors, divide its Board of Directors into three classes, numbered consecutively, each of which shall be composed as nearly as may be of one-third of the Directors; the term of office of the first class to expire on the day of the annual election of said Company then next ensuing; the second class one year thereafter, and the third class two years thereafter. At each annual election after such classification the stockholders of such company shall elect, for a term of three years, a number of Directors equal to the number in the class whose term expires on the day of such election. All other vacancies to be filled in accordance with the by-laws of said Company.

SECTION 3. This act shall be a public act, and be in force from and after its passage.

And the Board of Directors of this Company are hereby authorized, empowered and directed to make the classification provided for in said two acts, hereby made part of this Company's charter, dividing the said Board of seventeen Directors into three classes, the first class consisting of five Directors, the second of six Directors, and the third of six Directors.

Resolved, That the President and Secretary of this Company are hereby authorized and directed to file a certified copy of this resolution in the office of the Secretary of State for the State of Illinois, and in the office of the Secretary of State for the State of Wisconsin, and in the office of the Secretary of State for the State of Michigan, and when so filed, the same shall operate as an amendment of the articles of incorporation of the Chicago and North Western Railway Company, as successor of the Peninsula Railroad Company of Michigan, filed February, A. D. 1862, and of the articles of consolidation between the two Companies aforesaid, dated October 21st, 1864.

A vote of the stockholders and bondholders was taken on the foregoing resolutions, and the whole number of votes cast was 327,886, all of which were in favor of said resolutions. More than two-thirds of all the stockholders of the Company having voted for said resolutions, the Chairman declared the same duly adopted by the Company as an amendment of its charter and of the articles of association.

The operating expenses of the road for the year, including taxes, were 60.68 per cent. of earnings. In 1868–'69, they were 56.84 per cent. The United States, State, county and town taxes were 3.25 per cent. of earnings. The average earnings per mile of road were $10,843.80. In 1868–'69 they were $12,059.99.

The lines comprising the different divisions of the road are as follows:

	Miles.	
Wisconsin Division:		
Chicago to Fort Howard	242.2	
Kenosha to Rockford	72.4	
		314.6
Galena Division:		
Chicago to East bank of Mississippi River, opposite Clinton	187.0	
(Double track from Chicago to Junction, 80 miles.		
Junction to Freeport	91.0	
Elgin to Richmond	83.0	
		261.0
Iowa Division:		
Length of bridge from east bank of Mississippi River to Clinton	1.1	
Clinton to Cedar Rapids, (Chicago, Iowa, and Nebraska Railroad,)	81.3	
Cedar Rapids to Missouri River, opposite Omaha, (Cedar Rapids and Missouri River Railroad)	271.6	
		354.0
Madison Division:		
Belvidere to Madison		67.6
Peninsula Division:		
Escanaba to Lake Angeline Mine	67.9	
Branches and extensions to mines	5.9	
		78.8
Milwaukee Division:		
Chicago to Milwaukee		85.0
Total length of road		1,156.0

The business of the different Divisions of the road during the past and preceding years compare as follows:

	1869.	1870.
Wisconsin Division	$3,143,969 41	$2,846,585 30
Galena "	4,622,395 78	4,238,403 08
Iowa "	4,290,894 24	3,419,086 90
Madison "	227,883 41	217,714 93
Peninsula "	534,085 66	723,306 07
Milwaukee "	1,122,114 39	1,090,331 98
Totals	$13,941,343 19	$12,535,428 21

There has been expended during the year for permanent improvements, and charged to construction, the sum of $1,030,368 70; and for additional rolling stock, all of which has been charged to new equipment, the sum of $241,451 02.

The additional equipment consists of: 4 locomotive engines; 8 first class and 1 second class passenger cars, 1 mail, 1 way, 2 common and 1 extra boarding cars, 20 box, 4 stock, 31 coal, 4 flat and 315 iron ore cars.

The company now have 259 locomotives, 133 first class and 31 second class passenger cars, 150 caboose and way, 110 baggage, mail and express, 7 boarding, 3,674 box, 908 platform, 315 stock, 84 coal, and 851 iron ore cars.

The number of passengers carried during the year was 2,276,548; do., carried one mile, 115,457,459. Tons of freight carried, 2,222,978; do., carried one mile, 364,747,240. Increase in passengers, 44,607; and in mileage of do., 4,653,193. Increase in tonnage, 11,152. Number of miles run by locomotives, 5,913,288; do., by cars, 68,831,406.

The capital stock of both classes on the 31st of May, 1870, was $35,046,922.82, including the amount of $1,500,000 of preferred stock authorized to be issued by the board of directors of the preceding year. On the 31st of May, 1869, the amount was $31,249,259.03—showing an increase of $3,792,663.79. The account of common stock now stands at $14,676,629.40; preferred stock, $20,370,293.42; amount of bonds, $15,692,110—total stock and bonds, $50,739,032.82.

There has been a reduction in the various classes of bonded debt, amounting to the sum of $2,142,500—the whole amount of bonds retired during the year having been $3,059,500, and the amount of bonds issued, $917,000.

The dividends declared during the year will be seen to have amounted to seven per cent. on the preferred and four per cent. on the common stock—leaving a surplus of $541,424.29 at the close of the year.

GENERAL BALANCE SHEET, MAY 31, 1870.

Old Construction:		
Cost of road and property in accordance with terms of consolidation, to May 31, 1869		$39,925,538 62
Add for amounts charged since for account of Old C. and N.W.R.W., and for purchase of stock of the C. & M. and B. & M. R.R. Cos.		23,176 00
		$39,948,712 62

1st Mortgage	600,000	6	Jan. & July.	Philadelphia.	1878	78

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

Years ending.	Railroad: Main Line.	Railroad: Branch Lines.	Railroad: 2d Track and Sidings.	Railroad in progress.	Rolling Stock: Engines.	Rolling Stock: Cars: Pass.	Rolling Stock: Cars: B. M. E. American Railroad Journal.

Saturday, September 17, 1870.

Stock Exchange and Money Market.

Money has been in good supply in the call loan form at from 4@6, chiefly at 5 per cent. per annum. In the line of commercial credits, there has been a rather more urgent call for accommodation at rates ranging from 7@10 per cent. per annum, for strictly choice to good paper. Lenders have shown somewhat less disposition to make long time advances, and the course of the market has been rather against mercantile borrowers. A once prominent commission house, in the domestic dry goods line, in Boston and this city has been compelled to suspend, during the week, with reported heavy liabilities, chiefly to New England creditors, including four or five manufacturing companies. The suspension did not occasion much surprise. It had little, if any effect, on the loan and discount market, here, where the notes of the suspended firm had not been current for months past. The speculative requirements for Money have been comparatively moderate in view of the unusual dullness at both the Gold and Stock Exchanges. The city banks, in their last weekly exhibit showed a loss of about 3⅞ millions of deposits, and 1⅝ millions of legal tender notes, with a gain of less than half a million of specie. They added slightly to their circulation, and cut down their loan and discount average a trifle. Their legal tender average is now about 48 millions, as against 61⅝ millions on the 28th of May (the highest average of the current year, thus far). Their deposits are now about 196⅞ millions, as against nearly 234½ millions on the 16th of July. Their specie average is about 18¾ millions against 41⅛ millions July 16th. The U. S. Sub Treasury lost about $198,000 of its currency balance; and about 1⅞ millions of its coin reserve during the week. Toward the close, Money worked rather easier for borrowers generally, without any material variation in rates.

The specie reserve of the city banks according to the latest return is $18,718,309, against $14,942,066 same time last year. The city bank deposits are now $196,852,430, against $188,828,324 week ending Sept. 11, 1869. The legal tender reserve amounts to $48,072,195, against $51,487,867 same time last year. The circulation now stands at $32,897,168, against $23,964,196 same time last year. The loans are now $271,796,731, against $268,864,533 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $75,321,678 a day, against a daily average of $59,425,479 the preceding week. The current weeks' exchanges average about 71 millions a day. The city banks, last week, reported a gain of $432,680 of specie, with a loss of $3,839,123 of deposits, and of $1,658,577 legal tender notes. They reduced their loans, $177,414; and added to their circulation, $160,543.

The city bank exchanges on Wednesday were about 60¾ millions.

The coin reserves of the Treasury Department on Monday were over $98,498,178 including $24,842,820 on deposit on private account; currency balances, $35,576,449.

National Bank notes to the amount of $398,460 were issued last week by the Treasury Department, making the total issue to 1,692 banks thus far, amount to $328,571,924, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $29,136,295 leaving, with the existing 1,612 banks, (having an aggregate capital of $427,235,701,) an actual circulation at this date, of $299,435,629. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $342,044,850; and for the public deposits, $16,341 500—making a total of $558,386,350. The Treasury Department last week redeemed and destroyed $493,100 of worn and mutilated fractional currency, and issued $719,591 of new.

The U. S. Sub-Treasury receipts, week ending with Sept. 10, were $4,929,360 in coin, (including $4,158,000 from customs duties,) and $4,985,097 in currency; payments, $5,126,925 in coin, (including $534,985 of coin interest,) and $6,855,347 in currency; balance at the close of the week, included $62,832,753, of coin, against $63,030,318 the preceding Saturday, and $10,192,946 of cur

rency, against $12,068,196 at the close of the preceding week. The business of the Office on the first two days of the current week, was as follows: On Monday, receipts, $739,560 in coin, (including $579,000 from customs,) and $950,686 in currency; payments $133,088 of coin (including $91,100 of coin interest), and $709,534, of currency. On Tuesday, receipts, $562,928 in coin (including $539,000 from customs), and $302,143 in currency; payments, $74,535 in coin (including $69,235 of coin interest) and $243,870 of currency. The balance at the close of business on Tuesday included $11,029,933 of currency, and $63,927,617 of coin, against a balance a week previous of $11,808,540 currency, and $63,763,210 coin.

The aggregate receipts of the U. S. Sub-Treasury in August were $53 001,692, including $15,-645,267 from customs; aggregate payments, $55,-169,424, including $2,221,753 of coin interest, and $129,213.

The U. S. Sub-Treasurer issued in August $872,500 of coin certificates.

The U. S. Sub-Treasurer retired, last week, $3,-724,023 of coin certificates, received for customs.

Government revenues have yielding more liberally, since our last, especially in the line of customs at this port. The excises, during the week yielded about 3¼ millions; customs at the port of New York, $4,031,203, and at the outports about $1,350,000 (in coin) more, making the grand total income for the week equal to about $9,417,-683 in currency. The income of the Government, from excises, since July 1, 1870, has been about 43¼ millions.

The Gold market has been comparatively quiet, through the week, and the fluctuations in the price have not been important, the range having been from 113½@114¾; and the closing quotation on Wednesday 114¼, against 114⅛ the preceding Wednesday. The speculative demand has been less confident. The customs inquiry has been liberal, and the export drain light. The export drain of Gold last week was only 1⅜ millions against 1⅛ millions, week ending Sept. 3; 2¼ millions week ending with Aug. 27th, about three millions the week ending with August 20th, 3⅞ millions the week ending with Aug. 13th, and nearly 7 millions the week ending with Aug. 6th. On Wednesday Government marketed a million of Gold at 114.14. The aggregate of the bids was $5,510,000. The shipments thus far this year have been about 46⅝ millions, against 25¼ millions same time in 1869; over 65 millions same time in 1868; nearly 41 millions same time in 1867; 53⅜ millions same time in 1866; and 20¾ millions same time in 1865. On Wednesday of the current week, the specie exports were $206,395. The exchanges at the Gold Exchange Bank, which were 64⅜ millions on Thursday of last week, run up to 69⅜ millions on Monday of this week, and were only 26⅝ millions on Tuesday. On Wednesday they were 32⅜ millions.

The coin balance of the U. S. Sub-Treasury on Thursday morning was $64,659,382.

The customs demand for Gold last week, averaged $692,166 a day; thus far, this week, it has averaged $559,000 a day, or equal to a weekly aggregate of $3,354,000. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $69,620; and since Jan. 1, 1870, $7,751,658, against $9,875,812 same time in 1869. The total customs revenue of the Government, in coin, at this port, since Jan. 1, has been $98,243,808 against $94,715,901, same time in 1869.

The exports of specie, from this port, last week, were $1,382,487 against $56,439 same week last year; and since Jan. 1870, $46,608,939, against $25,217,628 same time in 1869. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $534,985; and since Jan. 1, 1870, $65,804,-006 against $67,882,177 same time in 1869.

The customs revenue of the port on Wednesday was $717,000; and the coin interest disbursements were $50,197.

The customs revenue at the port of San Francisco, from Jan. 1 to Sept. 3, was $5,517,000, against $5,461,000 same time last year.

The specie exports by steamer and railway from San Francisco, from Jan. 1, 1870 to Sept. 3, were $23,564,000, against $26,258,000 same time last year.

Under its official programme for September, Government will sell Gold during the month as follows: Wednesday, September 21, $1,000,000; Wednesday, September 28, $1,000,000. And purchase Five-Twenties, as follows: Thursday, September 22, $2,000,000; Thursday, September 29, $1,000,000.

Foreign Exchange has shown less activity, but rates have been generally quoted steady, though closing weak, with a downward tendency, under freer offerings of bills drawn by the Canadian banks who are transferring hither their London funds, money in the open market in London being plenty at three per cent. Bankers' sixty day bills on London closed on Wednesday at 109⅜@109¾; sight bills on London 110⅛@110⅜. The offerings of produce bills have been more liberal. The week's exports of domestic produce have been to the currency value of $4,430,966, and since January 1, 1870, $127,224,436, against $134,120,941 same time in 1869.

Government securities have been rather more active, and with light offerings, prices have shown more firmness. There has been more of an investment call; and some export inquiry has been noted. On Thursday of last week, Government increased its acceptances of Five Twenties a million, over the amount specified in the advertisement, inviting offers. Larger Gold sales and heavier bond purchases, on Government account, are looked for, through the Fall months. On the 15th inst., Government bought in a million of Five Twenties at about the open market rates.

U. S. sixes of 1881 closed here on Wednesday of the current week at 114@114⅛; U. S. Five Twenties of 1862, 118@118⅛; U. S. Five-twenties of 1864 at 111⅛@111⅝; U. S. Five Twenties of 1865 at 112@112⅛; U.S. Five-twenties of 1865 consolidated, 110⅜@110⅛; U.S. Five Twenties of 1867, 110⅜@110¼; U. S. Five-twenties of 1868, 110½@110¾; U. S. Ten-forties at 106⅜@106⅝, U. S. Six per cent. currency bonds, 111@111⅛.

State bonds have been in less demand, but generally quoted steady in price.

Railway bonds have been in moderate investment demand, including Central Pacific Sixes, which closed on Wednesday buoyantly at 88¾@89. The earnings of the Central Pacific Road since April 1st have been $3,710,892, or at the rate of $744,178 a month, which is equal to $8,930,136, or nearly nine millions, per year. The Union Pacific Sixes closed on Wednesday at 81¼@81½. The registered First Mortgage bonds of the Chesapeake and Ohio Railroad have been in demand at 90 per cent. and accrued interest.

Railway and miscellaneous share property has been less active, closing very dull, though on the basis of fairly supported prices.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Aug. 31.	Sept. 7.	Sept. 14.
Consols	92⅛	91⅞	92⅛
U. S. 5-20's of 1862	88½	88¾	90
U. S. 5-20s, 1865	87½	88¼	89¼
" 1867	86¾	87¼	88¼
" 10-40s	83	84	85
Erie	17½	18¼	18
Ill. Central	111½	112	112½
At. and Gt. West	22	23⅛	23⅛

At Frankfort on Wednesday, U. S. Five Twenties were quoted at 93¾.

General business has been more active, in the leading lines. Domestic produce has favored buyers in price, in most instances. Middling upland cotton closed on Wednesday at 19¾ cts. per lb. The stock of cotton now here is given at about 9,000 bales. The receipts at the port this week, have averaged about 2,950 bales a day. The receipts at all the ports, since Sept. 1, 1870, have been 17,501 bales, against 14,638 bales same time in 1869–'70; exports same time 11,777 bales, against 2,589 bales same time in 1869–'70; stock on hand at latest dates, 55,701, bales, against 13,369 bales same date 1869. The exports of domestic cotton goods from this port, since Jan. 1, 1870 have been 12,082 pkgs., against 16,695 pkgs., same time in 1869. From Boston, 4,864 pkgs. in 1870, against 6,189 pkgs. same time in 1869.

The Cotton crop of 1869-'70 is now reported as having yielded 3,114,592 bales, against 2,260,557 the preceding cotton year.

At the Live Stock markets, this week, Beeves have been in moderate demand at from 8@17c. per lb.; week's receipts, 8,161. Milch cows continue very quiet at $40@$100 each, receipts, 62. Veal calves have been in fair demand at from 5@13c. per lb.; receipts, 3,273. Sheep have been in request at from 3@6½c.; lambs at 6½@8½c. per lb.; receipts, 41,862. Hogs continue in limited request at 9¾@10⅛c. per lb., all live weight; receipts, 41,862.

There has been a livelier trade in foreign goods, particularly in dry goods, at firm rates. The dry goods entries at this port, last week, were $2,-201,560 making with the general merchandise imports, a total of $5,817,267.

Freights have shown rather more animation, at, however, variable and towards the close less buoyant rates. For Liverpool we quote flour at 1s. 9d. by sail, and 2s. 3d. by steamer per bbl.; grain at 6@6½d. by sail, and 8¼@8½d. by steamer per bushel; cotton at $\frac{3}{16}$d. by sail and ¼d. by steamer per lb.; and heavy goods 15s.@30s. by sail, and 17s. 6d.@45s. by steamer, per ton. Total number of vessels in port on Wednesday, 488.

The following will show the exports (exclusive of specie) from New York to foreign ports for the week ending September 13, and since the beginning of the year:

	1869.	1870.
For the week	$3,124,362	$4,430,966
Previously reported	130,996,579	122,798,470
Since Jan. 1	$134,120,941	$127,224,436

The imports for the week ending Sept. 10, and since the beginning of the year, have been as follows:

	1869.	1870.
Dry goods	$3,105,307	$2,201,860
Gen. merchandise	3,892,566	3,615,407
Total for the week	$6,997,873	$5,817,267
Previously reported	212,809,059	205,648,215
Since January 1	$219,806,932	$211,465,482

The following quotations of sales of Railway and other securities are n addition to those given elsewhere in our columns:—

New York.—North Carolina 6s, special tax, 23⅜; do. BANKING AND FINANCIAL.

HARVEY FISK. A. S. HATCH.

OFFICE OF FISK & HATCH,
BANKERS AND FINANCIAL AGENTS
OF THE CENTRAL PACIFIC RAILROAD,
AND ALL ITS BRANCHES.
No. 5 NASSAU ST.,
NEW YORK, Sept. 13, 1870.

☞ THE EARNINGS OF THE MAIN LINE of the CENTRAL PACIFIC RAILROAD since Jan. 1, are as follows:

January	$413,104 41
February	394,176 47
March	488,332 91
April	633,768 06
May	768,719 77
June	729,274 46
July	783,099 64
August	806,040 00

The total amount of its First Mortgage Bonds is $28,620,000, which includes the $2,735,000 issued on the Western Pacific R. R. The cash value of its property is OVER ONE HUNDRED MILLIONS; its capital stock is one hundred millions, and none to be had less than par; its princely earnings, in its first year—its economical and careful management—its entire freedom from floating debt—its sinking fund out of its surplus earnings, which will be invested in its own bonds—the fact that it is a finished road and fully equipped, all combine to make its bonds fully equal in intrinsic value to the bonds of the Government itself. We do not hesitate to recommend our most intimate friends to fund their 5-20s and other governments into these bonds, and thus capitalize the difference of twenty to twenty-two per cent., thereby increasing their income from four and a half to SEVEN PER CENT., and we firmly believe the time is not far distant when these bonds will be scarce at par and above.

The bonds are dealt in at the Stock Exchange, the same as Government bonds; the market price, to-day, is 88¾ to 89; they are all 1,000s, interest six per cent., January and July, principal and interest both payable in United States gold coin, dollar for dollar, in the City of New York.

FISK & HATCH.

We receive deposits and allow interest thereon, make collections, and do a general banking business.

☞ The coupons due October 1st on ARKANSAS STATE BONDS issued to Railroad Companies, will be paid on and after that date on presentation at the Banking House of FARNHAM, GILBERT & CO., No. 8 Wall street.

D. B. SICKLES,
Financial Agent, State of Arkansas.

☞ An election in the City of Memphis to test the sense of the qualified voters on the issuance of $500,000 of bonds for funding the past-due debt having resulted in favor of the measure, the mayor of that city has been granted leave of absence till the 4th of October, to visit Baltimore and New York, to have the bonds prepared, and see as many of the holders of the debt as he can, and explain to them the financial condition of the city, with a view of inducing them to fund their past-due claims.

Journal of Railroad Law.

RAILROAD COMPANIES—AGREEMENT TO CARRY TIME FREIGHT—ITS EFFECTS—WHEN CARRIER IS AN ABSOLUTE INSURER.

The recent case of Strohn and ano., *vs.* The Detroit and Milwaukee Railroad Company, (23 Wis., 126,) was an action for damages accruing to the plaintiffs from a failure of defendant to carry goods of the plaintiffs from Milwaukee to New York, and deliver them at the latter city within fifteen days, as it is alleged that defendant contracted to do; also for damages resulting from improper handling, &c.

Verdict and judgment for plaintiffs, and defendant appealed.

The following is the opinion of the Court delivered by

COLE, J.—The first point made by the counsel for the appellant is, that the judgment of the County Court should be reversed for certain matters contained in the general charge. It is said that the charge is intemperate in its language, partisan in its spirit, and well calculated to prejudice the defendant's cause in the minds of the jury. It appears to us that some of the remarks of the County Judge, if not marked by a spirit of partiality amounting to prejudice, were certainly calculated to exert an improper influence upon the finding of the jury, and, were proper exceptions taken to them, would require a reversal of the judgment. But the exceptions are not sufficient to enable the appellant to avail himself of this objection to the charge. The general charge consists of about forty folios, and the exception is as follows: "The defendant thereupon excepted, first, generally to the charge; and second, to the rejection of those instructions asked for by the defendant, and to all that part of the charge wherein those points desired by the defendant that were given, were in any wise qualified or against him; and to all that part of the charge wherein the Court has commented on the evidence, and to all the remarks to the jury, not relating to points raised, or to the merits of the case."

Now, it is very evident that this exception does not point out to the mind of the judge, nor call his attention to, the particular portion of the charge to which objection was taken. Had it been more specific, the judge might possibly have corrected his charge, or made some explanation which would have removed the unfavorable impression left by the remarks now complained of. The charge was lengthy, combining a variety of propositions and topics; and merely to say that one excepts to those parts of the charge "wherein the Court has commented on the evidence, and to all the remarks to the jury not relating to the points raised on the merits of the case, really amounts to nothing more than a general exception. It is quite too loose and indefinite to raise any question upon any portion of the charge. Gilman *vs.* Thiess, 18 Wis., 528.

We cannot, therefore, reverse the judgment for this objection to the charge. But the accusation is sufficient to raise the question as to the rejection of certain instructions asked by the defendant, and we think the first instruction asked and refused should have been given. That instruction was as follows: "before the jury can find a verdict for the plaintiffs in this case, they must find the fact that there was a contract, on the part of the company defendant, to carry the goods in question through to New York, within fifteen days from the date of their delivery to defendant at Milwaukee; mere statements, that the ordinary time of carriage was from ten to fifteen days, if honestly made and without intent to deceive, will not be sufficient to overrule the within contract.

It was claimed by the plaintiffs, that the railroad company, by its agents, has entered into a contract to transport certain property belonging to them from Milwaukee to New York within fifteen days. The defense was, that the company had made no time contract, but that certain bills of lading, or receipts introduced on the trial, contained the true conditions of the contract. The general freight agent of the company at Milwaukee stated, that one of the plaintiffs came to him to learn at what rates they would undertake the carriage of the goods by his line, saying that he (plaintiff) would have to give bonds for the liquors, and that it would require they should be got to New York within a month, and then asked if the witness would guaranty the transportation in that time; that he replied he would not guaranty any time, but the usual time in which freight went through was fifteen or twenty days. Of course it was material for the plaintiffs, in order to maintain the action, to show that there was a contract on the part of the defendant to carry the goods to New York within fifteen days from the date of their delivery in Milwaukee.

This was their case. And the instruction was, that the jury must find the fact that such a contract was entered into, and that mere statements that the ordinary time of carriage was from ten to fifteen days, if honestly made, were not sufficient to show such a time contract, nor to overcome and destroy the presumption which would otherwise arise upon the bill of lading. It appears to us that this was a proper instruction to give the jury, and that it was pertinent to the testimony. The bills of lading were before the jury. And the main question was, whether they constituted the real contract between the parties, or whether there was a different parol contract made before the bills of lading were given. And it is clear that mere statements by the agent that the ordinary time of carriage was from ten to fifteen days, would not be sufficient to show such parol contract, nor overcome the effect of the bills of lading or receipts as evidence of the real contract. It is said that the instruction was not technically correct because the words "within contract" are used at the close. These words obviously refer to the bills of lading or receipts which had been offered in evidence. We do not think the instruction could have been misunderstood by the jury.

Another question discussed upon the argument was, whether it was within the scope of the authority of the freight agent at Milwaukee to make the time contract alleged. The County Court held in effect the law to be, that if the agreement to transport the goods as to time was within a reasonable time, then it was within the scope of the employment of the agent to make the contract, and that it would bind the company.

It is claimed that this view of the law is erroneous. For, it is said, admitting that the local agent might contract for the transportation of goods within a reasonable time, yet when he contracts to deliver within a specified time, he imposes upon the company an obligation greatly beyond the liability which the common law imposes upon a carrier; that in the latter case nothing will excuse, not even an impossibility of complying with the contract to deliver within the time, nor an act which would excuse a delivery when the contract was to deliver within a seasonable time. We do not understand, however, that when a railroad company by its agent agrees to deliver goods within a prescribed time, it becomes an absolute insurer of the goods, and must deliver at all events or pay for the property. We suppose if the goods were destroyed by an act of God or the public enemy before the time for delivering them expired, this would excuse the carrier on the special contract.

The parties are presumed to contract with reference to the responsibility which the common law imposes upon the carrier in ordinary cases, the carrier assuming the risk in respect to the time. Such, it seems to us, is the extent of liability assumed by the special agreement. And with this understanding as to the meaning and obligation of the time contract alleged to have been made, we think the County Court was correct in holding that it was within the scope of the employment and duty of the agent to make it, and bind the company.

We were requested to pass upon the question of the authority of the agent to make a true contract, and we have done so, although not strictly necessary in the disposition of this appeal. We therefore deem it unnecessary to pursue the discussion further at the present time.

The judgment of the County Court is reversed, and a new trial ordered.

Cotton Crop of the United States.

In our last annual review we limited our estimate of the growing crop at three million bales, but remarked that "only the fear that the frost may not hold off to allow compensation for the late spring, prevents our estimate exceeding three million bales." That fear proved to be altogether unfounded, and the crop has exceeded the assigned limit. The fall and winter of 1869 was the most remarkable season ever known in the culture of cotton. Our readers all remember the mildness at the North which cut off most of our usual supply of ice. Throughout most districts at the South there was absolutely no limit from external causes to the maturing crop. With a beautiful picking season, and under the stimulus of a high price, every boll was gathered. It is the opinion of experienced cotton-growers that the growth was gathered cleaner than ever before, there being no waste from any source.

Prices have fluctuated, but the general tendency has been downward throughout the year. Opening in September, 1869, at 35, it ran down to 27 at the close of that month; in October it fluctuated mostly between 25 and 27; in November it ranged a cent or two lower; in December it rallied a little; in January it touched 26 again, and was stronger throughout the month; in February there was a steady fall, reaching into March, when it was quoted at 21; a little rally and no further heavy decline carried the season forward to May, at the close of which the heavy downward surge set in, which continued throughout June and July, with sales of middling on the spot as low as 19, and for future delivery at a much lower figure. August averaged a little better, the panic about the war being partially over, and holders having more confidence in the staple.

In making up our comparison of the crop we have taken, as is our custom, the figures com-

piled by the *Shipping List*, to which we are indebted for an advance copy. The following will show the yield in different sections as nearly as these can be divided :

COMPARATIVE PRODUCT OF COTTON.

	1867-8.	1868-9.	1869-70.
Louisiana	579,231	794,205	1,142,097
Alabama	366,193	280,726	305,956
Texas	114,666	147,817	246,284
Florida	34,639	13,392	23,194
Georgia	495,005	357,253	485,374
South Carolina	240,225	198,943	246,593
North Carolina	38,587	35,912	58,884
Virginia	187,487	160,418	203,981
Tennessee, &c.	374,860	321,891	322,386
Mnf. at South			79,843
Total bales	2,430,893	2,260,557	3,114,592

The exports of course show a large increase divided in destination as follows :

EXPORTS OF COTTON TO FOREIGN PORTS.

	1867-8.	1868-9.	1869-70.
To Gt. Britain	1,228,596	989,500	1,475,444
" France	197,515	224,527	346,706
" N. Europe	145,042	177,182	255,315
" other ports	84,663	56,434	96,094
Total bales	1,655,816	1,447,643	2,173,559

The total consumed in the United States, including all burned at the ports, can never be given with perfect accuracy, and there is much dispute on this point. The following are the figures given in our quoted authority.

HOME CONSUMPTION OF COTTON.

	North of Virginia.	Elsewhere.	Total.
1856-7, bales	665,718	154,218	819,936

1869-70, "	777,841	85,265	862,606

We now present our usual comparison of the total crop of each year since 1820. The total given as the crop of 1865-6 includes a large amount grown in preceding years, but not sent forward until the ports were opened ; the period of the war has been filled up with accepted estimates :

COMPARATIVE CROP STATEMENT.

1820 '1	430,000	1845-'6	2,100,537
1821-'2	455,000	1846-'7	1,778,651
1822-'3	495,000	1847-'8	2,347,634
1823 '4	509,158	1848-'9	2,728,596
1824-'5	569,249	1849-'50	2,096,706
1825-'6	720,027	1850-'1	2,355,257
1826-'7	957,281	1851-'2	3,015,029
1827-'8	727,593	1852-'3	3,262,882
1828-'9	870,415	1853-'4	2,980,027
1829-'30	976,845	1854-'5	2,847,339
1830-'1	1 038,848	1855-'6	3,527,845
1831 '2	987,477	1856-'7	3,939,519
1832 '3	1,070,488	1857-'8	3,113,962
1038-'4	1,205,324	1858-'9	3,851,481
1834-'5	1,254,328	1859-'60	4.669,770
1835-'6	1,360,725	1860-'1	3,656,086
1836-'7	1,422,930	1861-'2..(est).	4,800,000
1837 '8	1,801.497	1862-'3..(est).	1,500,000
1838-'9	1,360,532	1863 '4..(est.).	500,000
1839-'40	2,177,835	1864-'5.. est.).	300,000
1840-'1	1,634,945	1865-'6	2,154,476
1841-'2	1,683,574	1866-'7	1,951,988
1842 '3	2,378,875	1867-'8	2,480,893
1843 '4	2,030,409	1868-'9	2,260 557
1844 '5	2,394,503	1869-'70	3,114,592

The Sea Island crop included in the last mentioned total amounted to 26,656 bales. The highest heretofore given was 47,592 bales in 1858-9 ; the smallest was 18,054, and this was the total for the year 1868-9.

In regard to the growing crop there is less difference of opinion as to the actual growth than there is in respect to the quantity likely to be gathered. The stand is good for nearly four million bales, if it can all mature and be picked. At present there is every indication of an early frost and a cold winter, but these signs may all fail, and the fields be left in their green glory until the last boll has ripened, and been duly pocketed. All that the yield falls below the even millions will be due to causes still to operate upon the growing and picking of the crop. We do not look for the maturing and picking of over 3,500,000 bales, and a very bad picking season would reduce the yield considerably below this amount. —*Journal of Commerce.*

Illinois Central Railroad.

The statement of this Company for the month of August, 1870, is as follows :

LAND DEPARTMENT.

Acres Construction Lands Sold	5,597.80	for	$56,535 79
Acres Int. Fund Lands sold	....	....	....
Acres Free Lands sold	280	for	5,739 60
Total sales during month of August, 1870	5,877.80	for	$62,275 39
To which add Town Lot Sales			1,180 00
Total of all	5,877.80	for	$63,455 39
Cash collected in August, 1870			$176,857 75

Total actual earn'gs, Aug. 1869	$720,330 61	$121,032 72	$841,363 33

List of U. S. Patents.

Issued for Improvements in Railroad Construction, Rolling Stock, &c., for the week ending Sept. 13th, 1870, and each bearing that date.

Reported weekly for the AMERICAN RAILROAD JOURNAL, from the Office of DAVID A. BURR, Solicitor of Patents and Attorney in Patent cases, Washington City, D. C.

No.

107,217.—Refrigerating Car, Alfred Booth, Chicago, Ills.

107,248.—Piston Packing, Walter J. Ford, Chicago, Ills.

107,265.—Steam Engine, Wm. S. Bolton and John F. Spencer, London, England.

107,274.—Piston Packing, Franklin McConnell, Dowagiac, Mich.

107,308.—Safety Valve, Nicholas Thomas, Chicago, Ills.

107,330,—Car Starter, John Bevan, Hudson, N. Y.

107,387.—Coating for Steam Pipes, Boilers, &c., W. T. Kosinski, Philadelphia, Pa.

107,408.—Journal Box for Railway Cars, Abijah L. Raplee Edwin, assignor to Carrie R. Laman, Painted Post, N. Y.

Reissue—No. 4,117.—Balance Slide Valve, Thomas M. Herriott and Samuel Myers, South Pittsburg, Pa. Patent No. 84,278, dated Nov. 24 1868.

No.4,121.—Boat for transporting Railroad Cars, Jessie Wheelock, Lancaster, N. Y. Patent No. 22,759, dated Jan. 25, 1859.

Schuylkill Navigation Co.

The President of the Schuylkill Navigation Company gives notice to the holders of certificates of the loans of 1872, 1882, and boat loans and car loans of 1863 and 1864, to present them at once at the office of the company in order to receive in commutation therefor the new certificates guaranteed by the Reading Railroad Company, as agreed upon in the lease of the Canal to the Railroad Company. Receipts will be given for the old certificates until the new are ready for delivery. While we have always thought the leasing of the Canal on the terms announced was a good bargain for the parties interested in that work, we are glad to learn that it is likely also to prove an equally good thing for the Railroad Company, which has already infused into it a little of the spirit of improvement and energy so eminently characteristic of the management of that road. For whatever difference may exist as to the financial management of the Reading Railroad Company in the past, there is no question that in the extent and perfection of its machinery and equipment, and in the thoroughly good condition of its entire line of railway, down even to its most unimportant lateral roads, it is probably not equalled by any other railroad of like extent in this great country of railroads, and it is, probably, not too much to say, that in entire completeness and good condition it is not surpassed by any other in the world. Those who travel in Europe in search of sights, and write in admiration of the railways found abroad, very often forget, or perhaps never knew, (for objects of interest that may be seen at any time are often not seen at all) that we have a road connecting with our own city, and engaged in a trade that directly interests every household, that in many important respects far surpasses them all. Those who have never passed to the Schuylkill coal regions over the Reading Railroad, and followed the tortuous windings of its branches and lateral roads to the mouths of its many mines, we commend a September or an October visit, when the mountain sides are dressed in their richest and most variegated colors, as a trip, in novelty and instruction richly repaying the time and outlay.—*Phila. Ledger.*

Taxes on Dividends and Coupons.

Section fifteen of the act of July 14, 1870, to reduce internal taxes and for other purposes, provides that there shall be levied and collected for and during the year 1871 a tax of two and one-half per centum on the amount of all interest or coupons paid on bonds or on any other evidences of debt issued and payable in one or more years after date by any of the corporations in said sections enumerated, and also on the amount of all dividends, incomes and gains declared after the passage of the act by any bank, savings institution, trust, insurance, railroad, canal, turnpike, canal navigation and slack water companies, wherever and whenever the same shall be payable. Owing to the peculiar phraseology of the section the Internal Revenue office rules that no tax is to be withheld upon the interest or coupons of said companies falling due during the last five months of the current calendar year, but that such interest must be returned, like other interest, in the annual income returns in March next. It also rules that the tax upon dividends during the same period accrues at the rate of two and one-half per cent., but for a similar reason the law providing that it shall be collected during the year 1871, it should not be assessed and collected until the expiration of the present year. A circular of instructions to this effect will be immediately prepared and sent to all the revenue officers through out the country.

Union Pacific Railroad.

The securities of the Union Pacific R. R. Co. have been placed upon the Official List of the New York Stock Exchange.

Messrs. Morton, Bliss & Co. have been appointed Transfer Agents, and the United States Trust Company Registrars, of the Stock.

The Road is 1,038 miles long; and the Bonded Debt and Capital Stock is as follows:

First Mortgage Bonds	$27,237,000
Land Grant Bonds	9,856,000
U. S. Subsidy Bonds	27,236,512
Income Bonds	10,000,000
Capital Stock	36,745,000
Total Capital Stock and Bonds	$111,074,512

Arkansas Midland Railroad.

The directors of the Arkansas Midland Railroad Company have contracted with J. H. Segar & Co., to build the road from Helena to Little Rock. The work is to commence in December, and the grading is to be finished to White River by November 1871. The cars are to run to that point by March, 1872, and the road is to be completed to Little Rock in two years thereafter. The line passes through the richest and most populous portion of Phillips, Monroe, Prairie and Pulaski counties, crossing White River in the neighborhood of Clarendon. The road has state aid to the amount of $15,000 per mile, the work is comparatively light, and there can be no doubt, if properly pushed, it can be completed in the time designated. The distance is about ninety miles.

Frederick and Pennsylvania Line R. R.

The Frederick *Republican* publishes the following statement in reference to the condition of the work on this road:

From Frederick city to the Emmittsburg Pike no work has as yet been done; and from this point to the Monocacy the work is nearly completed. From the Monocacy, which is three miles from the city, the work is being pushed forward with energy to within half a mile of Georgetown, then there remains about one mile of the work not commenced, and from that point to within half a mile of Woodsboro' the work is completed. This makes ten miles of the road. From Woodsboro' the work is nearly completed to Bruceville, which is half a mile beyond the Western Maryland Railroad. The bridges are not yet commenced at the two Pipe creeks, and considerable work is to be done there. From Bruceville the work is completed to Taneytown, except about half a mile, wanting trimming up and a few embankments and excavations to complete. From Taneytown to Piney Run the work is in a state of forwardness, all complete with a few exceptions of about one and a half miles; and from Piney Run to the Maryland State line the work has not been commenced, which is one mile of light character, which can be soon completed. From the State line to Littlestown, two and a quarter miles, the work is being pushed forward with energy, and less than two months will complete the work.

☞ It has been decided to build a railroad from Lewiston, Me., to Mechanic Falls, connecting the Androscoggin Railroad with the Grand Trunk Railroad. The road is to be completed on or before next summer.

☞ The Platteville and Calamine Railroad is to be extended from Platteville to Dunleith. The route is being surveyed.

Richmond, Virginia.

Notice to Contractors.

PROPOSALS will be received until 12 o'clock noon on the 21st September, at Charleston, West Virginia, and until 12 o'clock noon on the 28th September, in Richmond, Virginia, for the construction of about TWO THOUSAND LINEAR FEET OF "HOWE TRUSS" BRIDGING, in spans varying from 50 to 150 feet, on the line of the Chesapeake and Ohio Railroad, between the Falls of Kanawha and the Ohio River. Bids will be received for all, or part of the above. Specifications may be had on application to W. A. KUPER, Principal Assistant Engineer, Charleston, W. Va. Also at the same times and places for the GRADUATION, &c., of a Section on New River, about thirty-five miles above its mouth, including a TUNNEL 1,800 feet in length.

The right to reject any or all proposals is reserved.

H. D. WHITCOMB,
Chief Engineer.

Safety Nitro-Glycerine.
TRANSPORTATION NOT NECESSARY.
The Patent Portable Apparatus for Manufacturing Nitro Glycerine at a comparatively small cost, at any place where its use is required, upon a short notice, thus obviating the necessity of transporting; that frightful source of so many accidents.
☞ No possible danger attending its Manufacture.
Contracts made for any kind of blasting, and competent and reliable men furnished to conduct the same; or the Nitro Glycerine all furnished at the time and place required.
Call on or address
The Portable Nitro Glycerine Company
7 Broadway, (Basement) New York City.

Opposite Platt St., NEW YORK CITY.

THE NEW JERSEY STEEL AND IRON COMPANY,

TRENTON, N. J.,

And 17 Burling Slip, NEW-YORK,

Would call special attention to their

MARTIN STEEL,

Acknowledged by all who have used it to be the best material now made for

Firebox Plates, Locomotive Crank Pins, Piston Rods, Axles,

And all the finer machine purposes, such as

Rollers for Cotton Machinery, Lathe Screws, Sewing Machine Work, &c., &c.

The special features of this Steel are its ***Remarkable Toughness,*** its softness and entire freedom from hard spots, which obviate the necessity for annealing before turning.

The process by which this Steel is made differs entirely from any other in use, enabling it to be sold at lower prices than any other good steel, while it possesses properties hitherto unknown, and which are of the greatest importance for many uses.

TO CONTRACTORS.

THE AMERICAN AND MEXICAN RAILROAD AND TELEGRAPH COMPANY, at No. 71 Broadway, Room 31, New York, having secured the approval of the Government of Mexico of their surveyed routes from Guaymas to Hermosilla and through the States of Sonora and Chihuahua to the Rio Grande, are prepared to receive proposals for grading the road, furnishing and laying cross ties from Guaymas to Hermosilla, a distance of 80½ miles.

The proposals must be handed in on or before the first day of November next, and be made *for sections* and include excavations of rock and earth, and bridging, and be so made as to enable the Company to ascertain the cost per section as laid down on the Company's map and profile, which are now in their office for inspection. The Company reserves the right to reject any bids which in their judgment they deem advisable.

Per order of the Board of Directors.

Office hours 10 A. M. to 3 P. M.

JOSEPH BRITTON.
WM. H. DEGROOT,
WM. B. MAXSON,
Executive Committee.

To Railroad Companies.

THE UPRIGHT PATENT TRUNK

Does not have to be removed from the wall to open it. Instead of trays to lift out, it is arranged with drawers made very light and strong.

It is much stronger as only a small portion opens, whereas in the old style the whole top comes off.

The same room in the bottom of the trunk for dresses and heavy clothing as in the old style.

THE UPRIGHT PATENT TRUNK CO.,
No. 6 Barclay Street,
next door to the Astor House.

Intercolonial Railway.

THE Commissioners appointed for the construction of the Intercolonial Railway give Public Notice that they are prepared to receive Tenders for the three remaining Sections of the Line, all in the Province of New Brunswick.

Section No. 21 will begin at the easterly end of Section No. 20, one and three-quarter miles east of the River Miramichi, and will extend to station No. 1640, three thousand feet westerly from the River Kouchibouguacis, a distance of about 25 miles.

Section No. 22 will extend from the easterly end of Section No. 21 to Station No. 1180, at the crossing of the River Buctouche, a distance of about 25 miles.

Section No. 23 will extend from the easterly end of Section No. 22 to the European and North American Railway, at Moncton Station, a distance of about 22 miles.

The Commissioners also give Public Notice that they are prepared to receive Tenders for reletting Section No. 10, the Contract for which has been annulled.

Section No. 10 is in the Province of New Brunswick and extends from the centre of the Chaplin Island Road, near the Court House at Newcastle, towards Bathurst, a distance of 20 miles in length.

Tenders for Section No. 10 will be made upon the basis of the quantities specified in the original Bill of Works for this Section; and in drawing the New Contract there will be deducted from the amount of the accepted Tender a percentage sum equivalent to the percentage of the whole work which the Chief Engineer shall report to have been executed by the first Contractors.

These Contracts to be completely finished by the first day of July, 1872.

Plans and Profiles with Specifications and Terms of Contract will be exhibited at the Offices of the Commissioners in Ottawa, Toronto, Quebec, Rimouski, Dalhousie, Newcastle, Halifax and St. John, on and after the 15th September next, and Sealed Tenders addressed to the Commissioners of the Intercolonial Railway, and marked "Tenders," will be received at their Office in Ottawa, up to six o'clock P. M. on Wednesday, the 5th day of October next.

Sureties for the completion of the Contract will be required to sign the Tender. The names in full, occupation and address of each surety should also be given.

A. WALSH.

PRATT'S
PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

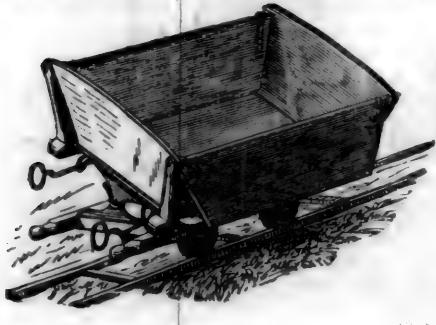
Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.



That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

$18 IMPROVED WALTHAM WATCHES.

GET THE BEST, AND BUY WHERE YOU CAN BUY THE CHEAPEST.

Engineers, Railroad Men, Master Mechanics and Machinists, if you wish to obtain a genuine Waltham Watch, with all the late improvements, and run no risk whatever of not obtaining a reliable timekeeper, send for Descriptive PRICE LIST, giving full particulars of Watches, style and quality of cases, or call and examine. In Coin Silver Cases, $18. In 18k Gold Cases, $30. Ladies' Size, $70. Every Watch thoroughly examined and regulated, and if any one should prove imperfect, return it at once and we will correct or exchange it for one that is perfect, FREE OF CHARGE. H. O. FORD & CO.

Eight years with American Watch Company, 84 Tremont street, opposite Tremont House.

Watches sent to any address, and by selecting from Price List you can get as good a Watch as if selecting in person.

International Coal Railway.

The Cape Breton *News* gives the following description of this work which is intended to connect the extensive coal areas at Bridgeport directly with the navigable waters of the harbor of Sidney. The first sod of this railway was turned in October, 1869. It is expected to have the road completed, and shipping over it commence during the present month:

The length of the road is 12½ miles, having a gauge of 4 feet 8½ inches, laid with a heavy T rail, weighing 56 lbs. to the yard, of best iron, and with heavy fish joints secured by four screw bolts.

The heaviest grade, against the traffic, on the road is 26 feet the mile.

An important and costly part of the work is the substantial, handsome shipping pier, built on abutments, heavily ballasted, and measuring in length from the shore into the harbor a distance of 1,000 feet, and 34 feet wide, with a bulkhead or cross pier at the end 120 feet long. Surmounting this crib structure is firm, solid trestle work, of massive timber, to extend its entire length of 1,000 feet and prepared to receive three railway tracks, and having at both sides and at the end 7 shipping berths.

The depth of water at the end of the pier, at low tides, is 28 feet. The height of wharf and trestle work from the water is 28 feet. The trestle work extends inwards from the shore end 250 feet to meet the railroad, and is supported by a number of heavy stone cross piers, decreasing in height till the edge of the embankment is reached. To meet the demand at the pier, in addition to the existing works, coals will be raised from the new shaft at Bridgeport, where a hoisting engine and machinery are being placed in position.

Peoria and Wenona Railroad.

The following gentlemen have been elected directors of this company for the ensuing year: Silas Ramsey, C. H. Deane, J. B. Carrigus, E. W Quincy, D. K. Smith, E. H. Baldwin and G. L. Fort. President, Silas Ramsey of Lacon, Ills; Secretary, Charles H. Dean, of Peoria; Treasurer, J. B. Carrigus. The route of the proposed road is from Wenona westward to Lacon, 20 miles, where it is to cross the Illinois River by a bridge authorized by the charter. Thence the route is southwestward about ten miles to Lawn Ridge, and thence due south about twenty miles to Peoria. The charter authorizes the company to make the bridge at Lacon a toll bridge. The Secretary writes that the company has a grade ready for use from Wenona and Lacon, and that work will be commenced on the route very soon.

Marshall and Cold Water Railroad.

This company was organized at Marshall, Mich., on the 8d inst., by the election of the following board of directors: A. L. Green, of Olivet; F. V. Smith, J. G. Parkhurst, and H. C. Lewis, of Coldwater; M. V. Wagner, H. J. Perrin, Geo. Ingersoll, C. S. Crane, C. P. Dibble, P. A. Spicer, of Marshall, and L. J. Fisk, of Allegan. At a subsequent meeting of the directors, A. L. Green was elected President; George Ingersoll, Secretary; C. P. Dibble, Treasurer, and D. B. Dennis, Assistant Treasurer. The length of the road is twenty miles. Capital stock, $200,000. Mr. Green is President of the Jonesville, Marshall and Grand River Railroad and this new organization is to take the place of the southern division of that road. It will connect at Coldwater with the Lake Shore and Michigan Southern Railway and also with the Mansfield, Coldwater and Lake Michigan Railway, and the division from Jonesville to Marshall will be abandoned. The work on this road will be commenced in October and pushed forward with energy, expecting to lay the track by the 1st of July next.

Grand Rapids and Indiana Railroad.

The laying of the last rail on the Grand Rapids and Indiana Railroad, south of the city, which was accomplished on the 13th inst., marks a vastly important era in the history of Northern and Western Michigan. It places the Muskegon and Grand Rivers in close business connection with the Ohio Valley, and opens a new and extended market for the plaster, lumber and other productions of a vast country whose capacity for the supply of those important productions is unlimited and as yet scarcely developed. The Continental Improvement Company have vigorously prosecuted the construction of this road. Since the middle of April last, as we are informed by that vigilant railroad man, Receiver Williams, 160 miles of track has been put down, in spite of the many difficulties which occurred in getting the ties and iron as fast as wanted. Some of this track was spiked down on the ties in less than ten days from the time it came hot from the rollers at Pittsburg, 500 miles distant. We are assured that the work of grading on the next twenty-mile section, north of Paris, will soon be commenced, the locating engineers having completed and reported their line through to the Manistee River, fifty-five miles north of Paris. Contracts for this work will be made without unnecessary delay. Gov. Baldwin, accompanied by an invited party of our citizens, took an inspection trip over the road from this city to Paris yesterday, and was highly pleased with the very excellent character of the work. The party, in addition to Superintendent Shaw, Receiver Williams, Commissioner Howard, and Director White, of the railroad company, included Hon. T. W. Ferry, Judge Whitney, Mayor Aldrich, W. D. Foster, N. L. Avery, Henry Fralick, Col. Briggs, T. H. Lyon, Jr., H. M. Hinsdill, D. L. Latourette, Dr. Ferris, C. Rice, and other gentlemen. The weather was very fine, and the trip an exceedingly pleasant one. A special engine and a new beautiful car were employed for the occasion, and the excursion train made its round trip without regard to the time-table or anything else but the pleasure of the party. The managers of the road were quite attentive in pointing out the many interesting features along the route, to which we have little space for reference here. About four miles north of Morley we pass over what is called "The Summit," being the highest elevation on the completed portion of the road, which point is 362 feet above the crossing of the D. and M. railway, in this city. The grade was so well perfected that we could hardly realize the fact that we reach such an altitude in passing over the apparently level road-

bed. Before reaching Big Rapids, the track passes over a gulch, at the foot of which a small, clear stream flows, seventy-five feet below. The bridge is about 300 feet long, and is a structure of great strength and beauty, built with special reference to permanence and safety. Our train stopped on the north end of this bridge, where the view down and along the gulch is quite picturesque and romantic. Returning, our train made the distance of sixty-five miles in two hours and a half, including two stops of at least ten minutes each. The track is an exceedingly smooth one, and all were delighted with the ride. The Governor must warmly commend it, and all the party gave enthusiastic evidence of their pride and satisfaction. We cannot doubt that the Executive certificate with reference to the completion of the third section of the road will be cheerfully given, and that the Company will at once secure the patents for the lands it is entitled to, and which it has so fully and faithfully earned.—*Grand Rapids Eagle.*

Louisville, Cincinnati and Lexington R. R.

The earnings of this road for the year ending June 30, 1870, were as follows:

From passengers		$502,378 88
" freight		391,836 50

The consolidation of the Louisville and Frankfort and Lexington and Frankfort Railroad Companies into the Louisville, Cincinnati and Lexington Railroad Company, adopted at the last annual meeting of the stockholders of the two first mentioned companies respectively, and under which you organized at the first general meeting of stockholders of this company on the 5th of October last, has been fully ratified and confirmed by an act of the General Assembly, approved February 9, 1870, with a proviso that your Board shall hereafter consist of twelve directors instead of nine, as provided in the agreement of consolidation. A supplemental act provides that ten of the directors shall be elected annually by the stockholders, the stock owned by the State of Kentucky not being entitled to vote therefor; and that two directors shall be appointed annually by the Governor so long as the State shall remain a stockholder.

Further legislation authorized the issue and sale or hypothecation of additional mortgage bonds to the extent of one million of dollars, and of additional capital stock to an amount not exceeding one million of dollars. Authority was also conferred on this company to construct and extend branch roads through Scott and other counties, receiving and applying to such objects county, city, or town bonds in payment for subscriptions to the capital stock of this company, on such terms and conditions as may be agreed.

FINANCIAL.

The one million dollars additional bonds authorized have been issued, by order of the Board of Directors, payable thirty years after their date, on the 1st of April, 1870, and bearing interest at the rate of eight per cent. per annum; and a mortgage lien has been made, to secure the payment thereof, on the property and franchises of the Company, subordinate to liens previously existing. The greater part of these bonds have been hypothecated as collateral in lieu and substitution of the unsold preferred stock hitherto pledged on the floating debt of the Company, and in the negotiation of further loans to meet the cost of the construction of connecting roads at Louisville and into Cincinnati. About half a million of dollars of preferred joint stock which was hypothecated for debt have been thus retired.

The floating debt of the Company is, in greater part, at long time; and, while it can be carried on the bonds as collateral without great inconvenience, is costing the Company a less rate of interest than would be paid on the proceeds of the bonds at any price at which they could now be negotiated. Besides the saving in interest, the Company has made a considerable saving in premiums on gold by making gold loans to meet our bills for iron. Our second bonds are generally known and treated as a good security, and with the connections of our road completed and its business established, will be sought for investment in our home market at a price materially higher than they will now command. Should no unforeseen trouble defeat the completion of the Cincinnati and Newport railroad bridge this season, and no great financial reversion unsettle ordinary moneyed values, we can have no difficulty in disposing of the securities of the Company during next summer, and liquidating the floating debt. The securities of the Company already issued are sufficient, even at the present market value, to pay all the liabilities of the Company, build its connections, and leave a balance of between $100,000 and $200,000; but the Company could not think of selling the preferred stock bearing nine per cent. at anything near its present market value. It is far preferable to carry a small portion of the floating debt until it can be paid from earnings, and sell no more preferred stock.

CINCINNATI BRANCH.

Your Short Line Branch road from Lagrange to Covington, though still uncompleted, has been open for business and in constant operation during the year past, and has made a gratifying success in demonstrating to the traveling and shipping public its comfort, capacity, and safety as a first-class road. But the embarrassment of its unfinished connections, both at Louisville and Cincinnati, with the necessary delay and expensive haul of both freight and passengers, have deprived it of the business to which its location and advantages entitle it, and essentially reduced the profits on the business it does command. These great obstacles have unavoidably existed a year too long; and have occasioned very serious loss and embarrassment to the operations of the road and the finances of the Company.

CONNECTIONS.

The protracted controversy in the City Council as to the route of connection through Louisville has been terminated by a contract between this Company, the Louisville and Nashville Railroad Company, and the city of Louisville, fixing a satisfactory route for the construction of a connecting road at the joint cost of the two railroad companies; and we expect to be put in possession of the roadway and commence work upon its construction by the date of your meeting. The iron has been provided, and the connecting line should be finished and in operation by the middle of November. The connecting road through Newport will also be completed during the fall; and we have the most confident assurances that the railroad bridge across the Ohio River at Newport will be finished by the 1st of December.

The funds required on our part to build these connections have been arranged for, at long time and lenient rates of interest, on pledge of the second bonds of the Company. The strong companies with which we connect at either end have exhibited a gratifying interest and appreciation of the value of our connections in the liberal aid they have agreed to extend for its completion.

OPERATIONS OF THE ROAD.

The business operations of the Company, its earnings and expenditures during the past year, and present assets and liabilities, are stated in the subjoined tables of the Auditor and Treasurer with great clearness and precision.

I believe it is the history of all new roads that the first year of their opening has never developed the business they are to command; but in our case, operating an unfinished road, with a long break over which we have to haul at either end, against two competing roads without these embarrassments, and with scarcely any county roads open to our new depots on the line to command local business, the earnings exhibited for the past year can be no criterion from which to judge of or scarcely to estimate our future earnings. I believe the earnings of the new line will be at least doubled, and without any increase of expenditures, after the completion of its connections becomes generally known to the public. The operating expenses, which for the first five months of the past fiscal year look very large, but were necessarily greater on account of operating a new and unsettled road than ordinarily, have been reduced to about an average of fifty-six thousand dollars per month; at about which standard, or not exceeding sixty thousand per month, they can be maintained, even with a considerable increase of business and earnings. These expenditures include always a full monthly proportion of the annual outlay for rails, ties, and other material and labor necessary to keep up the renewals and repairs of the road and equipments in the best operating condition. The good condition and quality of the road bed, its tunnels, bridges, and culverts, are not only well maintained, but annually improved.

Should our confident expectations of increased business on the new line be realized, the net revenues of the Company will at once exhibit a handsome margin above the current liabilities, on account of interest and dividends on preferred stock. But sound policy would dictate that the stockholders should not be urgent for a too hasty resumption of dividends on the common stock. The first surplus earnings available for dividends will be worth a great deal more to the common stock if applied to the reduction of the floating debt and the permanent retirement of the unsold preferred stock. The common stock of the Company is so small in amount, compared with the length of the roads and value of property, that a comparative small margin of net earnings above the interest account will pay good dividends. If the policy thus indicated by pursued, and no more preferred stock be sold, I am sanguine that within a few years the balance of the floating debt not paid by the sale of bonds will be paid off from earnings, and the common stock be in receipt of dividends at the rate of ten per cent. per annum.

CONCLUSION.

I cannot conclude this report without expressing my profound regret at the great loss to the Company I am sure you realize in the retirement, from illness and subsequent death, of my distinguished predecessor, the late Hon. W. A. Dudley, the first President under your present organization, and who had so long, faithfully, and efficiently managed your affairs as Chairman of the Joint Committee of the two previous companies. It is a sad reflection that he could not have lived to conduct to a brilliant success and complete the

triumph of his great enterprise in the projection and rapid construction of the important and valuable link in the great line of travel and transportation between the North and South, which your Short Line Branch road to Cincinnati is destined to constitute.

This calamity has brought to the head of your organization a President without experience and with limited knowledge of railroad management, who can only promise his faithful and best efforts to serve your interests.

In the practical business of operating the road I have to acknowledge the invaluable aid of our very able and experienced Superintendent, Colonel Gill. The Company has been fortunate in securing the services of Mr. Gimperling as Assistant Superintendent, whose entire control in the movement of trains exhibits a general success and freedom from collisions or other mishaps that will compare favorably with any other road in the the country.

The receipts and expenses from all sources for the year ending June 30, 1870, were as follows:

Receipts:

Transportation receipts	$948,748 30
Bills payable	279,033 77
Sale of bonds	50,000 00
Sale of preferred stock	6,328 68
Acc'ts for labor and material unpaid	20,403 52
Forfeited per centage on construction contracts	5,238 05
Due foreign roads on ticket sales	9,703 28
Collected from sundry parties	6,364 46
Decrease in supplies on hand	39,927 32
Profits in Lexington and Frankfort R. R. scrip redeemed	215 11
	$1,365,962 49

Expenses:

Operating expenses	$726,903 40
Construction Cincinnati Branch	266,701 02
Improvement account	9,255 01
Louisville and Frankfort R. R. bonds redeemed	6,000 00
Lexington and Frankfort R. R. scrip redeemed	827 60
State tax on capital stock	4,865 00
Interest on bonds	191,113 31
Dividends on preferred stock	77,128 97
Dividends on common stock	3,541 51
Interest and discount on loans	45,510 85
Default of station agent	206 90
Bills receivable, worthless	726 60
Increase in cash on hand	33,182 32
	$1,365,962 49

The company have 26 locomotives, 10 twelve-wheel and 12 eight-wheel passenger cars, 8 baggage, 6 express, 164 box, 24 stock, 100 platform, 6 caboose and 183 road cars. Number of miles run by locomotives with passenger trains, 376,178; with freight trains, 170,548; distributing trains, 74,184—total, 620,895; of which, 345,336 miles were run by coal burners at a cost per mile for fuel of 8.37 cents and for repairs 2.72 cents; and 275,559 miles by wood burners, at a cost per mile for fuel of 10.79 cents, and for repairs 6.04 cents. Av. cost per mile for fuel, 9.46 cents; and for repairs, 4.19 cents. Total cost per mile run, 24.79 cents. Total mileage of cars, 3,330,319. Number of passengers carried, 440,615; total mileage of passengers, 13,955,245. Av. number of miles traveled by each passenger, 31.65. Number of tons hauled, 180,603; number of tons hauled one mile, 12,174,094; average distance each ton was hauled, 67.41 miles. Earnings per total revenue mile, $1 83.95; expenses, do., $1 40.94—net earnings do., $0 43.01. Expenses per total engine mile, $1 17.05. Proportion of operating expenses to earnings, 75.56.

Gettysburg Railroad.

In accordance with the decree of the Supreme Court foreclosing the mortgage, Mr. Swope, the trustee, advertises the sale of the Gettysburg railroad, to take place at the Merchants' Exchange, Philadelphia, on Thursday, October 13th. As there seems to be no probability of the resident bondholders forming any combination to purchase the road, we take it for granted that it will pass into new hands, possibly the Pennsylvania or the Reading Railroad Company.

In the franchises of the Gettysburg Railroad Company, holding their right of way from the Susquehanna to the Potomac, the road has a value over and above the bed, rolling stock, &c. The revenues of the line from Gettysburg to Hanover now pay all working expenses and six per cent. on the full amount of the mortgage bonds. Were the link from New Oxford to York or Columbia completed, and the road extended to the Baltimore and Ohio road, the local traffic would be largely increased besides opening up an immense trade, in connection with the Cumberland coal region and the lines of railway pushing southwest through the Shenandoah Valley. As a through line from Philadelphia or New York to the Southwest, the route via Gettysburg to Hagerstown is from thirty to forty miles shorter than by the Cumberland Valley road.

By legislative enactments the bed of the old "tapeworm," in the construction of which the State expended over a half million of dollars, was transferred to the Gettysburg Railroad Company, and will pass to the purchasers, with the franchises, including the right to tap the Baltimore and Ohio road. We have no information as to the purposes of either the Pennsylvania or Reading Companies. Into whosoever hands the road passes, we hope that it will be extended.—*Gettysburg Star.*

Erie Extension Canal.

The Erie *Dispatch* of September 17th says: "Yesterday it was currently rumored that the canal had been sold to parties representing the Pennsylvania Railroad Company and there is now no doubt that a formal transfer of the property has been made. The price understood to have been paid is upwards of a quarter of a million of dollars, mostly in railway bonds. The sale was the staple of street talk yesterday, the business connections of the purchasers giving color to the belief that the canal would hereafter be operated by the Pennsylvania Railroad, as an adjunct instead of a competitor of the Erie and Pittsburg Railroad. Speculation is rife as to the probable effect of the sale upon the freight tariffs both by canal and rail. The general opinion favors the idea that the canal will be put in repair, and that no advance of rates detrimental to the business of the city need be anticipated from this unexpected movement."

☞ Judge Strong, in the U. S. Circuit Court, Philadelphia, has rendered his decision in the case of the Philadelphia and Reading Railroad Company *vs.* Barnes, Collector of Internal Revenue. The opinion decides the law to be the same as it stood before the passage of the act of July 14, 1870, the dividends and interest paid by railroad companies on and after January 1, 1870, were not liable to an internal revenue tax, and that the act of July 14, 1870, could not be accepted as a legislative exposition of the meaning of the former law, so far as it applied to the present case. There were a number of cases involving the same question.

☞ Drew Co., Arkansas, has voted, by a majority of 678, aid to the amount of $100,000 each to the L. R., P. B. and N. O., and M., O. and R. R. railroads.

Finances of Florida.

At the close of the war the State of Florida had afloat about $2,000,000 railroad bonds, of which she had guaranteed the interest. Nearly all these have been called in and cancelled, and the Legislature has authorized an issue of bonds, to be secured by first mortgage bonds of the railroad, to the amount of $16,000 per mile for each mile of constructed road from Jacksonville to Pensacola, 374 miles, and from Gainesville to Tampa Bay, 160 miles. Two hundred and twenty-three miles of the road from Jacksonville, west, is in running order, and $3,000,000 in State bonds has been exchanged. As the road is extended the company is entitled, for each section of twenty miles completed, to receive State bonds to the amount of $16,000 per mile in exchange for its first mortgage bonds. The time for completion of the road is limited to five years, and the entire amount of bonds authorized would be about $8,000,000. The State is authorized to enter upon and sell the roads upon failure of the companies for any one year to pay the interest on the bonds.

The bonded debt of the State itself, as appears from official data, is as follows:

Seven per cent. bonds, issued in 1851, to defray expenses in Seminole war	$220,000
Eight per cent. bonds, issued by Constitutional Convention	30,000
Six per ct. bonds, payable in thirty years, issued under new constitution, 1868	300,000
Six per cent. bonds payable in twenty years, issued under new constitution, 1869	200,000
Total	$750,000

The bonds, issued under the new constitution, were for the purpose of funding floating obligations and past due interest incurred by the old government. The constitution requires the Legislature annually to levy sufficient tax to meet the interest upon the public debt and defray the current expenses of the government. One half of one per cent. upon the assessed valuation of the property is deemed sufficient for that purpose, and is a much lighter tax than in many other States.

Of the seven per cent. bonds $132,000 is in the Indian Trust Fund at Washington, and the State claims indemnity from the federal government for the entire amount of these bonds issued for expenses in the Seminole war. Over 50,000 people have been added to the population of the State since the war, and her present enumeration is stated at near 200,000, against 140,000 in 1860. The city of Jacksonville alone numbers 12,400 inhabitants, having quadrupled since the war. Under the new government the State has entered upon a fresh career of prosperity, and it is expected that 400 miles of railroad will be added within the next two years, the Legislature having made liberal provisions for their construction and also for the improvement of the navigation of her internal waters.

American vs. Foreign Manufactures.

The *Ironmonger*, a London paper published in the interest of the iron and steel manufacturers of England, has the following suggestive paragraph:

"We are running a great risk in England of being beaten by America in the manufacture of axes, shovels, hoes, and other manufactures of the kind. The Pittsburg steel, both cast and rolled, is fully up to the best English—in fact, to such a degree that it is not only supplanting our produce, but in every shape of tool it is being exported to the European continent. American bolts and hinges exceed ours, and medium American cutlery of all kinds is cheaper and better than any manufactured here. We trust that our Sheffield houses will look to their laurels, and strive to maintain the superiority of make and world-wide command of the trade for which they have hitherto been celebrated."

Steam on Canals.

The feasibility of a new plan for propelling boats through the canals by steam is again being discussed. The latest invention was made by a Mr. Goodwin, and consists of a new steamboat, propelled by a single wheel, and this, instead of being of the ordinary construction, consists of a water-tight drum, having the paddles arranged on its periphery, and they do not pass straight across the drum, but are arranged in V shaped lines. The sides of the boat are extended forward, and between them is hung the drum or paddle which we have described. These two sides are thus made to inclose the entire depth and breadth of water to be displaced, so that when the wheel is put in motion the boat is not forced against the water which lies in front of it, thereby piling the water up and throwing it off against the banks; but, instead of this, the water is drawn in under the wheel and forced under the bottom of the boat, being discharged at the rear end, so that the water instead of being higher at the front of the boat, is actually found to be the highest behind it. In this way, instead of the boat having to displace a large amount of water by sheer pressure at the bow, thereby piling the water up and thus opposing a most powerful resistance, the water is displaced by the action of the wheel and passes under the boat. There has been considerable experimenting with steam as a motor upon the Chesapeake and Ohio Canal, but not altogether with the desired success, and it remains to be seen if the desideratum is really attained in the above-named invention.—*Cumberland Alleganian.*

Ogdensburgh and Lake Champlain R. R.

The Directors of the Ogdensburg and Lake Champlain Railroad Company present to the Stockholders their Fifth Annual Report, being for the year ending March 31, 1870:

Gross Earnings for eleven months ending February 28, 1870		$1,025,021 95
Expenses for the same period	$633,372 98	
Paid for wharf property at Ogdensburg	15,346 19	
Paid for building warehouse at Ogdensburg.	21,000 00	
		669,919 17
Net earnings for eleven months.		$355,302 78
Received of the trustees and managers of the Vermont Central and Vermont and Canada Roads, instalment for March under the contract hereinafter referred to		32,051 66
Net earnings for twelve months, ending March 31, 1870		$387,354 44
Balance of net earnings on hand, April 1, 1869.	$208,922 55	
Received for premium on sale of equipment bonds and preferred stock	7,092 09	
		216,014 64
		$603,369 08
From which has been paid:		
One dividend of three per cent. on common stock & tax.	$96,925 00	
Two dividends of four per cent. on preferred stock and tax	168,339 60	
Interest on bonds & tax.	57,358 08	
Profit and loss	9,506 84	
		332,129 97
Net earnings on hand, April 1, 1870		$271,289 11

Which consists of the following items:

Cash and available assets	$288,524 31
Real estate and other assets	88,779 25
	$377,303 56
From which is to be deducted:	
Bills payable and other liabilities	106,064 45
	$271,239 11
From this amount has since been paid the dividend on the first of April, on preferred stock	80,000 00
Balance	$191,239 11

So that the financial condition of the company on the first of April, was as follows:

Cash and available assets		$288,524 31
Deduct notes & liabilit's.	$106,064 45	
Dividend, April 1st	80,000 00	
Unsettled claims, estimated	10,000 00	
		196,064 45
Balance of cash assets on hand, April 1st		$92,459 86
The gross earnings as will appear from the foregoing statement for eleven months, ending Feb. 28, 1870, were		$1,025,021 95
The gross earnings for March, which were received by the trustees and managers of the Vermont Central, and Vermont and Canada Railroad were		54,343 07
Gross earnings for twelve months, ending March 31, 1870		$1,079,365 02
Expenses for same period, exclusive of the cost of wharf property and warehouse		668,064 44
Net		$411,300 58
The gross earni'gs for twelve months, ending March 31, 1869, were		$1,045,221 70
Expenses for same period		688,382 46
Net		$356,839 24
Showing a gain in gross earnings of		$34,143 32
And a reduction in expenses of		20,318 02
Net gain		$54,461 34

There is included in the item of expenses for the past year the cost of building 27 freight cars, one locomotive, and one passenger car.

The equipment of the road has been maintained and kept in good repair.

The proceeds of the sale of $200,000 of equipment bonds, issued a year ago, has been expended in the purchase and building of 100 platform, 148 box, and 1 passenger cars, and 1 locomotive.

Our equipment at the present time consists of 340 platform, 744 box, 19 passenger, and 7 baggage cars, and 33 locomotives.

During the past year 2,000 tons of new iron have been put in the track, and 60,000 ties, besides 50 miles of repaired iron, so that at the present time the track is in most excellent condition.

The repairs on the bridge at Rouse's Point have been completed, so that it is in capital order and will require no material repairs for several years; the other bridges have been kept fully up to the standard which safety requires, and are in good condition.

The roofs of the freight house and repair shops, at Malone, have been covered with slate the past year, involving an expenditure of between four and five thousand dollars.

The brick warehouse at Ogdensburg, to which reference was made in the last annual report, has been built at a cost of $21,000 being $4,000 less than the estimate. This building is 80 feet in width by 400 feet in length, divided by brick walls into four warehouses, each 80 feet by 100 feet and connected by iron doors.

The building is of brick with slated roof, and

admirably adapted to the purposes for which it was designed, viz.: the protection from fire of large amounts of freight.

In view of the large and increasing lumber business, the directors deemed it judicious to extend their water front at Ogdensburg, and have purchased, at a cost of $15,346 19, a property adjoining the depot grounds, having a frontage of about 2,000 feet on the St. Lawrence River, and an average depth of about 400 feet.

$4,600 of first mortgage bonds are yet outstanding, and will be paid on presentation.

$25,200 of second mortgage bonds are yet outstanding and will be converted into the common stock of the company on presentation.

The Court of Appeals of the State of New York have affirmed the decision of the Supreme Court in the suit *versus* parties interested in the old Corporation: that decision declared that the parties had no standing in Court.

On the 24th of February last, the Directors entered into a contract with the Trustees and Managers of the Vermont Central and Vermont and Canada Railroads, by which the management of the road and all its property was transferred to them for twenty years, this company receiving as a compensation therefor, in monthly instalments, a sum equivalent to the interest on the equipment bonds, dividend on preferred stock, and six per cent. for three years, seven per cent. for three years, and eight per cent. for fourteen years, on the common stock, free of government tax; this contract contains, also, proper stipulations for keeping the track, buildings and equipment, in good order and repair, and the addition of such equipment from time to time as may be necessary therefor.

At the same time, the Trustees and Managers of the Vermont Central and Vermont and Canada Railroads, entered into a contract with the Northern Railroad of New Hampshire, the Concord, the Lowell and Nashua and Boston and Lowell Roads, by which these last named parties agree to hold their share of the gross earnings of all business coming from our road as security for the performance of all the stipulations in our contract, and agree to reserve from the same a sum sufficient to pay the monthly instalments, and our Treasurer is authorized to draw for the same, on the first day of every month, on the Manager of the Boston and Lowell Railroad; this last named contract has been assigned to us.

The contract was deemed eminently advantageous to our stockholders, and not less so to the parties with whom the contract is made.

TRIAL BALANCE, MARCH 31, 1870.

Cost of road	$5,077,000 00
Equipment purchased by loans of 1869	500,000 00
Real estate for sale, not wanted for railroad purposes, and other assets not available as cash	88,779 25
Cash and balances due from other other roads and individuals	288,524 31
	$5,954,303 56
Capital stock	$3,051,800 00
Preferred stock	2,000,000 00
First mortgage bonds	4,600 00
Second mortgage bonds	25,200 00
Equipment bonds of 1868	300,000 00
" " 1869	200,000 00
Bills payable	90,000 00
Unpaid divid'ds, coupons & vouchers	11,464 45
Net earnings	271,239 11
	$5,954,303 56

President.—JOHN C. PRATT.

Directors.—John C. Pratt, Jacob W. Pierce, John S. Farlow, George M. Barnard, S. E. Peabody, Thomas Upham, Samuel M. Felton, E. T. Farrington, William C. Brown, I. D. Farnsworth, Chas. J. Morrill, Calvin T. Hulburd, Albert Andrus.

Treasurer.—HENRY A. CHURCH.

Counsellor.—WILLIAM C. BROWN.

Boston and Maine Railroad.

The annual meeting of the stockholders of this company was held in Lawrence, Mass., on the 14th inst. Frances Cogswell, Esq., President, in the chair. The Annual Report which was formally presented in print, having previously been distributed among the stockholders, was unanimously accepted. The following gentlemen were elected directors for the ensuing year: Francis Cogswell, Andover; Peter T. Homer, Boston; Nathaniel G. White, Lawrence; E. J. M. Hale, Haverhill; George C. Lord, Boston; Amos Paul, South New Market; John E. Bickford, Dover.

It was voted to amend the by-laws so as to fix the date of the annual meeting on the second Wednesday of November, beginning with the year 1871, and to have the official reports made up on April 1 and October 1 each year. The reason for this change was the amendment of the statutes by the recent Legislature, whereby the time for making up the annual reports of railroad corporations is changed.

The article relating to the issue of new stock was then taken up.

Brackett L. Jones of Stratham wanted to know what the money was to be used for, and when informed that it was intended to pay the floating debt, expressed his surprise to know that the corporation was in debt. He thought there was a surplus.

P. T. Homer explained that the power to issue stock was desired in order to meet financial emergencies. When money could be hired at 5 per cent. it would be well to carry on a floating debt, as the stock if issued would be compelled to pay a dividend and to pay State taxes. In a financial crisis it would be policy to avoid paying high interest by redeeming the debt, and in such case the stockholders would be called on to take the stock.

The President further explained that the floating debt had accrued and was constantly accruing in consequence of increase of rolling stock, engines, new depots, &c., within the past four years. A branch was now being built from North Andover to Bradford, which would cost $150,000, and large tracts of land had been purchased with a view to future rather than present needs. If gentlemen were willing to go without their dividends in order that the floating debt might be paid, the directors would be happy to comply with their wishes.

Without further discussion it was voted to authorize the directors to issue 4,500 shares of new stock to stockholders at par, at the discretion of the directors.

The article relating to deep water communication was taken up, and the report of the committee recommending reference of the subject to the new Board of Directors was accepted, and the matter was so referred.

☞ The New Bedford and Taunton Railway Company reduces its passenger rates after the first proximo. This is owing to the repeal of the United States tax on fares, which goes into force on that date.

☞ The tender for the construction of the first section (38 miles) of the Glencoe and Buffalo branch of the Great Western (Ca.) Railway has been let to Henry Yates, Esq.

Kansas Pacific Railroad.

On the 30th of August, a train consisting of nine Pullman's Palace cars, with baggage car and commissary car attached, left St. Louis, having on board some ninety-six invited guests of the Kansas Pacific R. R. Co. The party included besides the Postmaster General, the second Assistant Postmaster General, the President's Private Secretary, representatives of various railroads, gentlemen interested in telegraphic lines and land companies, and a large number of journalists from the different States. The excursion was intended to celebrate the opening of the road, the last rail of which was laid some few weeks since, and the last ten miles of which was finished in one day.

The Pacific Railroad, as now completed, runs directly through the State of Kansas and part of the Territory of Colorado, a distance of 637 miles. It also has a branch road from Leavenworth to Lawrence, a distance of 34 miles, and another from Denver to Cheyenne, 100 miles, where it strikes the Union Pacific road. The undertaking was a most laborious and hazardous one but was pushed to its completion through the energy of its President, John D. Perry, Esq. Most of the road is on a line of good water courses, and veins of coal have been struck at several points. A route from Denver to Idaho has been surveyed, and if completed will put the East into direct communication with the Rocky Mountains. Along the whole line of the present road villages are springing up, and the advantages offered by the road to settlers are good, the prices low and interest but six per cent. The road passes through the valleys of the Kansas and Smoky Hill rivers, and across the Big Blue, Republican, Soloman and Saline rivers, the richest agricultural district in the State. After striking the Colorado border it skirts the edges of the Pine Ridges, from which lumber can be readily delivered to any point of the road on the Plains. The business of the road at present, although confined mostly to the cattle traffic, is very large, and the prospects for a thriving and lucrative business in other branches very flattering.

West Chester and Phœnixville Railroad.

The 1st Vice President of the Pennsylvania railroad, and 4th Vice President, Colonel Thomas A. Scott, and Mr. Roberts, in company with William E. Lockwood, President of West Chester and Phœnixville Railroad, and others interested in the new enterprise, on Saturday afternoon last, went over to the proposed line from the steamboat to West Chester. It is said that as soon as the necessary preliminaries are made the West Chester and Phœnixville Railroad will at once be put under contract as far as the steamboat. We understand that the Company is organized as follows: President, William E. Lockwood; Secretary, C. H. Pennypacker; Treasurer, William Painter; Directors, William E. Lockwood, Charles H. Pennypacker, William Painter, Joseph T. Murtagh, Daniel F. Jenks, William McCouch, William D. Christman.—*West Chester Record.*

☞ At a meeting of the stockholders of the Memphis and Raleigh Springs Railroad Company, held at Memphis on the 1st instant, the following directors were elected: E. F. Babcock, E. W. Brooks, C. N. Taylor, A. B. Newkirk, J. T. Swayne, A. J. Kellar, Geo. K. Duncan, H. L. Brinkley, A. J. White.

☞ John J. Richardson has been elected President, J. J. C. Abbott Vice President, and W. R. Worsley Secretary and Treasurer of the Canada Central Railway Company.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics.*" State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterick* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, September 24, 1870.

Stock Exchange and Money Market.

The Money market has quoted easier for responsible borrowers, who have been enabled to provide for their urgent wants without difficulty, at 4@6 per cent. on call, and 7@9 per cent. per annum in the discount form. The speculative inquiry for aid has not been active. The mercantile demand has been good, and has been met with promptness, in all unexceptionable cases, at the going rates. The fall trade opens with unusual promise of a healthy and profitable movement through the season, and lenders evince more confidence in commercial credits. The city banks, in their last weekly return, showed a gain of nearly a million legal tender notes, with, however, a reduction of about 3⅜ millions in the deposit averages, and nearly 2¼ millions in their specie reserve. They diminished their loan and discount averages about 3⅜ millions, or equal to the falling off in their deposit line. Their legal tender average is now a little over 49 millions, as against 61⅝ millions on the 28th of May (the highest average of the current year, thus far). Their deposits are now about 193½ millions, as against nearly 234½ millions on the 16th of July. Their specie average is about 16⅛ millions against 41⅛ millions July 16th. The U. S. Sub Treasury lost $1,139,858 of its currency balance; and $2,185,089 of its coin reserve during the week.

The specie reserve of the city banks according to the latest return is $16,517,151, against $14,538,109 same time last year. The city bank deposits are now $193,479,916, against $188,390,130 week ending Sept. 18, 1869. The legal tender reserve amounts to $49,062,532, against $51,259,197 same time last year. The circulation now stands at $32,750,726, against $33,972,759 same time last year. The loans are now $268,408,700, against $266,496,024 at this date last year. The Bank Exchanges at the Clearing House through the past week, averaged $69,961,551 a day, against a daily average of $75,321,678 the preceding week. The current weeks' exchanges average about 81 millions a day. The city banks, last week, reported a loss of $2,201,158 of specie, and of $3,372,514 of deposits, with a gain of $990,347 legal tender notes. They reduced their loans, $3,388,031; and their circulation, $146,442.

The city bank exchanges on Wednesday were about 62 millions.

The coin reserves of the Treasury Department on Monday were $99,281,083, including $21,317,000 on deposit on private account; currency balances, $34,274,829.

National Bank notes to the amount of $365,350 were issued last week by the Treasury Department, making the total issue to 1,692 banks thus far, amount to $328,937,274, against $282,555,440 at the close of the fiscal year ending June 30, 1866. From the total issue is to be deducted the currency returned, including worn out notes, amounting to $29,399,045 leaving, with the existing 1,612 banks, (having an aggregate capital of $427,235,701,) an actual circulation at this date, of $299,538,229. The United States bonds held by Treasurer Spinner in trust for National Banks as security for circulating notes amount to $341,919,850; and for the public deposits, $16,341,500—making a total of $358,261,350. The Treasury Department last week redeemed and destroyed $664,300 of worn and mutilated fractional currency, and issued $262,293 of new.

The U. S. Sub-Treasury receipts, week ending with Sept. 17, were $3,996,108 in coin, (including $3,998,000 from customs duties,) and $4,987,351 in currency; payments, $6,181,197 in coin, (including $379,421 of coin interest,) and $6,127,210 in currency; balance at the close of the week, included $60,647,663, of coin, against $62,832,753 the preceding Saturday, and $9,053,087 of currency, against $10,192,946 at the close of the preceding week. The business of the Office on the first two days of the current week, was as follows: On Monday, receipts, $553,300 in coin, (including $541,000 from customs,) and $428,082 in currency; payments $128,376 of coin (including $76,445 of coin interest), and $560,509, of currency. On Tuesday, receipts, $683,977 in coin (including $662,261 from customs), and $316,664 in currency; payments, $32,287 in coin (including $27,721 of coin interest) and $316,508 of currency. The balance at the close of business on

Tuesday included $8,920,817 of currency, and $61,723,977 of coin, against a balance a week previous of $11,029,933 currency, and $63,927,617 coin.

The aggregate receipts of the U. S. Sub-Treasury in August were $53,001,692, including $15,645,267 from customs; aggregate payments, $55,169,424, including $2,221,753 of coin interest, and $129,213.

The U. S. Sub-Treasurer issued in August $872,500 of coin certificates.

The U. S. Sub-Treasurer retired, last week, $2,940,456 of coin certificates, received for customs.

Government revenues have been yielding satisfactorily since our last. The excises, during the week yielded about four millions; customs at the port of New York, $3,234,456, and at the outports about $1,100,000 (in coin) more, making the grand total income for the week equal to about $8,984,623 in currency. The income of the Government, from excises, since July 1, 1870, has been about 48½ millions.

The Gold market has shown but little animation, since our last. The speculative inquiry has been devoid of spirit. The customs call has been fair. The export drain has fallen below a weekly average of a million dollars. The range of the price has been from 113⅝@114½, and the closing quotation on Wednesday was 113⅞, against 114¼ the preceding Wednesday. The war news from Europe has not been of an important character, and has not had much influence on the market. The export drain of Gold last week was considerably under a million, against 1⅜ millions week ending Sept. 10; 1⅛ millions week ending Sept. 3; 2¼ millions week ending with Aug. 27th, about three millions the week ending with August 20th, 3⅞ millions the week ending with Aug. 13th, and nearly 7 millions the week ending with Aug. 6th. On Wednesday Government marketed a million of Gold at 113.65@113.81. The aggregate of the bids was $3,690,000. The shipments thus far this year have been about 48 millions, against 25¼ millions same time in 1869; 65⅜ millions same time in 1868; 41⅜ millions same time in 1867; over 53½ millions same time in 1866; and over 21 millions same time in 1865. On Wednesday of the current week, the specie exports were $430,668. The exchanges at the Gold Exchange Bank, which were over 53½ millions on Thursday of last week, run down to 19½ millions on Saturday, and were up to only 28¼ millions on Monday of this week, and were 35⅛ millions on Tuesday. On Wednesday they were 24⅜ millions.

The coin balance of the U. S. Sub-Treasury on Thursday morning was $62,063,281.

The customs demand for Gold last week, averaged $666,334 a day; thus far, this week, it has averaged $601,631 a day, or equal to a weekly aggregate of $3,609,786. The arrivals of specie from Europe, Havana and other foreign ports, during the week were $148,779; and since Jan. 1, 1870, $7,900,432, against $9,884,124 same time in 1869. The total customs revenue of the Government, in coin, at this port, since Jan. 1, has been $101,643,583 against $97,854,901, same time in 1869.

The exports of specie, from this port, last week, were $810,465 against $313,119 same week last year; and since Jan. 1870, $47,419,404, against $25,274,067 same time in 1869. Government disbursed last week through the U. S. Sub-Treasury here, on account of the coin interest on the public debt $379,421; and since Jan. 1, 1870, $66,183,427 against $68,410,770 same time in 1869.

The customs revenue of the port on Wednesday was $717,000; and the coin interest disbursements were $38,000.

The customs revenue at the port of San Francisco, from Jan. 1 to Sept. 12th, was $6,104,000, against $5,973,000 same time last year.

The specie exports by steamer and railway from San Francisco, from Jan. 1, 1870 to Sept. 12, were $24,403,000, against $27,101,000 same time last year.

Under its official programme for September, Government will sell Gold during the month as follows: Wednesday, September 28, $1,000,000. And purchase Five-Twenties, as follows: Thursday, September 29, $1,000,000.

Foreign Exchange has been in pretty fair supply and demand at about steady rates, as a rule. Bankers' sixty day bills on London closed on Wednesday at 109½@109⅞; sight bills on London, 110¼@110⅝. The offerings of produce bills have been rather less extensive. The week's exports of domestic produce have been to the currency value of $3,137,927, and since January 1, 1870, $130,362,363, against $137,873,202 same time in 1869.

There has been a moderate business transacted in Government securities, through the week. The offerings of bonds have been rather limited and prices have been very well supported. On Thursday of last week, Government again increased its acceptances of Five Twenties a million, over the amount specified in the advertisement, inviting offers. Its proposal for Thursday of this week was to purchase a million, with the usual reservation, but it was expected that it would accept a larger amount. The main inquiry for investment purposes has been for the later issues of the Five Twenties, which show a fractional advance in prices, closing buoyantly.

U. S. sixes of 1881 closed here on Wednesday of the current week at 114@114¼; U. S. Five Twenties of 1862, 112⅞@113⅛; U. S. Five-twenties of 1864 at 111⅞@112; U. S. Five Twenties of 1865 at 112⅛@112¼; U.S. Five-twenties of 1865 consolidated, 110¾@110⅞; U.S. Five Twenties of 1867, 110¾@110⅞; U. S. Five-twenties of 1868, 110⅞@111; U. S. Ten-forties at 107@107⅛; U. S. Six per cent. currency bonds, 111¼@111½.

State bonds have been in quite moderate demand, but without very important changes in price.

Railway bonds have been in more general request, chiefly for investment at buoyant prices, including Central Pacific Sixes, which closed on Wednesday buoyantly at 90½@90⅝, showing a further advance of near two per cent. in the price within the week, influenced in part by the reports of the liberal earnings of the road. The Union Pacific Sixes closed on Wednesday at 82¼@82½. The registered First Mortgage bonds of the Chesapeake and Ohio Railroad have been salable and steady at 90 per cent. and accrued interest.

Railway and miscellaneous share property has been moderately active, but irregular as to price, the later dealings showing rather more firmness and buoyancy.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Sept. 7.	Sept. 14.	Sept. 21.
Consols	91⅞	92⅛	92⅜
U. S. 5-20's of 1862	88¾	90	90½
U. S. 5-20s, 1865	88¼	89¼	89½
" 1867	87¼	88¼	88½
" 10-40s	84	85	85½
Erie	18¼	18	18
Ill. Central	112	112½	113
At. and Gt. West	23½	23½	23½

At Frankfort on Wednesday, U. S. Five Twenties were quoted at 94⅛.

General business has been moderately active in the line of domestic produce, but at, in most instances, easier prices. The free arrivals of cotton have been against steadiness in the current values of this staple. Flour, Wheat and Pork closed weaker in price. Corn, Oats and Petroleum, stronger. Middling upland cotton closed heavily on Wednesday at 18¼ cts. per lb. The stock of cotton now here is given at about 12,500 bales. The receipts at the port this week, have averaged about 3,000 bales a day. The receipts at all the ports, since Sept. 1, 1870, have been 35,149 bales, against 40,944 bales same time in 1869–'70; exports same time 14,821 bales, against 3,926 bales same time in 1869–'70; stock on hand at latest dates, 55,889, bales, against 28,705 bales same date 1869. The exports of domestic cotton goods from this port, since Jan. 1, 1870 have been 12,309 pkgs., against 16,706 pkgs., same time in 1869. From Boston, 4,864 pkgs. in 1870, against 6,189 pkgs. same time in 1869.

At the Live Stock markets, this week, Beeves of good quality have been in fair demand and steady; we quote the range at from 8@17c. per lb.; week's receipts, 8,084. Milch cows continue very quiet at $40@$100 each, receipts, 64. Veal calves have been in moderate demand at from 5@13c. per lb.; receipts, 3,245. Sheep have been in less request at from 3@6½c.; lambs at 6⅛@8½c. per lb.; receipts, 35,140. Hogs have been quiet at 9¾@10⅛c. per lb., all live weight; receipts, 15,468.

There has been more inquiry for foreign goods, and prices of seasonable stocks have been well supported. The dry goods entries at this port, last week, were $3,220,418 making with the general merchandise imports, a total of $6,353,999.

Freights have been less active, but shipowners have been firm in their views, with a light offering of room reported. For Liverpool we quote flour at 1s. 9d. by sail, and 2s.@2s. 3d. by steamer per bbl.; grain at 6½@7d. by sail, and 8½@8¾d. by steamer per bushel; cotton at $\frac{3}{16}$d. by sail and ¼d. @⅜d. by steamer per lb.; and heavy goods 15s.@30s. by sail, and 17s. 6d.@45s. by steamer, per ton. Total number of vessels in port on Wednesday, 482.

The following will show the exports (exclusive of specie) from New York to foreign ports for the week ending September 20, and since the beginning of the year:

	1869.	1870.
For the week	$3,752,261	$3,187,927
Previously reported	134,120,941	127,224,436
Since Jan. 1	$137,873,202	$120,362,363

The imports for the week ending Sept. 17, and since the beginning of the year, have been as follows:

	1869.	1870.
Dry goods	$3,519,829	$3,220,418
Gen. merchandise	4,168,733	3,133,581
Total for the week	$6,688,562	$6,353,999
Previously reported	219,806,932	211,465,482
Since January 1	$226,495,494	$217,819,481

☞ The Railway Commissioners advertise for tenders for the three remaining sections of the Intercolonial line, all in the province of New Brunswick. No. 21 is 25 miles in length; No. 22, 25 miles; and No. 23, about 22 miles. The contract of section No. 10 has been annulled, and tenders for that section are also asked. It is situated in New Brunswick and is 20 miles in length. Tenders to be received at Ottawa until the 5th of October.

HARVEY FISK. A. S. HATCH.

OFFICE OF FISK & HATCH,
BANKERS AND FINANCIAL AGENTS
OF THE CENTRAL PACIFIC RAILROAD,
AND ALL ITS BRANCHES.
No. 5 NASSAU ST.,
NEW YORK, Sept. 17, 1870.

☞ THE EARNINGS OF THE MAIN LINE of the CENTRAL PACIFIC RAILROAD since Jan. 1, are as follows:

January	$413,104 41
February	394,176 47
March	488,332 91
April	633,758 06
May	768,719 77
June	729,274 46
July	784,099 64
August	806,040 00

The total amount of its First Mortgage Bonds is $28,620,000, upon which the annual interest payments are $1,717,200; its gross receipts for the current fiscal year will be over $8,000,000, of which one-half will be profits. The cash value of its property is OVER ONE HUNDRED MILLIONS; its princely earnings, in its first year—its economical and careful management—its entire freedom from floating debt—its sinking fund out of its surplus earnings, which will be invested in its own bonds—the fact that it is a finished road and fully equipped, all combine to make its bonds fully equal in intrinsic value to the bonds of the Government itself. We do not hesitate to recommend our friends to change their Five twenties and other governments for these bonds, and thus secure the difference of 20 to 22 per cent., thereby increasing their income from four and a half to SEVEN PER CENT., and we firmly believe the time is not far distant when these bonds will be scarce at par and above.

The bonds are dealt in at the Stock Exchange, the same as Government bonds; the market price, to-day, is 89¾ to 90; they are all of $1,000, interest at six per cent., January and July, principal and interest both payable in United States gold coin, dollar for dollar, in the City of New York.

FISK & HATCH.

We receive deposits and allow interest thereon, make collections, and do a general Banking business.

☞ The coupons due October 1st on ARKANSAS STATE BONDS issued to Railroad Companies, will be paid on and after that date on presentation at the Banking House of FARNHAM, GILBERT & CO., No. 8 Wall street.

D. B. SICKLES,
Financial Agent, State of Arkansas.

☞ Mr. P. Collins, Agent for the Pennsylvania Central Improvement Company, advertises in the Warren *Sentinel* for 2,000 laborers to work on the Front Royal and Luray section of the Shenandoah Valley Railroad. By the time this section is completed, it is expected that the Martinsburg and Potomac Railroad will be in running order to Front Royal.

☞ Work has been commenced on the Columbia (Pa.) and Port Deposit (Md.) Railroad. The road is being built by Messrs. Wolfe and Upp for the Pennsylvania Railroad Company, there being no sub-letting.

Journal of Railroad Law.

RAILROAD COMPANIES—NEGLIGENCE—INJURY TO PASSENGERS GETTING ON TRAIN.

The facts of the late case of The Detroit and Milwaukee R. R. Co. *vs.* Curtis and wife, (23 Wis., 152,) are as follows: The action below was by Curtis and wife against the railroad company, for injuries to the person of Mrs. Curtis from her being thrown from the platform of a car on one of the company's trains, in consequence of the sudden starting of the train while she was getting upon it.

Verdict for plaintiffs below; motion for a new trial denied; and judgment upon the verdict, which the railroad company seeks here to reverse.

The following is the able opinion of the court delivered by

PAINE, J.—I cannot assent to the position of the counsel for the plaintiffs in error, that there was such an absence of evidence of any negligence on the part of the company, and such clear proof of negligence on the part of the plaintiff below contributing to the injury that the court should have taken the case from the jury. If it had appeared that the train was brought to a stand in the usual manner, and that the plaintiff who was injured, had, of her own motion and without any instigation from the agents and servants of the company, attempted to go on board before the cars had fairly stopped, and during the jerking motions that usually result, as the proof shows, in stopping a long train, and had been injured by reason of such attempt, there would be much more ground for sustaining this position. But here there is evidence tending to show that the train came to a full stop, and that the passengers were told to go on board by the persons in charge the train. There is certainly proof tending to show that the train had come to a full stop after the jerking motions, resulting from checking its speed, had ceased. Not only the direct statements of the witnesses, but the fact that all the passengers at the station were getting on board at the same time the plaintiff did, tends to show this: for though there is occasionally an individual who will take the risk of getting on board before the cars stop, yet passengers generally do not. But even if it had not come to a full stop, and the stop during which the plaintiffs attempted to go on board, was one of those which resulted merely from checking the speed of the train, as the counsel urges, yet when the passengers were told by those managing the train to go on board, they had a right to assume that the train was ready for their reception, and cannot be charged with negligence in following that direction, the train, where they attempted to enter, being actually still at the time. If the train was not ready for their reception, it was a clear act of negligence in the servants of the company to tell them to go on board, as the proof shows was done in this case. And it makes no difference that they were told to go to the hind car, and that the plaintiffs, instead of doing so, attempted to enter the third car from the rear. The conclusion which they had a right to draw from being told to go on board in any car was, that the train was ready to receive them. And the direction to go to the hind car could only have been reasonably understood as informing them where they could most conveniently find seats. There was no occasion for them to infer that they were guilty of any negligence or exposing themselves to any danger if they entered another car. And if the plaintiff was guilty of no other negligence than that, and was injured by starting the cars suddenly and without notice, whileso entering she ought to recover. The question of negligence is one of fact for the jury and will be submitted to them, except in those cases where the proof is so clear and decisive in its character as to warrant the court in saying, as a matter of law, that there is nothing to submit. And that certainly, was not the case here.

But there is one proposition, in the instructions given by the court, which I think cannot be sustained. It is found in the remarks immediately succeeding the further instruction asked by the plaintiffs, partly as an addition to that instruction, and partly in further enlarging upon the same idea. Without quoting them literally, it is enough to say that they told the jury that if they believed from the evidence that if the company had had an agent, wearing its badge, whose special duty it was to warn passengers not to go on board till the cars stopped, and to inform them in what cars to enter, and to tell them that there was room for all, etc., and that such an agent would have prevented the injury, and that there was no such agent there, then the defendant was guilty of negligence, and liable in the action. I know of no law requiring this of railroad companies. And while they are justly held to a strict responsibility, and required to exercise the highest degree of care and diligence to provide for the safety of their passengers, yet I think no such application of this rule as that contained in this proposition of the court below, has ever been made, and that it would be unreasonable to make it. The extreme vigilance and care required of them relate usually to the proper construction and management of their cars and road. But the instruction of the court below would hold the company liable, although there was no negligence whatever in the management of its train, because it did not have a special agent to warn the plaintiff not to go on board till the cars had stopped, and to give her general information about getting on board. This it was not bound to do. On the contrary it had a right to assume that the plaintiff, and all other persons traveling, possessed that ordinary intelligence and prudence necessary to enable them to take care of themselves, in view of the ordinary incidents of traveling upon railroads that are constructed with proper care and skill. Getting on and off the cars are among these incidents. To attempt to get on or off while the cars are in motion is an act of negligence. And to say that a railroad company is liable for not having a special agent to prevent passengers from injuring themselves by such acts is to say that without any other negligence on its part, it is to be held liable for not having an agent to prevent passengers injuring themselves by their own want of ordinary care and prudence. There is no reason or authority for such a proposition. Nor can I see any support for it in the section of the statute of Michigan which was proved at the trial, and which, it is suggested "contemplates" the appointment of such an agent. I cannot see that it in any way contemplates or implies the existence of an agent for such a purpose. It seems to be nothing more than a provision requiring such agents as the company does have, to wear a badge indicating their respective offices.

As the evidence was conflicting, and it is impossible to say what effect the jury may have given to this instruction, the judgment must be reversed, and the cause sent back for a new trial.

Judgment reversed.

Chicago and Northwestern Railway.

The following is a statement in detail, of the business of the different divisions of this road for the year ending May 31, 1870:

	Wisconsin Division, 314.6 miles.	Galena Division, 261 miles.	Iowa Division, 354 miles.	Madison Division, 67.6 miles.	Peninsula Division, 78.8 miles.	Milwaukee Division, 85 miles.
Passengers	$889,520 41	$1,020,340 09	$1,102,330 25	$73,426 69	$26,946 35	$569,231 81

Foreign Trade of the United States.

Mr. Young, chief of the Bureau of Statistics, furnishes the following detailed abstract of our foreign trade for the fiscal year ended June 30, 1870, compared with the same period of 1869, as shown on Monthly Report No. 12 now in press:

	1869.	1870.
Imports	$437,314,255	$462,356,163
Domestic exports (specie value)	325,925,643	420,518,951
Foreign exports	25,173,414	30,427,104

Of the total imports for 1870, $415,847,213 was dutiable, and $46,508,950 free of duty; $268,481,274 entered for consumption, and $193,874,889 entered for warehouse. The value of the commodities remaining in the warehouses of the United States June 30, 1870, was $56,891,473, against $62,457,436 June 30, 1869.

The proportion of the imports, domestic and foreign exports shipped in foreign and American vessels respectively, during the fiscal year ended June 30, 1870, was as follows:

Vessels:	Imports.	Domestic (exports (mixed values).	Foreign exports.
American	$153,217,996	$186,139,532	$13,492,241
Foreign...	309,138,167	312,984,450	16,934,868

Fiscal year ended June 30, 1869:

Vessels:	Imports.	Domestic (exports (mixed values).	Foreign exports.
American	$136,802,024	$137,832,820	$15,321,704
Foreign...	300,512,231	276,128,070	9,851,701

It will be noticed that foreign vessels carried (nearly) 69 per cent. of the imports in 1869 and 67 per cent. in 1870; of the total exports 65 per cent. in 1869, and 62 per cent. in 1870; and of the whole, 67 per cent. in 1869, and 64½ per cent. in 1870.

The values of the principal commodities imported during the fiscal years ended June 30, 1870, and 1869, were as follows:

FREE OF DUTY.

	1870.	1869.
Dyewoods in sticks	$1,337,093	$1,092,529
Gold and silver coin and bullion	26,368,079	19,807,876
Guano	1,415,519	204,348
Household and personal effects, &c.	1,127,685	983,110
Indigo	1,203,664	1,649,550
Madder	1,118,113	3,553,298
Rags for the manufacture of paper	3,138,984	2,800,619
Silk—raw or as reeled from the cocoon	3,017,958	3,318,496

DUTIABLE.

	1870.	1869.
Animals, living	$6,419,517	$3,592,551
Barley	4,759,393	5,742,619
Rice	1,007,612	1,325,234
Wheat	878,833	1,718,406
Books	1,769,180	1,607,201
Buttons	1,357,683	1,649,831
Clothing, except when of silk	2,573,313	1,449,448
Coal, bituminous	1,110,882	1,216,247
Coffee	24,233,766	24,531,743
Cotton, & manufactures of	23,380,053	20,562,874
Chemicals, drugs and dyes	6,717,941	7,239,088
Fancy goods	4,308,771	4,372,607
Fish	2,316,755	1,973,170
Flax, & manufacturers of	16,859,124	17,222,298
Fruit	7,387,737	7,954,278
Furs and skins	2,264,965	3,094,115
Glass, & manufactures of	4,157,612	3,895,739
Gums	1,288,494	1,240,195
Hemp, & manufactures of	4,443,393	3,239,950
Hides and skins, other than furs	14,402,339	12,483,525
India rubber and gutta percha	4,195,701	3,470,308
Iron, and manufactures of	32,665,327	29,446,336
Jute, &c., and manufactures of	3,155,277	2,751,764
Lead, and manufactures of	3,674,988	3,531,944
Leather and leather goods	3,674,988	3,531,944
Oils	2,872 910	2,221,245
Opium	1,776,908	1,086,572
Paints and painter's color	1,078,556	1,270,482
Paper, & manufactures of	1,099,783	1,001,777
Precious stones	1,797,235	2,041,933
Provisions, exclusive of fish, &c	4,648,596	1,992,213
Salt	1,443,938	1,268,891
Silk, and manufactures of	23,904,048	22,333,600
Soda and salts of	3,905,238	4,193,387
Spices	1,513,118	1,533,588
Sugar and molasses	69,827,561	72,430,693
Tea	13 871,546	13,687,750
Tin, and manufactures of	9,651,088	10,354,569
Tobacco, and manufactures of	4.218,109	3,366,398
Watches, &c.	3,021 875	2,449,059
Wines, spirits and cordials	7,587,070	6,272,491
Wood, & manufactures of	9,680,956	8,252,529
Wool, and manufactures of	41,233,983	40,229,386
Zinc, spelter, &c	1,003,442	1,197,683

The values of the principal domestic commodities exported were as follows:

	1870.	1869.
Agricultural implements	$1,068,092	$1,037,530
Animals, living	1,045,039	917,046
Indian corn	1,287,575	6,820,719
Indian cornmeal	934,936	1,658,273
Wheat	47,213,945	24,383,259
Wheat flour	21,126,877	18,813,865
Coal, bituminous & other	1,306,358	1,553,115
Copper, & manufactures of	1,042,246	592,698
Cotton, & manufactur's of	230,807,931	168,507,274
Drugs, chemicals & medicines	1,356,773	1,886,889
Dye stuffs	1,002,634	.....
Furs and fur skins	1,941,139	2,039,563
Gold and silver, and manufactures of	43,941,965	43,000,758
Hops	2,515,734	1,627,248
Iron, and manufactures of	5,386,838	3,299,639
Steel, and manufactures of	5,121,032	5,523,728
Naval stores	1,920,085	2,216 180
Petroleum, crude	2,091,759	2,806,538
Pretroleum, refined	20,832,777	27,291,531
Spermaceti oil	794,432	1,361,388
Ordnance stores	1,228.536	163,008
Bacon and hams	6,123,043	7,482,060
Beef	1,939,758	243,357
Cheese	7,688,474	6,437,886
Lard	5,933,397	7,443.948
Pork	3,523,137	3,422,928
Sewing machines, and parts of	2,233,326	2,051,581
Spirits of turpentine	1,357,302	1,444,332
Tallow	8,814.861	2,362,330
Tobacco, leaf	21,100 230	20,552,943
Tobacco, cigars, snuff, &c.	1,605,971	2,794,776
Wood, & manufactures of	13,734,838	15,126,459

The values of the principal commodities re-exported were:

	1870.	1869.
Gold and silver coin and bullion	$14,271,864	$14,222,414
Breadstuffs	1,259,128	1,124,420
Coffee	410,836	1,020,231
Oils	1,459,892	302,782
Provisions and tallow	1,894,907	51,793
Sugar and molasses	1,238,137	1,397,039

The values of the principal commodities remaining in the warehouse were as follows:

	1870.	1869.
Coffee	$4,643,886	$6,737,068
Cotton, & manufactures of	1,563,294	1,507,239
Flax, and manufactures of	1,495,766	1,631,059
Fruit	1,224,537	1,403,146
Hemp, & manufactures of	1,332 363	567,458
Iron, and manufactures of	2,672,835	2,175,977
Sugar and molasses	22,004,785	27,773.482
Tea	5,378,095	4,435,843
Wines, spirits and cordials	1,912,935	1,571,804
Wool, & manufactures of	3,309,816	4,069,768

The number and tonnage of American and foreign vessels engaged in the foreign trade which entered into and cleared from the United States during the fiscal years 1869 and 1870, were as follows:

TWELVE MONTHS ENDING JUNE 30, 1869.

	Entered.		Cleared.	
Vessels:	Number.	Tons.	Number.	Tons.
American	9,928	3,402,668	9,659	3,381,363
Foreign	18,804	5,347,694	18,637	5,372,570
Total	28,732	8,750,362	28,276	8,753,933

TWELVE MONTHS ENDING JUNE 30, 1870.

	Entered.		Cleared.	
Vessels:	Number.	Tons.	Number.	Tons.
American	10,785	3,482,294	10,566	3,503,347
Foreign	19,536	5,679,614	19,526	5,672,632
Total	30,321	9,161,908	30,092	9,175,979

The report contains a statement showing the collections of internal revenue during the fiscal years 1860 and 1870, from which it appears that the total collections in 1869 amounted to $159,124,126, and in 1870 to $184,303,127.

EMIGRATION.

The same report contains the following synoptical table, which exhibits the total number of emigrants arrived in the United States during the fiscal year ending June 30, 1870, and their nationalities:

From—	Males.	Females.	Total.
Great Britain	63,369	40,316	103,685
Ireland	31,414	25.582	56,996
German States	73,027	49,621	122,648
Sweden and Norway	16,309	10,350	26,659
Denmark	2,519	1,564	4,083
Holland	663	403	1,066
Belgium	718	284	1,002
Switzerland	2,012	1,073	3,085
France	2,689	1,316	4,005
Spain and Portugal	655	256	911
Italy	2,132	759	2,891
Russia and Poland	690	440	1,130
Other counties of Europe	28	2	30
China	14,624	1,116	15,740
Africa	26	5	31
British North American possessions	22,720	17,683	40,403
Mexico	352	101	453
South America	59	10	69
Cuba	816	357	1,173
West Indies	315	98	413
Azores	275	167	442
All other countries not stated	139	43	182
Total	235 551	151,546	387,097

☞ The Philadelphia *Ledger* says that both branches of City Councils have passed an ordinance to pay the interest and principal of all City loans created before the 25th day of February, 1862, and which matured on the 1st day of July last, in coin or its equivalent, and that they directed the Committee on Finance to report to the next meeting of Councils an ordinance making the necessary appropriation therefor.

☞ The first trains on the Boonton Cut off of the Delaware, Lackawanna and Western Railroad commenced running on the 12th inst. For a few months only coal trains will pass over; but as soon as the stations are put in order, passenger trains will be put on. The only station now in readiness is Brandes, near Rutherford Park. The stations will be built at Denville, Boonton, Whitehall, Beavertown, Mead's Basin, Paterson, Clifton, Brandes, Sidney, Bergen and Hoboken.

☞ The Delaware and Raritan Canal and Camden and Amboy Railroad Company give notice that the United States tax retained on the payment of their coupons of August and September, 1870, will be paid over to parties entitled to the same on application at the Company's office.

☞ The first consignment of iron for the Toronto and Nipissing Railway having arrived, and the remainder being now on its way, the Uxbridge *Journal* trusts the contractors will push the grading to completion, so that the track may be laid without interruption.

☞ The New York Central and Hudson River Railroad Co. have declared a dividend of 4 per cent. on the capital stock, and a like dividend on the "consolidated certificates," payable on the 15th day of October next.

☞ Gov. Onslow Stearns and Ex-Gov. Frederick Smyth have accepted the office of Receivers of the Concord Railroad, and have filed their bonds. They will enter upon the discharge of their duties immediately.

Atlantic and Great Western Railway.

OFFICIAL SCHEME OF REORGANIZATION.

It will be seen that Messrs. Bischoffsheim and Goldschmidt, as agents for the company, give notice that the scrip certificates, identifying the old and representing the new securities, are now ready to be issued in exchange for the temporary receipts.

Referring to the announcement of Messrs. Bischoffsheim and Goldschmidt, the secretary, Mr. L. J. Woodman, requests that those bond and debenture holders who have not already deposited their securities, will do so at their earliest convenience.

It appears that the amount already deposited secures the success of the scheme, but it may be materially hastened by the deposit of their securities by those who have already sent in their assents to the office.

"The object of the scheme is to place the railway in an independent position, so as to bring its revenues, which are known to be ample for its engagements, under the control of its Proprietors."

It is to be observed that the principle of reconstruction adopted, namely giving attention equally to priorities and equities, pledging the company only to present actual receipts and giving to every creditor the chances of future development to recover payment in full, has been adopted in its fullest extent by Lords Salisbury and Cairns in the decision on London, Chatham, and Dover.—*Herapath.*

Great Western (Ca.) Railway.

The Montreal *Gazette* says that the Great Western Railway Company of Canada have commenced taking up the third rail on their route, and have completed the work as far as Chatham. The remainder will be completed as soon as possible. The road has been running narrow-gauge cars for some time, and are rapidly exchanging their broad-gauge for narrow-gauge locomotives, and thus the third rail has become useless expense. The rolling stock of the road was never in better condition than now, and when the change of gauge is complete the working expenses of the road will be greatly lessened.

☞ The Washington *Star* says that rails are commenced to be laid on the Baltimore and Potomac Railroad at its intersection with the Annapolis and Elkridge road, about fifteen miles from Annapolis, and five or six miles from the Annapolis Junction of the Washington branch of the Baltimore and Ohio railroad. The rails, which are landed at Annapolis from vessels, are brought up the railroad, to be supplied as the tracklaying advances towards Washington on the Baltimore and Potomac roads.

☞ The grants by Congress to the following named railroads in Arkansas, foot up as follows: Memphis and Little Rock railroad, 365,589 acres of the public lands; the Cairo and Fulton railroad, 985,621 acres; Iron Mountain railroad, $866,000, and 1,400,000 acres besides; Little Rock and Fort Smith railroad, 458,771 acres.

☞ The work of preparing the foundation for the western abutment and piers of the bridge over the Schuylkill at South street, Philadelphia, is progressing rapidly.

☞ John Gordon has been re-elected President and A. R. McMaster Vice President of the Toronto, Grey and Bruce railway.

☞ The Bristol *News* says two corps of engineers are to be put on the line of the Virginia and Kentucky railroad about the middle of October.

Railways in Russia.

New statutes have been prepared for the Warsaw and Vienna. The Terespol and Kischinew will be opened for traffic Jan. 1, 1871. The Poltava and Krementchug section of the Charkow and Krementchug was opened for traffic August 11. The Government has approved a scheme for an extension of the Moscow and Jaroslaw from Jaroslaw to Vologda. Surveys have been authorized of a line to run from Mitau *via* Schaulen and Tanroggen to the Prussian frontier.

THOMAS D. STETSON, Solicitor of American and Foreign Patents, and Professional Expert in Patent Cases. No. 5 Tryon Row, New York.

INTEREST ON CITY STOCKS.—The interest on the Bonds and Stocks of the City and County of New York due November 1, 1870, will be paid on that day by JOHN J. BRADLEY, Esq., Chamberlain of the City, at his office, in the new Court House.

The transfer books will be closed Saturday, September 24, 1870.

RICHARD B. CONNOLLY, Comptroller.

WROUGHT IRON DOCK GATES
And Lock Gates for Canals,
No. 40 and 42 Broadway,
NEW YORK.
L. KIRKUP, Chief Engineer. M. B. MASON, Secretary

THE NEW JERSEY STEEL AND IRON COMPANY,

TRENTON, N. J.,

And 17 Burling Slip, NEW-YORK,

Would call special attention to their

MARTIN STEEL,

Acknowledged by all who have used it to be the best material now made for

Firebox Plates, Locomotive Crank Pins, Piston Rods, Axles,

And all the finer machine purposes, such as

Rollers for Cotton Machinery, Lathe Screws, Sewing Machine Work, &c., &c.

The special features of this Steel are its ***Remarkable Toughness,*** its softness and entire freedom from hard spots, which obviate the necessity for annealing before turning.

The process by which this Steel is made differs entirely from any other in use, enabling it to be sold at lower prices than any other good steel, while it possesses properties hitherto unknown, and which are of the greatest importance for many uses.

TO CONTRACTORS.

THE AMERICAN AND MEXICAN RAILROAD AND TELEGRAPH COMPANY, at No. 71 Broadway, Room 31, New York, having secured the approval of the Government of Mexico of their surveyed routes from Guaymas to Hermosilla and through the States of Sonora and Chihuahua to the Rio Grande, are prepared to receive proposals for grading the road, furnishing and laying cross ties from Guaymas to Hermosilla, a distance of 80½ miles.

The proposals must be handed in on or before the first day of November next, and be made *for sections* and include excavations of rock and earth, and bridging, and be so made as to enable the Company to ascertain the cost per section as laid down on the Company's map and profile, which are now in their office for inspection. The Company reserves the right to reject any bids which in their udgment they deem advisable.

Per order of the Board of Directors.

Office hours 10 A. M. to 3 P. M.

JOSEPH BRITTON,
WM. H. DEGROOT,
WM. B. MAXSON,
Executive Committee.

To Railroad Companies.

AN ACTIVE, ENERGETIC BUSINESS MAN, with thirty years experience, and a good knowledge of General Merchandise—*who has made the art of* BUYING *an especial study*—and who thoroughly understands the markets of New York City and New England—and is well acquainted in our Western Cities—desires a position as "Buyer of Supplies," for a Railroad or large Manufacturing Establishment. Abundant reference of the most unexceptionable character, as to qualifications, ability, integrity, &c., will be furnished.

Address, P. O. BOX, 480,
Wilmington, Del.

THE UPRIGHT PATENT TRUNK

Does not have to be removed from the wall to open it. Instead of trays to lift out, it is arranged with drawers made very light and strong.

It is much stronger as only a small portion opens, whereas in the old style the whole top comes off.

The same room in the bottom of the trunk for dresses and heavy clothing as in the old style.

THE UPRIGHT PATENT TRUNK CO.,
No. 6 Barclay Street,
next door to the Astor House.

Intercolonial Railway.

THE Commissioners appointed for the construction of the Intercolonial Railway give Public Notice that they are prepared to receive Tenders for the three remaining Sections of the Line, all in the Province of New Brunswick.

Section No. 21 will begin at the easterly end of Section No. 20, one and three-quarter miles east of the River Miramichi, and will extend to station No. 1640, three thousand feet westerly from the River Kouchibouguacis, a distance of about 25 miles.

Section No. 22 will extend from the easterly end of Section No. 21 to Station No. 1180, at the crossing of the River Buctouche, a distance of about 25 miles.

Section No. 23 will extend from the easterly end of Section No. 22 to the European and North American Railway, at Moncton Station, a distance of about 22 miles.

The Commissioners also give Public Notice that they are prepared to receive Tenders for reletting Section No. 10, the Contract for which has been annulled.

Section No. 10 is in the Province of New Brunswick and extends from the centre of the Chaplin Island Road, near the Court House at Newcastle, towards Bathurst, a distance of 20 miles in length.

Tenders for Section No. 10 will be made upon the basis of the quantities specified in the original Bill of Works for this Section; and in drawing the New Contract there will be deducted from the amount of the accepted Tender a percentage sum equivalent to the percentage of the whole work which the Chief Engineer shall report to have been executed by the first Contractors.

These Contracts to be completely finished by the first day of July, 1872.

Plans and Profiles with Specifications and Terms of Contract will be exhibited at the Offices of the Commissioners in Ottawa, Toronto, Quebec, Rimoushi, Dalhousie, Newcastle, Halifax and St. John, on and after the 15th September next, and Sealed Tenders addressed to the Commissioners of the Intercolonial Railway, and marked "Tenders," will be received at their Office in Ottawa, up to six o'clock P. M. on Wednesday, the 5th day of October next.

Sureties for the completion of the Contract will be required to sign the Tender. The names in full, occupation and address of each surety should also be given.

A. WALSH,
ED. B. CHANDLER,
C. J. BRYDGES,
A. W. McLELAN,
Commissioners.

PRATT'S
PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

The Steel Trade.

Pittsburgh is the great steel market of America. The steel works of Pittsburgh supply sixty-six per cent. of all the various grades of steel manufactured in the United States, and the production of steel in this country has already arrived at such a degree of magnitude and success, that fully two-thirds of the entire consumption of the United States is the product of our own steel works.

The steel factories of Pittsburgh are the largest, most complete, and the most uniformly successful steel factories in the country. In many respects the leading steel works of Pittsburgh will compare favorably with the oldest establishments in England. This is the result of an experience extending over forty years, embracing many signal failures, but terminating in the most gratifying success. Were we requested to point out a single manufacturing branch in this city which more than another exhibits indomitable energy, enterprise and perseverance, we would designate the manufacture of steel. In regard to the higher grades especially, these are claimed as Pittsburgh's peculiar product. To Pittsburgh, and to Pittsburgh alone, must be awarded the credit of first producing a quality of steel equal to the best imported. Celebrated in the manufacture of iron and glass, in neither can Pittsburgh be said to claim a monopoly simply on the score of excellence. Elsewhere iron and glass of an excellent quality is placed in direct competition with the products of Pittsburgh; in the manufacture of fine steel the superiority of Pittsburgh products is unchallenged.

Although the most remarkable progress made in the manufacture of the fine qualities of Pittsburgh steel is embraced in the past eight years, the production of Pittsburgh steel dates back to 1829. The enterprise was set on foot by an Englishman named Broadmeadow, who succeeded in producing an inferior quality of blister steel.

In 1885, Mr. Isaac Jones began the manufacture of springs and axles on Sixth street, near the site occupied by the Suspension bridge. Although the steel employed was not of the best quality, the project was successful from the outset. The steel employed by Mr. Jones was made by Messrs. Shoenberger.

Even as late as 1860, the census shows that six out of the seventeen establishments engaged in the manufacture of steel in the United States, were located in Pittsburgh. And we may add that the capacity of Pittsburgh establishments more than equaled all the rest.

At the present time the list of Pittsburgh steel works proper embraces the following firms: Anderson & Woods, Singer, Nimick & Co., Hussey, Wells & Co., Park, Bro. & Co., Miller, Barr & Parkin. In addition to these Coleman, Rahm & Co., Brown & Co., and Reese, Graff & Dull, firms engaged in the manufacture of iron; also make large quantities of common steel. The capital invested in these nine establishments cannot be less than $4,500,000. The annual products amount to eighteen thousand, five hundred tons. The sales of the various establishments, effected in Pittsburgh alone, for the year ending 1870, amount in the aggregate to $4,260 000. The amount sold in eastern and western cities by the agents of the respective firms engaged in the manufacture of steel, and of which we have no account, will probably amount to $1,200,000, making a total of $5,460,000. When it is remembered that these sales were effected during a season of great depression in every branch of industry, some idea may be formed of the magnitude of the trade.

The products of our steel works enter everything from the plainest plow plate to the quality of sword and razor steel, from a *cast* cast steel railway frog to a watch spring. The finest saws and axes made in the country are made from Pittsburgh steel. During the war, Messrs. Ames & Co., of Chickopee Falls, Massachusetts, drew their supply of steel for the manufacture of swords from a single Pittsburgh steel factory. Upwards of four hundred thousand sabres were made by this concern from Pittsburgh cast steel.

The growing demand for cast steel castings has given an impetus to this branch of the business. The rolling of cast steel plates for boilers and flues, where formerly they were employed almost exclusively in constructing fire-boxes, is a branch of the trade that promises to increase rapidly.—*Pittsburgh Chronicle.*

Tax on Interest and Dividends.

By reference to the annexed letter from the Acting Commissioner of Internal Revenue it will be seen that no tax is to be withheld from interest or coupons falling due during the last five months of the present calendar year, but that they are to be returned like interest from other sources, in the next annual income returns of the parties receiving them. The tax of 2½ per cent. on dividends declared within the same period is to be levied and collected during the year 1871.

OFFICE OF INTERNAL REVENUE,
WASHINGTON, Sept. 7, 1870.

W. Raymond Lee, Esq.,

Assessor Third District, Boston, Mass.:

Sir—Your letter of the 1st instant, respecting the assessment and collection of the tax imposed upon dividends by section 15 of the act of July 14, 1870, was received on the 5th.

It is enacted in said section "that there shall be levied and collected, for and during the year 1871, a tax of two and one half per centum on the amount of all interest or coupons paid on bonds or other evidences of debt issued and payable in one or more years after date, by any of the corporations in this section hereinafter numerated, and on the amount of all dividends of earnings, income or gains hereafter declared by any bank, trust company, savings institution, insurance company, railroad company, canal company, turnpike company, canal navigation company, and slack-water company, whenever and wherever the same shall be payable, and to whatsoever person the same may be due, including non-residents, whether citizens or aliens, and on all undivided profits of any such corporation which have accrued and been added to any surplus, contingent, or other fund; and every such corporation, having paid the tax as aforesaid, is hereby authorized to de-

duct and withhold from any payment on account of interest, coupons, and dividends, an amount equal to the tax of two and one half per centum on the same."

You will notice that by the terms of the section, the tax upon the interest and coupons paid upon bonds or other evidences of debt issued by the companies, corporations, etc., therein enumerated, is to be levied "for and during the year 1871," that the tax upon the dividends of earnings of said companies, etc., is also to be levied and collected during the year 1871, but is to be levied upon all dividends declared after the passage of the act.

It is therefore ruled that no tax is to be withheld from interest or coupons which fall due during the last five months of the present calendar year, but that they are to be returned, like interest from other sources, in the next annual income returns of the parties receiving them.

It is also held that although a tax of two and one-half per centum is imposed upon dividends declared by said companies, corporations, etc., on and after August 1, 1870, it is to be "levied and collected * * during the year 1871." It is not necessary to decide at present at what time in 1871 the taxes upon these dividends of the last five months of 1870 are to be levied. Further legislation may perhaps be required upon that point.

I shall cause this letter to be published in the Internal Revenue Record, for the information and guidance of officers of this Bureau.

J. W. Douglass, Acting Commissioner.

Portland, Saco and Portsmouth Railroad.

The earnings of this road for the years ending May 31, 1869 and 1870, were as follows:

	1869.	1870.
From passengers	$307,736 01	$328,657 63
" freight	237,238 58	253,175 48
" express	13,877 40	14,906 89
" extra baggage	250 67	227 12
" mails	7,837 44	10,143 53
" rents, etc.	8,096 00	10,024 38
	$575,036 10	$617,134 52
Expenses, viz:		
Maintenance of way	$142,847 80	$147,812 58
Locomotive power	134 598 92	147,884 92
Train expenses	46,406 86	54,197 42
Station expenses	27,346 12	32,991 24
Office establishment	28,030 66	25,244 86
Taxes and insurance	18,533 75	14,641 22
Damages	4 962 91	18,873 74
Machine shop	6,722 76	5,536 02
Renewal fund	10,000 00	10,000 00
	$409,449 28	$456,682 00
Net earnings	$165,586 82	$160,452 52
From which deduct:		
Judgment in favor of A. Knight for personal injuries at Steamboat landing Portland	$2,900 67	
5 box cars added to equipment	3 500 00	
Taxes on surplus	1,467 20	
Interest	364 45	
Dividends December, 1869, and June, 1870	90,000 00	
	98,232 32	
Leaving a balance of	$62,220 20	
Add balance May, 1869	269,233 08	
Add amount charged in report of 1869 for tax on dividend No. 51	2,868 42	
	$338,821 70	
Deduct over estimate net income May	4,529 57	
Present surplus or profit and loss account represented on the lessees' books as Eastern and Boston and Maine Railroads	$329,292 13	

It is to be observed that the amount of dividends for Dec. 1869, and June, 1870, are deducted in the above statement from the earnings of the road, although the dividend due in December as well as that of June 1869, have not yet been charged off the books of the Lessees. Should they be charged off and the dividend for June, 1870, also, the amount standing to credit of profit and loss would be reduced about $31,000, from the amount stated above, by the premium on the gold.

Since our last annual meeting the claim made on the Boston and Maine and Eastern Railroad Companies, involving the question known as the gold question, has been settled by compromise. These corporations paid us 180,000 dollars, and agreed to pay in coin all semi annual dividends accruing on and after June, 1869. This payment and this promise constitute the condition and terms of that compromise. We believe that thus a fair and equitable settlement of this long vexed question has been accomplished, and feel little doubt that there is more money in the arrangement adopted than we could have realized by litigation.

In this connection we would say that there has been much dissatisfaction from time to time because the Boston and Maine and Eastern Railroad Companies did not each year pay us the dividends in coin in accordance with the text of the contract. The pretext which the managers of these roads had for not paying coin was, that in almost every case where similar questions had been before our State Courts they had decided that greenbacks were a legal tender. Our taking the dividends in currency under protest left the matter open and gave this Corporation the advantage of the decision of the United States Supreme Court.

As there were doubts relative to the class of stockholders to which the 180,000 dollars should be paid, the Directors submitted by counsel the entire question, with all the facts in the case, to the Judges of the Supreme Court of Maine, for instructions. They directed us to pay it to those persons who should be the holders of stock at the time when the extra dividend should be declared. The ground upon which this decision is based, is that the property could not vest in the individual stockholders until the declaration of a dividend, and that money paid or debts owed to the Corporation before such declaration, is the property of the Corporation and not that of the stockholders.

The money has been distributed in accordance with the decision of the Court, less the government tax. We have corresponded with the Hon. C. Delano, Commissioner of Internal Revenue, and have sought to be relieved from paying this dividend tax on the ground that it had previously been paid on surplus earnings. The Revenue Officers directed us to withhold the tax until the question should be decided by the Commissioner, who has the matter under advisement.

The engine house, machine shop, and other buildings at Cape Elizabeth, spoken of in the last report as completed, have all been occupied the past year, and are found to be adequate to the wants of the road. They are conveniently arranged for work, and are in all respects durable and substantial structures. The flats adjacent to the site occupied by these buildings, which is protected by a sea wall, it will be necessary to fill in order to render available all the territory of the company; but the present area answers our immediate wants for the construction and repair of the rolling stock.

Some small jobs of masonry have been completed during the year, but no important work of this class has been required; more must be undertaken this year than last, as several abutments and curverts show need of renewal, and arrangements are in progress to begin work upon them at an early day.

1,836 tons of re-rolled iron rails made at the Portland Rolling Mill, and 198 tons of an English rail, were laid into the track the past year with the fish joint, thus making a total of 1,534 tons. This is more than we have put down in any previous year, and it is probably beyond our average wants. But little of the original iron is now left in the main track, some ten miles of it, much worn, having been taken up the past year. It is estimated that 900 tons will be sufficient for renewal this year.

26,807 cedar sleepers were put down the past summer. Contracts for 20,000 are made for this year, which it is believed will keep the track in a good, substantial, and safe condition.

The wooden buildings along the line of the road have required considerable repairs to keep them in good order, but no extensive work has been done at any one place; the only addition being an extension to the woodshed at Kennebunk, and a new car shed at Portland for protecting the passenger cars from the weather.

A gravel and construction train was at work, for about six months during the past year, raising ten miles of track upon new gravel, from six to twenty-four inches according to the locality, and at points most effected by frost in previous winters. During the past winter the track was very little displaced, and in fact was smoother than during any winter since its construction; still, this reconstruction of the track is a work requiring somewhat of repetition every year, and more of it must be done the coming season. A gravel and construction train with an efficient force of laborers is now at work.

Some considerable expense has been incurred in the maintenance of fences, but from the clayey nature of the soil along most of the line it is with difficulty they can be kept in good repair; and it will be necessary to do more than usual during the coming season upon them in order to comply with the laws of the State which require the road to be suitably guarded, as well for its own protection as for that of the owners of the adjacent lands.

With the exception of five box cars there have have been no addition to the rolling stock, but both engines and cars on hand last year have been kept in good condition and are now in constant use. More freight cars could be advantageously used. A baggage car for passenger trains, and a smoking car, both of which were wrecked in the accident near South Berwick Junction in May of last year, have been thoroughly rebuilt, and are now in the service of this company.

All our work at the machine and repair shops has been done promptly and economically. The general business of the road has been conducted efficiently, with usual regularity, promptness and freedom from accidents or serious casualties.

We have the satisfaction to state that no passenger has been hurt during the past year, also, that no employee has been injured sufficiently to disable him a week from his work. The only accident on our road which involved loss of life occurred on Saturday, March 12th, in the afternoon, at the crossing of the new road between Saco and Biddeford, when Messrs. Oliver B. Tracy, John H. Sawyer and H. Patridge, then driving across the track in a sleigh drawn by two horses, were struck by the engine attached to a passenger train. Mr. Tracy and Mr. Sawyer were killed—Mr. Patridge escaped with slight injury. A patient hearing of the circumstances attending this sad event was had before a coroner's inquest, and the company's men were exonerated from all blame.

An arrangement was made with Mayor Putnam and the City Government of Portland, to open a new street which should run from Cape Elizabeth Bridge over our land south of the depot, and should connect with Commercial street at the east end of the depot and opposite State street. It was contemplated that this new street should take the place of the present Avenue from Cape Elizabeth, which crosses our track and which was to be discontinued; and that Commercial street should be widened on the front of our premises to 100 feet. All this was to be preliminary to the building of a new depot. In order, however, to carry out these plans, some legislation was necessary. This was sought but refused us; and therefore nothing has yet been done toward the erection of new depot buildings for passengers and freight. We still hope that some satisfactory arrangement may yet be made to accomplish this object.

Many of the stockholders are desirous of terminating the contract with the Boston and Maine and Eastern R.R's. That contract requires a notice of 180 days, of our determination so to do. From the best estimate we can make, it will require in order to pay the penalty together with the compensation for improvements under the contract, also to supply the road with sufficient rolling stock and to build a new depot at Portland, an increased capital of $750,000. If the business of the road should continue to be equal to its average net earnings for the past five years, it would pay nearly or quite eight per cent. on its increased capital, and may we not reasonably expect an increase rather than a decrease of income? The Directors have inserted a clause in regard to this in the call for this meeting; and ask your instructions on the subject.

Number of miles run, 808,433. Expenses per mile, $1.45. Av. receipts per mile, $2.00. Per cent. of receipts used in expenses, 72½. Number of passengers carried, 390,795.

TRIAL BALANCE, APRIL 30, 1870.

Kennebec and Portland R. R		$100,000 00
Property		2,911 80
Portsmouth Bridge		32,000 00

President.—ICHABOD GOODWIN.
Treasurer.—E. NOTT.
Superintendent.—FRANCIS CHASE.

☞ The extension of the South Shore Railroad has been definitely located. It begins near the present terminus in Cohasset, runs through the villages of North Scituate, Scituate Harbor and Greenbush; thence crossing North River east of Little's Bridge, passes through East and South Marshfield, near Brant Rock and Cut River, to a point about one mile west of Duxbury lower village. The length of the road is eighteen miles.

☞ The following gentlemen have been elected directors of the Monadnock Railroad Company: Oscar H. Bradley, and Peter Upton of Jaffrey, J. H. Fairbanks of Winchendon, Henry K. French of Peterborough, Baxter D. Whitney of Winchendon, H. A. Blood of Fitchburg. President, Jonas Livingston, of Peterborough, Treasurer and Clerk, W. B. Hatch.

☞ Messrs. Straw, Patterson & Maney have sub-let fourteen miles of the Maine Central Railroad extension, which is to be completed by March 1st. The directors feel certain that the trains will be running over the extended road by mid-July of next year.

Lehigh Coal and Navigation Co.

We gave in our issue of May 14, 1870, the Report of the Board of Managers of this company for the year ending December 31, 1869. The following is the Balance Sheet in detail of the company January 1, 1870:

Lehigh and Susquehanna Railroad		$11,272,079 01
Wilkesburre planes—improvement		353,553 64
Lehigh and Susquehanna Railroad equipment		2,832,697 93
Lehigh Navigation		4,455,000 00
Coal lands		2,151,475 58
Coal improvements (Lehigh region)		1,661,057 12
" " (Newp't mines)		208,598 29
Shipping improvements		325,166 56
Landed property	$566,776 44	
Land improvements	512,372 42	
		1,079,148 86
Mining and gravity roads equipment (Lehigh)		278,887 77
Mining equipment (Newport mines)		27,686 76
Canal equipment		330 939 56
Materials and supplies on hand		263,158 20
Tools and stock in mines (Lehigh)		117,866 45
" " (Newport)		8,094 41
Coal on hand (Summit coal)		76,207 20
" (Newport coal)		17,683 08
